Forward-looking statements

This presentation, as well as other statements made by Delphi Automotive PLC (the "Company"), contain forward-looking statements that reflect, when made, the Company's current views with respect to current events, certain investments and acquisitions and financial performance. Such forward-looking statements are subject to many risks, uncertainties and factors relating to the Company's operations and business environment, which may cause the actual results of the Company to be materially different from any future results. All statements that address future operating, financial or business performance or the Company's strategies or expectations are forward-looking statements. Factors that could cause actual results to differ materially from these forward-looking statements are discussed under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's filings with the Securities and Exchange Commission. New risks and uncertainties arise from time to time, and it is impossible for us to predict these events or how they may affect the Company. It should be remembered that the price of the ordinary shares and any income from them can go down as well as up. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events and/or otherwise, except as may be required by law.

Today's discussion

Strong Q1 2017	• Q1 reflects great start to the year; momentum continues across business segments • Strong sales, margins and EPS growth • New business awards validating technology relevance • Continued confidence in 2017 outlook and execution
Strategic Portfolio Transformation	• Pursuing a tax free spin of Powertrain segment • Adapting to market dynamics and accelerating pace of change • Creating two independent public companies with industry-leading advanced technology • Both companies well-positioned to solve our customers' increasingly complex challenges • Transaction expected to drive significant value for customers and shareholders

Creating two focused and well-positioned public companies
