Comparison of Adjusted Information to U.S. GAAP Information

This presentation includes adjusted financial measures that are derived from the Company's continuing operations. This non-GAAP information is provided in order to allow investors to make meaningful comparisons of the Company's operating performance between periods and to view the Company's business from the same perspective as Company management.

The Company's earnings release dated July 29, 2014 contains exhibits that reconcile the differences between the non-GAAP measures and comparable financial measures calculated in accordance with U.S. GAAP.
