Forward Looking Statements

This presentation, as well as other statements made by Aptiv PLC (the "Company"), contain forward-looking statements that reflect, when made, the Company's current views with respect to current events, certain investments and acquisitions and financial performance. Such forward-looking statements are subject to many risks, uncertainties and factors relating to the Company's operations and business environment, which may cause the actual results of the Company to be materially different from any future results. All statements that address future operating, financial or business performance or the Company's strategies or expectations are forward-looking statements. Factors that could cause actual results to differ materially from these forward-looking statements include, but are not limited to, the following: global and regional economic conditions, including conditions affecting the credit market; uncertainties posed by the novel coronavirus (COVID-19) pandemic and the difficulty in predicting its future course and its impact on the global economy and the Company's future operations; fluctuations in interest rates and foreign currency exchange rates; the cyclical nature of global automotive sales and production; the potential disruptions in the supply of and changes in the competitive environment for raw material integral to the Company's products; the Company's ability to maintain contracts that are critical to its operations; potential changes to beneficial free trade laws and regulations such as the United States-Mexico-Canada Agreement and its predecessor agreement, the North American Free Trade Agreement; the ability of the Company to integrate and realize the expected benefits of recent transactions; the ability of the Company to attract, motivate and/or retain key executives; the ability of the Company to avoid or continue to operate during a strike, or partial work stoppage or slow down by any of its unionized employees or those of its principal customers; and the ability of the Company to attract and retain customers. Additional factors are discussed under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's filings with the Securities and Exchange Commission. New risks and uncertainties arise from time to time, and it is impossible for us to predict these events or how they may affect the Company. It should be remembered that the price of the ordinary shares and any income from them can go down as well as up. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events and/or otherwise, except as may be required by law.

WITH A CONSISTENT MANAGEMENT PHILOSOPHY

DISCIPLINED REVENUE GROWTH
- Focused on Safe, Green and Connected
- Balanced customer, platform and regional growth

COST STRUCTURE OPTIMIZATION
- Increase leverage in operating model, footprint optimization
- Continuous improvement culture

DISCIPLINED CAPITAL ALLOCATION
- Maintain investment grade ratings
- Driving organic growth and acquisitions; return excess cash to shareholders

Addressing Challenging Problems

VEHICLE FATALITIES COMING DOWN GLOBALLY, BUT PASSIVE SAFETY AT ITS LIMIT; ADVANCED SAFETY SOLUTIONS CRITICAL IN REDUCING VEHICLE FATALITIES

World Health Organization

1.35M ROAD TRAFFIC DEATHS ANNUALLY

ADDRESSING THE PROBLEM

- EU and China NCAP continue to toughen safety protocols, with several features mandated in 2022+
- >30% L2/2+/L3 ADAS penetration by 2030[1]
- High customer satisfaction, ~ 90% of consumers intend to repurchase[2]

EMISSIONS REGULATIONS BECOMING INCREASINGLY STRINGENT GLOBALLY TO HELP IMPROVE AIR QUALITY AND REDUCE TRANSPORTATIONS ENVIRONMENTAL IMPACT

European Environment Agency

#1 AIR POLLUTION IS THE NUMBER ONE ENVIRONMENTAL CAUSE OF DEATH IN THE EUROPEAN UNION

ADDRESSING THE PROBLEM

- EU and China regulations / incentives to drive EV adoption
- Nearly 50% of new vehicle sales in 2030 expected to be xEV
- Lower battery costs expected to drive total cost of owning BEV equal to or better than ICE by ~2023

URBANIZATION AND **CONSUMER EXPECTATIONS** DRIVING DEMAND FOR MORE INTELLIGENT, INTEGRATED AND PRODUCTIVE SOLUTIONS

IHS Markit

125B CONNECTED IoT DEVICES WORLDWIDE BY 2030

ADDRESSING THE PROBLEM

- 85% of all vehicles expected to be connected by 2025, up from approximately 67% today
- Data / analytics plus OTA could reduce up to 50% of OEM warranty costs
