CAUTIONARY STATEMENT REGARDING FORWARD LOOKING STATEMENTS

This presentation may contain "forward-looking statements" made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Statements regarding IntercontinentalExchange's business that are not historical facts are forward-looking statements that involve risks, uncertainties and assumptions that are difficult to predict. These statements are not guarantees of future performance and actual outcomes and results may differ materially from what is expressed or implied in any forward-looking statement. The factors that might affect our performance include, but are not limited to: our business environment and industry trends; conditions in global financial markets; domestic and international economic conditions; volatility in commodity prices and price volatility of financial contracts such as equity indexes and foreign exchange; our ability to complete the acquisition of NYSE Euronext and to do so in a timely manner, realize the anticipated benefits within the expected time frame, and efficiently integrate NYSE Euronext's operations; changes in laws and regulations; increasing competition and consolidation in our industry; our ability to identify and effectively pursue acquisitions and strategic alliances and successfully integrate the companies we acquire on a cost-effective basis; the success of our clearing houses and our ability to minimize the risks associated with operating multiple clearing houses in multiple jurisdictions; technological developments, including ensuring that the technology we utilize is not vulnerable to security risks; the accuracy of our cost estimates and expectations; our belief that cash flows will be sufficient to service our debt and fund our working capital needs and capital expenditures for the foreseeable future; our ability to develop new products and services on a timely and cost-effective basis; leveraging our risk management capabilities; maintaining existing market participants and attracting new ones; protecting our intellectual property rights; not violating the intellectual property rights of others; potential adverse litigation results; our belief in our electronic platform and disaster recovery system technologies; and identification of trends and how they will impact our business. For a discussion of such risks and uncertainties, which could cause actual results to differ from those contained in the forward-looking statements, see ICE's Securities and Exchange Commission (SEC) filings, including, but not limited to, the risk factors in ICE's most recent Annual Report on Form 10-K for the year ended December 31, 2012, as filed with the SEC on February 6, 2013, and the risk factors in the joint proxy statement/prospectus of IntercontinentalExchange Group, Inc. ("ICE Group"), as filed with the SEC on April 30, 2013. These filings are also available in the Investors & Media section of our website. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. We caution you not to place undue reliance on these forward-looking statements. Any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of an unanticipated event. New factors emerge from time to time, and it is not possible for management to predict all factors that may affect our business and prospects. Further, management cannot assess the impact of each factor on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.
