Raymond James Institutional Investors Conference

March 7, 2016

Doug Peterson
President and CEO

Chip Merritt
Vice President, Investor Relations

Comparison of Adjusted Information to U.S. GAAP Information

This presentation includes adjusted financial measures that are derived from the Company's continuing operations. This non-GAAP information is provided in order to allow investors to make meaningful comparisons of the Company's operating performance between periods and to view the Company's business from the same perspective as Company management.

The Company's earnings release dated February 4, 2016 contains exhibits that reconcile the differences between the non-GAAP measures and comparable financial measures calculated in accordance with U.S. GAAP.

“Safe Harbor” Statement Under the Private Securities Litigation Reform Act of 1995

This presentation contains “forward-looking statements,” as defined in the Private Securities Litigation Reform Act of 1995. These statements, which express management’s current views concerning future events, trends, contingencies or results, appear at various places in this report and use words like “anticipate,” “assume,” “believe,” “continue,” “estimate,” “expect,” “forecast,” “future,” “intend,” “plan,” “potential,” “predict,” “project,” “strategy,” “target” and similar terms, and future or conditional tense verbs like “could,” “may,” “might,” “should,” “will” and “would.” For example, management may use forward-looking statements when addressing topics such as: the outcome of contingencies; future actions by regulators; changes in the Company’s business strategies and methods of generating revenue; the development and performance of the Company’s services and products; the expected impact of acquisitions and dispositions; the Company’s effective tax rates; and the Company’s cost structure, dividend policy, cash flows or liquidity.

Forward-looking statements are subject to inherent risks and uncertainties. Factors that could cause actual results to differ materially from those expressed or implied in forward-looking statements include, among other things:

- the Company’s ability to make acquisitions and dispositions and to integrate, and realize expected synergies, savings or benefits from the businesses it acquires, including the impact of the acquisition of SNL on the Company’s results of operations, any failure to successfully integrate SNL into the Company’s operations and generate anticipated synergies and other cost savings, any failure to attract and retain key employees to execute the combined company’s growth strategy, any failure to realize the intended tax benefits of the acquisition, and the risk of litigation, competitive responses, or unexpected costs, charges or expenses resulting from or relating to the SNL acquisition;
- the rapidly evolving regulatory environment, in the United States, Europe and elsewhere, affecting Standard & Poor’s Ratings Services, Platts, S&P Dow Jones Indices, S&P Capital IQ and SNL and the Company’s other businesses, including new and amended regulations and the Company’s compliance therewith;
- the outcome of litigation, government and regulatory proceedings, investigations and inquiries;
- worldwide economic, financial, political and regulatory conditions;
- the health of debt and equity markets, including credit quality and spreads, the level of liquidity and future debt issuances;
- the level of interest rates and the strength of the domestic and global credit and capital markets in the United States and abroad;
- the demand and market for credit ratings in and across the sectors and geographies where the Company operates;
- concerns in the marketplace affecting the Company’s credibility or otherwise affecting market perceptions of the integrity or utility of independent credit ratings;
- the Company’s ability to maintain adequate physical, technical and administrative safeguards to protect the security of confidential information and data, and the potential of a system or network disruption that results in regulatory penalties, remedial costs or improper disclosure of confidential information or data;
- the effect of competitive products and pricing;
- consolidation in the Company’s end-customer markets;
- the impact of cost-cutting pressures across the financial services industry;
- a decline in the demand for credit risk management tools by financial institutions;
- the level of success of new product developments and global expansion;
- the level of merger and acquisition activity in the United States and abroad;
- the volatility of the energy marketplace;
- the health of the commodities markets;
- the impact of cost-cutting pressures and reduced trading in oil and other commodities markets;
- the level of the Company’s future cash flows;
- the level of the Company’s capital investments;
- the level of restructuring charges the Company incurs;
- the strength and performance of the domestic and international automotive markets;
- the Company’s ability to successfully recover should it experience a disaster or other business continuity problem from a hurricane, flood, earthquake, terrorist attack, pandemic, security breach, cyber-attack, power loss, telecommunications failure or other natural or man-made event;
- changes in applicable tax or accounting requirements;
- the impact on the Company’s net income caused by fluctuations in foreign currency exchange rates; and
- the Company’s exposure to potential criminal sanctions or civil penalties if it fails to comply with foreign and U.S. laws and regulations that are applicable in the domestic and international jurisdictions in which it operates, including trade sanctions laws, anti-corruption laws such as the U.S. Foreign Corrupt Practices Act and the U.K. Bribery Act 2010, anti-bribery laws, anti-money laundering laws, and other financial crimes laws.

The factors noted above are not exhaustive. The Company and its subsidiaries operate in a dynamic business environment in which new risks emerge frequently. Accordingly, the Company cautions readers not to place undue reliance on any forward-looking statements, which speak only as of the dates on which they are made. The Company undertakes no obligation to update or revise any forward-looking statement to reflect events or circumstances arising after the date on which it is made, except as required by applicable law. Further information about the Company’s businesses, including information about factors that could materially affect its results of operations and financial condition, is contained in the Company’s filings with the SEC, including Item 1a, *Risk Factors*, in the most recently filed Annual Report on Form 10-K.

MHFI Today

- Focus on Creating Growth and Driving Performance
- Track record of delivering strong revenue growth, margin improvement, and return of capital to shareholders
