CAUTIONARY STATEMENT REGARDING FORWARD LOOKING STATEMENTS

This presentation may contain “forward-looking statements” made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Statements regarding ICE’s business that are not historical facts are forward-looking statements that involve risks, uncertainties and assumptions that are difficult to predict. Although we believe the expectations reflected in these forward-looking statements are reasonable, these statements are not guarantees of future results, performance, levels of activity or achievements, and actual results may differ materially from what is expressed or implied in any forward-looking statement. The factors that might affect our performance include, but are not limited to: conditions in global financial markets, domestic and international economic and social conditions, inflation, risk of recession, interest rate changes, political uncertainty and discord, geopolitical events or conflicts and international trade policies and sanctions laws; introduction of or any changes in domestic and foreign laws, regulations, rules or government policy with respect to financial markets, climate change or our businesses generally, including increased regulatory scrutiny or enforcement actions and our ability to comply with these requirements; volatility in commodity markets, equity prices and price volatility of financial benchmarks and instruments such as interest rates, credit spreads, equity indices, foreign exchange rates, and mortgage origination trends; impact of climate change and the transition to renewable energy; our business environment and industry trends, including trading volumes, prevalence of clearing, demand for data services, mortgage lending activity, competition and consolidation; the success of our clearing houses and our ability to minimize the risks associated with operating multiple clearing houses in multiple jurisdictions; our ability to minimize risks related to owning and operating cash equity and options exchanges, the success of our exchanges and clearing houses and their compliance with regulatory and oversight responsibilities; the impact of computer and communication systems failures or delays; the resilience of our electronic platforms and soundness of our business continuity and disaster recovery plans; changes in renewal rates of subscription-based data revenues; our ability to execute our growth strategy and maintain our growth effectively; our ability to complete or realize the anticipated cost savings, growth opportunities, synergies and other benefits anticipated from our acquisitions, including our acquisition of Black Knight, Inc., or anticipated growth opportunities or expected benefits of our strategic investments, including our majority investment in Bakkt and the additional risk that its evolving business model may pose to our business; requirements to recognize impairments of our goodwill, other intangible assets or investments; performance and reliability of our technology and the technology of our third-party service providers; our ability to minimize the impacts of an interruption or cessation of an important service, data or content supplied by a third party; our ability to keep pace with technological developments and client preferences; our ability to successfully offer new products and technologies and identify opportunities to leverage our risk management capabilities and enhance our technology in a timely and cost-effective manner; our ability to ensure that the technology we utilize is not vulnerable to cyber-attacks, hacking and other cybersecurity risks; our ability to keep information and data relating to the customers of the users of the software and services provided by our ICE Mortgage Technology business confidential; impacts of pandemics or other public health emergencies, including the emergence of new COVID-19 variants, on our business as well as on the broader business environment; our ability to identify trends and adjust our business to respond to such trends, especially trends in the U.S. mortgage industry; our ability to evolve our benchmarks and indices in a manner that maintains or enhances their reliability and relevance; the accuracy of our estimates and expectations; our belief that cash flows from operations will be sufficient to service our current levels of debt and fund our working capital needs and capital expenditures for the foreseeable future; our ability to secure additional debt and pay off our existing debt in a timely manner; our ability to maintain existing customers and attract new customers; our ability to attract, retain and develop key talent, including our senior management; our ability to protect our intellectual property rights, including the costs associated with such protection, and our ability to operate our business without violating the intellectual property rights of others; and potential adverse results of litigation and regulatory actions and proceedings. For a discussion of such risks and uncertainties, which could cause actual results to differ from those contained in the forward-looking statements, see ICE’s Securities and Exchange Commission (SEC) filings, including, but not limited to ICE’s most recent Annual Report on Form 10-K for the year ended December 31, 2022, as filed with the SEC on February 2, 2023 and ICE's most recent Quarterly Report on Form 10-Q for the quarter ended September 30, 2023, as filed with the SEC on November 2, 2023. These filings are available in the Investors section of our website. We caution you not to place undue reliance on these forward-looking statements. Any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of an unanticipated event. New factors emerge from time to time, and it is not possible for management to predict all factors that may affect our business and prospects. Further, management cannot assess the impact of each factor on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

GAAP AND NON-GAAP RESULTS

This presentation includes non-GAAP measures that exclude certain items we do not consider reflective of our cash operations and core business performance. We believe that the presentation of these non-GAAP measures provides investors with greater transparency and supplemental data relating to our financial condition and results of operations. These adjusted non-GAAP measures should be considered in context with our GAAP results. A reconciliation of Adjusted Net Income Attributable to ICE, Adjusted Earnings Per Share, Adjusted Operating Income, Adjusted Operating Margin, Adjusted Operating Expenses and Adjusted Free Cash Flow to the equivalent GAAP measure and an explanation of why we deem these non-GAAP measures meaningful appears in our Form 10-Q and in the appendix to this presentation. The reconciliation of Adjusted Non-Operating Income/Expense Reconciliation, Adjusted Effective Tax Rate, and Adjusted Debt-to-EBITDA to the equivalent GAAP results appear in the appendix to this presentation. Our Form 10-Q, earnings press release and this presentation are available in the Investors and Media section of our website at www.theice.com.

EXPLANATORY NOTES

Throughout this supplement:

- All net revenue figures represent revenues less transaction-based expenses for periods shown.
- References to pro forma amounts or results include the combined results of Black Knight and ICE as if we owned Black Knight since 2022.
- All earnings per share figures represent diluted weighted average share count.
- Constant currency (CC) amounts are calculated holding both the pound sterling and euro at the average exchange rate from 3Q22, 1.1774 and 1.0071, respectively.
- References to Return on Invested Capital, or ROIC, are equal to TTM (Operating Income x (1-Adjusted Tax Rate)) / (Avg Debt (Net of the pre-acquisition debt proceeds) + Avg Shareholders Equity + Avg Non-Controlling Interest - Avg Cash, Cash Equiv, & ST Investments). References to Weighted Average Cost of Capital, or WACC, are equal to (Cost of Equity * % of Equity) + {(Cost of Debt * (1- Adjusted Tax Rate)) * % of Debt}. Percent of Debt assumes a capital structure of 2.75x Debt to Adjusted EBITDA.

Data, Technology & Network Expertise

(1) Trailing twelve months (TTM) revenue mix as of 3Q23 on a pro forma basis.

Over Two Decades of Innovation & Growth

2000

ICE is formed to develop a transparent network for OTC energy

2001

ICE adds to its energy futures network through the acquisition of the International Petroleum Exchange and the Brent Crude Oil contract

Enron collapses

2003

ICE Data Services is launched with ICE's proprietary data and indices

Operation Iraqi Freedom is launched

2006

Amaranth collapses

2007

ICE acquires the New York Board of Trade (NYBOT) adding clearing tech/expertise and an expanded global commodity network

2008

Leveraging NYBOT clearing expertise & technology, ICE stands up ICE Clear Europe, the UK's first new clearing house in 100 years and today one of the largest in the world

ICE acquires CDS interdealer broker Creditex, providing a foundation to build ICE Clear Credit, which today is the largest CDS Clearing House in the world

The GFC fractures global CDS clearing infrastructure

2009

Acquires the Climate Exchange, adding leading environmental products to its global energy network

CFTC rule making on nat gas position limits

2010

Dodd-Frank Act

ICE adds TTF gas to its energy network, which today is emerging as a global gas benchmark

2012

European Market Infrastructure Act

2013

Leveraging trading & clearing infrastructure, ICE expands its futures network with the acquisition of NYSE Euronext; ICE also expands into cash equities & options

2015

ICE acquires IDC, a leading provider of mission critical fixed income pricing, reference data & analytics

2017

With ICE's fixed income pricing & reference data as a foundation, ICE acquires BofAML's Index business, the second largest fixed income index platform in the world

2018

ICE expands its fixed income ecosystem, acquiring execution venues BondPoint and TMC

ICE acquires full ownership of MERSCorp, a leading database serving the U.S. mortgage industry

2019

ICE adds to its digital Mortgage network, with the acquisition of Simplifile

2020

ICE acquires Ellie Mae, a leading mortgage origination network and, alongside Simplifile & MERS, establishes the first truly end-to-end mortgage origination platform aimed at digitizing the entire mortgage workflow

2021

ICE expands climate change and alternative data capabilities with acquisitions of risQ and Level 11 Analytics

2022

European energy crisis

ICE extends climate risk management offering with acquisition of Urgentem

2023

ICE acquires Black Knight, establishing a life of loan platform aimed at strengthening the overall ecosystem for consumer credit
