Safe Harbor statement under the Private Securities Litigation Reform Act of 1995

This presentation contains “forward-looking statements,” as defined in the Private Securities Litigation Reform Act of 1995. These statements, including statements about the completed merger (the “Merger”) between a subsidiary of the Company and IHS Markit Ltd. (“IHS Markit”), which express management’s current views concerning future events, trends, contingencies or results, appear at various places in this presentation and use words like “anticipate,” “assume,” “believe,” “continue,” “estimate,” “expect,” “forecast,” “future,” “intend,” “plan,” “potential,” “predict,” “project,” “strategy,” “target” and similar terms, and future or conditional tense verbs like “could,” “may,” “might,” “should,” “will” and “would.” For example, management may use forward-looking statements when addressing topics such as: the outcome of contingencies; future actions by regulators; changes in the Company’s business strategies and methods of generating revenue; the development and performance of the Company’s services and products; the expected impact of acquisitions and dispositions; the Company’s effective tax rates; and the Company’s cost structure, dividend policy, cash flows or liquidity.

Forward-looking statements are subject to inherent risks and uncertainties. Factors that could cause actual results to differ materially from those expressed or implied in forward-looking statements include, among other things:

- worldwide economic, financial, political, and regulatory conditions (including slower GDP growth or recession, instability in the banking sector and inflation), and factors that contribute to uncertainty and volatility, natural and man-made disasters, civil unrest, pandemics (e.g., COVID-19), geopolitical uncertainty (including military conflict), and conditions that may result from legislative, regulatory, trade and policy changes;
- the volatility and health of debt, equity, commodities and energy markets, including credit quality and spreads, the level of liquidity and future debt issuances, demand for investment products that track indices and assessments and trading volumes of certain exchange traded derivatives;
- the demand and market for credit ratings in and across the sectors and geographies where the Company operates;
- the Company’s ability to maintain adequate physical, technical and administrative safeguards to protect the security of confidential information and data, and the potential for a system or network disruption that results in regulatory penalties and remedial costs or improper disclosure of confidential information or data;
- the outcome of litigation, government and regulatory proceedings, investigations and inquiries;
- concerns in the marketplace affecting the Company’s credibility or otherwise affecting market perceptions of the integrity or utility of independent credit ratings, benchmarks, indices and other services;
- our ability to attract, incentivize and retain key employees, especially in a competitive business environment;
- the Company’s exposure to potential criminal sanctions or civil penalties for noncompliance with foreign and U.S. laws and regulations that are applicable in the jurisdictions in which it operates, including sanctions laws relating to countries such as Iran, Russia, Sudan, Syria and Venezuela, anti-corruption laws such as the U.S. Foreign Corrupt Practices Act and the U.K. Bribery Act of 2010, and local laws prohibiting corrupt payments to government officials, as well as import and export restrictions;
- the continuously evolving regulatory environment in Europe, the United States and elsewhere around the globe affecting each of our business divisions and the products our business divisions offer, and our compliance therewith;
- the ability of the Company to implement its plans, forecasts and other expectations with respect to IHS Markit’s business and realize expected synergies;
- the Company’s ability to meet expectations regarding the accounting and tax treatments of the Merger;
- the Company’s ability to make acquisitions and dispositions and successfully integrate the businesses we acquire;
- consolidation of the Company’s customers, suppliers or competitors;
- the introduction of competing products or technologies by other companies;
- our ability to develop new products or technologies, to integrate our products with new technologies (e.g., artificial intelligence), or to compete with new products or technologies offered by new or existing competitors;
- the effect of competitive products and pricing, including the level of success of new product developments and global expansion;
- the impact of customer cost-cutting pressures;
- a decline in the demand for our products and services by our customers and other market participants;
- the ability of the Company, and its third-party service providers, to maintain adequate physical and technological infrastructure;
- the Company’s ability to successfully recover from a disaster or other business continuity problem, such as an earthquake, hurricane, flood, civil unrest, protests, military conflict, terrorist attack, outbreak of pandemic or contagious diseases, security breach, cyber attack, data breach, power loss, telecommunications failure or other natural or man-made event;
- the level of merger and acquisition activity in the United States and abroad;
- the level of the Company’s future cash flows and capital investments;
- the impact on the Company’s revenue and net income caused by fluctuations in foreign currency exchange rates; and
- the impact of changes in applicable tax or accounting requirements on the Company.

The factors noted above are not exhaustive. The Company and its subsidiaries operate in a dynamic business environment in which new risks emerge frequently. Accordingly, the Company cautions readers not to place undue reliance on any forward-looking statements, which speak only as of the dates on which they are made. The Company undertakes no obligation to update or revise any forward-looking statement to reflect events or circumstances arising after the date on which it is made, except as required by applicable law. Further information about the Company’s businesses, including information about factors that could materially affect its results of operations and financial condition, is contained in the Company’s filings with the SEC, including Item 1A, *Risk Factors*, in our most recently filed Annual Report on Form 10-K, as supplemented by Item 1A, *Risk Factors*, in our most recently filed Quarterly Report on Form 10-Q.

Comparison of adjusted information to U.S. GAAP information

This presentation includes Company financials on an as-reported basis, and on a pro forma basis as if the merger had closed on January 1, 2021, for periods including fiscal year 2022, and all other year-to-date periods that include the three months ended March 31, 2022; the pro forma basis agrees to the Company's previously filed unaudited pro forma combined condensed financial information presented in accordance with Article 11 of Regulation S-X. The Company also refers to and presents certain additional non-GAAP financial measures, within the meaning of Regulation G under the Securities Exchange Act of 1934. These measures are: adjusted revenue and non-GAAP pro forma adjusted revenue; adjusted operating profit and margin; adjusted recurring revenue; adjusted expenses; adjusted corporate unallocated expense; adjusted interest expense, net; adjusted effective tax rate; adjusted net income (less NCI); adjusted capital expenditures; adjusted diluted EPS; adjusted weighted average diluted shares outstanding; adjusted operating profit from OSTTRA JV; free cash flow and adjusted free cash flow excluding certain items; trailing twelve-month adjusted revenue; trailing twelve-month adjusted operating profit and margin and trailing twelve-month non-GAAP pro forma adjusted operating margin; EBITDA and adjusted EBITDA; adjusted gross debt; and adjusted deal-related amortization.

Reconciliations of certain forward-looking non-GAAP financial measures to comparable GAAP measures are not available due to the challenges and impracticability with estimating some of the items. The Company is not able to provide reconciliations of such forward-looking non-GAAP financial measures because certain items required for such reconciliations are outside of the Company's control and/or cannot be reasonably predicted. Because of those challenges, reconciliations of such forward-looking non-GAAP financial measures are not available without unreasonable effort.

The Company's non-GAAP measures include adjustments that reflect how management views our businesses. The Company believes these non-GAAP financial measures provide useful supplemental information that, in the case of non-GAAP financial measures other than free cash flow and adjusted free cash flow excluding certain items, enables investors to better compare the Company's performance across periods, and management also uses these measures internally to assess the operating performance of its business, to assess performance for employee compensation purposes and to decide how to allocate resources. The Company believes that the presentation of free cash flow and adjusted free cash flow excluding certain items allows investors to evaluate the cash generated from our underlying operations in a manner similar to the method used by management and that such measures are useful in evaluating the cash available to us to prepay debt, make strategic acquisitions and investments, and repurchase stock. However, investors should not consider any of these non-GAAP measures in isolation from, or as a substitute for, the financial information that the Company reports.

The Company's earnings release dated July 27, 2023 contains financial measures calculated in accordance with GAAP that correspond to the non-GAAP measures included in this presentation, and the earnings release and this presentation contain reconciliations of such GAAP and non-GAAP measures. The Company's earnings release and this presentation are available on the Company's website at https://investor.spglobal.com/quarterly-earnings.

2Q 2023 Highlights:

- Reported revenue increased 6% year-over-year, with growth across all business lines led by Data & Advisory Solutions (+7%) and Enterprise Solutions (+8%).
- Adjusted expenses increased nearly 7% year over year, driven primarily by increased compensation and cloud costs, partially offset by the realization of cost synergies.

* All financials, other than reported revenue and trailing twelve-month segment operating margin, refer to non-GAAP adjusted metrics. Reported revenue refers to reported revenue in the current period, and non-GAAP adjusted revenue in the year-ago period. Trailing twelve-month segment operating margin refers to adjusted trailing twelve-month segment operating margin in the current period, and non-GAAP pro forma adjusted trailing twelve-month segment operating margin in the year-ago period.

Financial results: S&P Global Ratings

($ in millions; some amounts may not sum due to rounding)

2Q 2023 Highlights:

- Reported revenue increased 7% year-over-year primarily due to 11% growth in transaction revenue as billed issuance increased year-over-year. Non-transaction revenue growth was driven by annual and program fees, as well as growth at CRISIL.
- Adjusted expenses increased 12% driven primarily by incentive compensation due to the impact of reductions in prior-year incentives.

* All financials, other than reported revenue and trailing twelve-month segment operating margin, refer to non-GAAP adjusted metrics. Trailing twelve-month segment operating margin refers to adjusted trailing twelve-month segment operating margin in the current period, and non-GAAP pro forma adjusted trailing twelve-month segment operating margin in the year-ago period.
