J.P. Morgan Auto Conference

Kevin Clark

President and Chief Executive Officer

DELPHI

Innovation for the Real World

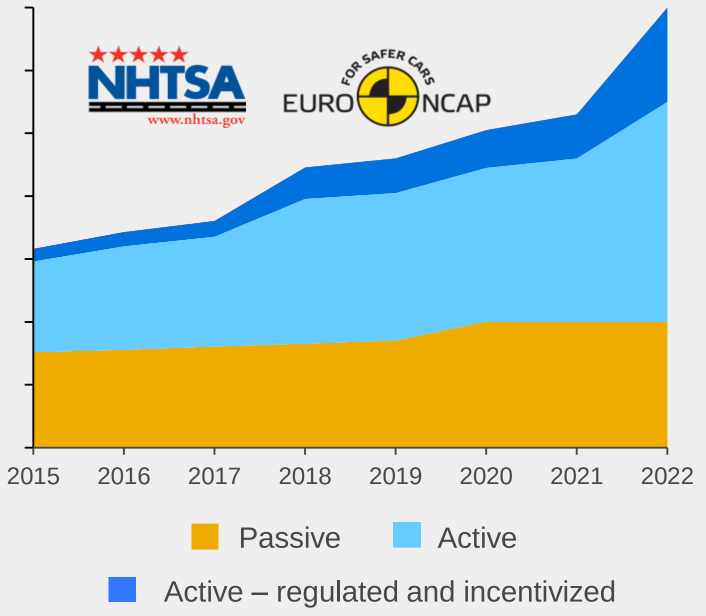
Forward-looking statements

This presentation, as well as other statements made by Delphi Automotive PLC (the “Company”), contain forward-looking statements that reflect, when made, the Company’s current views with respect to current events, certain investments and acquisitions and financial performance. Such forward-looking statements are subject to many risks, uncertainties and factors relating to the Company’s operations and business environment, which may cause the actual results of the Company to be materially different from any future results. All statements that address future operating, financial or business performance or the Company’s strategies or expectations are forward-looking statements. Factors that could cause actual results to differ materially from these forward-looking statements are discussed under the captions “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the Company’s filings with the Securities and Exchange Commission. New risks and uncertainties arise from time to time, and it is impossible for us to predict these events or how they may affect the Company. It should be remembered that the price of the ordinary shares and any income from them can go down as well as up. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events and/or otherwise, except as may be required by law.

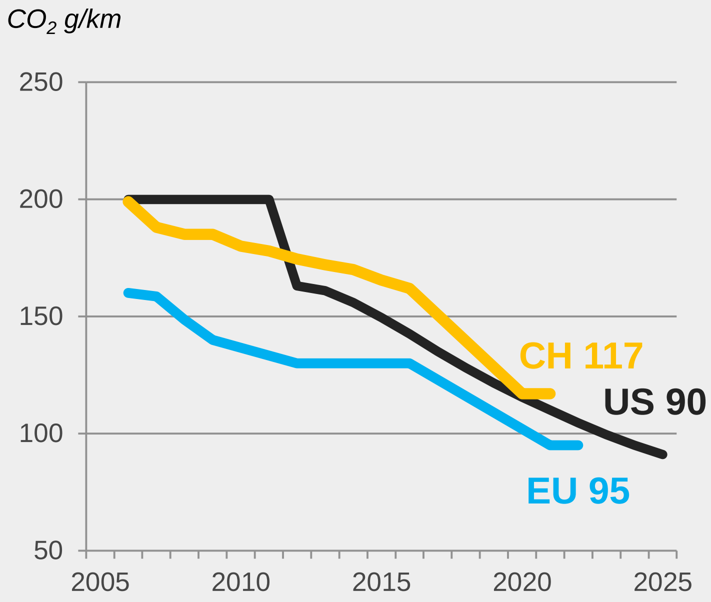
Macro trends create challenges for our customers…

Regulated Active Safety growing with increased consumer awareness	Best-value electrification required to meet step function change in regulation	IoT driving connected car to new levels & creating new challenges

More **safe**



More **green**



More **connected**

Connectivity

- Validating 5.9GHz standard for Dedicated Short-Range Radio Communication (DSRC)

Cybersecurity

- Auto Information Sharing and Analysis Center (ISAC) developing process to share & fix vulnerabilities

Big Data

- OEMs enabled to collect but not personalize information

… And growth opportunities for Delphi

Strategic priorities

Disciplined revenue growth	• Enhance portfolio of market relevant products • Balanced regional growth • Further diversify customer base and platform mix
Cost structure optimization	• Continue footprint rotation to best cost countries • Further integrate EOS across the enterprise • Increase leverage in operating model
Increase cash flow	• Maintain investment grade ratings • Continue investment in organic and acquisition growth • Return cash to shareholders

Focused on delivering increased shareholder value

DELPHI

Safe, green and connected technology trends

China Emissions: 117 CO_2 g/km – 2020

EU Emissions: 95 CO_2 g/km – 2021

US Fuel economy: 54.5 mpg – 2025

2010	2015	2020	2025
Assisted automation	ADAS expansion	Semi automated	Fully automated

Increasing levels of electrification

Electrical architecture is an enabler

More…

Increasing levels of software and connectivity

Brought-in connectivity	Smartphone integration	Full cloud connectivity	Vehicle as a device

Safe, Green and Connected solutions are converging

DELPHI

Electrical architecture is the nervous system of the vehicle

Key auto growth trends

Automated driving
- Sensors: radar, vision, LiDAR
- Driving algorithms

Electrification/ fuel efficiency
- Control algorithms
- Power Electronics

Connectivity
- Telematics
- Service offerings
- Cybersecurity

Software
- Modular design
- New business models

Big data and analytics
- Data-driven business models
- Operational improvements

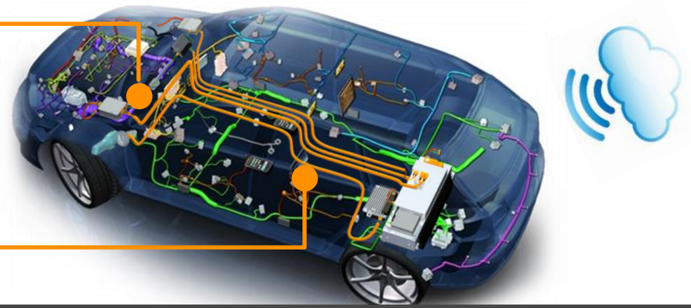
Safe

Green

Connected

Vehicle nervous system

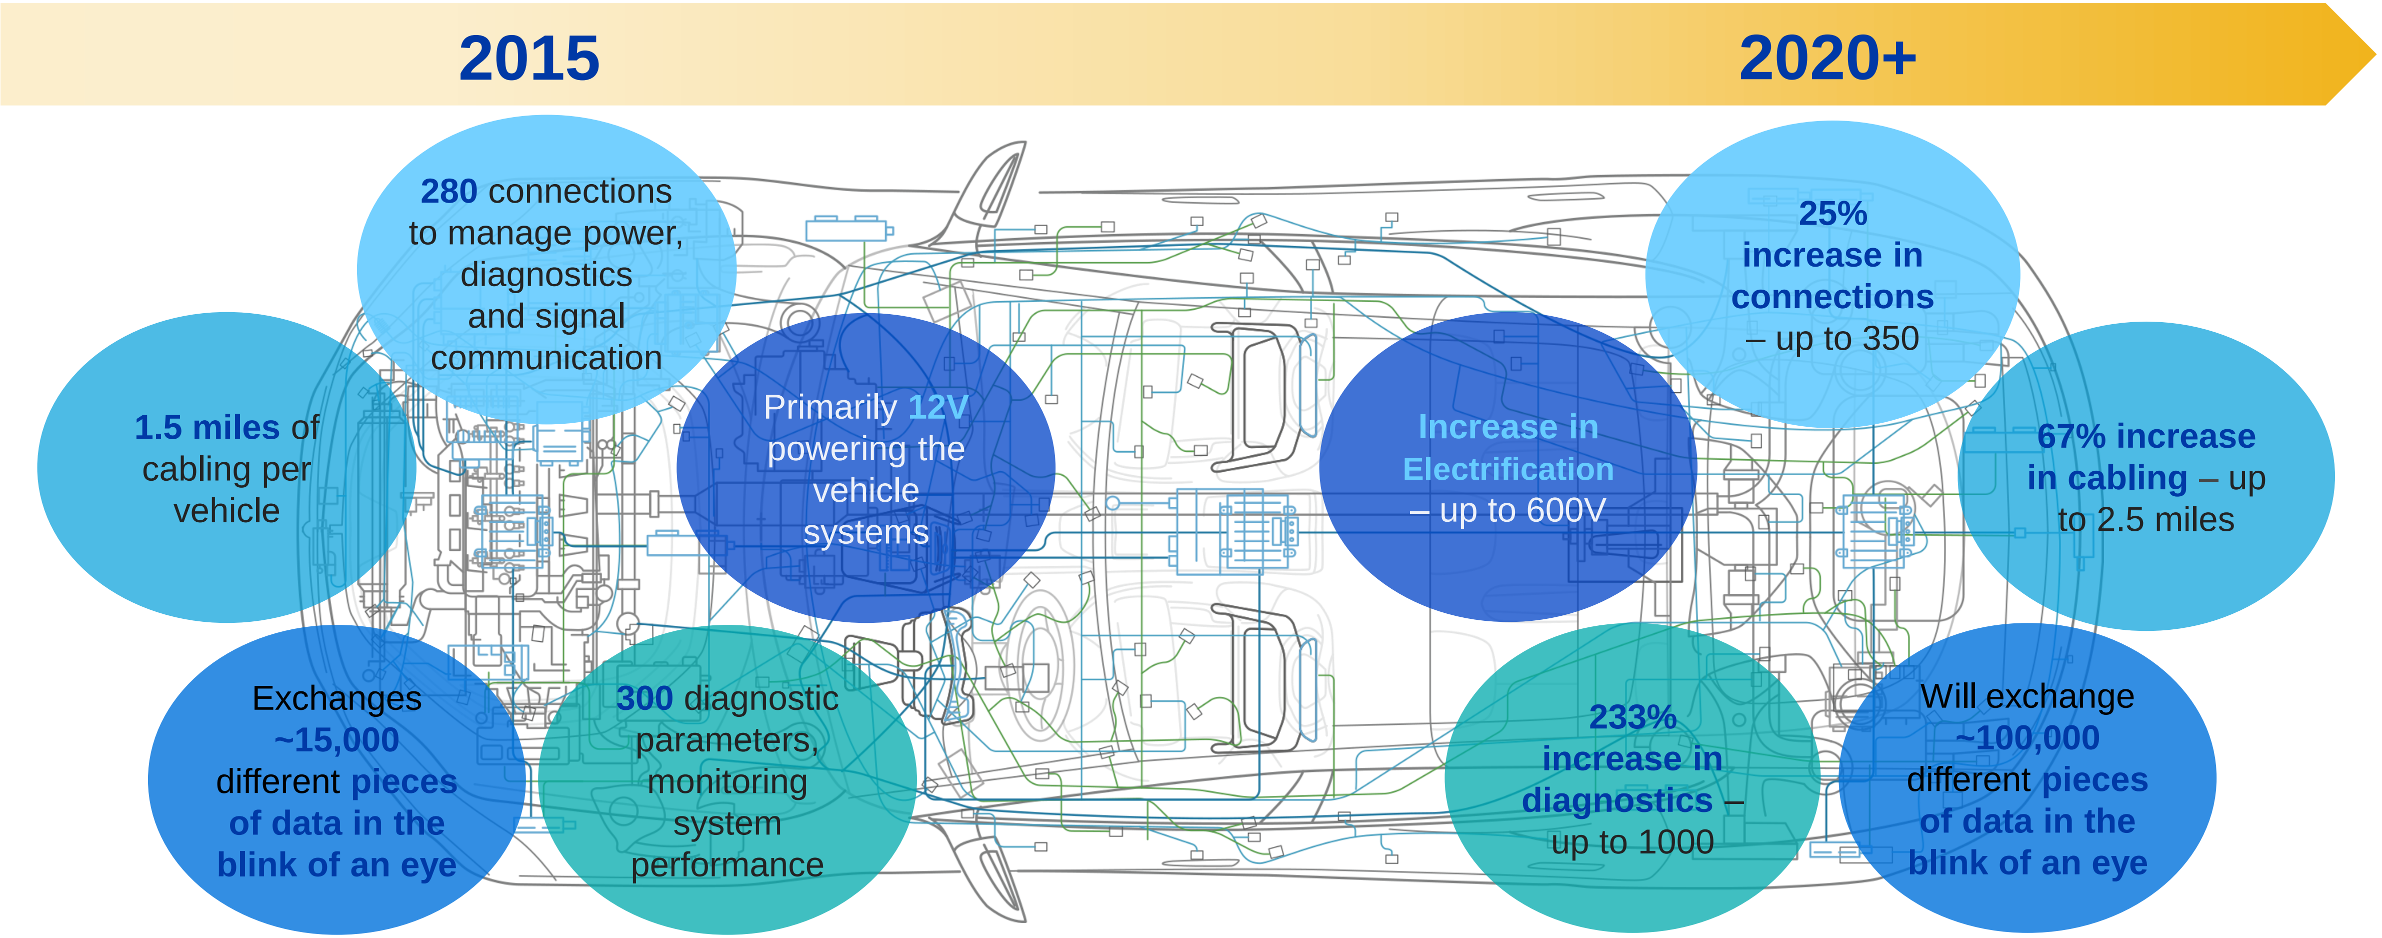
Vehicle brain
- Infotainment / display, automated driving
- Safety hardware & software
- Control hardware & software
- Data analytics
- Fuel & air management



Vehicle nerve center
- Sensors
- V2X / telematics
- Wiring
- Connectors
- Cable management

Enables the integration of vehicle systems

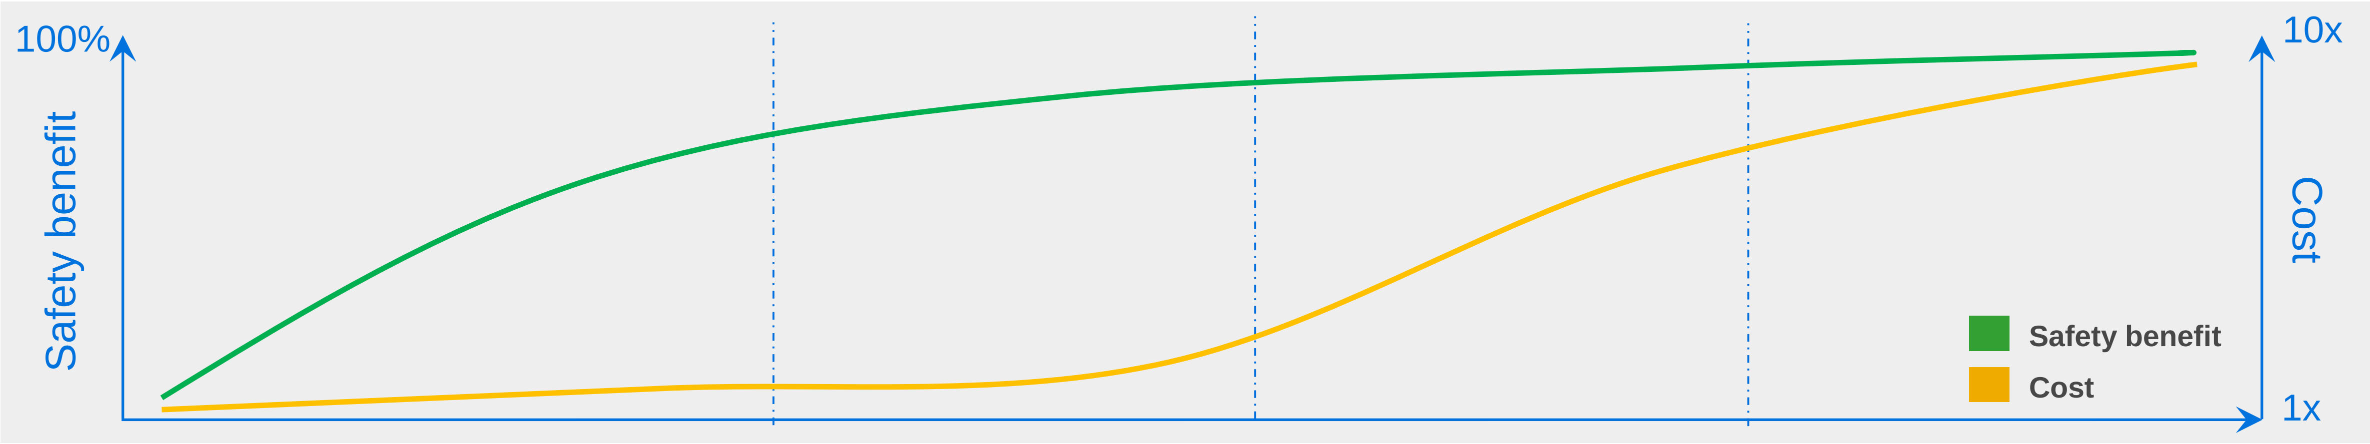
Vehicle complexity increasing



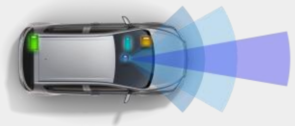
Future solutions require increased content per vehicle

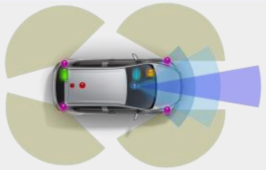
DELPHI

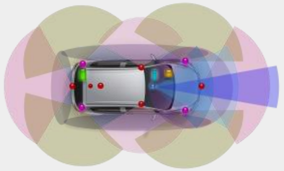
Active safety evolving to include more automation



Level 0 No automation	Level 1 Function-specific automation	Level 2 Combined function automation	Level 3 Limited self-driving automation	Level 4 Full self-driving automation
Driver is in complete control of vehicle	Automation of one or more control functions	Automation of two or more control functions	Driver able to cede full control of all safety-critical functions under certain conditions	Driver able to cede full control of all safety-critical functions for an entire trip







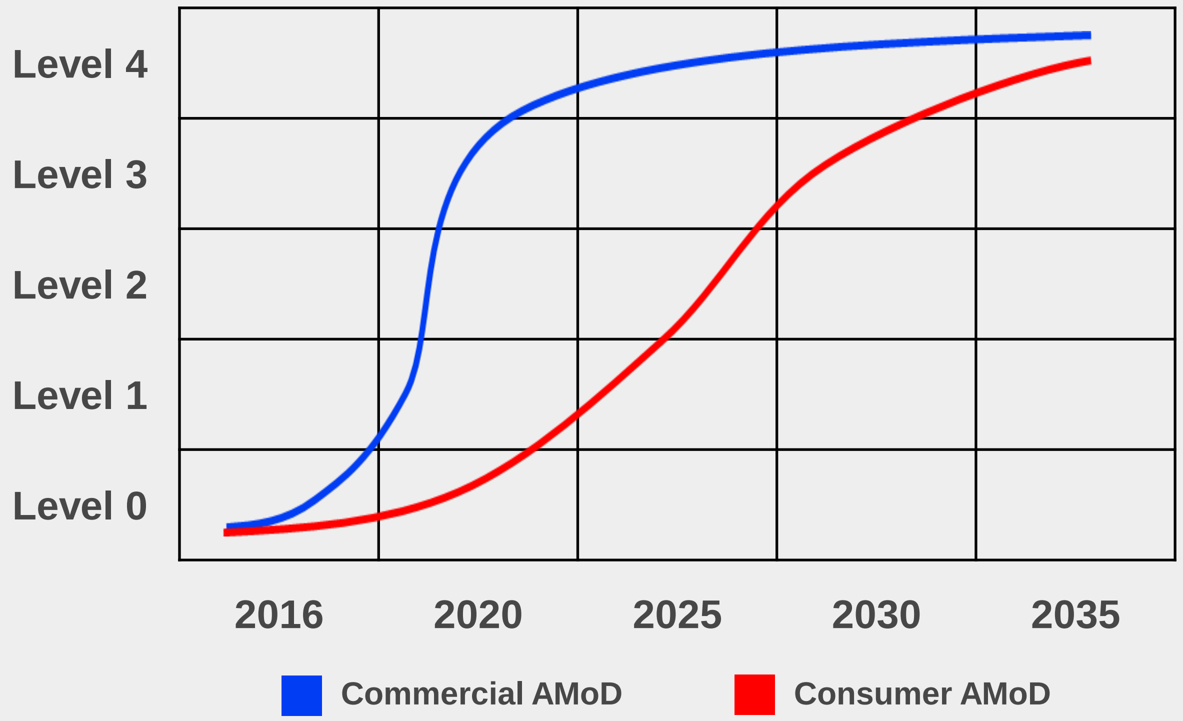
Level 2 automation delivers 80% of the benefit for 20% of the cost of level 4

Note: Levels of vehicle automation as defined by NHTSA

DELPHI

Automated Mobility on Demand (AMoD)

Key accelerators driving early adoption of commercial Automated Mobility solutions



Market driver

- Motivated by economics rather than safety or convenience

Governance

- Simplified regulatory and legal environment at the local level vs. federal/state

Mobility profile

- Limited use cases in commercial applications in contrast with the consumer market

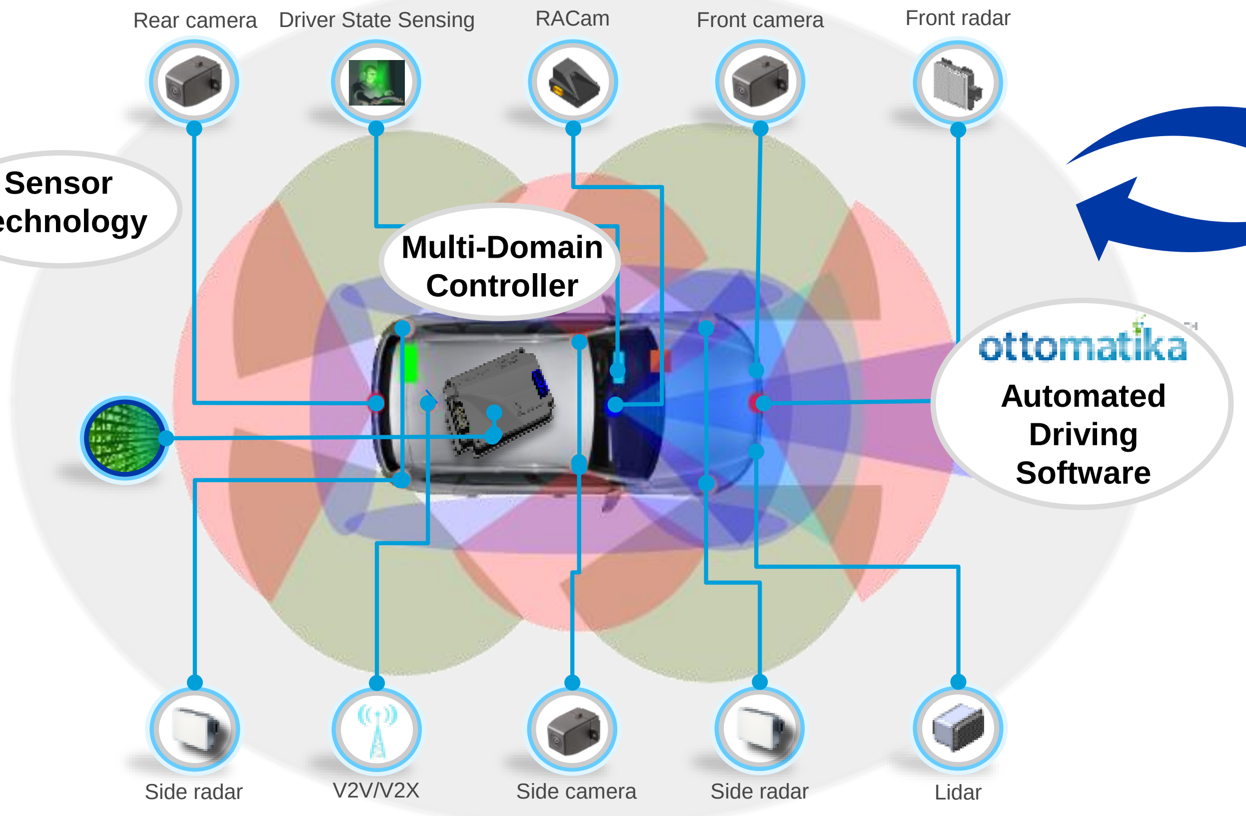
AMoD accelerating adoption

DELPHI

Singapore Automated Mobility Pilot

Delphi integrates active safety and automated features

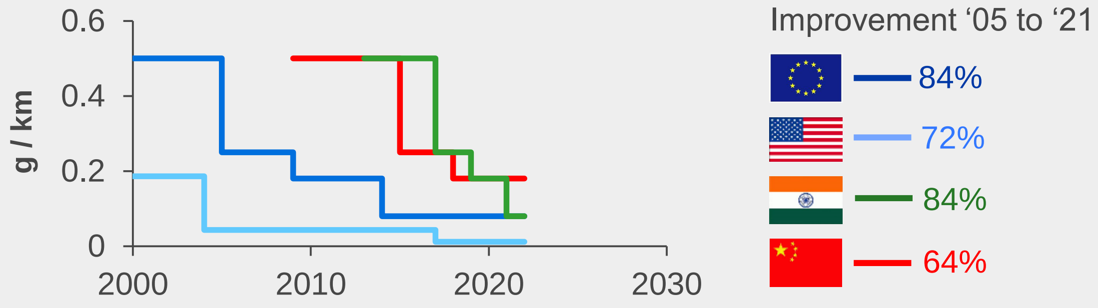
Delphi Cloud provides key data and service connections to MoD ecosystem



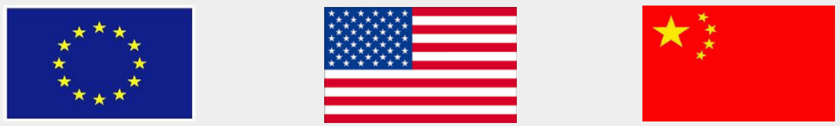
Leveraging our automated driving platform solutions

Regulations becoming increasingly stringent

NO_x emissions regulations



CO_2 regulations



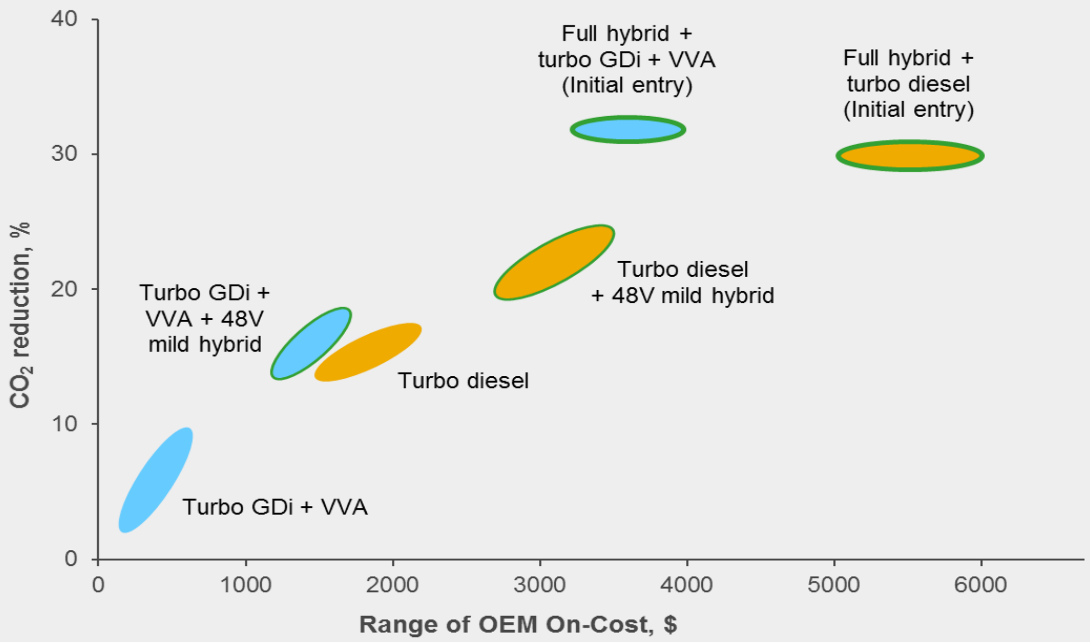
~27% reduction '15 to '21

~39% reduction '15 to '25

~28% reduction '15 to '20

Innovative solutions to reduce CO_2

Baseline: 4-cyl. turbo GDi with dual cam phasing



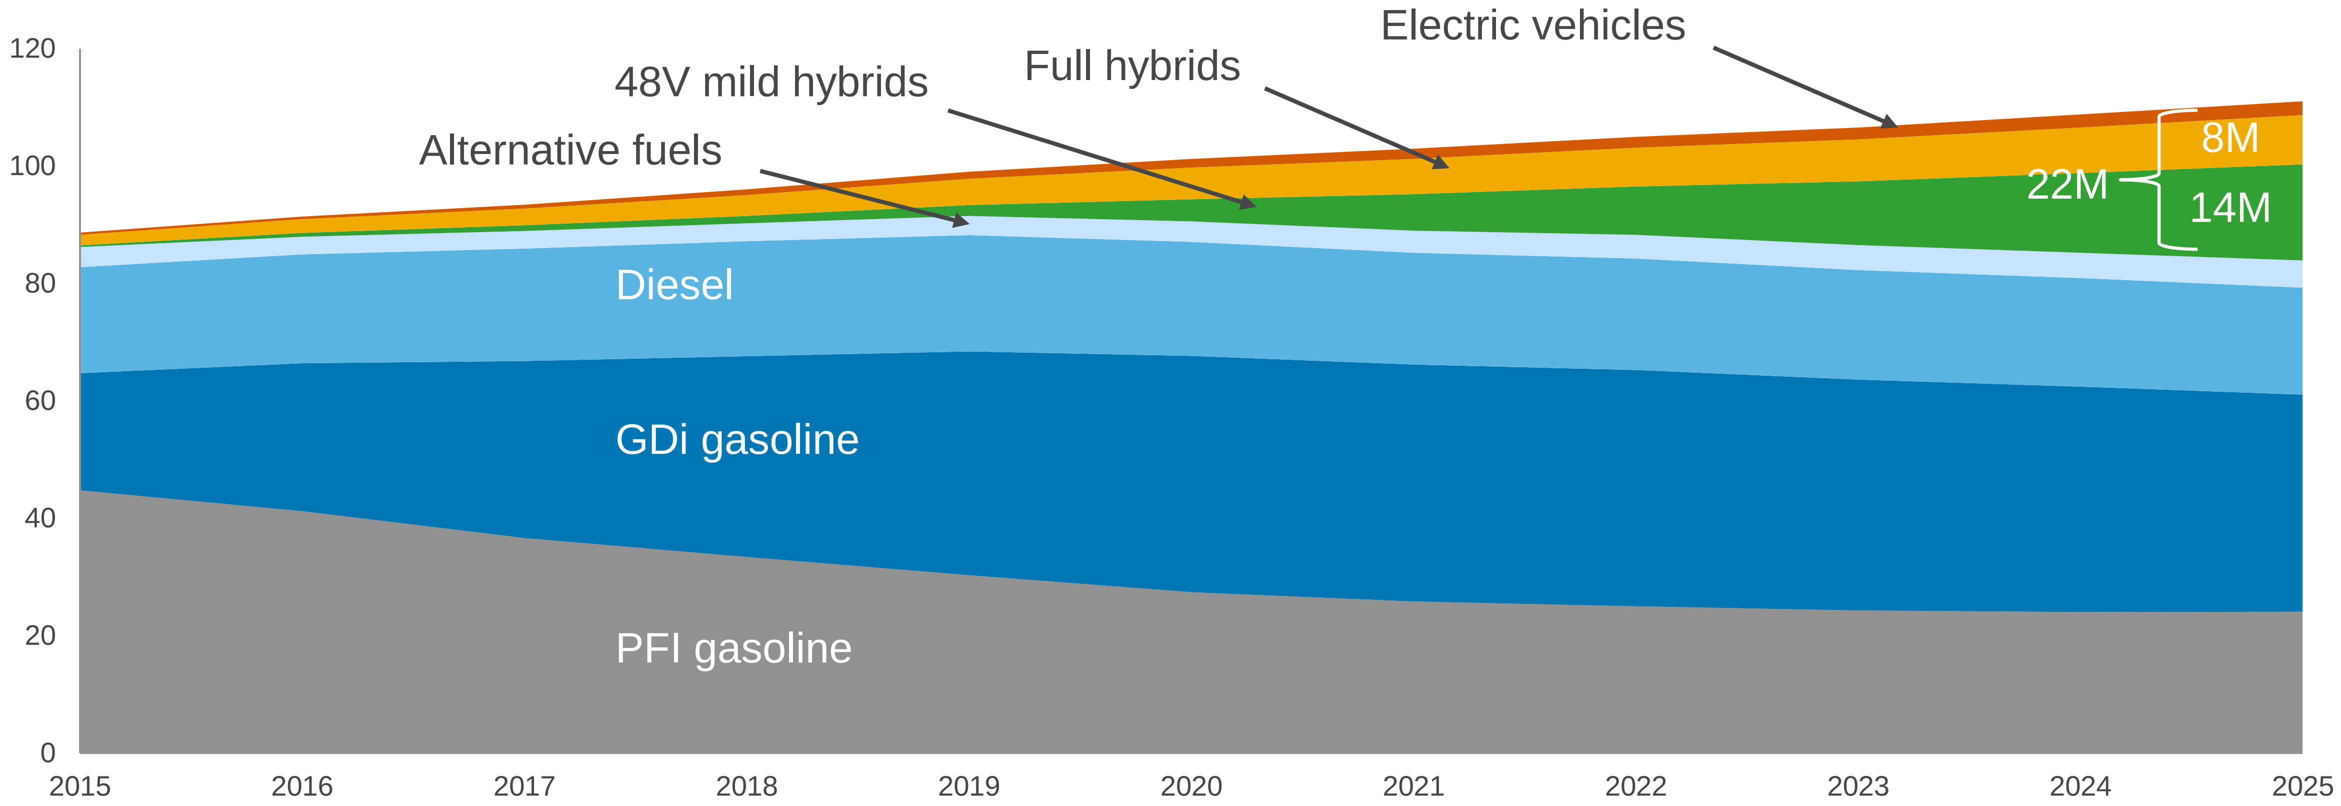
Delphi's Powertrain technologies solving more stringent demands

Note: EU emissions – 95 CO2 g/km by 2021
US fuel economy – 54.5 mpg by 2025

DELPHI

Electrification expected to grow…

Hybrids increase in the next 10 years: ~22M by 2025



... Adding power to internal combustion engines

Source: IHS July 2016

DELPHI

Select electrification customer awards

Delivering improved functionality, better performance, greater efficiency

TESLA	Electrical architecture wins on all current production models
Ford	Gen-4 global platform ... Battery pack wiring system
CHEVROLET	Volt & Bolt … A broad portfolio of electrical architecture
	Leading European OEM Hybrid ... 48V electrical system

Electrification ... CAGR ~ 50%[1]

1. 2015-2018; adjusted for FX and commodities

Creating intelligent electrification with Delphi's 48V solution

48V electrification

Optimized electrical architecture is the foundation

The Delphi solution

Builds on electrical solution competency

- Includes electrical architecture, power electronics and management

Designs a custom vehicle architecture

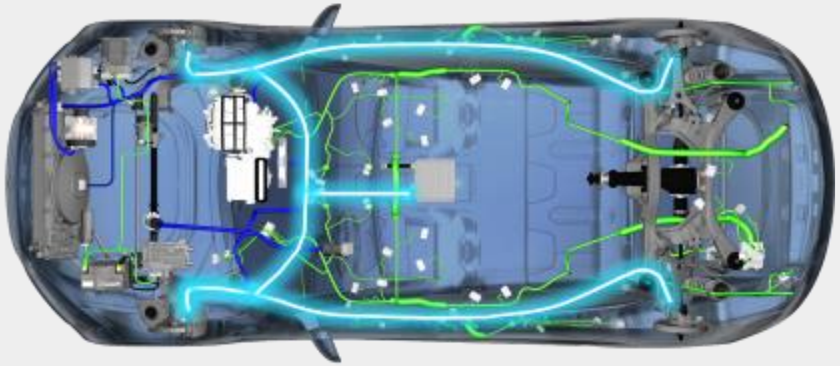
- Maximizes the use of power, moving high load components to 48V & incorporating all desired comfort, convenience & functional features

Incorporates Delphi's suite of products

Enabling intelligent electrification

Improved functionality, better performance, greater efficiency

Software, software, software…



Optimized electrification architecture

Fuel injection systems	**DC/DC converter**
Engine control	**Connected Infotainment**
Valve Train & engine sensors	**Active Safety**

48V solution solving customers challenges

Electrification increases Delphi content per vehicle (CPV)

Powertrain Management

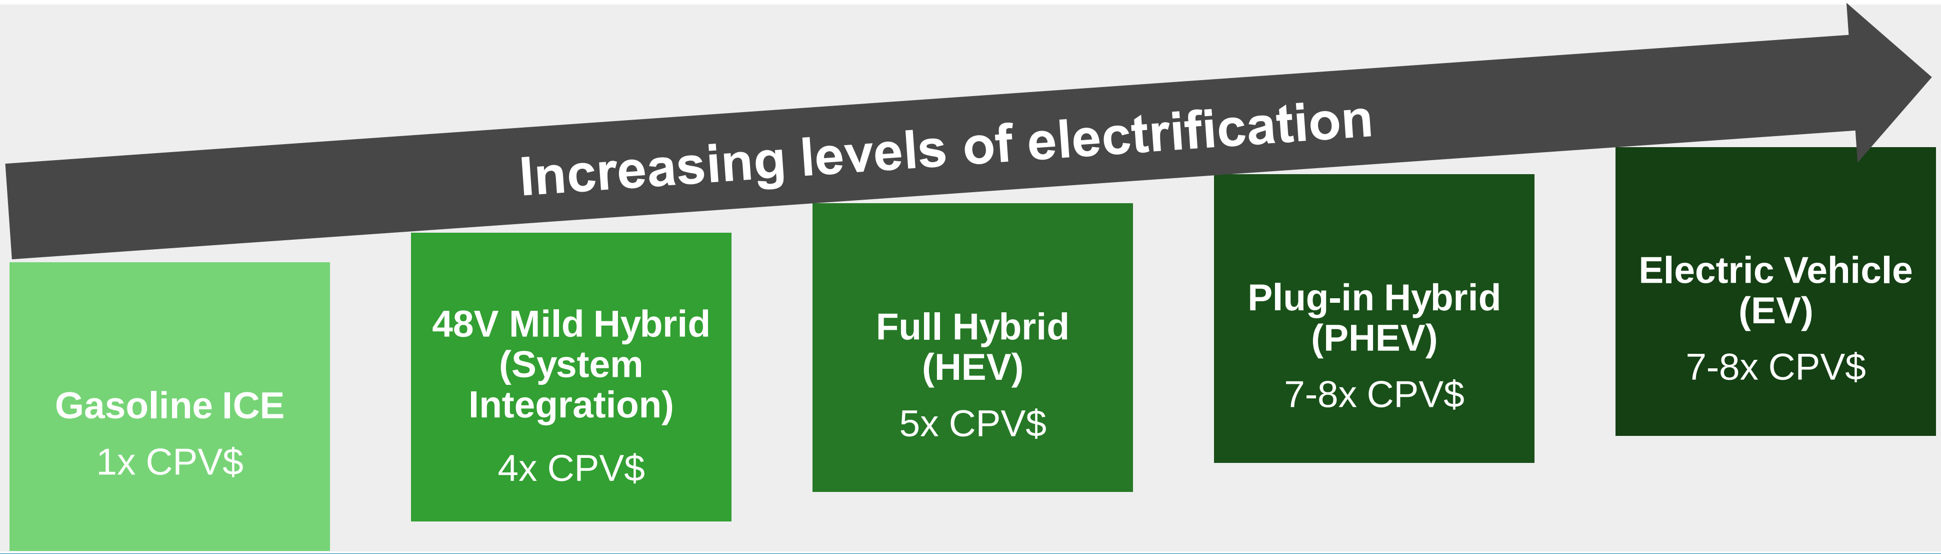
- Supervisory controller
- Supervisory software
- Inverter
- Combined inverter/converter
- 48V Driver module

Electrical System

- 48V fusing & distribution
- High power & voltage connectors
- High voltage shielded cable
- DC/DC converter

Battery Management

- Charging inlets and cables
- Internal battery connections
- 12V battery monitor
- Battery pack controller
- On-board charger



Comprehensive portfolio enables vehicle electrification

Source: Content per vehicle Delphi estimate, 2015

More safe, more green, more connected…

Influence of Silicon Valley

Delphi's technology acceleration

	2010	2015	2020
Lines of code shipped daily	200M	20B	200B
Software revenue	<$50M	$500M	$1.5B
Software engineers	2,000	5,000	8,000
Key partnerships	15+	30+	60+
Software launches	150+	300+	400+

… Requires more advanced software capabilities

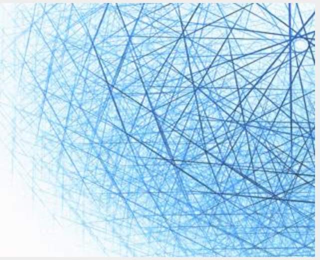
Strengthening technology portfolio

Areas of focus

Strategic
- Enhance competitive position
- Strengthen product portfolio
- Diversify customer and regional mix

Operating
- Solid operating systems
- Strong management team and cultural fit
- High confidence integration plan

Financial
- Enhance growth and return profile
- Accretive to earnings and return profile
- Improve cash flow characteristics



Continue to pursue strategic transactions that enhance value

J.P. Morgan Auto Conference

Joe Massaro

Chief Financial Officer and Senior Vice President

DELPHI

Innovation for the Real World

Financial strategy remains unchanged

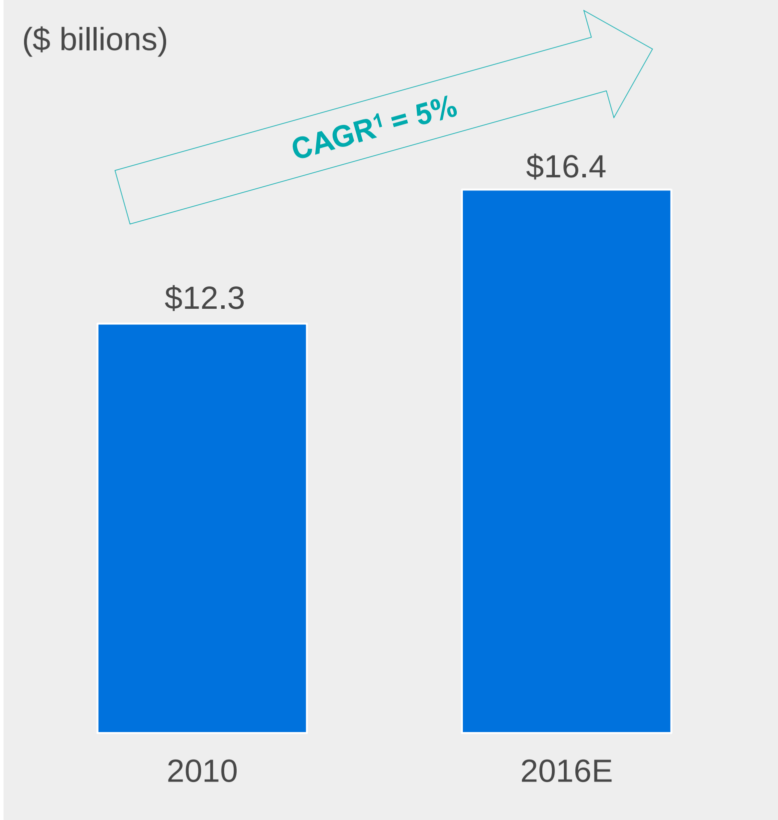
Disciplined revenue growth	• Enhance portfolio of market relevant products • Continue rotation to high growth regions • Further diversify customer base and platform mix
Cost structure optimization	• Continue footprint rotation to best cost countries • Maintain flexibility of workforce • Increase engineering investment to support growth
Increase cash flow	• Maintain investment grade credit ratings • Increase investment in organic and acquisition growth • Return cash to shareholders

Deliver industry-leading shareholder returns

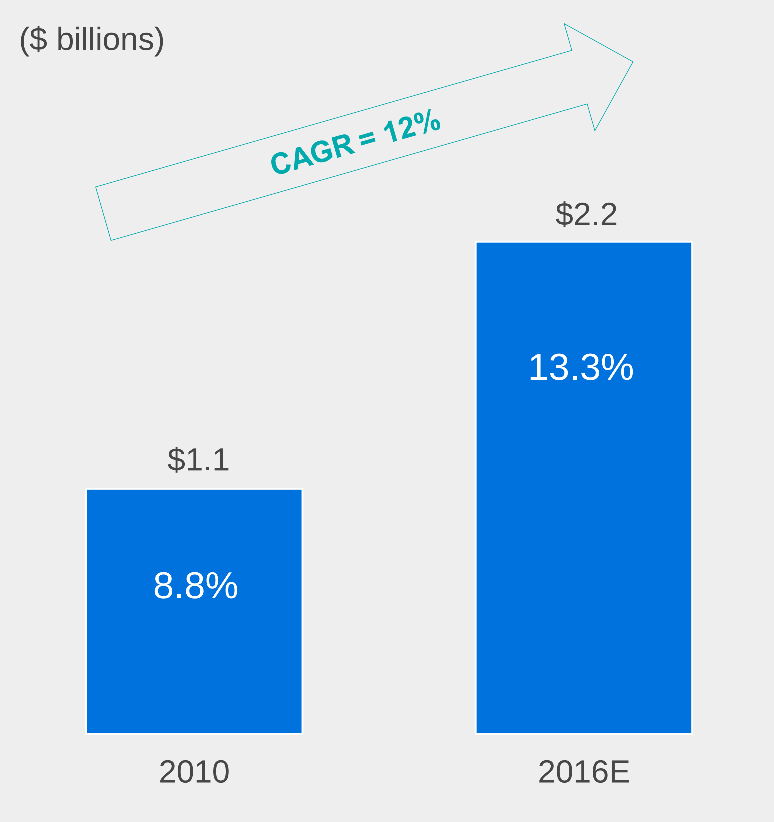
DELPHI

Performance highlights 2010-2016

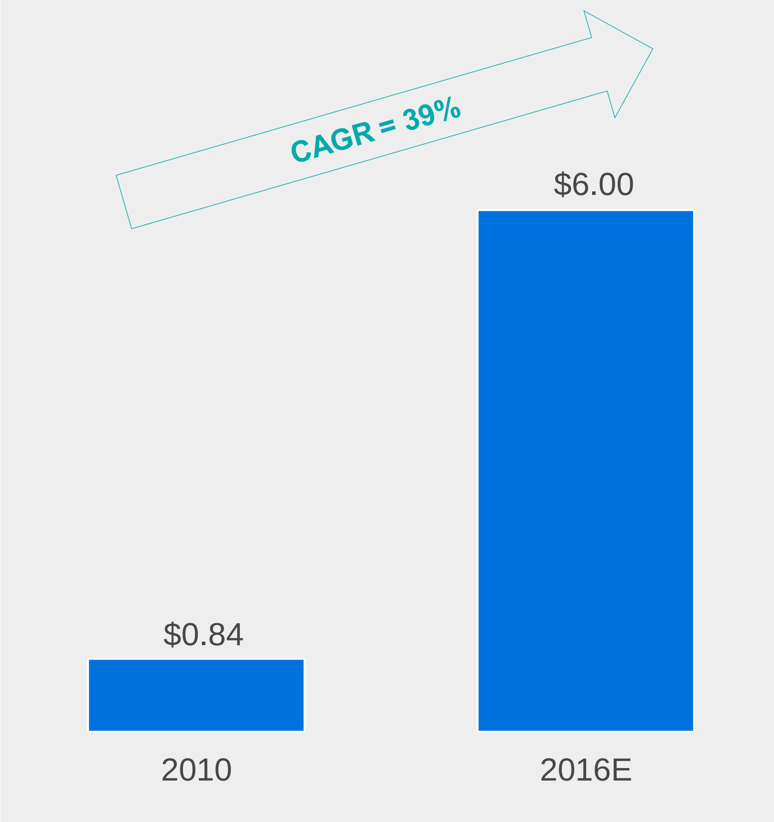
Revenue



Operating income[2]



EPS[3]



Track record of strong financial performance

1. Adjusted for FX, commodities, the E&S divestiture and significant historical acquisitions
2. Adjusted for restructuring and other special items; see appendix for detail
3. 2016E adjusted for restructuring and other special items; see appendix for detail

Note: All financial results contained within this presentation exclude Thermal

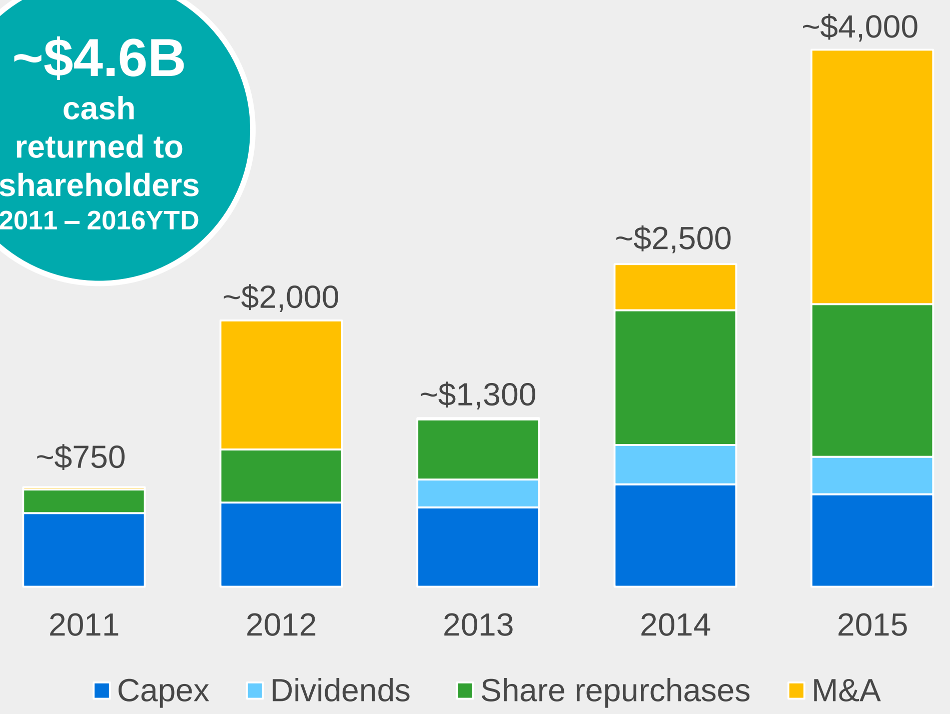
DELPHI

Capital allocation

2011-2015 capital allocation

($ millions)

~$4.6B cash returned to shareholders 2011 – 2016YTD



Capital deployment

Capital Expenditures 35-40%

- Supporting customer launches
- Technology tools for increasing business efficiency
- Further optimizing global footprint

Dividends 10-15%

- Increased dividend payout to ~15% of operating cash flow
- Increased annual dividend to $1.16

M&A and share repurchases 45-55%

- Portfolio modifications strengthen competitive position
- Pursue strategic transactions that enhance value
- $1.5B share repurchase authorization

Capital deployment drives shareholder returns

Value enhancing portfolio modifications

Acquisition | Divestiture | Investment

2014
Antaya Technologies
Expanded connectivity products portfolio

2012
FCI (MVL)
Strengthened leading position in connectors

2014
Unwired
Expanded connectivity products portfolio

2015
Reception Systems divestiture
Refocused E&S portfolio

2015
TULA
Software for dynamic cylinder deactivation

2015
Thermal divestitures Wholly owned and Korean JV
Refocused core portfolio

2015
HellermannTyton
Enhanced position in electrical architecture

2015
QUANERGY
Solid state LiDAR startup

2015
CONTROLTEC
Software-as-a-service for data management

2015
ottomatika
Software for automated driving

2016
puredepth
Multi-layer 3D display technology

2016
Thermal divestiture China JV
Refocused core portfolio

Transactions have increased shareholder value

DELPHI

Portfolio realignment

	Acquisition/ divestiture date	2015-2018 revenue CAGR	2015-2018 EBITDA Margins	Synergy achievement	Explanation
MVL	Q4 2012	~5%	~30%	1.5x	EBITDA margins over plan Synergies in excess of plan
UNWIRED TECHNOLOGY	Q4 2014	~30%	~20%	1.5x	Bookings ahead of plan Revenue growth well over plan Synergies in excess of plan
ANTAYA TECHNOLOGIES	Q4 2014	~20%	~40%	1.0x	Bookings ahead of plan Synergies in line with plan
Thermal[1]	Q2 2015	~10%	~10%	N/A	Non-core divestiture to focus on higher margin segments
Reception Systems[1]	Q3 2015	~(25%)	~5%	N/A	Divestiture refocuses E&S portfolio
CONTROLTEC	Q4 2015	~40%	~45%	N/A[2]	Penetrating new customers and expanding into new lines of business
HellermannTyton	Q4 2015	~10%	~20%	1.0x	Bookings ahead of plan Revenue growth over plan

Delivering incremental value through seamless execution

Note: MVL includes Connection Systems product line results

1. Thermal and Reception Systems represent projection estimates prior to divestiture
2. Cost synergies not included in investment thesis; revenue synergies not quantified at time of transaction

DELPHI

HellermannTyton

Highlights

Rationale
- Worldwide leader in cable management solutions
- Strengthens leadership in electrical architecture
- End-market expansion opportunity

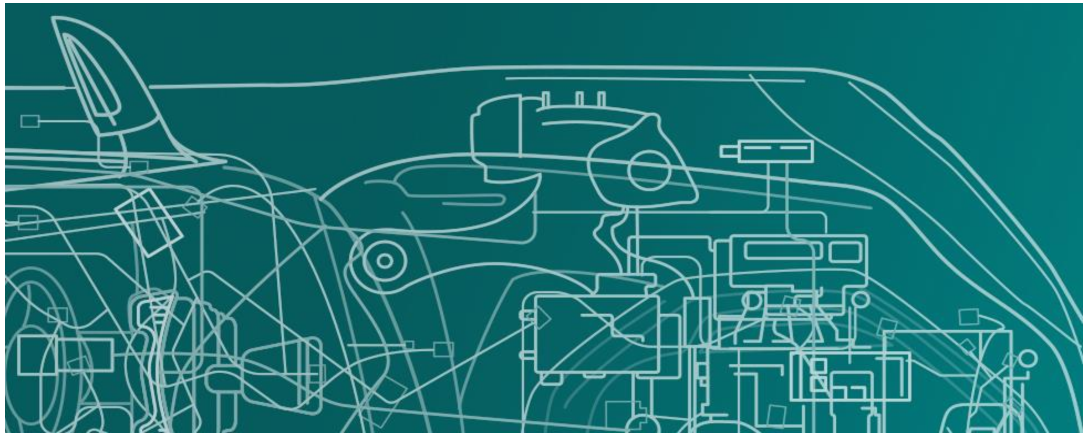
Integration
- Integration progressing ahead of plan
- Synergies tracking ahead of plan
- $0.15 accretive to 2016 EPS

Financials

Sales growth[1] (2015-18 CAGR)	EBITDA multiple with synergies	Synergies (full run rate)
~10%	9x	~$50M

Future opportunities

- Broad portfolio of highly engineered solutions
- Market leader with worldwide brand
- Diversified regional, customer and end-market revenues
- Strong track record of revenue and earnings growth



Strengthening our leadership in electrical architectures

1. Adjusted for FX and commodities; includes synergies
2. Management estimates of served market for plastic fixings & fasteners

Control-Tec

Highlights	
Rationale	• Broadens our "Big Data" capabilities • Leverages real-time data and the cloud • Accelerating Powertrain development cycle
Integration	• Penetrating new customers • Expanding into new lines of business • Enhancing analytics for critical AD data

Financials

Sales 2016	Growth (CAGR)	EBITDA Margins
~$40M	40%	45%

Future opportunities

- Expanding usage with global OEMs
- One system servicing multi-domains simultaneously

Today → **Tomorrow**

Strengthening our software and "Big Data" capabilities

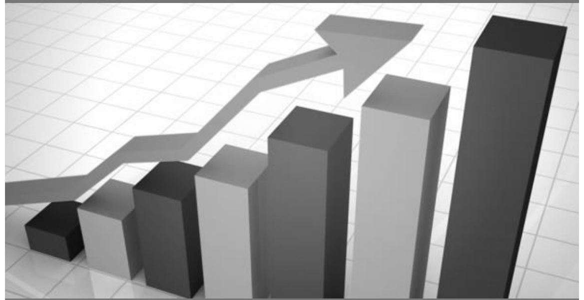
Delphi investment thesis

Portfolio management

- Portfolio aligned to megatrends
- Increasing exposure to key technologies
- Global scale and reach for key markets

Organic growth acceleration

- Targeted market penetration
- Well positioned for key customers in region
- Track record of growing >2x the market



Margin expansion

- Optimized cost structure
- Enterprise operating system advancements
- Flexible global footprint adaptation

Capital allocation

- Balanced, predictable cash deployment
- Laser-focused on shareholder return
- Essential, accretive portfolio enhancements

Delivering value is at the core of what we do

Making it possible.

DELPHI

Innovation for the Real World

Appendix

Non-US GAAP financial metrics

($ millions)	2010
Net income attributable to Delphi	$631
Income tax expense	$226
Interest expense	$30
Other (income) expense, net	($35)
Noncontrolling interest	$72
Equity income, net of tax	($6)
Income from discontinued operations, net of tax	($64)
Operating income	**$854**
Restructuring	$173
Other acquisition and portfolio project costs	-
Asset impairments	$9
(Gain) loss on business divestitures, net	-
Other transformation and rationalization costs	$48
Adjusted operating income	**$1,084**

The company's guidance was determined using a consistent manner and methodology

DELPHI

Non-US GAAP financial metrics

($ millions)	2015
Net income attributable to Delphi	$1,450
Income from discontinued operations attributable to Delphi, net of tax	($262)
Income from continuing operations attributable to Delphi	**$1,188**
Adjusting items:	
Restructuring	$177
Other acquisition and portfolio project costs	$47
Asset impairments	$16
(Gain) loss on business divestitures, net	$8
Debt extinguishment costs	$58
Transaction and related costs associated with acquisitions	$43
Contingent consideration liability fair value adjustment	($7)
Tax impact of adjusting items (a)	($35)
Adjusted net income attributable to Delphi	**$1,495**
Weighted average number of diluted shares outstanding	286.64
Diluted net income per share from continuing operations attributable to Delphi	$4.14
Adjusted net income per share	**$5.22**

(a) Represents the income tax impacts of the adjustments made for restructuring and other special items, as well as the elimination of the net impact of deferred tax asset valuation allowance changes in estimates of $12 million.

The company's guidance was determined using a consistent manner and methodology
