Safe Harbor statement under the Private Securities Litigation Reform Act of 1995

This presentation contains “forward-looking statements,” as defined in the Private Securities Litigation Reform Act of 1995. These statements, including statements about COVID-19 and the completed merger (the “Merger”) between a subsidiary of the Company and IHS Markit Ltd. (“IHS Markit”), which express management’s current views concerning future events, trends, contingencies or results, appear at various places in this presentation and use words like “anticipate,” “assume,” “believe,” “continue,” “estimate,” “expect,” “forecast,” “future,” “intend,” “plan,” “potential,” “predict,” “project,” “strategy,” “target” and similar terms, and future or conditional tense verbs like “could,” “may,” “might,” “should,” “will” and “would.” For example, management may use forward-looking statements when addressing topics such as: the outcome of contingencies; future actions by regulators; changes in the Company’s business strategies and methods of generating revenue; the development and performance of the Company’s services and products; the expected impact of acquisitions and dispositions; the Company’s effective tax rates; and the Company’s cost structure, dividend policy, cash flows or liquidity.

Forward-looking statements are subject to inherent risks and uncertainties. Factors that could cause actual results to differ materially from those expressed or implied in forward-looking statements include, among other things:

- worldwide economic, financial, political, and regulatory conditions, and factors that contribute to uncertainty and volatility, natural and man-made disasters, civil unrest, pandemics (e.g., COVID-19), geopolitical uncertainty (including military conflict), and conditions that may result from legislative, regulatory, trade and policy changes;
- the ability of the Company to retain customers and to implement its plans, forecasts and other expectations with respect to IHS Markit’s business and realize expected synergies;
- business disruption following the Merger;
- the Company’s ability to meet expectations regarding the accounting and tax treatments of the Merger;
- the health of debt and equity markets, including credit quality and spreads, the level of liquidity and future debt issuances, demand for investment products that track indices and assessments and trading volumes of certain exchange-traded derivatives;
- the demand and market for credit ratings in and across the sectors and geographies where the Company operates;
- the Company’s ability to successfully recover should it experience a disaster or other business continuity problem from a hurricane, flood, earthquake, terrorist attack, pandemic, security breach, cyber attack, data breach, power loss, telecommunications failure or other natural or man-made event, including the ability to function remotely during long-term disruptions such as the ongoing COVID-19 pandemic;
- the Company’s ability to maintain adequate physical, technical and administrative safeguards to protect the security of confidential information and data, and the potential for a system or network disruption that results in regulatory penalties and remedial costs or improper disclosure of confidential information or data;
- the outcome of litigation, government and regulatory proceedings, investigations and inquiries;
- concerns in the marketplace affecting the Company’s credibility or otherwise affecting market perceptions of the integrity or utility of independent credit ratings, benchmarks and indices;
- the effect of competitive products and pricing, including the level of success of new product developments and global expansion;
- the Company’s exposure to potential criminal sanctions or civil penalties for noncompliance with foreign and U.S. laws and regulations that are applicable in the domestic and international jurisdictions in which it operates, including sanctions laws relating to countries such as Iran, Russia, Sudan, Syria and Venezuela, anti-corruption laws such as the U.S. Foreign Corrupt Practices Act and the U.K. Bribery Act of 2010, and local laws prohibiting corrupt payments to government officials, as well as import and export restrictions;
- the continuously evolving regulatory environment, in Europe, the United States and elsewhere around the globe, affecting S&P Global Market Intelligence, S&P Global Ratings, S&P Global Commodity Insights, S&P Global Mobility, S&P Dow Jones Indices, S&P Global Engineering Solutions, and the products those business divisions offer including our ESG products, and the Company’s compliance therewith;
- the Company’s ability to make acquisitions and dispositions and successfully integrate the businesses we acquire;
- consolidation in the Company’s end-customer markets;
- the introduction of competing products or technologies by other companies;
- the impact of customer cost-cutting pressures, including in the financial services industry and the commodities markets;
- a decline in the demand for credit risk management tools by financial institutions;
- the level of merger and acquisition activity in the United States and abroad;
- the volatility and health of the energy and commodities markets;
- our ability to attract, incentivize and retain key employees, especially in today’s competitive business environment;
- the level of the Company’s future cash flows and capital investments;
- the impact on the Company’s revenue and net income caused by fluctuations in foreign currency exchange rates;
- the Company's ability to adjust to changes in European and United Kingdom markets as the United Kingdom leaves the European Union, and the impact of the United Kingdom’s departure on our credit rating activities and other offerings in the European Union and United Kingdom; and
- the impact of changes in applicable tax or accounting requirements on the Company.

The factors noted above are not exhaustive. The Company and its subsidiaries operate in a dynamic business environment in which new risks emerge frequently. Accordingly, the Company cautions readers not to place undue reliance on any forward-looking statements, which speak only as of the dates on which they are made. The Company undertakes no obligation to update or revise any forward-looking statement to reflect events or circumstances arising after the date on which it is made, except as required by applicable law. Further information about the Company’s businesses, including information about factors that could materially affect its results of operations and financial condition, is contained in the Company’s filings with the SEC, including Item 1A, *Risk Factors*, in our most recently filed Annual Report on Form 10-K.

S&P Global

Comparison of adjusted information to U.S. GAAP information

This presentation includes Company financials on an as-reported basis, and on a pro forma basis as if the merger had closed on January 1, 2021, for periods including fiscal year 2021, the three months ended June 30, 2021 and six months ended June 30, 2022 and 2021; the pro forma basis agrees to the Company's previously filed unaudited pro forma combined condensed financial information presented in accordance Article 11 of Regulation S-X. The Company also refers to and presents certain additional non-GAAP financial measures, within the meaning of Regulation G under the Securities Exchange Act of 1934. These measures are: adjusted revenue and non-GAAP pro forma adjusted revenue; adjusted diluted earnings per share and non-GAAP pro forma adjusted diluted earnings per share; adjusted net income and non-GAAP pro forma adjusted net income; adjusted operating profit and margin and non-GAAP pro forma adjusted operating profit and margin; organic revenue; adjusted Corporate Unallocated expense and non-GAAP pro forma adjusted Corporate Unallocated expense; other income, net and non-GAAP pro forma adjusted other income, net; adjusted interest expense, net and non-GAAP pro forma adjusted interest expense, net; adjusted provision for income taxes and non-GAAP pro forma adjusted provision for income taxes; adjusted effective tax rates; adjusted income before taxes on income and non-GAAP pro forma adjusted income before taxes on income; adjusted non-GAAP pro forma diluted EPS guidance; free cash flow and non-GAAP pro forma adjusted free cash flow excluding certain items.

Reconciliations of certain forward looking non-GAAP financial measures to comparable GAAP measures are not available due to the challenges and impracticability with estimating some of the items. The Company is not able to provide reconciliations of such forward looking non-GAAP financial measures because certain items required for such reconciliations are outside of the Company's control and/or cannot be reasonably predicted. Because of those challenges, reconciliations of such forward looking non-GAAP financial measures are not available without unreasonable effort.

The Company's non-GAAP measures include adjustments that reflect how management views our businesses. The Company believes these non-GAAP financial measures provide useful supplemental information that, in the case of non-GAAP financial measures other than free cash flow and non-GAAP pro forma adjusted free cash flow excluding certain items, enables investors to better compare the Company's performance across periods, and management also uses these measures internally to assess the operating performance of its business, to assess performance for employee compensation purposes and to decide how to allocate resources. The Company believes that the presentation of free cash flow and non-GAAP pro forma adjusted free cash flow excluding certain items allows investors to evaluate the cash generated from our underlying operations in a manner similar to the method used by management and that such measures are useful in evaluating the cash available to us to prepay debt, make strategic acquisitions and investments, and repurchase stock. However, investors should not consider any of these non-GAAP measures in isolation from, or as a substitute for, the financial information that the Company reports

The Company's earnings release dated August 2, 2022 contains exhibits that reconcile the differences between the non-GAAP measures and the most directly comparable financial measures calculated in accordance with U.S. GAAP. Such exhibits are available on the Company's website at https://investor.spglobal.com/quarterly-earnings.

EU regulation affecting investors in credit rating agencies

European Union Regulation 1060/2009 (as amended) applies to credit rating agencies (CRAs) registered in the European Union ("EU") and therefore to the activities of S&P Global Ratings Europe Limited, an indirect wholly-owned subsidiary of S&P Global Inc., which is registered and regulated as a CRA with the European Securities and Markets Authority.

The United Kingdom's Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019 applies to CRAs registered in the United Kingdom ("UK") and therefore to the activities of S&P Global Ratings UK Limited, an indirect wholly-owned subsidiary of S&P Global Inc., which is registered and regulated as a CRA with the Financial Conduct Authority.

Any person obtaining direct or indirect ownership or control of 5% or more or 10% or more of the shares in S&P Global Inc. may (i) impact how S&P Global Ratings can conduct its CRA activities in the EU and the UK, and/or (ii) themselves become directly impacted by EU Regulation 1060/2009 (as amended) and the Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019.

Persons who have or expect to obtain such shareholdings in S&P Global Inc. should promptly contact S&P Global's Investor Relations department (investor.relations@spglobal.com) for more information and should also obtain independent legal advice in such respect.

Doug Peterson
President and Chief Executive Officer

Disciplined execution and improved resilience post-merger

Financial highlights:
- Adjusted revenue* decreased 5% year-over-year, as resilience and strong commercial execution drove 7% growth in aggregate across 5 of the 6 divisions, partially offsetting the 26% decrease in Ratings revenue
- Recurring revenue increased 5% year-over-year, and represents 81% of total revenue
- Adjusted expenses increased 1%, driven by technology and employee expenses, partially offset by cost synergies and reduced incentive compensation accruals
- Reinstated 2022 guidance calling for a low to mid-single digit decrease in revenue and less than 2% decrease in adjusted EPS, at the midpoint. This reflects the challenging macroeconomic environment, partially offset by management actions

Additional highlights:
- Post-merger integration efforts are on schedule with cost and revenue synergies ahead of expectations
- Continued innovation across the organization post-merger, as demonstrated by multiple product launches and progress in key strategic initiatives
- Volatility continues to benefit certain areas of the business
- Accelerated share repurchases, executing $8.5 billion year-to-date, and remaining on track to complete $12 billion by year-end

*Adjusted financials refer to Non-GAAP Adjusted metrics in the current period, and Non-GAAP pro forma adjusted metrics in the year-ago period

Significant progress in the first 100 days post-merger with key milestones accomplished across multiple areas

Robust Commercial Momentum

- **Launched an integrated global marketing campaign** to support the relaunch of the S&P Global brand
- **Recorded 2,000+ cross-sell referrals** across divisions
- **On track to deliver revenue synergies in 2022**

Year 1 Cost Synergy Achievement

- **Realized ~$80m in cost synergies YTD**, primarily from organizational redesign and real estate rationalization
- **Exiting 2Q at ~$260m annualized run-rate**

Divested businesses and rationalized real-estate

- **Completed multiple mandated divestitures** including CUSIP, LCD, Base Chem and OPIS
- **Consolidated 10 locations** to bring employees closer together by **deploying hybrid ways of working**

Focus on Innovation

- **Deployed Kensho capabilities** to automate processes and **derive value in IHS Data Lake data sets**
- **Relaunched the S&P Global Research Council** to align on research initiatives

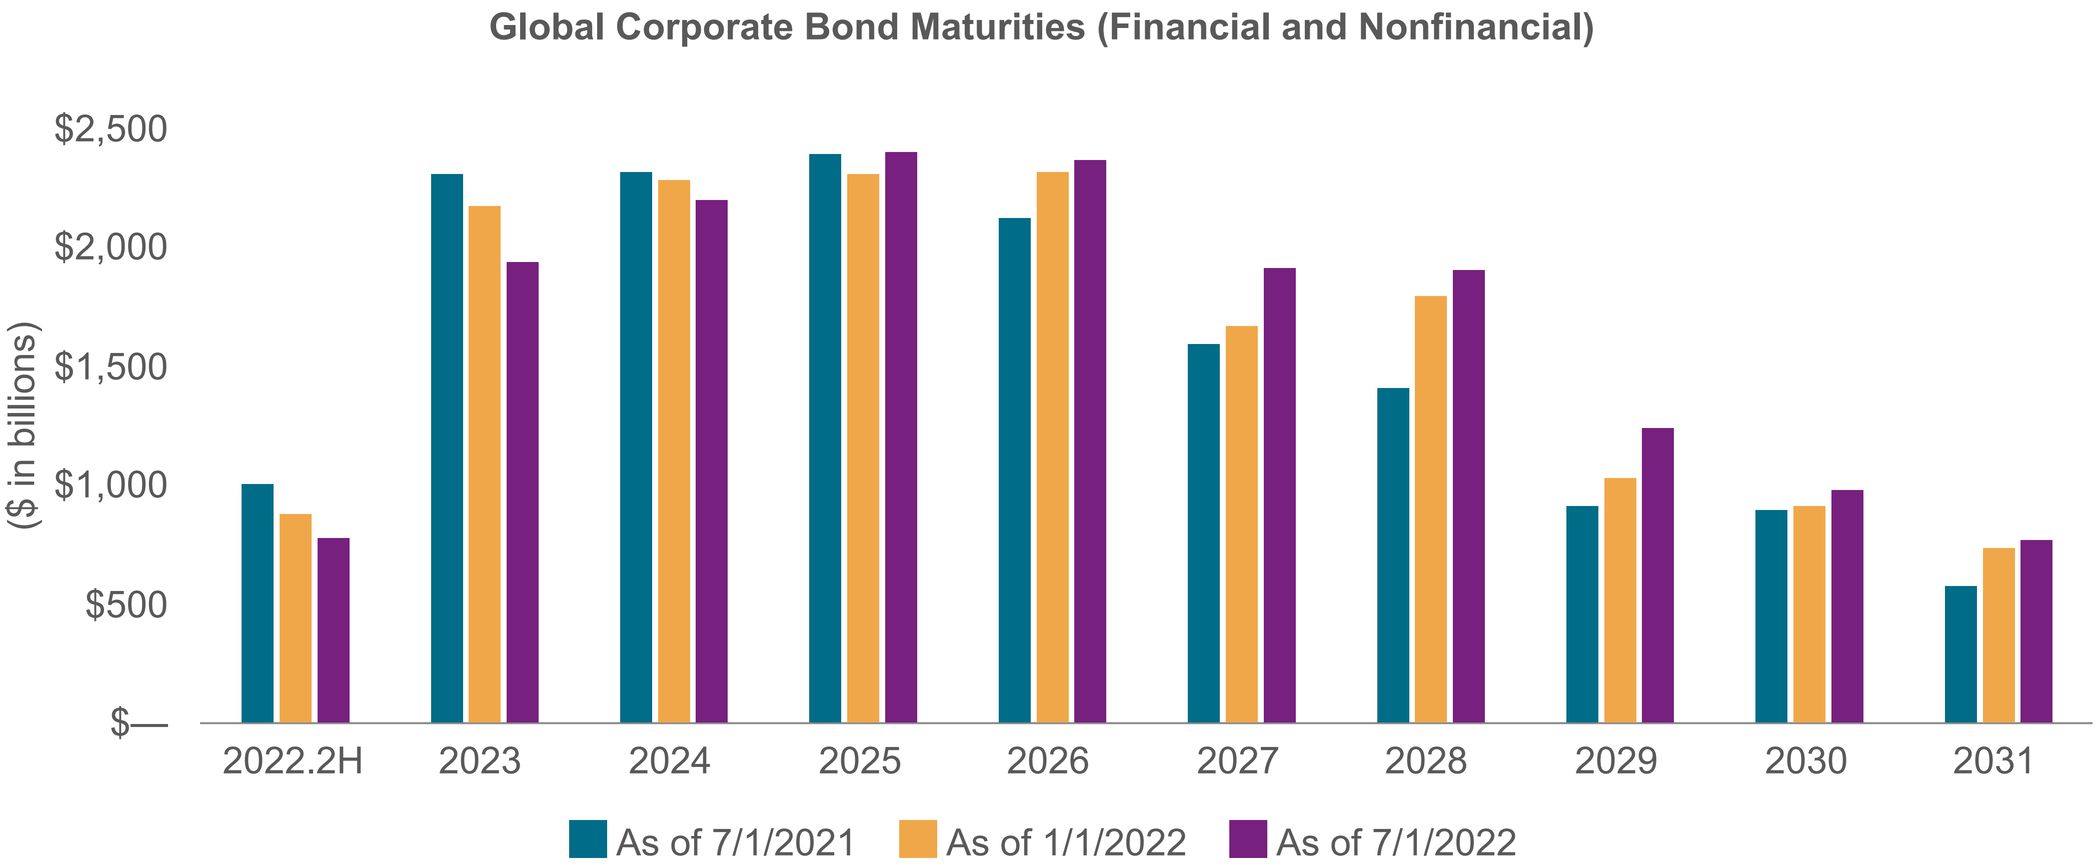
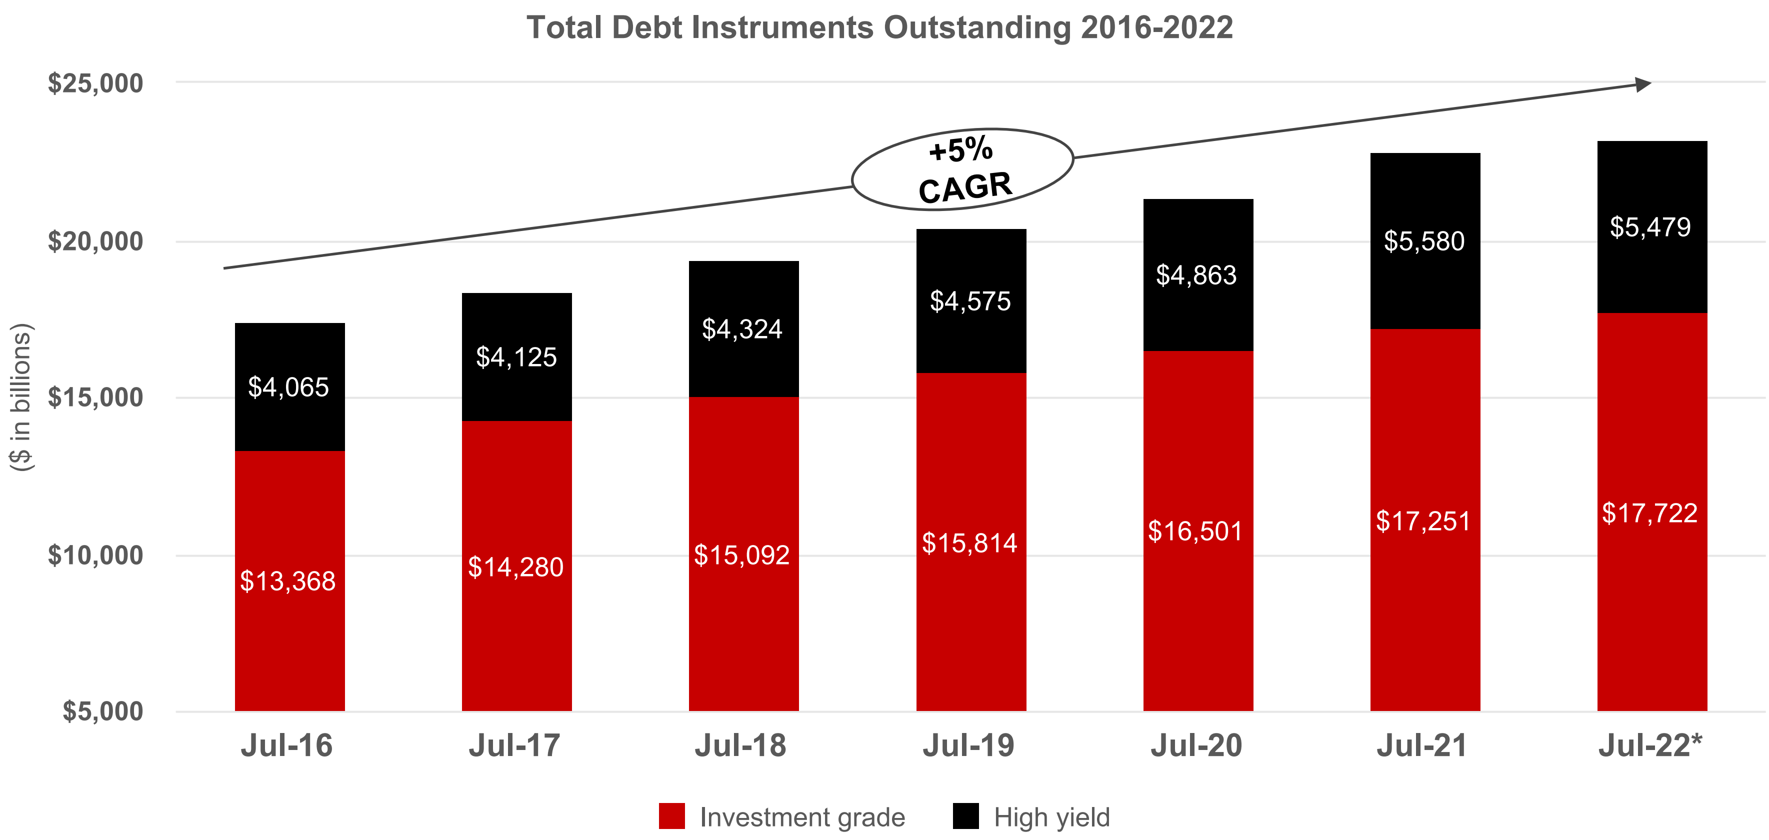
2022 Outlook

Latest global refinancing study shows increases in longer-term maturities — higher debt maturing in 7 of the next 10 years



*For the report period as of 7/1/2022, 2022 reflects debt maturing in the second half of the year. Includes bonds, loans, and revolving credit facilities that are rated by S&P Global Ratings from financial and nonfinancial corporate issuers.

Level of debt instruments outstanding continues to grow on a constant currency basis, highlighting long-term resilience of debt issuance

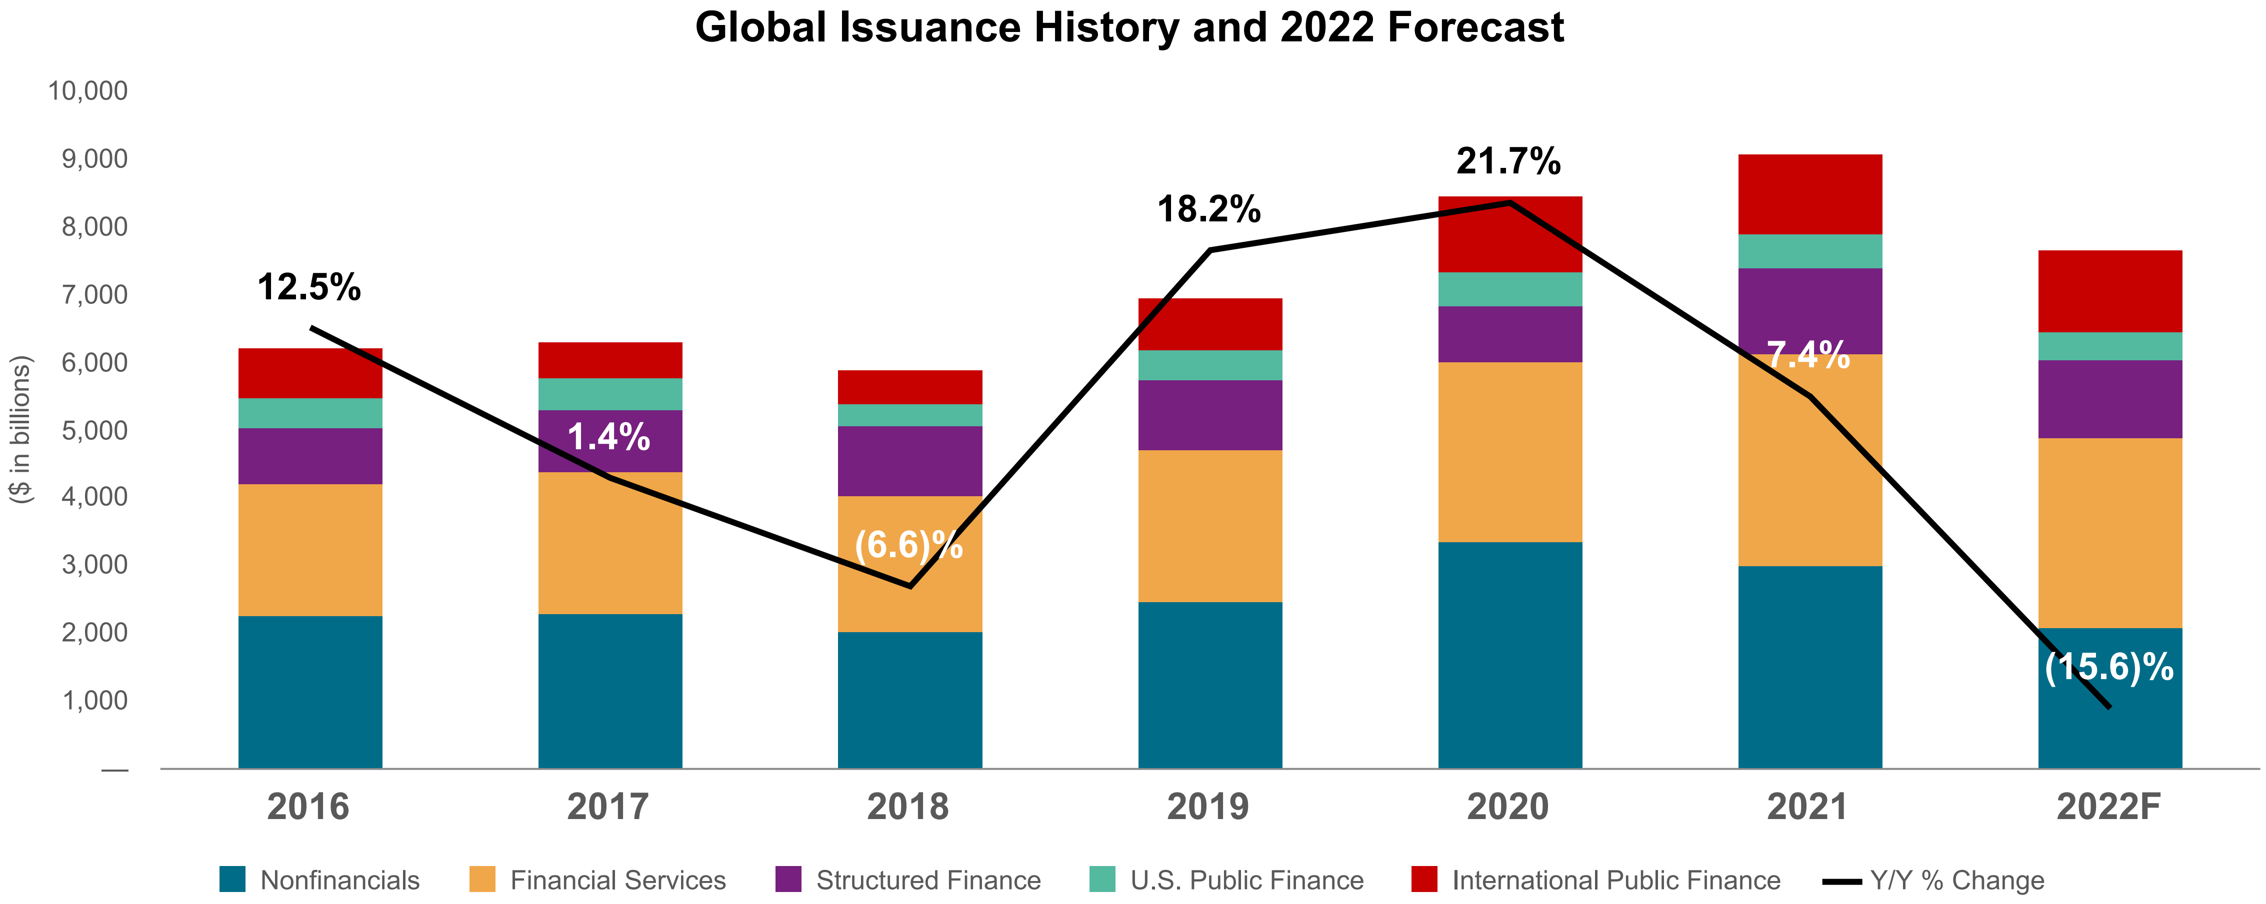


*Adjusted to FX rates as of 1/1/2022

Includes bonds, loans, and revolving credit facilities that are rated by S&P Global Ratings from financial and nonfinancial issuers.

Source: S&P Global Ratings Research

S&P Global Ratings now forecasts a 16% decrease in bond issuance in 2022 against a very strong 2021



*Note: Structured finance excludes transactions that were fully retained by the originator, domestically-rated Chinese issuance, and CLO resets and refinancings

2Q 2022 financial results

Adjusted financials*	2Q22	2Q21	Change
Revenue	$2,970	$3,113	(5)%
Corporate unallocated expense	$22	$36	(40)%
Total expense	$1,568	$1,556	+1%
Operating profit	$1,402	$1,557	(10)%
Operating margin	47.2%	50.0%	(280 bps)
Interest expense, net	$90	$87	+3%
Adjusted Effective tax rate	21.7%	24.1%	(240 bps)
Net income (less NCI)	$955	$1,077	(11)%
Diluted EPS	$2.81	$3.03	(7)%
Weighted average diluted shares outstanding	339.3	355.6	(5)%
Adjusted Free Cash Flow, excluding certain items	$924	-	n/m

(figures above in millions, except per share amounts; some amounts may not sum due to rounding)
*Adjusted financials refer to Non-GAAP Adjusted metrics in the current period, and Non-GAAP pro forma adjusted metrics in the year-ago period

Movements in foreign exchange rates had a $0.01 unfavorable impact on adjusted EPS in 2Q22

Favorable (Unfavorable)	S&P Global Market Intelligence	S&P Global Ratings	S&P Global Mobility	S&P Global Commodity Insights	S&P Dow Jones Indices A Division of S&P Global	S&P Global Engineering Solutions
Revenue	($9.4)	($21.8)	($3.5)	($1.2)	($2.4)	($2.3)
Adjusted Operating Profit	$5.4	($5.9)	($1.0)	($1.0)	($2.0)	($1.0)
Adjusted EPS	$0.01	($0.01)	($0.0)	($0.0)	($0.0)	($0.0)

($ in millions, except per share data)

Key factors mitigating impact of currency changes

- Approximately 3/4 of international revenue is invoiced in U.S. dollars
- Hedges are in place for key currencies to mitigate a portion of the risk

Key factors mitigating impact of currency changes

- SPGI revenue had an unfavorable impact primarily from the U.S. dollar strengthening against the Euro and British Pound across the divisions. SPGI expense had a favorable impact, due to the strengthening of the U.S. dollar against the Euro and British Pound, and Indian Rupee.

Multiple levers to reduce cost while remaining committed to strategic investments

Management Actions

1. **Pull-forward Synergies**

   Taking synergy actions earlier than originally anticipated leading to 2022 savings

2. **Incentives**

   Reduced incentive accruals, with further capacity to evaluate in the 2nd half of the year

3. **Investment Program Reduction**

   Selectively postponing investment spend where appropriate given economic conditions

4. **Other Expense Levers**

   Opportunity with selective hiring, pausing consulting engagements and other discretionary spend

Investments

1. **People Investments**

   Creating capacity to invest in our top talent through various retention initiatives

2. **Innovation Investments**

   Maintaining the majority of $130m investment program, on-track to spend ~$115m

3. **Infrastructure Investments**

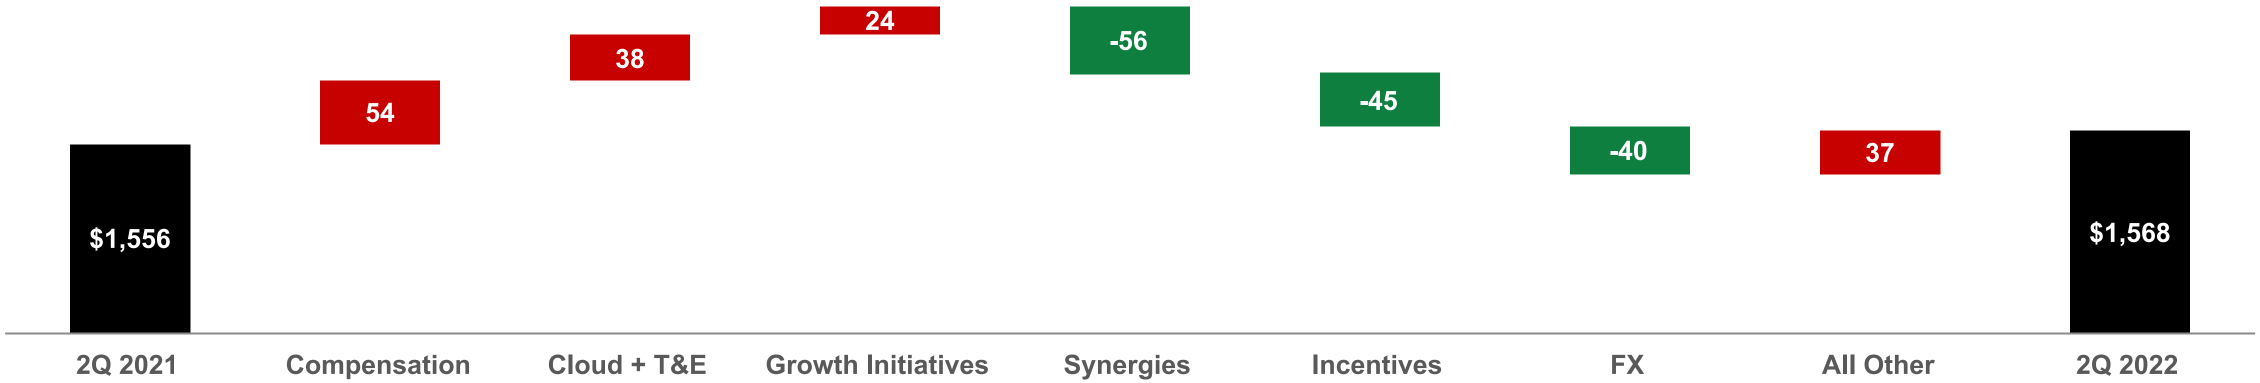
   Continued migration from data centers to cloud and Risk initiatives (Cyber security & suspension of operations in Russia)

4. **Integration/Synergies**

   Prioritizing key efforts associated with a successful integration and delivering synergies

Continued investments in innovation and people, offset by synergies and incentives leading to modest year over year growth in expenses

($ in millions, Total Adjusted Expenses)



- **Compensation** general inflationary increases and investments in retention efforts
- **Cloud + T&E** due to transition of data centers to cloud storage and return of moderated travel
- **Growth Initiatives** includes strategic investments in ESG, China, Energy Transition, etc.
- **Synergies** significant synergy achievement ahead of plan for the quarter
- **Incentives** performance connected true-ups

(figures above in millions; some amounts may not sum due to rounding)
Adjusted financials refer to Non-GAAP Adjusted metrics in the current period, and Non-GAAP pro forma adjusted metrics in the year-ago period

We are accelerating synergy execution; significant total target cost synergies already actioned

	Targets	Cumulative achievement[1]
Cost Synergies	~$600M **~80% achievement by 2023**	~$260M **Run-rate** **~$80M achieved YTD**
Revenue Synergies	~$350M **~50% achievement by 2024**	~$15M **Run-rate** **~$2M achieved YTD**
CTAs[2] + Integration Spend	~1.1X total synergies	~$540M

1. Cumulative synergies include synergies achieved both prior to, and since, the merger close through 2Q 2022
2. Includes costs associated with achieving synergies, representing ~75% of total one-time costs

Market Intelligence: Continued growth driven by strong market demand for differentiated data and products

Adjusted 2Q results*	**2Q 2022**	**2Q 2021**	**Change**
Revenue	$1,020	$957	+7%
Recurring revenue as % of revenue	95.8%	95.6%	+20 bps
Segment operating profit	$336	$312	8%
Segment operating margin	33.0%	32.6%	+40bps
Trailing twelve-month segment operating margin	30.2%	—	n/m
Operating profit from OSTTRA JV (not included above)	$25	$13	90%

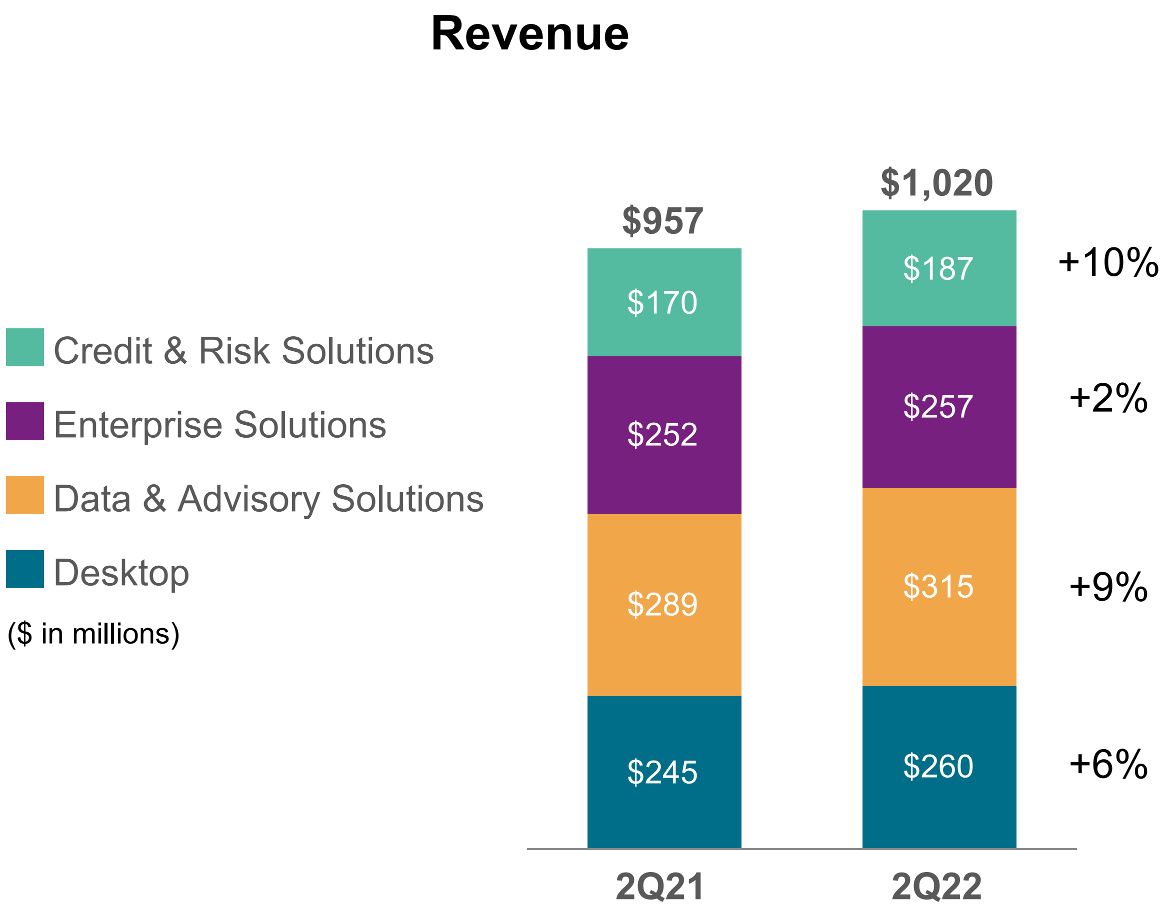
($ in millions)

2Q 2022 Highlights:

- Revenue increased 7% year-over-year, led by 10% growth in Credit & Risk Solutions, and strong growth in Data & Advisory Solutions and Desktop. Growth was partially tempered by volume-driven slowness in Enterprise Solutions.
- Expense growth of 6% driven primarily by increases in compensation expense, cloud spend, and outside services, offset by cost synergies and incentive compensation.

*Adjusted financials refer to Non-GAAP Adjusted metrics in the current period, and Non-GAAP pro forma adjusted metrics in the year-ago period

Market Intelligence adjusted revenue* increased 7% year-over-year, with positive growth in all categories, and 10% growth in C&R Solutions



- Credit and Risk Solutions benefited from solid commercial execution and strong performance of Financial Risk Analytics and Credit Analytics
- Enterprise Solutions saw strong underlying subscription growth, offset by continued softness in capital markets volume-based offerings
- Data & Advisory Solutions delivered growth across all major products, with significant growth in Maritime & Trade, Marketplace, and ESG products
- Desktop growth driven by strong new sales and renewals, particularly among capital markets participants, professional services companies, and financial corporates

(figures above in millions; some amounts may not sum due to rounding)
*Adjusted financials refer to Non-GAAP Adjusted metrics in the current period, and Non-GAAP pro forma adjusted metrics in the year-ago period

Ratings: Continued issuance declines pressure transaction revenue

Adjusted 2Q results*	2Q 2022	2Q 2021	Change
Revenue	$796	$1,073	(26)%
Segment operating profit	$473	$729	(35)%
Segment operating margin	59.5%	68.0%	(850 bps)
Trailing twelve-month segment operating margin	59.8%	—	n/m

($ in millions)

2Q 2022 Highlights:

- Revenue decreased 26% year-over-year driven by a continued sharp decrease in issuance
- (6)% change to adjusted expense, driven by FX, lower incentive expenses, as well as lower occupancy costs, partially offset by increased salary and fringe expense, and T&E expenditures

(figures above in millions; some amounts may not sum due to rounding)
*Adjusted financials refer to Non-GAAP Adjusted metrics in the current period, and Non-GAAP pro forma adjusted metrics in the year-ago period

Ratings: Transaction revenue decreased from significant issuance decline

Adjusted 2Q results*	2Q 2022	2Q 2021	Change
Transaction	$344	$615	(44)%
Non-transaction	$452	$458	(1)%

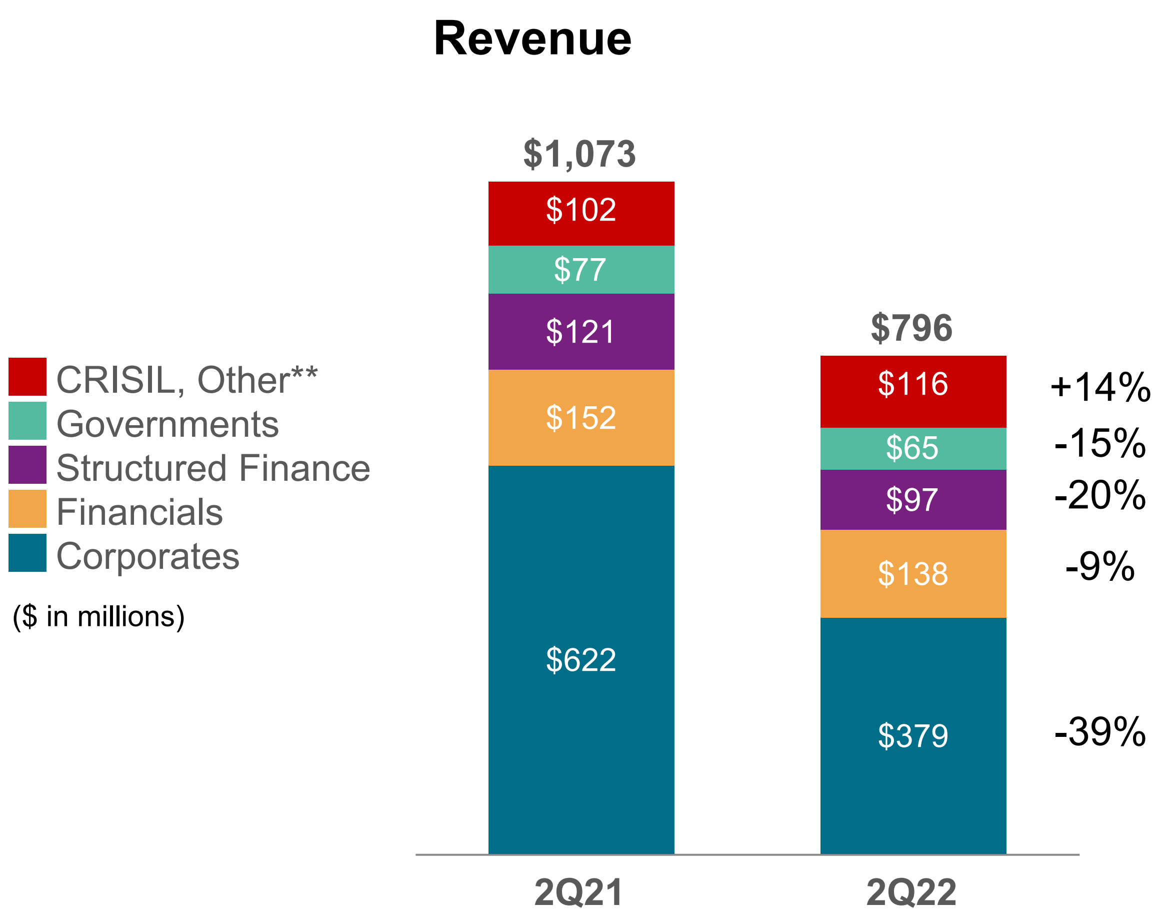
($ in millions)

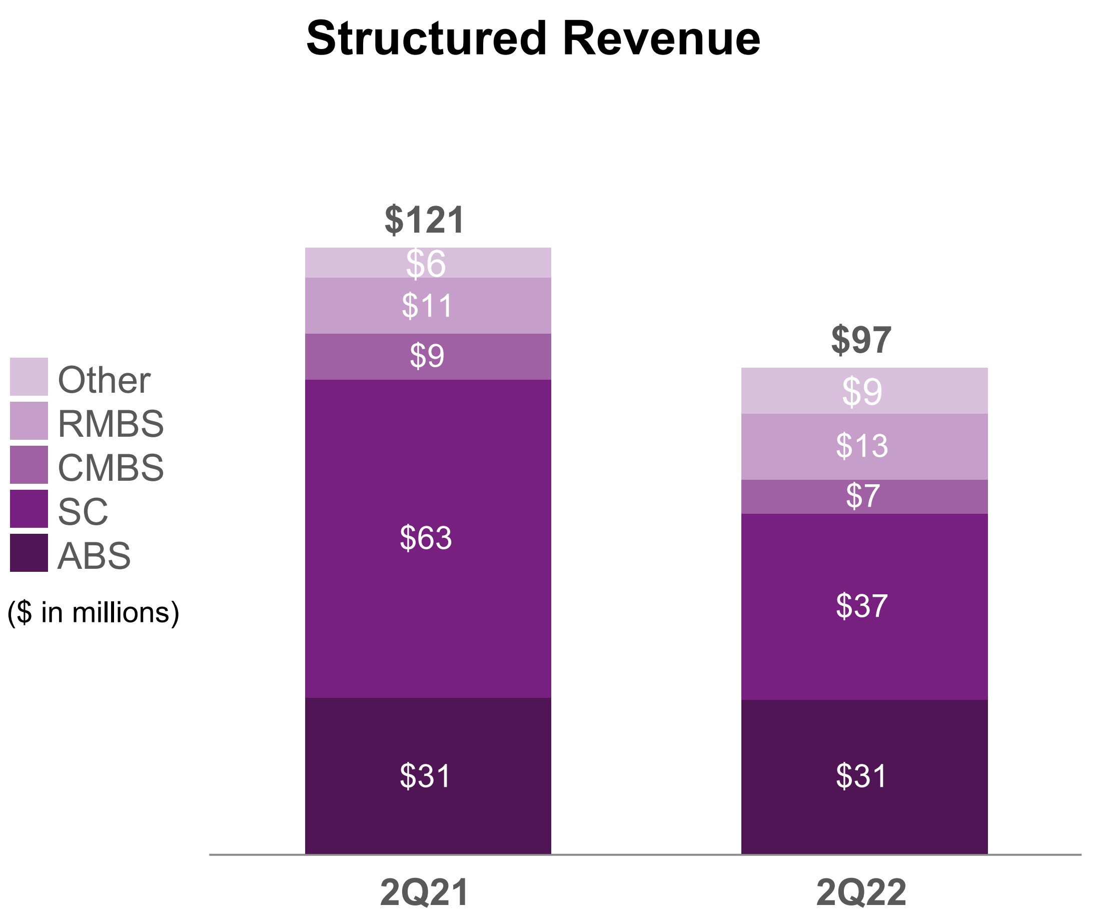
2Q 2022 Highlights:

- Transaction revenue declined 44% year-over-year with decreases in most categories
- Non-transaction revenue decreased 1%, primarily due to lower ICR and RES revenues, as well as unfavorable FX, partially offset by increases in CRISIL and Annual Fees. Excluding the FX impact, non-transaction would have increased 2% year-over-year

*Adjusted financials refer to Non-GAAP Adjusted metrics

Ratings revenue* impacted by continued unfavorable macro conditions, especially in Corporates and Structured Finance; partially offset by CRISIL





*Adjusted financials refer to Non-GAAP Adjusted metrics in the current period
**Other includes intersegment royalty, Taiwan Ratings Corporation, and adjustments

Commodity Insights: Revenue acceleration driven by strong subscription growth, partially offset by Russia impact

Adjusted 2Q results*	2Q 2022	2Q 2021	Change
Revenue	$427	$413	+4%
Recurring revenue as % of revenue	90.4%	89.7%	+70 bps
Segment operating profit	$188	$184	+3%
Segment operating margin	44.0%	44.4%	(40 bps)
Trailing twelve-month segment operating margin	43.3%	—	n/m

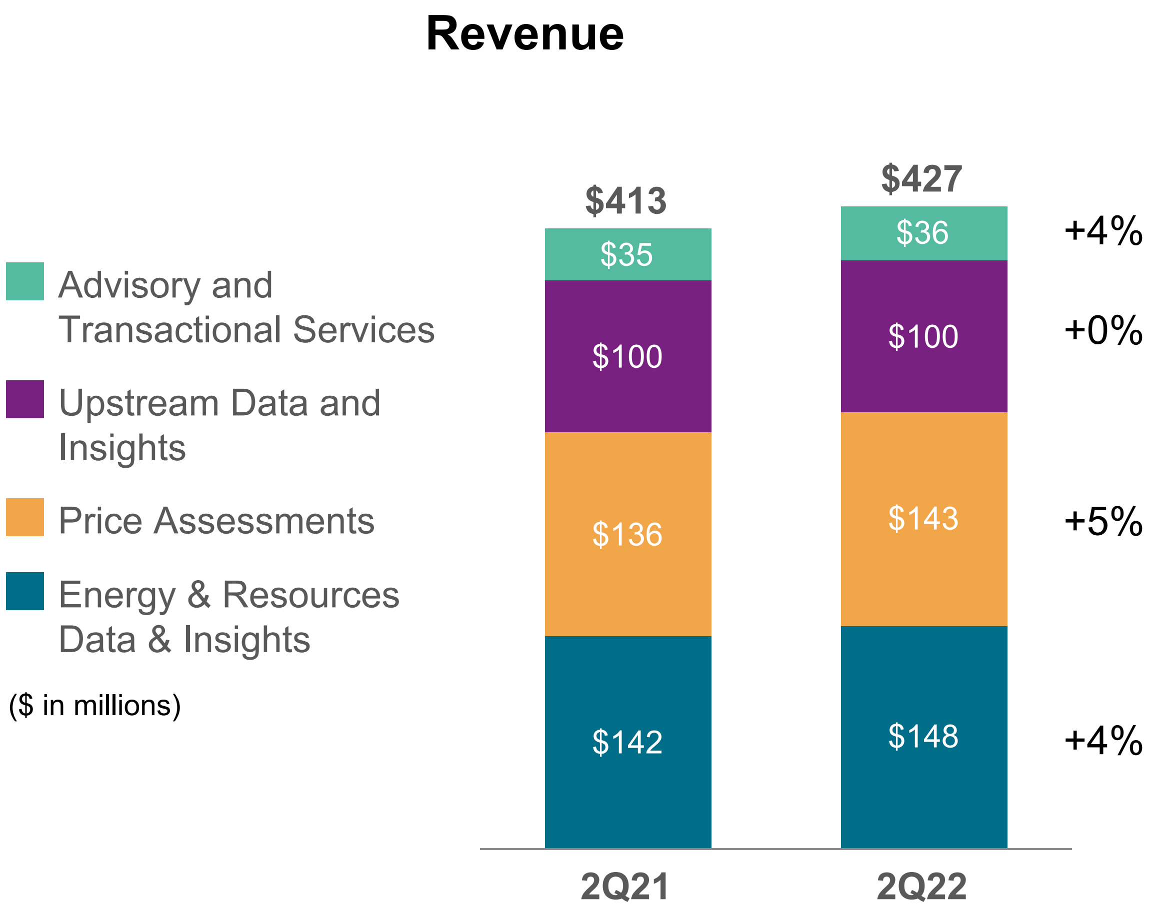
($ in millions)

2Q 2022 Highlights:

- Revenue increased 4%, primarily driven by growth in Price Assessments, as well as strength in Energy & Resources Data & Insights (ERDI) and Advisory & Transactional Services; excluding the impact of Russia/Ukraine, revenue growth would have been ~7%
- Adjusted expenses increased 4%, primarily due to compensation related to salary and fringe and increase in T&E expense, partially offset by realization of merger-related synergies and lower incentive compensation
- On a full-year run-rate basis, we expect the Russia/Ukraine conflict to negatively impact CI revenue and operating profit by approximately $52 million and $51 million, respectively, partially offset by strong commercial momentum.

*Adjusted financials refer to Non-GAAP Adjusted metrics in the current period, and Non-GAAP pro forma adjusted metrics in the year-ago period

Commodity Insights revenue* increased 4% over 2Q21, or ~7% excluding the Russia/Ukraine impact



- Advisory and Transactional increased 4%, driven by Commodity Insights Conferences and strength in Consulting revenue, partially offset by volume-driven GTS declines
- Upstream Data and Insights revenues increased marginally, with Q2 2022 representing the third consecutive quarter of ACV growth (adjusted for the impact of Russia)
- Price Assessments increased 5%, driven by strong subscription growth for Market Data offerings and continued commercial momentum
- Energy & Resources Data & Insights increased 4%, driven by strength in Gas, Power & Renewables and in Petrochemicals

*Adjusted financials refer to Non-GAAP Adjusted metrics in the current period, and Non-GAAP pro forma adjusted metrics in the year-ago period

Mobility: Used car demand drove subscription growth and high retention rates

Adjusted 2Q results*	2Q 2022	2Q 2021	Change
Revenue	$337	$315	+7%
Recurring revenue as % of revenue	78.3%	76.0%	+230 bps
Segment operating profit	$141	$129	+9%
Segment operating margin	41.9%	41.0%	+90 bps
Trailing twelve-month segment operating margin	39.5%	—	n/m

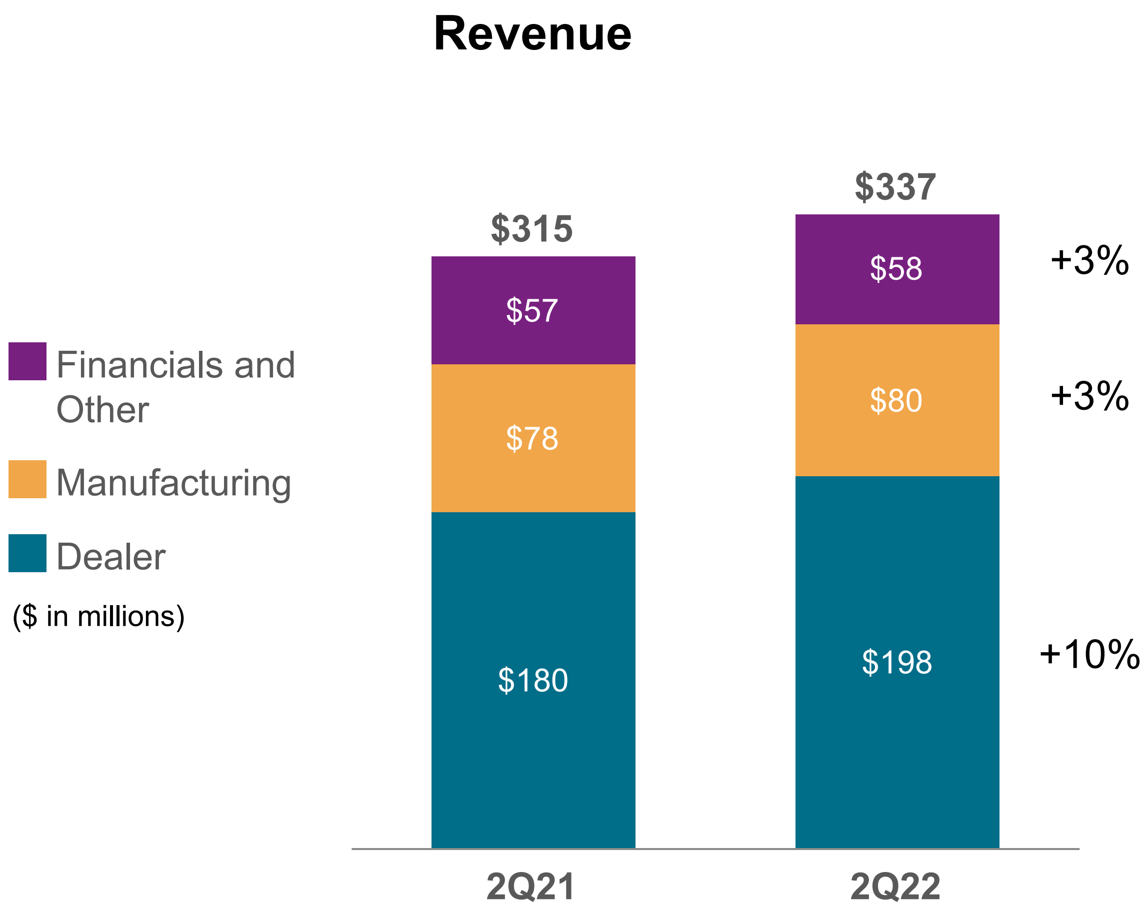
($ in millions)

2Q 2022 Highlights:

- Revenue growth of 7% driven by continued Dealer subscription growth and high retention rates, tempered by lower demand for sales and marketing solutions due to low vehicle inventory levels
- Adjusted expenses increased 5% due to planned increases in headcount and advertising expense, which were somewhat offset by a reduction in purchased data and office costs, and reduced incentive compensation

*Adjusted financials refer to Non-GAAP Adjusted metrics in the current period, and Non-GAAP pro forma adjusted metrics in the year-ago period

Mobility driven by double-digit growth in Dealer revenue* as CARFAX continues to drive new business



- Financials driven by strength in insurance underwriting and claims, tempered by slowing consumer activity
- Manufacturing growth driven by demand for supply chain products among suppliers, tempered by relatively flat OEM revenues
- Dealer revenue growth driven by continued new business at CARFAX and very high retention rates, bolstered by dealer profitability, tempered by lower sales and marketing activity

*Adjusted financials refer to Non-GAAP Adjusted metrics in the current period, and Non-GAAP pro forma adjusted metrics in the year-ago period

S&P Dow Jones Indices: Strong growth in revenue and adjusted segment operating profit

Adjusted 2Q results*	2Q 2022	2Q 2021	Change
Revenue	$338	$303	+12%
Recurring revenue as % of revenue	83.1%	88.5%	(540 bps)
Segment operating profit	$243	$209	+16%
Segment operating margin	71.9%	69.0%	+290 bps
Trailing twelve-month segment operating margin	68.6%	—	n/m

($ in millions)

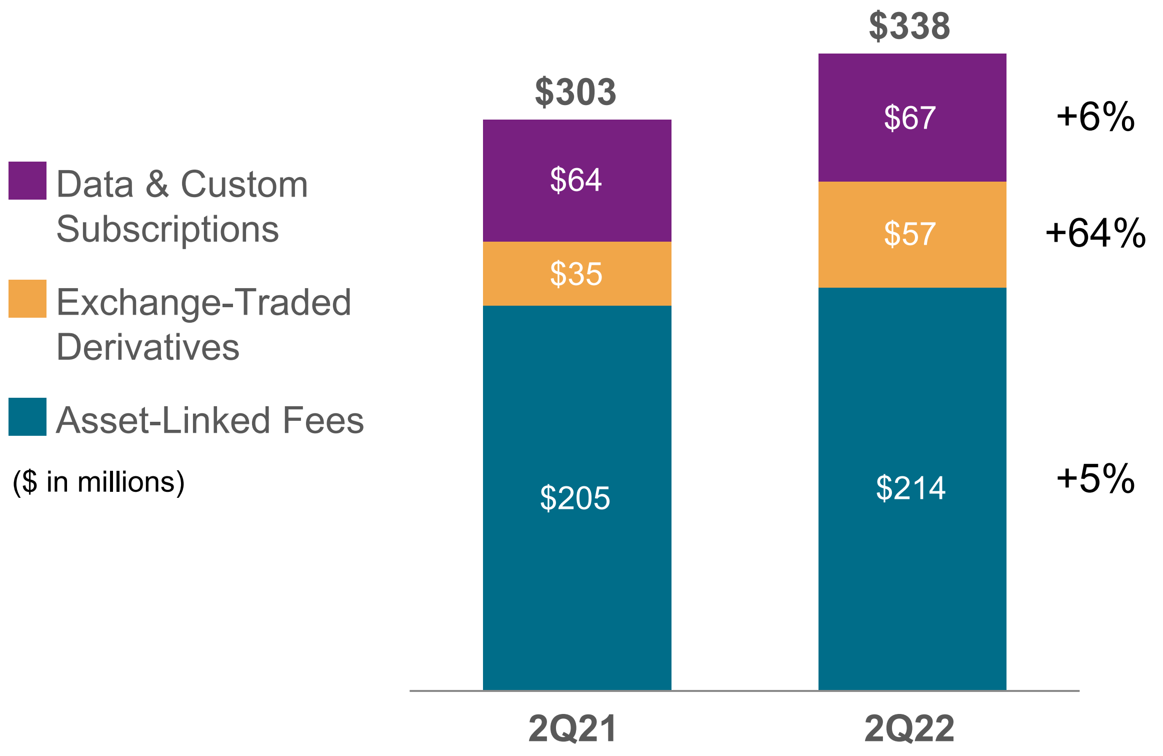
2Q 2022 Highlights:

- Revenue increased 12%, primarily due to gains in ETD average daily volumes
- Adjusted expenses increased 1% primarily due to continued strategic investments and higher information services and T&E expense, offset by lower incentive compensation

*Adjusted financials refer to Non-GAAP Adjusted metrics in the current period, and Non-GAAP pro forma adjusted metrics in the year-ago period

S&P Dow Jones Indices: 12% revenue* growth driven by strong volume growth in ETD products

Revenue



- Data & Custom Subscriptions growth driven by new business activities increasing end of day (EOD) ACV and custom hybrid reporting
- Exchange-Traded Derivatives revenue driven by strong volumes across key contracts
- Asset-Linked Fees revenue growth driven by SPDJI ETF and Mutual Funds, with average associated AUM up 5% year-over-year

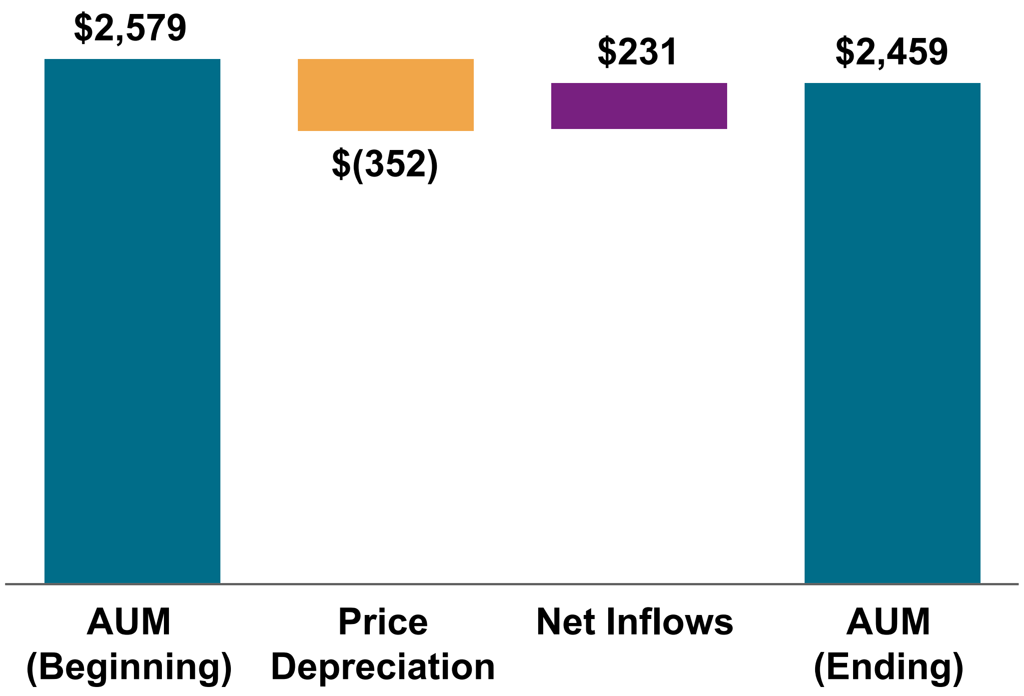
*Adjusted financials refer to Non-GAAP Adjusted metrics in the current period, and Non-GAAP pro forma adjusted metrics in the year-ago period

S&P Dow Jones Indices: Positive net inflows were partially offset by price depreciation for ETF AUM

Asset-Linked Fees:

- Quarter-ending ETF AUM associated with our indices was $2,459 billion, down 5% compared to 2Q2021
- 2Q average ETF AUM associated with our indices increased 5% year-over-year
- Industry net inflows into exchange-traded funds were $136 billion in 2Q, of which U.S. equity inflows were $34 billion
- On a q/q basis, SPDJI acquired net inflows totaled $6 billion, while price depreciation totaled $436 billion

ETF AUM: 2Q21-2Q22 (in billions)



Engineering Solutions: Growth in subscription and non-subscription revenue

Adjusted 2Q results*	2Q 2022	2Q 2021	Change
Revenue	$96	$93	+3%
Recurring revenue as % of revenue	92.8%	93.3%	(50 bps)
Segment operating profit	$17	$18	(7)%
Segment operating margin	17.5%	19.4%	(190 bps)
Trailing twelve-month segment operating margin	19.4%	—	n/m

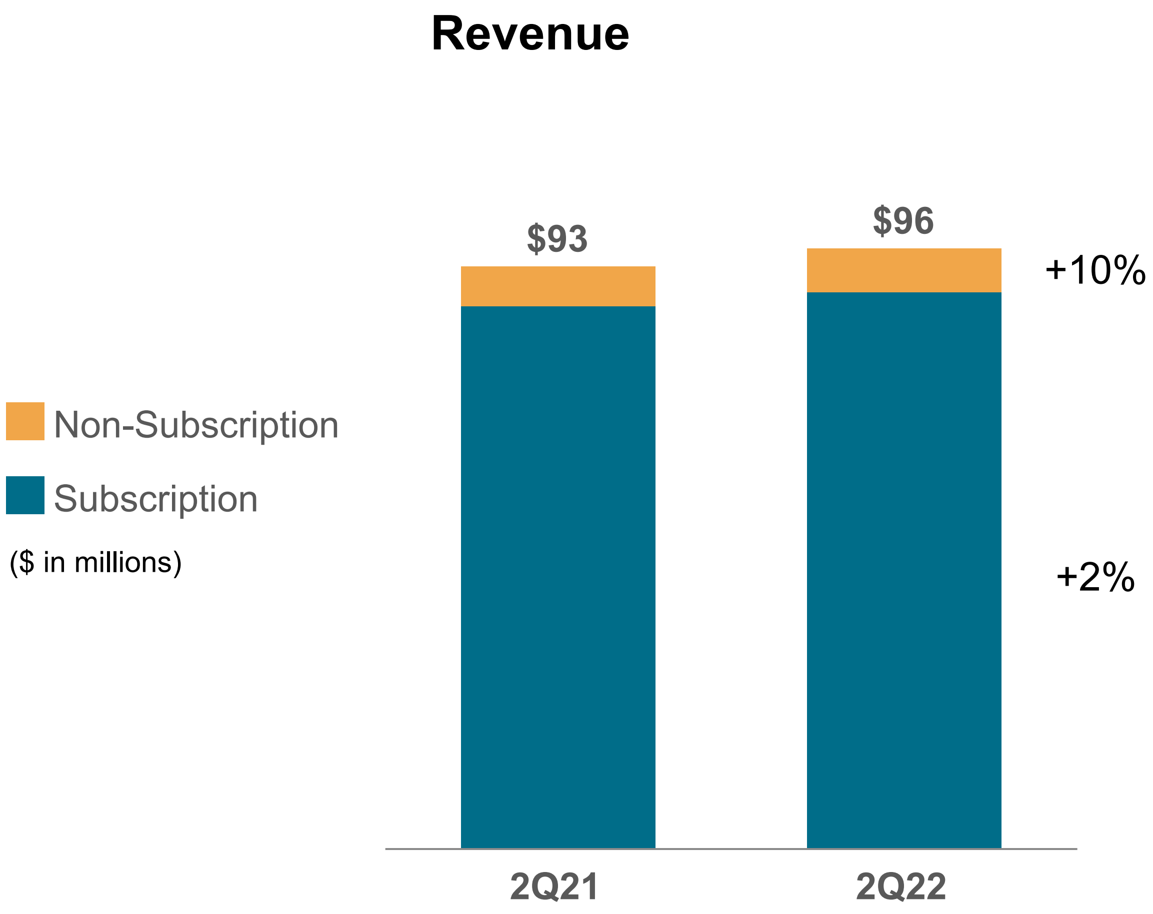
($ in millions)

2Q 2022 Highlights:

- Revenue increased 3%, driven by growth both in core subscription offerings and non-subscription products
- Adjusted expenses increased 5% due to investment in product development and increased royalties

*Adjusted financials refer to Non-GAAP Adjusted metrics in the current period, and Non-GAAP pro forma adjusted metrics in the year-ago period

Engineering Solutions saw positive revenue* growth across all product offerings



- Non-subscription revenue increased 10% year-over-year primarily due to retail transaction, Goldfire, and Parts services
- Subscription revenue increased 2%

*Adjusted financials refer to Non-GAAP Adjusted metrics in the current period, and Non-GAAP pro forma adjusted metrics in the year-ago period

Updated 2022 GAAP guidance

	Most Recent GAAP (suspended 6/1/22)	New GAAP

Appendix

2Q 2022: Non-GAAP adjustments

Pre-tax items excluded to arrive at adjusted results	2Q 2022
IHS Markit merger-related costs:	
- Transaction costs (to complete the transaction)	$38
- Integration costs (to operationalize the transaction)	$33
- Costs-to-achieve (to enable cost and revenue synergies)	$149
Deal-related amortization	$282
Gain on sale of business	$(556)
Other	$(26)
Total*	**$(80)**

($ in millions)
*Total may not sum due to rounding

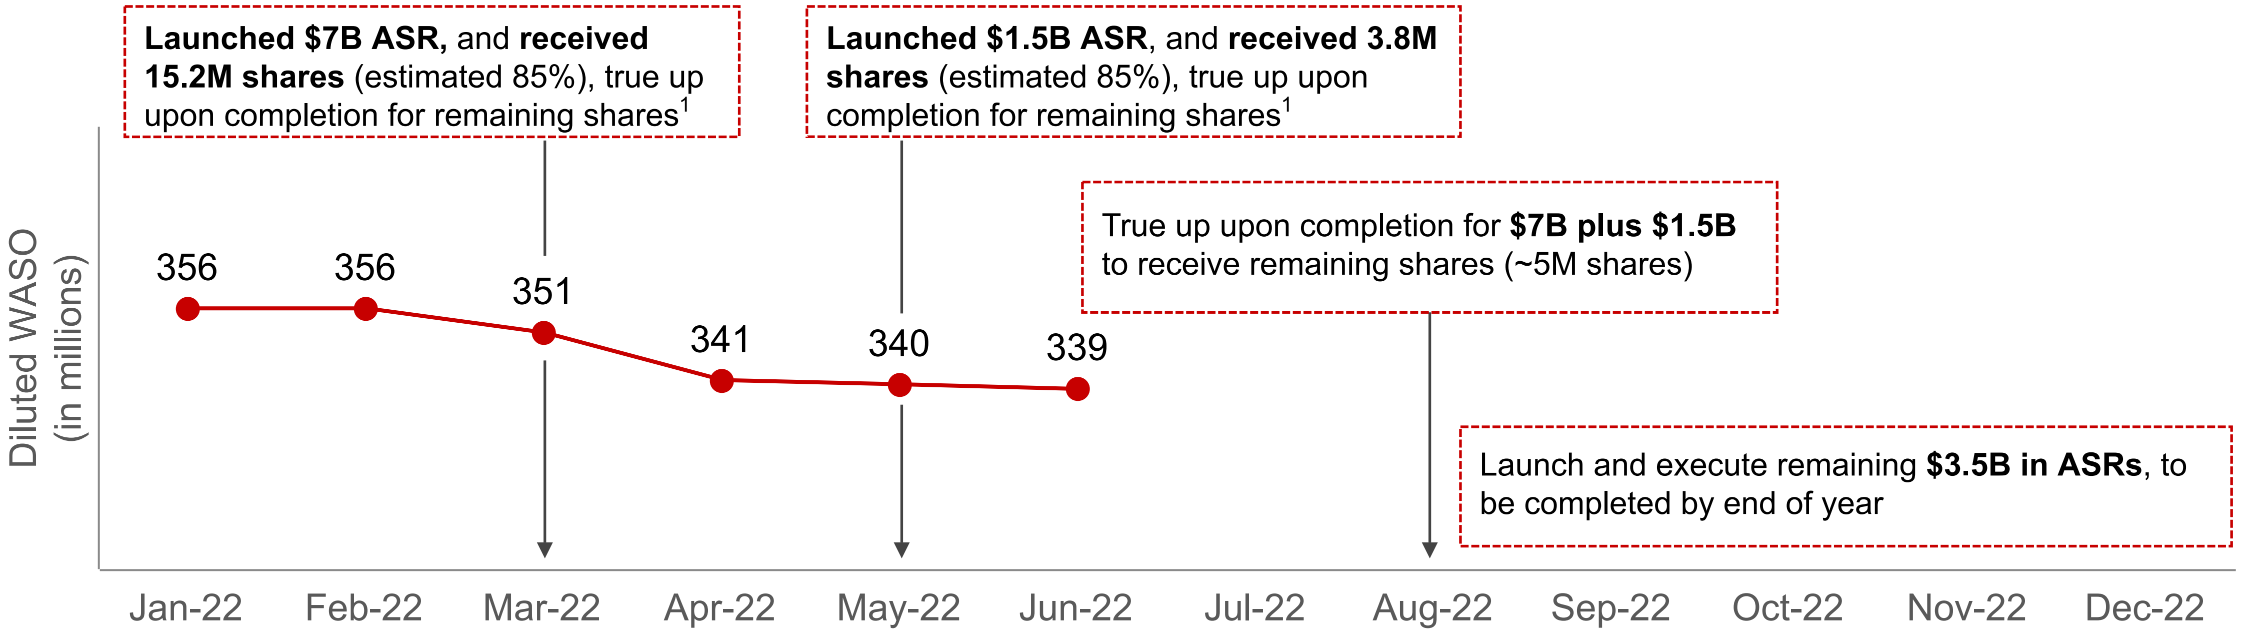
Adjusted free cash flow, excluding certain items is approximately $924M for 2Q 2022

Adjusted pro forma financials ($ in millions)	**2Q 2022**
Cash provided by operating activities[1]	$454
Capital expenditures	(24)
Net distributions to non-controlling interest holders	(71)
Free cash flow	**359**
IHS Markit merger costs	210
Tax on gain from sale of divestitures	350
Russia suspension costs	5
Free cash flow, excluding certain items	**$924**

- Paid dividends of $286 million in 2Q 2022
- Announced $12 billion Accelerated Share Repurchase (ASR) program, with first $8.5B launched in 1H 2022. Remaining $3.5 billion expected to be completed by the end of 2022

1. Includes IHS Markit January and February pre-merger cash activity

Accelerated Share Repurchase programs progression and impact to diluted weighted average shares outstanding



- $7B ASR executed on March 1st, 2022, weighted impact to 1Q WASO was approximately 33%, which reflects a 5M decrease during 1Q. Remaining 67% weighted impact reflected in subsequent months
- $1.5B ASR executed on May 13th, 2022, weighted impact to 2Q WASO was approximately 73%, which reflects a ~3M decrease during 2Q, offset by granted stock options. Remaining 23% weighted impact reflected in subsequent months

[1]Total shares expected upon final delivery is currently estimated at 4M and 0.6M, for the $7B tranche and $1.5B tranche. Actual shares may differ slightly as it is dependent on the average stock price during the buyback period

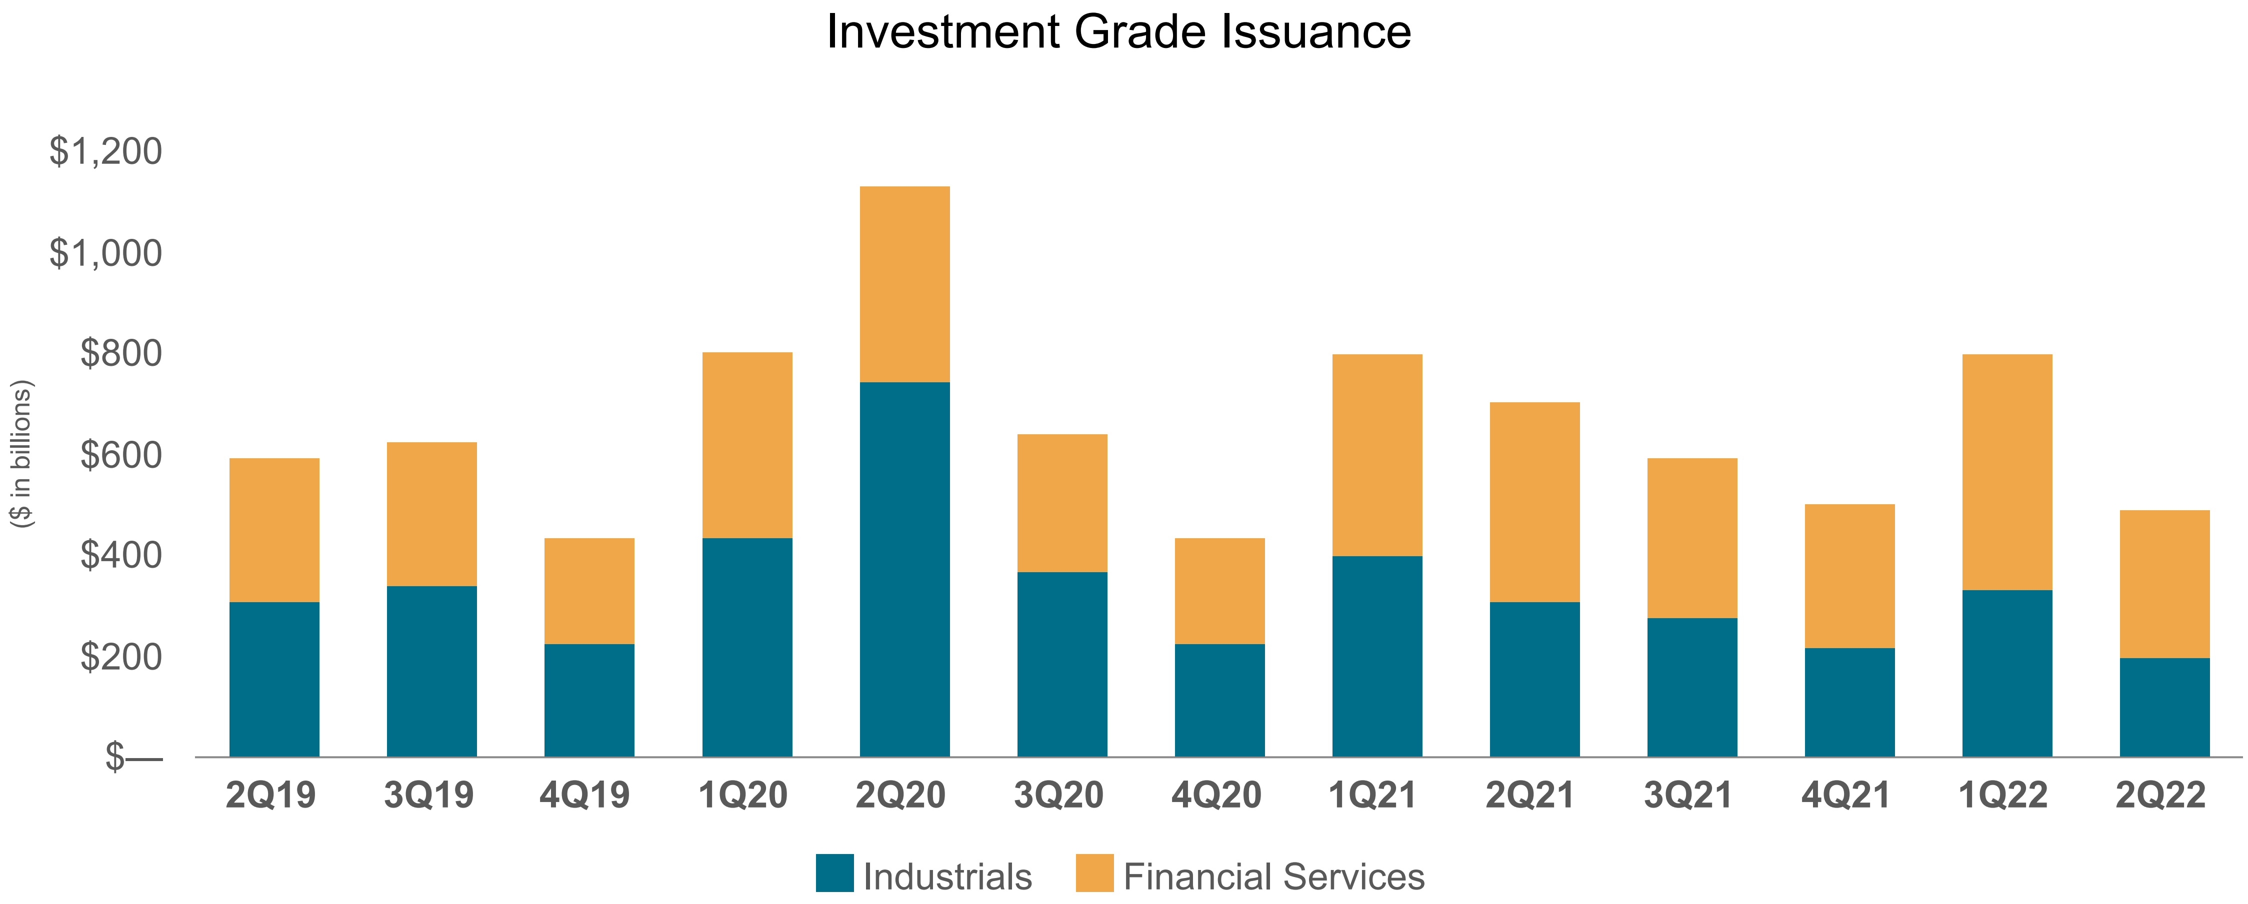
Adjusted gross leverage is within our current target range as of 2Q 2022

	2Q 2022
Cash and cash equivalents [1]	$3,573
Short- and long-term debt	$10,790
Adjusted gross debt to adjusted EBITDA [2]	2.5x
Gross debt to EBITDA [3]	1.8x

($ in millions)

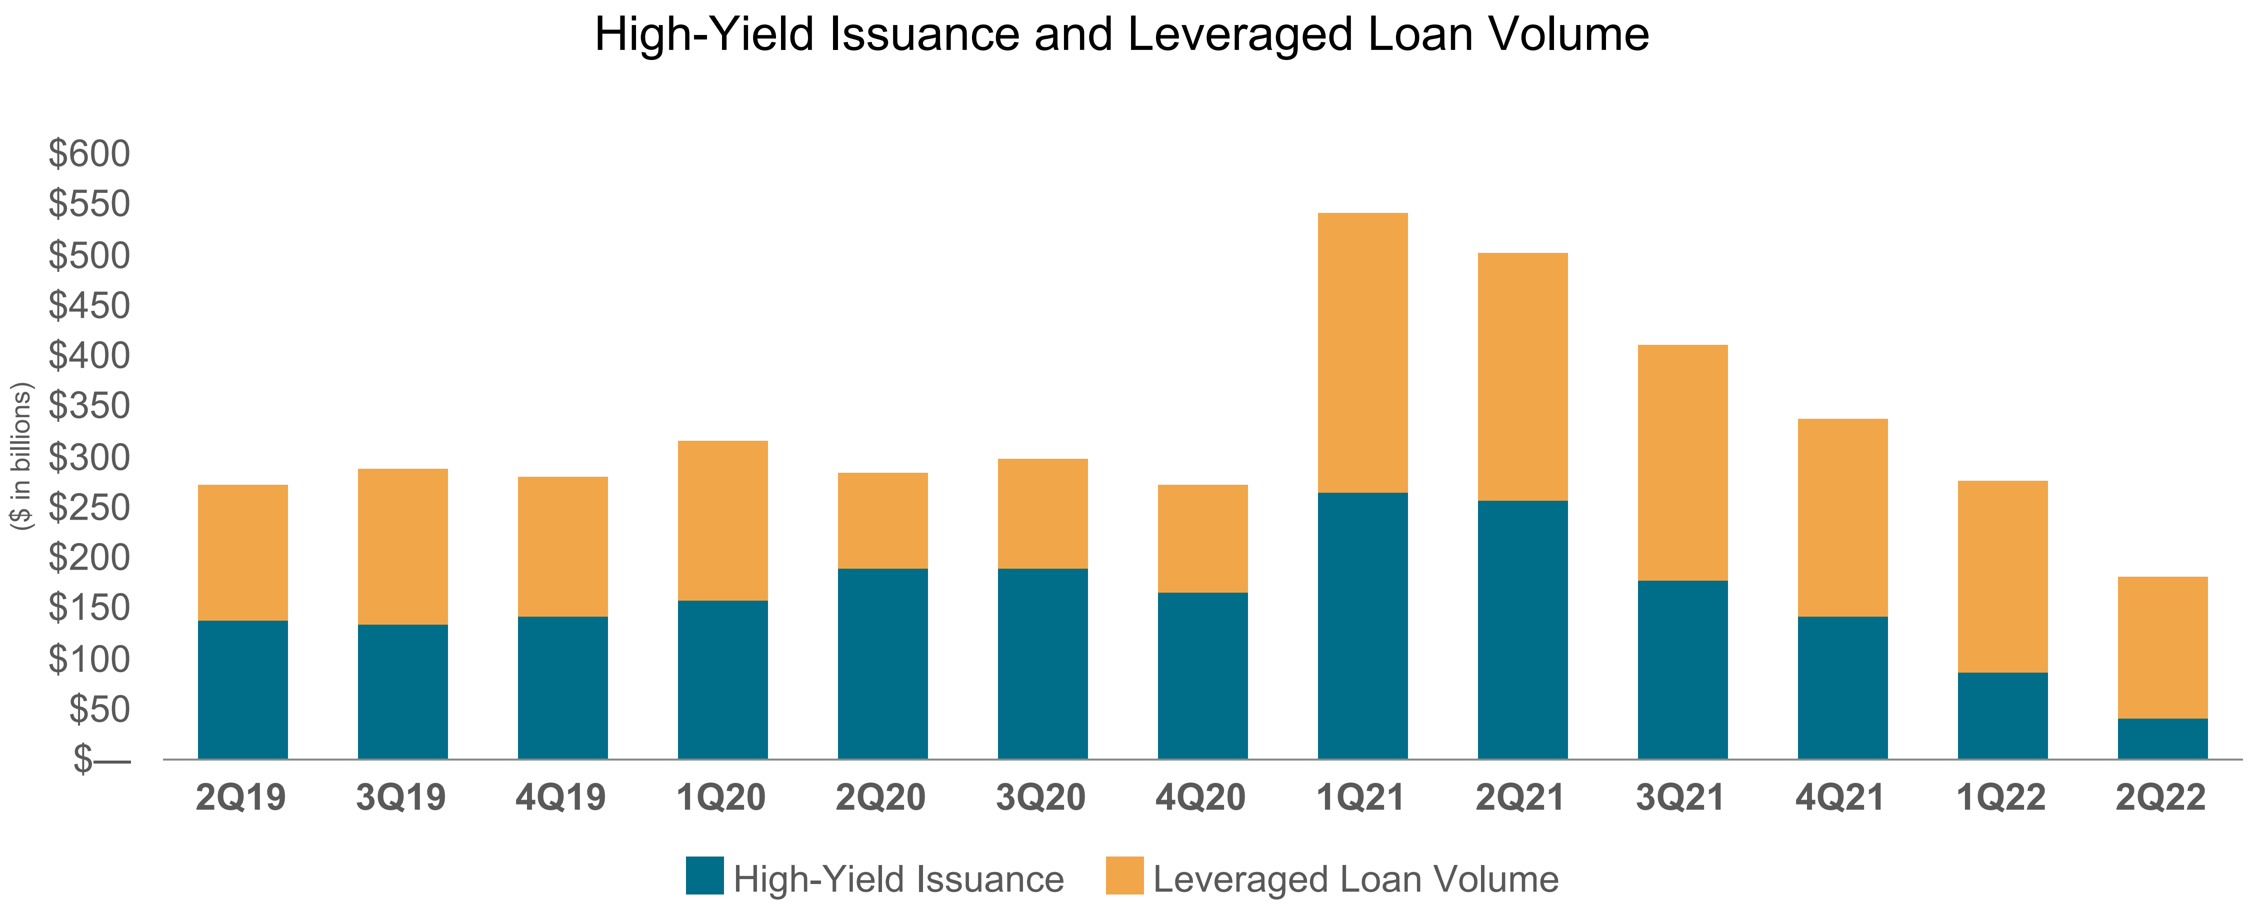
1. Cash and cash equivalents includes restricted cash
2. Adjusted gross debt includes debt, unfunded portion of pension liabilities (~$250 million), S&P Dow Jones Indices put option (~$3.3 billion), and the expected NPV of operating leases (~$759 million); Adjusted EBITDA includes EBITDA plus net lease expense (~$155 million) less income adjustment on qualified U.S. pension plans (~$(20) million)
3. Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA") includes adjustments to operating profit as depicted on Exhibit 5 of the Company's 2Q 2022 quarterly earnings release furnished to the SEC on 8/2/2022

Global investment-grade issuance declined 30% year-over-year



Note: Previous versions of this chart reflected total Investment Grade Issuance
Sources: Refinitiv, Green Street Advisors, and LCD

Global* high-yield issuance and leveraged loan volume declined 64%



*Leveraged Loan data only available for U.S. and Europe

$ in millions, except per share data

Key factors mitigating impact of currency changes

- Approximately ¾ of international revenue is invoiced in U.S. dollars
- Hedges are in place for key currencies to mitigate a portion of the risk

Key factors mitigating impact of currency changes

- SPGI revenue had an unfavorable impact primarily from the U.S. dollar strengthening against the Euro and British Pound across the divisions. SPGI expense had a favorable impact, due to the strengthening of the U.S. dollar against the Euro and British Pound.
