Forward-Looking Statement and Legends

CAUTIONARY STATEMENT REGARDING FORWARD LOOKING STATEMENTS

This presentation may contain "forward-looking statements" made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Statements regarding ICE's business that are not historical facts are forward-looking statements that involve risks, uncertainties and assumptions that are difficult to predict. Although we believe the expectations reflected in these forward-looking statements are reasonable, these statements are not guarantees of future results, performance, levels of activity or achievements, and actual results may differ materially from what is expressed or implied in any forward-looking statement. The factors that might affect our performance include, but are not limited to: our business environment and industry trends; general economic conditions and conditions in global financial markets; volatility in commodity prices, equity prices, and price volatility of financial benchmarks and instruments such as interest rates, credit spreads, equity indexes and foreign exchange rates; changes in domestic and foreign laws, regulations, rules or government policy with respect to financial markets, or our businesses generally, including changes, increased regulatory scrutiny or enforcement actions; the success of our clearing houses and our ability to minimize the risks associated with operating multiple clearing houses in multiple jurisdictions; the performance and reliability of our technology and the technology of our third party service providers; our ability to identify and effectively pursue acquisitions and strategic alliances and successfully integrate the companies we acquire; increasing competition and consolidation in our industry; our ability to continue to realize the synergies and benefits of the NYSE acquisition within the expected time frame, and continue to integrate NYSE's operations with our business; our ability to keep pace with rapid technological developments and to ensure that the technology we utilize is not vulnerable to security risks, hacking and cyber-attacks; the soundness of our electronic platform and disaster recovery system technologies; the accuracy of our cost estimates and expectations; our belief that cash flows from operations will be sufficient to service our current levels of debt and fund our working capital needs and capital expenditures for the foreseeable future; our ability, on a timely and cost-effective basis, to offer additional products and services, leverage our risk management capabilities and enhance our technology; our ability to maintain existing market participants and attract new ones; our ability to protect our intellectual property rights, including the costs associated with such protection, and our ability to operate our business without violating the intellectual property rights of others; our ability to identify trends and adjust our business to respond to such trends; and potential adverse results of litigation and regulatory actions and proceedings. For a discussion of such risks and uncertainties, which could cause actual results to differ from those contained in the forward-looking statements, see ICE's Securities and Exchange Commission (SEC) filings, including, but not limited to ICE's Annual Report on Form 10-K for the year ended December 31, 2014, as filed with the SEC on February 5, 2015 (the "Form 10-K"). These filings are available in the Investors & Media section of our website. We caution you not to place undue reliance on these forward-looking statements. Any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of an unanticipated event. New factors emerge from time to time, and it is not possible for management to predict all factors that may affect our business and prospects. Further, management cannot assess the impact of each factor on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

GAAP AND NON-GAAP RESULTS

This presentation includes non-GAAP measures that exclude certain items we do not consider reflective of our cash operations and core business performance. We believe that the presentation of these non-GAAP measures provides investors with greater transparency and supplemental data relating to our financial condition and results of operations. These adjusted non-GAAP measures should be considered in context with our GAAP results. A reconciliation of Adjusted Net Income from Continuing Operations, Adjusted Earnings Per Share from Continuing Operations, Adjusted Operating Income, Adjusted Operating Margin and Adjusted Operating Expenses to the equivalent GAAP measure and an explanation of why we deem these non-GAAP measures meaningful appears in our Form 10-K and in the appendix to this presentation. The reconciliation of Adjusted Effective Tax Rate and Adjusted EBITDA to the equivalent GAAP results appear in the appendix to this presentation. Our Form 10-K, earnings press release and this presentation are available in the Investors and Media section of our website at www.theice.com.

EXPLANATORY NOTES

When used in this presentation, ADV means average daily volume, OI means open interest, CDS means credit default swaps and IPO means initial public offering. All net revenue figures represent revenues less transaction based expenses for periods shown. All earnings per share figures represent diluted weighted average share count. **All GAAP earnings figures include the results of NYSE from November 13, 2013, the date of the acquisition.** All volumes and ADV include the results of NYSE as if the acquisition had been completed on January 1, 2013.

2015 Opportunities and Environment

Expect double-digit earnings growth in 2015 driven by several diverse areas including:

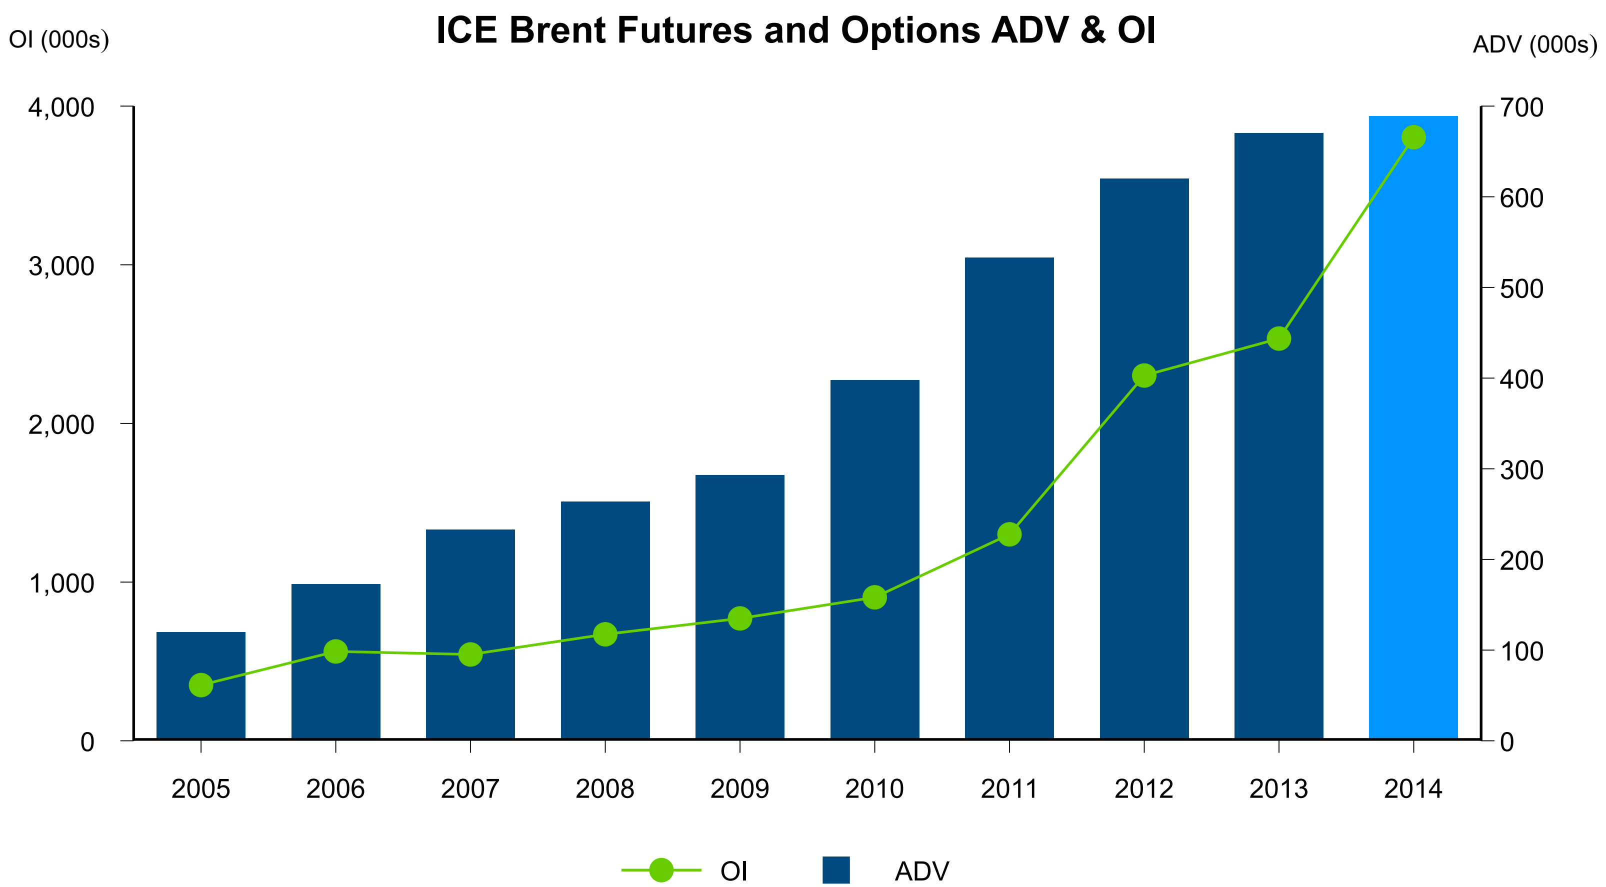
- Expense base declines driven by $110-115MM in synergy realization
- Data services growth driven by expanded product suite across Liffe, IBA, SuperDerivatives and NYSE
- OTC clearing with strong credit derivatives and rates franchises
- Ongoing secular growth in oil and EU natural gas; volatility potential in rates, equity index
- NYSE revenue trends are positive; listings building on leadership and robust IPO pipeline

Uncertain regulatory environment creates opportunities to help customers address challenges:

- Regulatory uncertainty in Europe continues; diverging regulation creating market fragmentation
- EU / US equivalence remains unresolved
- Position limits rules still evolving in EU and US
- Basel rules creating capital constraints
- Divergent central bank actions

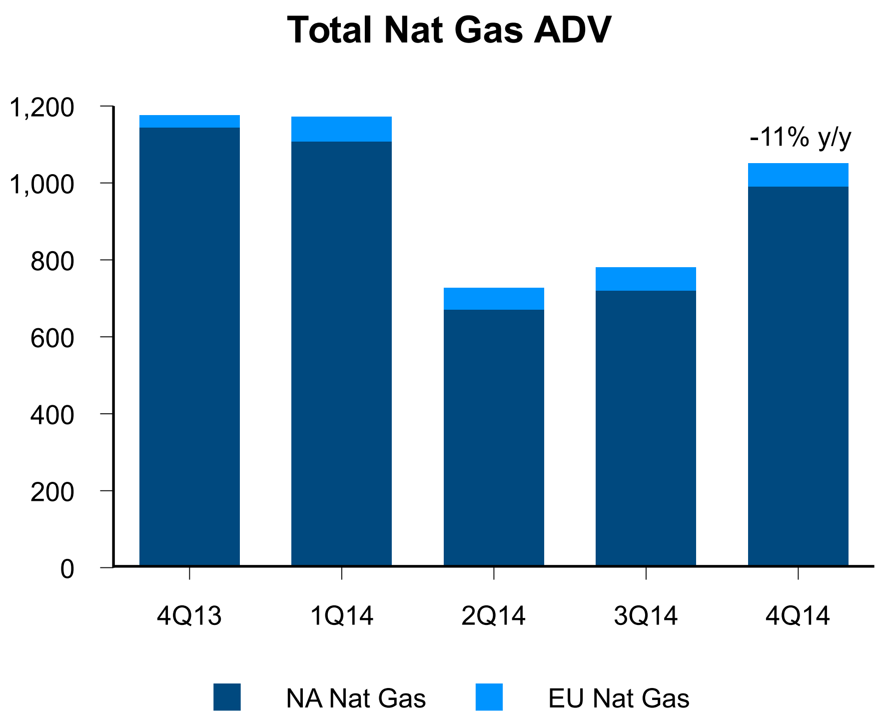
ICE Brent: Leading Global Oil Benchmark

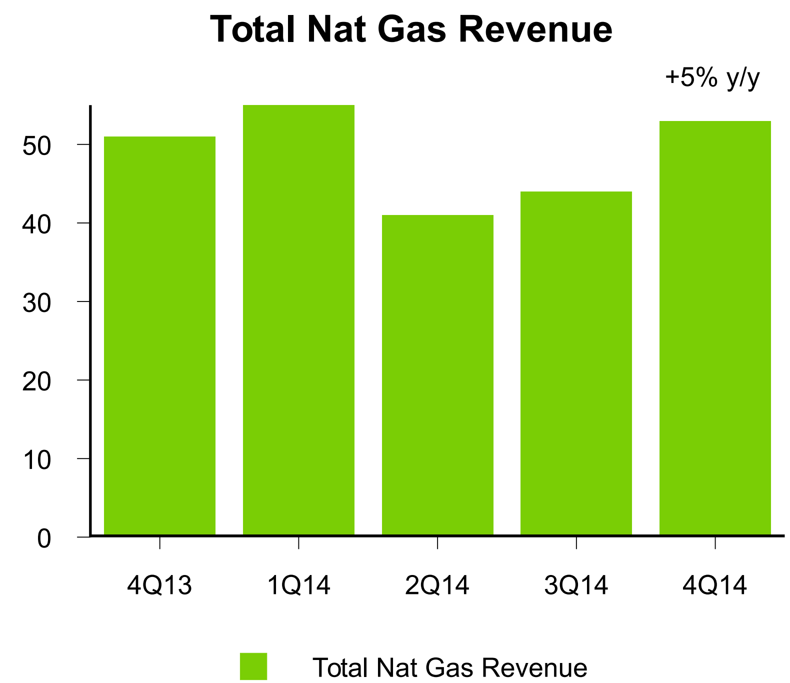
- 18th consecutive year of record volume driven by secular trends in risk management, role as the global benchmark, options growth, and introduction of 400 related refined oil products in last seven years
- Record 2014 ADV +3% y/y; Record OI +50% y/y
- Global crude futures market share at 54% for 2014 versus ~30% in 2001
- Capital efficiencies across cleared oil complex



Natural Gas: Volumes Improving, Revenue Growing

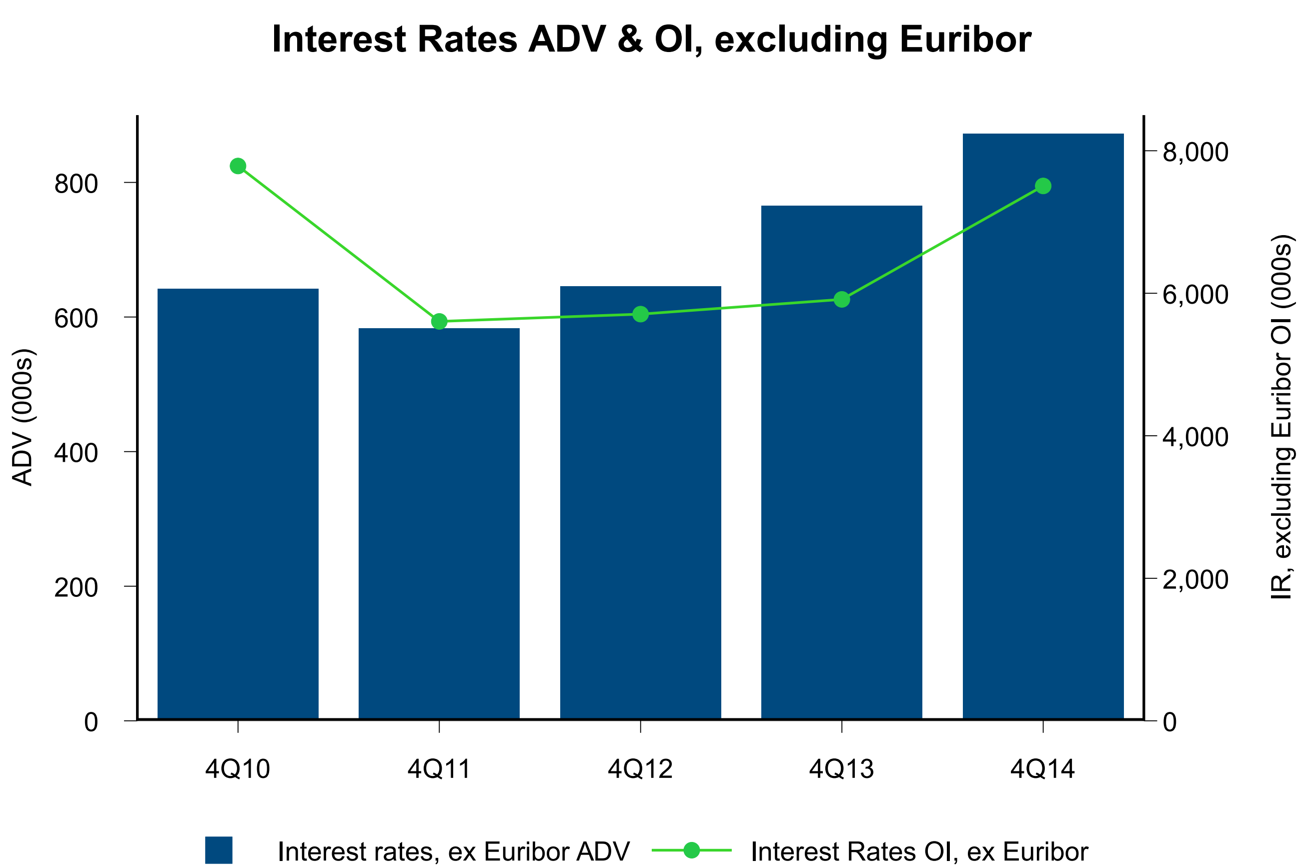
- Secular trends toward exchange trading and clearing in EU gas markets
- 4Q14 Nat Gas ADV, -11% y/y but revenue +5% y/y driven by continued growth in EU Nat Gas
- 4Q14 EU Nat Gas ADV +91% y/y; OI +73% y/y
- Adding to EU gas contracts that include: UK NBP, Dutch TTF, German GasPool and Belgian ZTP hubs





Interest Rates: Strength in UK Rates

- Expanding European interest rate (IR) products; introduced >20 IR products across the curve
- 4Q14 IR ADV of -32%; Euribor volume impacted by low volatility in European short-term rates
- Excluding Euribor, 4Q14 IR ADV +14% y/y and OI +27% y/y driven by growth in Sterling, Gilt and Euroswiss



Leading European Interest Rate Complex

- Developing new products across OTC, swap futures (ERIS) and futures
- Products span European geographies, tenors and instruments

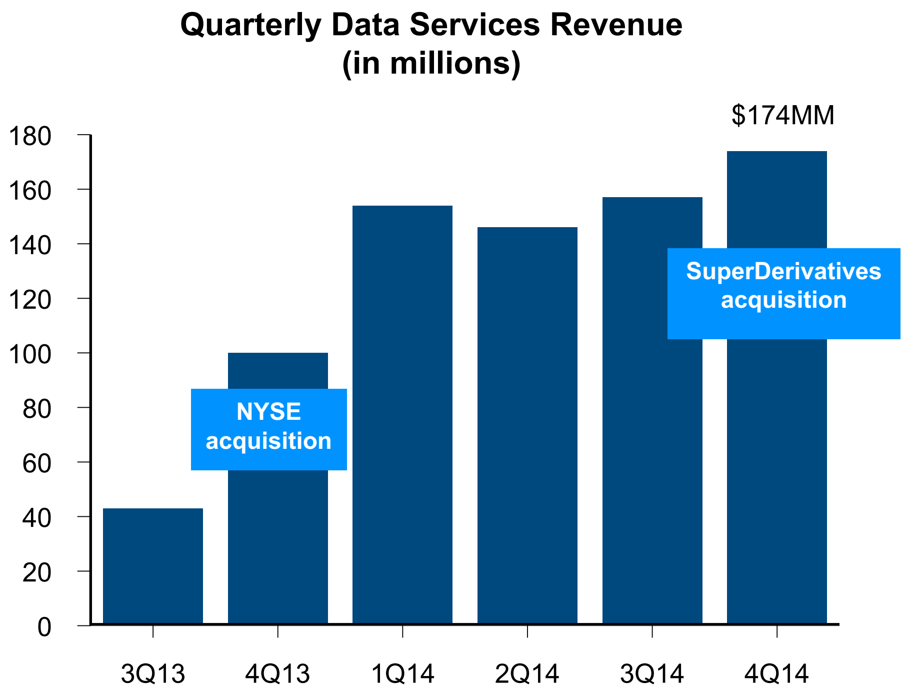
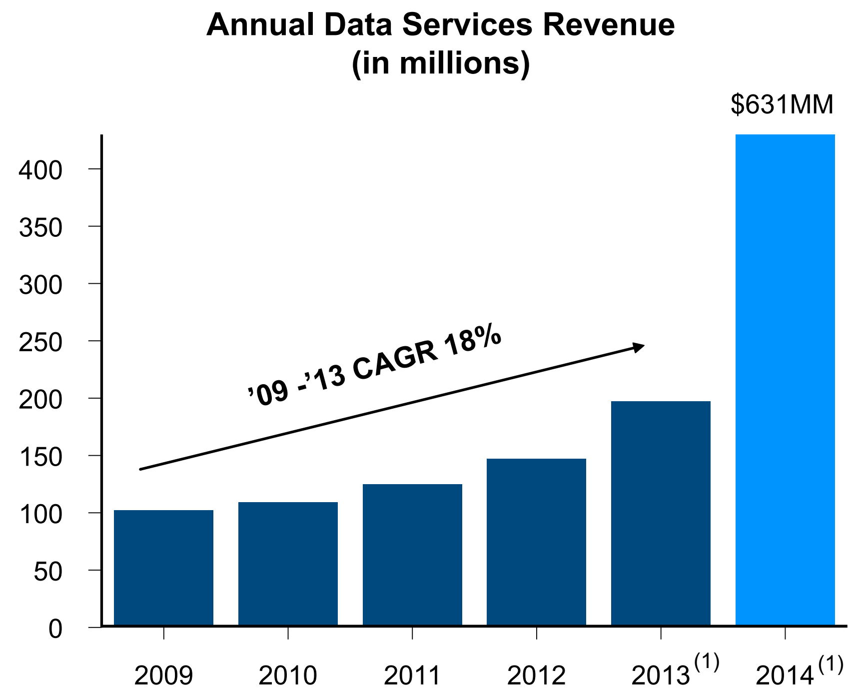
Expanding Data Services Offering

- Broad range of data products and services across futures, OTC and equities
- Growing through internal product development and strategic acquisitions
- ICE Benchmark Administration supporting increased confidence in benchmarks





(1) These periods include the revenue reclassification noted in our Form 10-K filed on February 5, 2015. Prior periods were not reclassified as the change would have been immaterial.
