Disclosures

Forward-Looking Statements

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve a number of risks and uncertainties. You can identify these statements by forward-looking words such as "may," "might," "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential" or "continue," and the negative of these terms and other comparable terminology. All statements that reflect our expectations, assumptions or projections about the future other than statements of historical fact are forward-looking statements. These forward-looking statements, which are subject to known and unknown risks, uncertainties and assumptions about us, may include projections of our future financial performance based on our growth strategies and anticipated trends in our business. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from those expressed or implied by the forward-looking statements.

We operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible to predict all risks and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Some factors that could cause actual results to differ include: the loss of our right to exclusively list and trade certain index options and futures products; economic, political and market conditions; compliance with legal and regulatory obligations; price competition and consolidation in our industry; decreases in trading or clearing volumes, market data fees or a shift in the mix of products traded on our exchanges; legislative or regulatory changes or changes in tax regimes; our ability to protect our systems and communication networks from security vulnerabilities and breaches; our ability to attract and retain skilled management and other personnel, increasing competition by foreign and domestic entities; our dependence on and exposure to risk from third parties; factors that impact the quality and integrity of our and other applicable indices; our ability to manage our global operations, growth, and strategic acquisitions or alliances effectively; increases in the cost of the products and services we use; our ability to operate our business without violating the intellectual property rights of others and the costs associated with protecting our intellectual property rights; our ability to minimize the risks, including our credit, counterparty investment, and default risks, associated with operating our clearinghouses; our ability to accommodate trading and clearing volume and transaction traffic, including significant increases, without failure or degradation of performance of our systems; misconduct by those who use our markets or our products or for whom we clear transactions; challenges to our use of open source software code; our ability to meet our compliance obligations, including managing our business interests and our regulatory responsibilities; the loss of key customers or a significant reduction in trading or clearing volumes by key customers; our ability to maintain BIDS Trading as an independently managed and operated trading venue, separate from and not integrated with our registered national securities exchanges; damage to our reputation; the ability of our compliance and risk management methods to effectively monitor and manage our risks; restrictions imposed by our debt obligations and our ability to make payments on or refinance our debt obligations; our ability to maintain an investment grade credit rating; impairment of our goodwill, long-lived assets, investments or intangible assets; the accuracy of our estimates and expectations; and litigation risks and other liabilities. More detailed information about factors that may affect our actual results to differ may be found in our filings with the SEC, including in our Annual Report on Form 10-K for the year ended December 31, 2024 and other filings made from time to time with the SEC.

We do not undertake, and we expressly disclaim, any duty to update any forward-looking statement whether as a result of new information, future events or otherwise, except as required by law. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof.

Industry and Market Data

This presentation includes market share, financials and industry data that we obtained from industry publications and surveys, reports of governmental agencies, third-parties and internal company surveys. Industry publications and surveys generally state that the information they contain has been obtained from sources believed to be reliable, but we cannot assure you that this information is accurate or complete. We have not independently verified any of the data and financials from third-party sources nor have we ascertained the underlying economic assumptions relied upon therein. Statements as to our market position are based on the most currently available market data. While we are not aware of any misstatements regarding industry data and financials presented herein, our estimates involve risks and uncertainties and are subject to change based on various factors.

Trademarks

Trademarks: Cboe®, Cboe Global Markets®, Cboe Volatility Index®, Cboe Clear®, Cboe Futures Exchange®, BIDS Trading®, BYX®, BZX®, CFE®, EDGA®, EDGX®, VIX®, and XSP® are registered trademarks and Cboe Data Vantage℠ is a service mark of Cboe Global Markets, Inc. and its subsidiaries. Non-GAAP Measures

This presentation includes certain Non-GAAP measures as defined under SEC rules, including, among others, organic net revenue, adjusted EPS, adjusted EBITDA, operating EBITDA, adjusted operating EBITDA, operating EBITDA margin, and adjusted operating EBITDA margin, adjusted operating expenses, and adjusted cash. Additional information, reconciliations, and definitions are included in the appendix to this presentation.

Key Performance Indicators

Managements focuses on a variety of key indicators to plan, measure and evaluate our business and financial performance. These performance indicators include, among others, average daily volume (ADV), average daily notional value (ADNV), trades cleared, net settlement volume, as well as Non-GAAP measures of adjusted EPS and adjusted operating EBITDA. Please refer to Item 2. Management's Discussion and Analysis of Financial Condition for additional information on operational and financial metrics and measures.

Strategic Update

Framing the Strategic Direction

Ongoing Actions

Execution of Our Strategic Realignment

1. Initiate a sales process for Cboe Australia and Cboe Canada
2. Discontinue U.S. and European Corporate Listings efforts
3. Reduce costs related to U.S. and European ETP Listings, Cboe Europe Derivatives, and several smaller Risk and Market Analytics businesses (LiveVol, Silexx, Hanweck, FT Options, and Trade Alert)

Disciplined Capital Allocation

- Allocate our resources (capital, talent, technology) to drive growth and better align Cboe with long-term secular trends
- Evaluate strategically and financially compelling partnerships and M&A to enhance our growth trajectory, earnings power, and earnings diversification

The Strategic Path Forward

1 Rationalization of Our Business Portfolio

Optimize return on invested capital and potential growth trajectory while maintaining a disciplined and financially rigorous approach to capital allocation

2 Organic Growth Through Core Business Optimization

Focus on driving and fully capturing growth potential in our core capabilities of Index Options, Multi-List Options, Futures, US Equities, EU Equities, and FX

3 Focus on Capitalizing on Emerging Industry Trends

Continue to evolve with the market by exploring emerging trends that align with our core strengths and unlocking new opportunities to create value for our clients

2025 Guidance

2025 Full-Year Guidance[1] ($ in millions)	2025 Guidance as of October 31, 2025	2025 Guidance as of August 1, 2025	2025 Guidance as of May 2, 2025	2025 Guidance as of February 7, 2025	2024 Actual
Data Vantage[3] organic net revenue growth rate	High Single-Digit to Low Double-Digit	Mid to High Single-Digit	Mid to High Single-Digit	Mid to High Single-Digit	7%[2]
Total organic net revenue growth rate	Low Double-Digit to Mid-Teens	High Single-Digit	Mid to High Single-Digit	Mid Single-Digit	8%[2]
Adjusted operating expenses[4] *implied growth rate*	$827 to 842 *3.5 to 5.4%*	$832 to 847 *4.2 to 6.0%*	$837 to 852 *4.8 to 6.7%*	$837 to 852 *4.8 to 6.7%*	$798.8[2] *6.4%*
Depreciation and amortization (excluding amortization of acquired intangible assets)	$50 to 54	$53 to 57	$55 to 59	$55 to 59	$44
Effective tax rate on adjusted earnings	28.5 to 30.5%	28.5 to 30.5%	28.5 to 30.5%	28.5 to 30.5%	29.1%[2]
Capital expenditures	$73 to 83	$75 to 85	$75 to 85	$75 to 85	$61

[1]Specific quantifications of the amounts that would be required to reconcile the company's organic and inorganic growth guidance, adjusted operating expenses guidance and the effective tax rate on adjusted earnings guidance are not available. The company believes that there is uncertainty and unpredictability with respect to certain of its GAAP measures, primarily related to acquisition-related revenues and expenses that would be required to reconcile to GAAP revenues less costs of revenues, GAAP operating expenses and GAAP effective tax rate, which preclude the company from providing accurate guidance on certain forward-looking GAAP to non-GAAP reconciliations. The company believes that providing estimates of the amounts that would be required to reconcile the range of the company's organic growth, adjusted operating expenses and the effective tax rate on adjusted earnings would imply a degree of precision that would be confusing or misleading to investors for the reasons identified above.

[2]See appendix for "Non-GAAP Information."

[3]Represents Access and Capacity Fees, Proprietary Market Data and revenue generated from licensing and indices related revenue reported in "Other Revenue."

[4]Adjusted operating expenses exclude acquisition-related expenses and amortization of acquired intangible assets. The amortization of acquired intangible assets was $89 million for 2024 and is expected to be $70 million for 2025. See appendix for "Non-GAAP Information."

EBITDA Reconciliations

EBITDA (earnings before interest, income taxes, depreciation and amortization) and Adjusted EBITDA are widely used non-GAAP financial measures of operating performance. These metrics are presented as supplemental information that the company believes are useful to investors to evaluate the company's results because they exclude certain items that are not directly related to the company's core operating performance. Operating EBITDA is calculated by adding back to operating income depreciation and amortization. Adjusted Operating EBITDA is calculated by adding back to Operating EBITDA relevant adjustments. Operating EBITDA margin represents Operating EBITDA divided by revenues less cost of revenues. Adjusted Operating EBITDA margin represents Adjusted Operating EBITDA divided by revenues less cost of revenues. EBITDA is calculated by adding back to net income interest (income) expense, net, income tax expense, depreciation and amortization. EBITDA margin represents EBITDA divided by revenues less cost of revenues. Adjusted EBITDA is calculated by adding back to EBITDA relevant adjustments. Relevant adjustments are detailed in the reconciliations that follow. Adjusted EBITDA margin represents Adjusted EBITDA divided by revenues less cost of revenues. Operating EBITDA, Adjusted Operating EBITDA, EBITDA, and Adjusted EBITDA should not be considered as substitutes either for net income, as an indicator of the company's operating performance, or for cash flow as a measure of the company's liquidity. In addition, because Operating EBITDA, Operating EBITDA margin, Adjusted Operating EBITDA, Adjusted Operating EBITDA margin, EBITDA, EBITDA margin, Adjusted EBITDA, and Adjusted EBITDA margin may not be calculated identically by all companies, the presentation here may not be comparable to other similarly titled measures of other companies.

Adjusted Cash

Adjusted cash is a non-GAAP measure and represents cash and cash equivalents plus financial investments minus deferred compensation plan assets and cash collected for Section 31 fees, which will need to be remitted in the near term. We have presented adjusted cash because we consider it an important supplemental measure of our liquidity and believe that it is frequently used by analysts, investors and other interested parties in the evaluation of companies.
