Notes to the consolidated financial statements

1. General information, basis of preparation of the financial statements, accounting policies

1.1. Legal status

The parent entity of the Giełda Papierów Wartościowych w Warszawie S.A. Group (“the Group”, “the GPW Group”) is Giełda Papierów Wartościowych w Warszawie Spółka Akcyjna (“the Warsaw Stock Exchange”, “the Exchange”, “GPW”, “the Company” or “parent entity”) with its registered office in Warsaw, post code 00-498, ul. Książęca 4. The Company was established by Notarial Deed on 12 April 1991 and registered in the Commercial Court in Warsaw on 25 April 1991, entry no. KRS 0000082312, Tax Identification Number 526-025-09-72, Regon 012021984. GPW is a joint-stock company listed on GPW’s Main Market since 9 November 2010. The Company has not changed its name or other identifying information since the end of the previous reporting period.

1.2. Scope of activities of the Group

The core activities of the Group include organising exchange trading in financial instruments and activities related to such trading. At the same time, the Group organises an alternative trading system and pursues activities in education, promotion and information concerning the capital market.

Financial market:

- **GPW Main Market**: trade in equities, other equity-related financial instruments and other cash markets instruments as well as derivatives;
- **Treasury BondSpot Poland:** wholesale trade in Treasury bonds operated by BondSpot.
- **NewConnect**: trade in equities and other equity-related financial instruments of small and medium-sized enterprises;
- **Catalyst**: trade in corporate, municipal, co-operative, Treasury and mortgage bonds operated by the Exchange and BondSpot S.A. (“BondSpot”);
- **GlobalConnect**: trading in shares of foreign companies introduced by Introducing Market Makers (WAR) without the issuer's consent,
- **Activity in the area of determining and publishing WIBID and WIBOR Reference Rates** (which constitute a reference point in agreements, including financial instrument agreements, including credit agreements or bonds), conducted by GPW Benchmark S.A. ("GPWB"),
- **Activity in the area of developing and publishing indices and reference indicators** that are not interest rate indicators, including Stock Exchange Indices, TBSP.Index and CEEplus, conducted by GPWB,
- **Activity on the financial market in Armenia** through interest in the Armenia Securities Exchange and the Central Depository of Armenia, covering the operations of the securities exchange and the securities depository,

Commodity market:

- **Energy Market**: trade in electricity on the Intra-Day Market, the Day-Ahead Market, the Commodity Forward Instruments Market, Electricity Auctions,
- **Gas Market**: trade in natural gas with physical delivery on the Intra-Day and Day-Ahead Market, the Commodity Forward Instruments Market, Gas Auctions,

- **Property Rights Market**: trade in property rights in certificates of origin of electricity from Renewable Energy Sources and energy efficiency,
- **Financial Instruments Market**: trade in CO_2 emission allowances,
- **Market Operator Platform**: InfoEngine provides market operator services and balancing services to electricity traders, producers and large industrial customers,
- **Agricultural Market**: electronic platform of agricultural commodity trade operated by TGE and IRGiT,
- **Organised Trading Facility** ("OTF") including the following markets: Electricity Forwards Market, Gas Forwards Market and Property Rights Forward Market where financial instruments are traded.
- **Clearing House and Settlement System** operated by Izba Rozliczeniowa Giełd Towarowych S.A. ("IRGiT") performing the functions of an exchange settlement system for transactions in exchange-traded commodities,
- **Trade Operator and Balancing Entity services** – both types of services are offered by InfoEngine S.A. (balancing involves the submission of power sale contracts for execution and clearing of non-balancing with the grid operator, i.e., differences between actual power production or consumption and power sale contracts accepted for execution),

Other activities:

- Activities in the field of transport organization services conducted by GPW Logistics S.A.
- Operations in the fund-of-funds model, management of funds in the form of Alternative Investment Companies, conducted by the GPW Ventures ASI S.A. Capital Group,
- Activities conducted by the Companies: GPW Private Market S.A., GPW DAI S.A., GPW Tech S.A. (description of the scope of activities: note 1.4.),
- Activities in education, promotion and information concerning the capital market and the commodity market.

1.3. Approval of the financial statements

The financial statements were authorised for issuance by the Management Board of the Exchange on 25 March 2025.

Increase of the share capital of GPW Tech S.A.

On 15 October 2024, an increase in the capital of GPW Tech S.A. was registered in connection with a resolution adopted by the company's Extraordinary General Meeting on 19 September 2024 on increasing its share capital by issuing 4,000,000 ordinary registered series F shares with a nominal value of PLN 1 per share through private subscription. The issue price of the shares was set at PLN 1. The shares were fully acquired by GPW.

1.5. Statement of compliance

These financial statements have been prepared in accordance with the International Financial Reporting Standards ("IFRS"[1]) as adopted by the European Union.

In the opinion of the parent entity's Management Board, in the notes to these consolidated financial statements of the Warsaw Stock Exchange Group, the Company has included all material information necessary for a proper assessment of the Group's financial position as at 31 December 2024 and the financial result for the period from 1 January 2024 to 31 December 2024.

The following new standards and amendments of existing standards adopted by the European Union are effective for the financial statements of the Group for the financial year started on 1 January 2024:

- Amendment to IAS 1 Presentation of Financial Statements - Classification of Liabilities as Current or Non-current,
- Amendment to IAS 1 Presentation of Financial Statements - Non-current Liabilities with Covenants,
- Amendment to IFRS 16 Leases - Lease Liability in a Sale and Leaseback,
- Amendment to IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures – Supplier Finance Arrangements.

Those amendments to the International Financial Reporting Standards had no significant impact on data presented in these consolidated financial statements.

The key accounting policies applied in the preparation of these financial statements are presented below. These policies were continuously followed in all presented periods, unless indicated otherwise.

1.6. New standards and interpretations

The Group did not use the option of early application of new standards and interpretations already published and adopted by the European Union or planned for adoption in the near future which will take effect after the balance sheet date.

1.6.1. Standards and interpretations adopted by the European Union

The following amendments already adopted by the European Union will take effect for periods starting after 1 January 2025:

- Amendment to IAS 21 The Effects of Changes in Foreign Exchange Rates – Lack of Exchangeability.

[1] International Accounting Standards, International Financial Reporting Standards and related interpretations published in regulations of the European Commission

1.6.2. Standards and interpretations awaiting adoption by the European Union

IFRS adopted by the European Union are not significantly different from the regulations approved by the International Accounting Standards Board (IASB) with the exception of the following Standards, Interpretations and Amendments that are not yet effective in the EU as at the date of these financial statements.

Information on standards and interpretations that have been issued but are not yet effective is presented below:

Standard	Effective date (IASB)
New IFRS 18 Presentation and Disclosure in Financial Statements	1 January 2027
New IFRS 19 Subsidiaries without Public Accountability: Disclosures	1 January 2027
Amendment to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments - Disclosures - Amendments to the Classification and Measurement of Financial Instruments	1 January 2026
Annual Improvements Volume 11	1 January 2026
Amendment to IFRS 9 and IFRS 7 – Contracts Referencing Nature-dependent Electricity	1 January 2026

The Group plans to adopt these Amendments, as applicable to its business, when they become effective.

The Group is currently analysing what impact the above standards will have on its financial statements.

1.7. The scope and methods of consolidation

On the date the Group takes control over a company, the subsidiary begins to be fully consolidated. The consolidation ceases once the Group no longer controls the entity.

Associates and joint ventures are initially recognised at cost and later using the equity method. Details concerning the recognition of entities measured by the equity method are presented in Note 4.3.

Subsidiaries are entities controlled by the Company. The Company controls an entity if its investment in the entity gives it the right to participate in variable financial results and exert influence on the amount of such financial results through the power to govern the entity. In assessing whether the Group controls a given entity, the existence and effects of potential voting rights, which are exercisable or convertible at a given time, must be assessed.

Acquisitions of subsidiaries by the Group are accounted for using the acquisition method. The cost of the acquisition is determined as the fair value of the consideration transferred, less the value of the non-controlling interest in the acquiree, plus the fair value of the existing equity in the acquiree, less the net recognized value (fair value) of the identifiable assets acquired and liabilities assumed. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value at the date of acquisition, regardless of the size of any minority interest. The excess of the acquisition cost over the fair value of the Group's share of identifiable net assets acquired is recognized as goodwill. If the acquisition cost is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the consolidated statement of comprehensive income.

Intra-group transactions and settlements between Group companies, as well as unrealised gains on intra-group transactions, have been eliminated. Unrealised losses are also subject to elimination, unless the transaction provides evidence of an impairment loss of the asset transferred.

Upon loss of control, the Group ceases to recognize the assets and liabilities of the subsidiary, non-controlling interests and other equity items of the subsidiary. Any surplus or shortage resulting from loss of control is recognised in the profit/loss of the period. If the Group retains any non-controlling interest or a stake that gives no significant influence in the former subsidiary, it is stated at fair value as at the date of control is lost.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

1.8. Accounting policies and other information

1.8.1. Functional and presentation currency

These consolidated financial statements are presented in the Polish zloty (PLN), which is the functional currency of the parent entity, and all values are presented in thousands of Polish zlotys (PLN'000) unless stated otherwise.

1.8.2. Basis of preparation

In preparing these consolidated financial statements the historical cost principle was applied, except for financial assets measured at fair value.

The financial statements have been prepared on the going concern basis. As of the date of these financial statements, the parent entity's Management Board does not identify any circumstances indicating a threat to the going concern.

1.8.3. Estimates and judgments

The preparation of consolidated financial statements in accordance with the IFRS requires making certain critical accounting estimates. It also requires the Exchange's Management Board to use its judgment in the application of the Group's accounting policies. Estimates and judgments are subject to on-going verification. Estimates and judgments adopted for the purpose of preparing the consolidated financial statements are based on historical experience, analyses and predictions of future events, which to the best knowledge of the Management Board of the Exchange are believed to be reasonable in the given situation.

Details of judgments and estimates are presented and highlighted in the Notes to these consolidated financial statements.

1.8.4. Selected accounting policies

Selected accounting policies are presented in the Notes to these consolidated financial statements.

The Group presents a single statement of profit or loss and other comprehensive income.

1.8.5. Valuation of balances presented in foreign currencies

Transactions presented in foreign currencies are booked at the transaction date at the following foreign exchange rate:

- the rate actually applied at such date, depending on the nature of the transaction – for sale or purchase of foreign currencies or payment of receivables or payables;
- the average rate published for the currency by the National Bank of Poland at the day preceding such date – for other operations.

As at the balance sheet date:

- monetary items presented in foreign currencies are converted with the closing foreign exchange (FX) rates;
- non-monetary items presented in foreign currencies valued at historical cost are converted at the FX rate prevailing at the transaction date;
- non-monetary items presented in foreign currencies at fair value are converted at the FX rate prevailing at the day of determining the fair value.

Foreign exchange gains and losses resulting from settlements of transactions in foreign currencies and from the conversions of monetary assets and liabilities denominated in foreign currencies are disclosed as profit / loss of the current period.

1.8.6. Segment reporting

Segment information is disclosed based on the entity's components monitored by the top management (Management Board of the Exchange) to the extent of operating decision-making. An operating segment is a component of the entity:

- which may earn revenues and incur expenses;
- whose operating results are regularly reviewed by the Exchange Management Board to make decisions about resources to be allocated to the segment and assess its performance; and
- for which discrete financial information is available.

The segments are identified based on specific service groups with homogenous characteristics. The presentation by operating segment follows the management approach at GPW Group level.

1.9. Impact of the war in Ukraine

On 24 February 2022, armed conflict broke out in Ukraine. The international community reacted by imposing sanctions against Russia. In view of the impact of the conflict on the political and economic situation in Europe and the world, the GPW Group took into account the recommendations of the Polish Financial Supervision Authority for issuers of securities, published on 2 March 2022.

In view of the above, the GPW Group has:

- conducted an analysis of potential risks arising from the conflict that may affect the operations of the Exchange and the Group companies (Management Board's Report on the Activities of the Parent Entity and the Warsaw Stock Exchange Group, Note 4.4.2.); and
- conducted an analysis of the potential impact of the conflict on the financial statements in the context of assessing the Group's ability to continue as a going concern.

The companies of the Group have no direct investments/exposures to entities with operations in Ukraine/Russia. The Group does not hold any material assets in foreign currency related to war zones and therefore exchange rate fluctuations are not expected to have a material impact on the Group's financial position.

The Company follows and monitors developments related to the armed conflict in Ukraine and analyses the potential negative consequences of the conflict on the Company's operations in order to take the necessary measures to mitigate the potential impact. Given the significant uncertainties arising from further developments in the conflict, the long-term impact of the conflict is impossible to determine as at the date of these financial statements.

Based on the information currently available and the analyses performed as at 31 December 2024, GPW did not identify any material uncertainties relating to events or circumstances that would cast significant doubt on its ability to continue as a going concern.

1.10. ESG reporting

The European Securities and Markets Authority (ESMA) in its annual public position paper setting out the European common supervisory priorities for the 2024 annual financial reports identified compliance with the ESRS for sustainability reporting in terms of materiality, scope, and structure of the report, as well as taxonomy disclosures, as one of those priorities. The 2024 sustainability report forms part of the Management Board's Report on the Activity of the Parent Entity and the Group of Giełda Papierów Wartościowych w Warszawie S.A.

2. Financial risk management

2.1. Financial risk factors

The Group is exposed to the following financial risks:

- market risk:
  - cash flow and fair value interest rate risk,
  - currency risk,
  - price risk,
- credit risk,
- liquidity risk.

The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise any potential adverse effects on the Group's financial performance. The Management Board of the Exchange and the Management Boards of the subsidiaries are responsible for financial risk management. The Group has dedicated departments responsible for ensuring its liquidity (including foreign currency liquidity), debt collection and timely payment of liabilities (including public levies).

2.2. Market risk

2.2.1. Cash flow and fair value interest rate risk

The Group is moderately exposed to interest rate risk.

The Group invests free cash in bank deposits, Treasury bonds, corporate bonds and other instruments where the interest rate is fixed or floating, negotiated and determined when contracted and at market rates in effect at the time of contracting. If market rates rise, the Group will earn higher interest income on floating-rate instruments and lower income on fixed-rate instruments; if market rates fall, the Group will earn lower interest income on floating-rate instruments and higher income on fixed-rate instruments.

The Group determines the impact of interest rate risk based on a sensitivity analysis assuming a change in interest rates of 0.5 p.p. (and holding other factors constant). Based on the analysis, the possible impact of a change in financial income on pre-tax profit and equity was determined. The sensitivity analysis in 2024 showed that an increase (decrease) in interest rates by 0.5 p.p. would result in an increase (decrease) in financial income of PLN 1,530 thousand and the resulting change of pre-tax profit.

The following tables present an analysis of financial assets and liabilities based on maturity. The value of financial assets is presented before deduction of expected credit losses (gross amount). The provisions are disclosed in Notes 4.5.5 and 4.5.6 Financial assets and liabilities that are not presented in the tables below are non-interest bearing.

	As at 31 December 2024					
	Maturity up to 1 year				1-5 Y	Total
	< 1 M	1-3 M	> 3 M	Total		
Bank deposits	-	-	-	-	2,397	2,397
Granted loans	-	-	-	-	1,084	1,084
Total long-term	-	-	-	-	3,481	3,481
Corporate bonds	-	29,758	20,192	49,950	-	49,950
Bank deposits	63,940	130,206	73,801	267,947	-	267,947
Granted loans	73	105	486	664	-	664
Current accounts (other)	76,820	-	-	76,820	-	76,820
Total current	140,833	160,069	94,479	395,381	-	395,381
Total financial assets	140,833	160,069	94,479	395,381	3,481	398,862

	As at 31 December 2023					
	Maturity up to 1 year				1-5 Y	Total
	< 1 M	1-3 M	> 3 M	Total		
Corporate bonds	-	9,917	46,981	56,898	-	56,898
Bank deposits	76,227	67,360	114,657	258,244	-	258,244
Current accounts (other)	97,757	-	5,434	103,191	-	103,191
Total current	173,984	77,277	167,072	418,333	-	418,333
Total financial assets	173,984	77,277	167,072	418,333	-	418,333

2.2.2. Foreign exchange risk

The Group is exposed to moderate foreign exchange risk. The Group earns income in PLN and EUR. The Group pays costs mainly in PLN and also in EUR, USD and GBP. The Company takes a proactive approach to managing foreign exchange risk in order to minimise it, using FX SWAPs and FX Forwards, as well as natural hedging.

Based on a sensitivity analysis, as at 31 December 2024, a 10% change in the average exchange rate of PLN assuming no other changes would result in moderate change in the profit before tax, as presented in the table below. An 10% FX rate decrease will result in the opposite change of financial income/costs as presented above.

	Impact of a 10% FX rate increase on profit before tax in year ended 31 December	
	Year ended 31 December	
	2024	2023
EUR	646	745
USD	124	(110)
GPB	(15)	3
AMD	1,581	1,275
Total impact on profit before tax	2,336	1,913

The table below shows the Group's foreign exchange position by financial instrument.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

	As of 31 December 2024 (translated to PLN at FX rate as at the balance-sheet date)

* Net of prepayments and receivables from other taxes.

** net of VAT payable and other taxes payable.

2.2.3. Price risk

Given the nature of its business, the Group is not exposed to any mass commodity price risk.

To a minor extent the Group is exposed to price risk of equity securities measured at fair value. The investments are presented in detail in Note 4.5.3. Their impact on the results of the Exchange is presented under other comprehensive income for instruments measured at fair value through other comprehensive income.

2.3. Credit risk

Credit risk is defined as a risk of incurring losses due to a counterparty's default of payments to the Group or as a risk of decrease in the economic value of amounts due as a result of a deterioration of a counterparty's ability to pay the amounts due.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

Credit risk associated with trade receivables is mitigated by the Exchange Management Board and the Management Boards of the subsidiaries by assessing the credibility of counterparties. In the opinion of the Exchange Management Board, the Group has no significant concentration of credit risk related to trade receivables.

At the parent entity, resolutions of the Exchange Management Board set deferred payment terms that vary depending on groups of counterparties. The payment terms for counterparties amount to 21 days.

At the parent entity, the credibility of counterparties is verified in accordance with internal regulations and good practice of the capital market as applicable to issuers of securities and Exchange Members.

The Group's maximum exposure to credit risk is reflected in the carrying amount of its trade receivables, bank deposits, corporate bonds, certificates of deposit, and other securities.

The Group's investment portfolio comprises only securities issued by the Treasury or corporate debt instruments. In the case of the latter, it is only possible to invest in securities with an assigned rating or secured by another rated entity. Furthermore, each bond issuer must have a stable financial position. In addition, investments are made in instruments with near maturity that is correlated with the Group's expected liquidity needs. As a result, exposure to the risk of loss of benefits or possible losses is minimised.

The table below presents the Group's exposure to credit risk.

	As at 31 December	
	2024	2023
Trade receivables (net)	47,662	43,627
Other receivables*	5,445	15,700
Cash and cash equivalents	132,236	246,781
Contract assets	1,476	1,260
Sublease receivables	264	368
Financial assets measured at amortized cost	265,531	171,421
Total exposure of the Group to credit risk	**452,614**	**479,157**

* Net of prepayments and receivables from other taxes.

In addition, credit risk is managed by the Group by diversifying banks in which free cash is deposited; as a result, exposure to the risk of expected credit loss is mitigated.

The risk rating of cash and cash equivalents is presented in the table below. Due to the fact that the Group does not have its own credit rating system, external credit ratings were used. If a single counterparty had no credit rating, the rating of the parent entity of the counterparty was used.

	As at	
	31 December 2024	31 December 2023
A+	28,308	8,270
A	-	4,011
A-	7,007	72,187
Baa	22,154	34,727
Ba/BBB+	71,174	118,776
No rating	3,593	8,810
Total	**132,236**	**246,781**

The tables below show the changes in the allowance for expected credit losses by financial asset.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

	Year ended 31 December 2024			
	Trade receivables	Cash and cash equivalents	Financial assets measured at amortized cost	Total
Opening balance	**4,109**	**158**	**134**	**4,401**
Creating a write-off	1,944	102	1,480	**3,526**
Dissolution of the write-off	(1,953)	(158)	(134)	**(2,245)**
Utilisation of the write-off	3	-	-	**3**
Closing balance	**4,103**	**102**	**1,480**	**5,685**

	Year ended 31 December 2023			
	Trade receivables	Cash and cash equivalents	Financial assets measured at amortized cost	Total
Opening balance	**4,009**	**237**	**46**	**4,292**
Creating a write-off	1,795	275	174	**2,244**
Dissolution of the write-off	(1,222)	(354)	(86)	**(1,662)**
Utilisation of the write-off	(1)	-	-	**(1)**
Receivables written off during the period as uncollectible	(472)	-	-	**(472)**
Closing balance	**4,109**	**158**	**134**	**4,401**

For trade receivables, the Group uses a simplified approach and estimates an allowance over the life of the receivables. For cash and cash equivalents, the allowance for expected credit losses is made in full at an amount equal to 12-month expected credit losses. Allowances for financial assets measured at amortized cost are also subject to a 12-month allowance for expected credit losses. Conversely, for assets for which credit risk has increased significantly since initial recognition, an allowance is estimated for the entire life of the instrument.

2.4. Liquidity risk

An analysis of the Group's financial position and assets shows that the Group is not materially exposed to liquidity risk.

An analysis of the structure of the Group's assets shows a significant share of liquid assets in total assets and, thus, a good liquidity position of the Group.

	As at 31 December 2024		As at 31 December 2023	
	amount	% of total assets	amount	% of total assets
Cash and cash equivalents	132,236	10.4%	246,781	19.6%
Financial assets measured at amortised cost	265,531	20.9%	171,421	13.6%
Assets other than cash and cash equivalents and financial assets measured at amortised cost	875,617	68.7%	839,479	66.7%
Total assets	**1,273,384**	**100.0%**	**1,257,681**	**100.0%**

An analysis of the structure of liabilities shows a share of equity in the financing of the operations of the Group of 84.5% in 2024 (83.5% as at 31 December 2023).

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

	As at 31 December 2024		As at 31 December 2023	
	amount	% of total liabilities	amount	% of total liabilities
Equity	1,075,220	84.4%	1,049,921	83.5%
Liabilities	197,164	15.6%	207,760	16.5%
Total equity and liabilities	**1,273,384**	**100.0%**	**1,257,681**	**100.0%**

To mitigate liquidity risk, the Exchange Management Board monitors, on an on-going basis, forecasts of liquid assets on the basis of maturities of assets and liabilities and other projected cash flows. The table below shows the contractual undiscounted cash flows and therefore the items do not reflect the carrying amounts. The liquidity analysis shows that the Group has a surplus of financial assets over financial liabilities.

	As at 31 December 2024						
	< 1M	1-3 M	3-6 M	6-12 M	1-5 Y	> 5Y	Total

*** net of VAT payable and other taxes payable*

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

2.5. Capital management

The objective of the Group when managing capital is to safeguard the ability of the Exchange and its subsidiaries to continue as a going concern and provide optimal benefits to all stakeholders. The priority of the Exchange Management Board and the Management Boards of the subsidiaries when making decisions about the structure of financing and the Group's dividend policy is to ensure a low level of investment risk while obtaining the best possible rate of return for the shareholders. Decisions taken by the Management Boards in this respect have a long-term horizon and are aimed at long-term building of value of the Group and the Polish capital market. In addition, as entities operating a regulated market, the Exchange and BondSpot are required by the Act on Trading in Financial Instruments to maintain a minimum level of equity equal to PLN 10 million.

To achieve those objectives, the Group used leases (Note 4.4). In addition, in accordance with its internal capital management and dividend policy, the Exchange pays an annual dividend to shareholders. It is the intention of the GPW Management Board to recommend to the General Meeting dividend payments in line with GPW's profitability and financial capacity, at no less than 60% of the GPW Group's consolidated net profit for the financial year attributable to GPW shareholders, adjusted for the share of profits of associates. Details of dividend payments in 2024 and 2023 are presented in Note 4.8.4.

The Exchange Management Board and the Management Boards of the subsidiaries optimise the structure of capital and monitor performance against targets using Alternative Performance Measures calculated according to the Guidelines of the European Securities and Markets Authority ("ESMA"). The measures used by the Group to monitor its capital management performance are presented in chapter 5.1 of the Management Board's Report on the Activity of the Parent Entity and the Group of Giełda Papierów Wartościowych w Warszawie S.A.

3. Segment reporting

Selected accounting policies

Segment information is disclosed based on components of the entity which are monitored by the Group's chief decision maker (Exchange Management Board) to make operating decisions. Operating segments are based on categories of services with common characteristics for which discrete financial information is available and which are reviewed regularly by the chief operating decision maker to make decisions about resources to be allocated to the segment and assess the Group's performance. The presentation of financial data by operating segment is consistent with the management approach at Group level.

For management purposes, the Group is divided into segments based on the type of services provided. The two main reporting segments are the financial segment and the commodity segment.

The ***financial segment*** *covers the activity of the Group including organising trade in financial instruments on the exchange as well as related activities. The Group also organises an alternative trading system and engages in capital market education, promotion and information activities.*

The financial segment includes three subsegments:

- *trading (mainly revenue from trading fees which depends on turnover on the exchange, fees for access to and use of exchange systems);*
- *listing (revenue from annual securities listing fees and other fees, e.g., for introduction of securities to trading on the exchange);*
- *information services (mainly revenue from information services for data vendors, historical data, calculation and distribution of WIBOR and WIBID reference rates).*

The ***commodity segment*** *covers the activity of the Group including organising trade in commodities as well as related activities, e.g., operation of a clearing house and a settlement system, activity of a trade operator and the entity responsible for trade balancing.*

The commodity segment includes the following sub-segments:

- *trading (mainly revenue on the Energy Market from spot and forward transactions in electricity, revenue from spot and forward transactions in natural gas, revenue on the Property Rights Market from trade in certificates of origin of electricity);*
- *operation of the Register of Certificates of Origin of electricity (mainly revenue from issuance and cancellation of property rights in certificates of origin of electricity);*
- *CO_2 Allowances Market (trade in certificates of origin of electricity);*
- *clearing (revenue from other fees paid by market participants (members));*
- *information services.*

***Other activities** include activities related to the provision of logistics services, support services and space rental, not allocated to segments.*

The accounting policies for the operating segments are the same as the accounting policies of the GPW Group.

The Exchange Management Board monitors separately the operating results of the segments to make decisions about resources to be allocated and assess the results of their allocation and performance. Each segment is assessed up to the level of net profit or loss.

Transaction prices of transactions between the operating segments are set at arm's length, as for transactions with non-related parties.

The Group's business segments focus their activities on the territory of Poland.

Revenue from no third-party client of the Group accounted for more than 10% of total revenue in 2024 and in 2023.

The tables below present a reconciliation of the data analysed by the Exchange Management Board with the data shown in these consolidated financial statements.

	Year ended 31 December 2024					
	Financial segment	Commodity segment	Other	Total segments	Consolidation exclusions and adjustments and unallocated items	Total segments and exclusions

Detailed information on sales revenue within each operating segment is presented in Note 5.1.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

4. Notes to the consolidated statement of financial position

4.1. Property, plant, and equipment

Selected accounting policies

Property, plant and equipment are disclosed at the cost of purchase or production, expansion or modernisation, net of accumulated depreciation and impairment losses. Purchase cost includes the cost of purchase, expansion and/or modernisation. Depreciation is calculated for property, plant and equipment items over their estimated useful life using the straight-line depreciation method.

Categories of property, plant, and equipment	
Buildings	*40 years*
Leasehold improvements	*10 years*
Vehicles and machinery	*5 years*
Computer hardware	*3-5 years*
Other fixed assets	*5-10 years*

The depreciation method, the depreciation rate and the residual value are subject to regular verification by the Group. Any changes resulting from the verification are recorded as a change in accounting estimates, prospectively.

Land is not subject to depreciation.

Property, plant and equipment under construction are fixed assets under construction, installation or improvement of an existing fixed asset. They are valued at cost or at the total cost directly related to their construction, less any impairment losses. Property, plant and equipment under construction or development is not depreciated until complete.

A component of property, plant and equipment is derecognised when sold or when economic benefits from its use or disposal are no longer expected. Gains and losses on disposal/liquidation of property, plant and equipment are determined as the difference between the proceeds (if any) and the net book value of property, plant and equipment and included in the profit or loss of the period as other income or other expenses.

Selected judgments and estimates

The Group estimates the economic useful lives and depreciation rates for property, plant and equipment. These estimates are based on the anticipated periods of use of each group of assets. The adopted economic useful lives may undergo considerable changes as a result of new technological solutions emerging on the market, plans of the Management Board of the Exchange or intensity of use.

	Year ended 31 December 2024

Net carrying amount	**67,524**	**30,133**	**1,507**	**10,198**	**109,362**

* Depreciation of PLN 5,549 thousand is capitalized to intangible assets (development work).

Vehicles and machinery include mainly IT hardware: servers, computers and network devices.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

Selected accounting policies

At each balance sheet date, the Group reviews non-financial assets for indications of impairment, except for inventories and deferred tax assets.

If such indications are identified, the recoverable amount of an asset is estimated (as the higher of: fair value less selling costs or value in use). Value in use corresponds to the discounted value of the future economic benefits which would be generated by an asset.

At the end of every reporting period, the Group checks for conditions indicating that the impairment losses recognised in previous reporting periods may be redundant or excessive. In that case, impairment losses are reversed in whole or in part and the asset value is disclosed net of the impairment losses (but including depreciation).

Impairment losses are recognised in other expenses and reversed in other income.

Impairment of property, plant and equipment under development amounted to PLN 131 thousand in 2024 and related to expenditure for the rearrangement and modernisation of one floor of the Company's head office. The Exchange recognised no impairment of property, plant and equipment in 2023.

4.2. Intangible assets

Selected accounting policies

Intangible assets include goodwill, other intangible assets, and development work.

Other intangible assets (licences, copyright, know-how and share in perpetual usufruct of land) are disclosed at cost of purchase or production net of accumulated amortisation and impairment losses.

Intangible assets developed in-house are classified as research (recognised as an expense) or development work (recognised as an intangible asset). Development work is recognised at cost, which includes all directly attributable costs necessary to create, produce and prepare the asset to be capable of operating in the manner intended by the Management Board of the Exchange. Direct costs include the cost of services used for production; depreciation of selected property, plant and equipment (IT hardware) used directly to produce the asset; and the cost of employee benefits directly attributable to the production of the asset. Such costs are capitalised when the costs and the related intangible asset meet the criteria of IAS 38. Upon completion, development work is reclassified to the appropriate category of intangible assets.

Amortisation is calculated for other intangible assets over their estimated useful life using the straight-line amortisation method. The amortisation method and the amortisation rate are subject to regular verification by the Group. Any changes resulting from the verification are recorded as a change in accounting estimates, prospectively.

A component of intangible assets is derecognised when sold or when economic benefits from its use or disposal are no longer expected. Gains and losses on disposal/liquidation of intangible assets are determined as the difference between the net proceeds (if any) and the book value of intangible assets and included in the profit or loss of the period as other income or other expenses.

The Group performs an annual test of impairment of intangible assets which are not yet available for use by comparing the carrying amount and the recoverable amount. For impairment testing purposes, intangible assets which are not yet available for use are allocated to cash generating units which are expected to benefit from the transaction responsible for the creation of the assets. Cash-generating units were established as individual companies.

If the carrying amount of an asset (or a cash generating unit) is higher than its recoverable value, impairment is recognised and the asset value is written down to recoverable value. Impairment losses are charged to the profit or loss of the period as other income or other expenses.

Selected judgments and estimates

The Group estimates the economic useful lives and amortisation rates for other intangible assets. These estimates are based on the anticipated periods of use of each group of assets. The adopted economic useful lives may undergo considerable changes as a result of new technological solutions emerging on the market, plans of the Management Board of the Exchange or intensity of use. Individual useful life periods apply to:

- *intangible assets relating to trading systems with estimated economic useful lives ranging from 6 to 12 years;*
- *know-how acquired in the PCR project in the subsidiary TGE with an estimated economic useful life of 20 years;*
- *copyrights to apply the WIBID and WIBOR reference rates in the subsidiary GPWB with estimated economic useful lives of 20 years.*

Apart from assets with useful lives determined on an individual basis, the estimated useful life of intangible assets is 5 years.

The Group also estimates the recoverable amount for cash-generating units. When determining value in use, the Group estimates the projected future cash flows and the discount rate.

Accumulated amortisation	(236,117)	(7,853)	(2,696)	-	-	(323)	(561)	**(247,550)**
Net carrying amount	**26,406**	**2,332**	**3,802**	**157,669**	**118,619**	**5,650**	**9,277**	**323,755**

* Amortisation of PLN 5,308 thousand is capitalised to intangible assets (development work).

In 2024, the parent entity recognised no costs of research. In 2023, the costs of research recognised in the statement of comprehensive income amounted to PLN 3,245 thousand. Development work consists of expenditures for intangible assets generated in-house, comprising mainly expenditures for subsidized projects described in Note 6.3.

The UTP trading system represents the biggest intangible asset in the category “Licences”. The UTP trading system was commissioned on 15 April 2013. The useful life of the UTP trading system was extended from 31 October 2024 to 31 August 2025, and the net value of the UTP trading system was PLN 3,174 thousand as at 31 December 2024 (PLN 7,935 thousand as at 31 December 2023).

Impairment testing of intangible assets

New Trading System

As at 31 December 2024, due to the need for impairment testing, the recoverable amounts of intangible assets not placed in service were estimated using the DCF method. The detailed cash flow projection covered the period 2025-2029 at the level of cash-generating units. GPW was identified as the cash-generating unit for the New Trading System project.

The discount rate used to calculate the present value of future cash flows was estimated as the company’s weighted average cost of capital based on market data on risk-free rates, the expected market return rate and the beta factor for the relevant leveraged sector based on the market debt/equity structure.

The main assumptions used in the model to determine the value in use of the project as at 31 December 2024 based on GPW’s financial assumptions for 2025 - 2029 include:

- weighted average cost of capital of 9.3%,

Data for the year ended 31 December 2024. All amounts in PLN’000 unless stated otherwise.

- average annual changes in revenues and costs, at a level not significantly different from the assumptions presented in the Strategic Development Directions of the GPW Capital Group,
- growth rate after the forecast time horizon of 2.0%.

The impairment test concluded that no impairment loss was required for the project under review as at 31 December 2024. In addition, a sensitivity analysis showed that no reasonable change in the key assumptions of the valuation model would result in the need to recognise an impairment loss.

In connection with plans to discontinue or reduce the scope of investment projects under development, tests were carried out for the following intangible assets not placed in service:

GPW Data

GPW Data is a project that originally aimed to develop a system using artificial intelligence to support the investment decisions of capital market participants. Two main modules were planned: an investor support tool ("NWI"), and a reporting system with an exchange data repository. As a result of the analysis of the GPW Data project, the Exchange Management Board decided to discontinue the development and implementation of the NWI functionality. As part of the pre-implementation work, a technology demonstrator covering selected functions of the solution was developed; however, the analysis showed that the possibilities of using the investor support tools in the future are very limited and potential commercialisation is not economically justified for the Company. In view of the above, loss was recognised on the investment in the NWI module in the amount of PLN 3,632 thousand. The remaining part of the GPW Data project is developing a modern reporting system for issuers and a repository for structured exchange data. After the analysis, the Exchange Management Board decided to continue the development of the reporting system demonstrator for production roll-out. The Company's intention is to complete and launch this solution. The carrying amount of the investment in the reporting system was PLN 3,414 thousand as of 31 December 2024.

GPW Private Market

GPW Private Market is a project aiming to develop a blockchain platform for the tokenisation of non-financial assets. One of the platform modules was designed to support crowdfunding. Following an analysis of the GPW Private Market project, the GPW Management Board concluded that the Company will not engage in crowdfunding in the near future due to the questionable economic viability of crowdfunding for GPW. On the other hand, the development of tokenisation of non-financial assets is still planned, but it was concluded that it will be very difficult to use the outcome of work completed to date in the GPW Private Market project for this purpose due to the complex formal relationship with the other participants in the consortium and the lack of control over the solution under development. Despite being the consortium leader with by far the highest own contribution to the project, GPW is only entitled to 34.5% of the solution, and in practice GPW has no control over the solution and has to rely on intentions of the other consortium members in planning the potential use of the outcome of work completed to date. Thus, the Management Board decided to recognise a loss equal to the full investment to date in the GPW Private Market project in the amount of PLN 10,294 thousand.

In addition, due to the presence of indications, the following assets were tested for impairment:

Telemetry

The Telemetry system is a project aiming to develop a multi-module auction platform for comprehensive profiling of television users and for the sale and display of targeted advertising on linear television. Due to a change in business conditions as of 31 December 2024, an impairment test was carried out of the assets relating to the Telemetry system. Their recoverable amount was estimated based on the DCF method. A detailed cash flow forecast was made for the period 2025-2029 at the level of cash-generating units. The assets of the company GPW DAI were considered to be the cash-generating unit.

The discount rate was estimated analogously to the method used for the New Trading System.

The main assumptions used in the model to determine the value in use of the project as of 31 December 2024 based on GPW DAI's financial assumptions for 2025 - 2029 include:

- weighted average cost of capital of 13.8%,

- revenue CAGR of 124.5%,
- cost CAGR of 6.0%,
- growth rate after the forecast time horizon of 2.0%.

As a result of the impairment test conducted as at 31 December 2024, it was found necessary to make a write-down in the amount of PLN 13,265 thousand (including a write-down on goodwill: PLN 19 thousand). The carrying amount of assets, after the write-down, adjusted for the unsettled subsidy amounted to: PLN 4,932 thousand.

GRC

The GRC system was developed to support the management of risks, internal procedures, and legal compliance. As a result of the change in the application of GRC, an impairment test was carried out as of 30 June 2024, which identified the need to recognise an impairment loss in the amount of PLN 3,648 thousand for development work and PLN 2,197 thousand for know-how. As at 31 December 2024, an independent external valuation showed no need to change the impairment loss amount.

4.2.1. Goodwill

Selected accounting policies

Goodwill from acquisition is the difference between the purchase price and the fair value of the acquired assets, liabilities and identifiable contingent commitments. After initial recognition, goodwill is disclosed at cost of purchase net of accumulated impairment losses. Goodwill is tested against potential impairment annually or more frequently in case of events or changes indicating potential impairment.

For impairment testing purposes, goodwill is allocated to cash generating units which are expected to benefit from the transaction responsible for the creation of goodwill.

Impairment losses on goodwill are not subject to reversal.

Selected judgments and estimates

A cash generating unit, to which goodwill has been allocated, is subject to annual impairment tests.

Goodwill impairment tests are conducted using the discounted cash flows method based on financial forecasts or estimated fair value less cost of sale. Forecasts of future financial results of cash flow generating units are based on a number of assumptions, of which some (among others those relating to observable market data such as macroeconomic conditions) are beyond control of the Group.

Goodwill impairment test

As of 31 December 2024, goodwill was tested for impairment by estimating value in use using the DCF method. The detailed cash flow projection covered the period 2025-2029 at the level of cash-generating units. The following were considered cash-generating units:

- for goodwill arising from taking control of the TGE Group – the company Towarowa Grupa Energii S.A.,
- for goodwill arising from taking control of BondSpot – the company BondSpot S.A.,
- for goodwill arising from the acquisition of an organised part of the enterprise of ELBIS Sp. z o.o. by InfoEngine – the company InfoEngine S.A.

The discount rate used to calculate the present value of future cash flows was estimated as the weighted average cost of capital of each of the companies based on market data on risk-free rates, the expected market return rate and the beta factor for the relevant leveraged sector based on the market debt/equity structure.

The key assumptions used in the model as of 31 December 2024 are presented in the table below.

The goodwill was created as a result of	Number of years forecast	WACC	Average annual change in revenue	Average annual change in costs	Growth rate after forecast period
GPW taking control over the TGE Capital Group	5	9.3%	8.8%	3.5%	2.0%
GPW taking control of BondSpot	5	9.3%	8.0%	15.6%	2.0%
InfoEngine's acquisition of the Electricity Trading Platform (poee)	5	9.3%	15.1%	8.0%	2.0%

The goodwill impairment tests described above identified no need to recognise an impairment loss in the GPW Group's consolidated financial statements as of 31 December 2024.

In addition, a sensitivity analysis was performed of the goodwill, separately for each of the key factors used in the impairment test model, with the other parameters unchanged. The purpose of the analysis was to determine the cut-off value of those factors at which the recoverable amount would be equal to the carrying amount. The results of the analysis showed that no reasonable change in the key assumptions of the investment valuation model would result in the need to recognise an impairment loss.

Due to the discontinuation of investment in the development of the company GPW PM and the impairment loss recognised for assets of GPW DAI (see above), a goodwill impairment loss of PLN 38 thousand was recognised as at 31 December 2024.

The table below presents a summary of goodwill disclosed in the consolidated financial statements.

The goodwill was created as a result of	As at 31 December 2024			As at 31 December 2023		
	Initial value	Loss of value	Value after taking into account the write-off	Initial value	Loss of value	Value after taking into account the write-off
GPW taking control of the TGE Group	147,792	-	**147,792**	147,792	-	**147,792**
GPW taking control of BondSpot	22,986	(13,356)	**9,630**	22,986	(13,356)	**9,630**
InfoEngine acquiring the Electricity Trading Platform (poee)	1,588	(1,404)	**184**	1,588	(1,404)	**184**

GPW taking control of GPW DAI	19	(19)	**-**	19	-	**19**
Total	**172,429**	**(14,798)**	**157,631**	**172,429**	**(14,760)**	**157,669**

4.3. Investments in entities measured by the equity method

Selected accounting policies

Entities measured by the equity method include associates and joint ventures. *Investments in associates and joint ventures are initially recognised at cost.*

Associates *are all entities over which the Group has significant influence but does not control.*

Joint ventures *are entities which are jointly controlled by at least two partners under a partners' agreement, a company agreement, or the company's articles of association.*

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

The Group's share of profit of entities measured by the equity method from the date of acquisition is recognised in the consolidated statement of comprehensive income, and its share of changes in other reserves from the date of purchase – in other reserves. When the Group's share of losses of an entity measured by the equity method equals or *exceeds its interest in the entity, including any other unsecured receivables, the Group ceases to recognise further losses, unless it has incurred obligations or made payments on behalf of the entity measured by the equity method.*

Unrealised gains on transactions between the Group and its entities measured by the equity method are eliminated to the extent of the Group's participation in those entities. Unrealised losses are also eliminated, unless the transaction provides evidence of an impairment of the asset transferred.

The entities measured by the equity method as at 31 December 2024 and as at 31 December 2023 included:

- KDPW S.A. Group,
- Centrum Giełdowe S.A.,
- Polska Agencja Ratingowa S.A.

The entities measured by the equity method prepare financial statements under the Accounting Act. The results presented in the tables below are restated under the GPW Group accounting policies. The tables below show the changes in the value of the investments in 2024 and in 2023.

As at 30 September 2019, the investment in PAR was fully impaired due to the deferral of the start date of PAR's target business. From this date onwards, the results of PAR are no longer included in the Group's net profit.

	Year ended 31 December 2024		
	KDPW Group	CG	Total
Opening balance	**258,536**	**15,685**	**274,221**

4.4. Leases

Selected accounting policies

As a lessee, under IFRS 16, the Group recognises as leases all contracts under which the right to use an asset is transferred for a given term in exchange for a fee. As a permitted simplification, the Group does not apply lease accounting to:

- *short-term lease contracts;*
- *leases of low-value underlying assets ("low-value leases").*

Such lease payments are recognised as costs on a straight-line basis in the financial result.

Low-value leases include mainly leases of: computers, coffee machines, office furniture. It is assumed that low-value assets are those assets whose unit value does not exceed PLN 20,000, which is approximately equivalent to USD 5,000.

Short-term leases are leases up to 12 months.

For each lease contract, the Group defines the lease term as an uncancellable period including:

- *periods when the lessee is reasonably certain to exercise an option to extend the lease; and*

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

- *periods when the lessee is reasonably certain not to exercise an option to terminate the lease.*

<u>As a lessor</u>, the Group recognises lease contracts as an operating lease or a finance lease.

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset.

Lease payments from operating leases are recognised as income on either a straight-line basis or another systemic basis. Income from office space leases is recognised in the amount of monthly rent. Any costs, including depreciation charges, incurred to earn the lease income are recognised in the financial result.

At the commencement date, assets held under a finance lease are recognised in the consolidated statement of financial position and presented as a lease/sublease receivable at an amount equal to the net investment in the lease.

Interest income on leases is recognised in the term of the lease to reflect a fixed periodic interest rate on the net investment in the lease made by the Group in the finance lease.

Sublease contracts are contracts where the underlying asset is re-leased by the Group ("intermediate lessor") to a third party and the lease ("head lease") between the head lessor and the Exchange remains in effect. Sublease contracts are classified as an operating lease or a finance lease.

The policy applicable to the head lease applies accordingly to finance sublease contracts, i.e., as an intermediate lessor, the Group derecognises the net value and the depreciation of the subleased assets from right-to-use assets in the consolidated statement of financial position and from depreciation in the consolidated statement of comprehensive income, accordingly.

4.4.1. Qualitative and quantitative information about lease transactions – Group as a lessee

The Group is a lessee of the following groups of assets:

- office space and car park space in the Centrum Giełdowe building, ul. Książęca 4, Warsaw, and office space in Bełchatów;
- colocation space (back-up office, racks, server rooms and maintenance rooms);
- passenger cars.

Each lease contract is negotiated on an individual basis and contains a broad range of terms and conditions. The terms and conditions with a significant impact on the value of lease liabilities include:

- no fixed term of most lease contracts for space in Centrum Giełdowe (with a termination notice of several months);
- for colocation services: contracts with a fixed term (several years) which automatically extend upon expiry as a contract with no fixed term with a termination notice of several months;
- three-year passenger car leases (after the term of the lease, the user has the option to buy the car; if the option is not exercised, the car is returned to the lessor).

The Group's leases contain no covenants; however, right-to-use assets cannot be used as loan collateral. They provide for no material variable lease payments which would depend on an index or a rate, the Group's revenue, a reference interest rate, or which would change to reflect changes to market rents.

In the opinion of the Exchange Management Board, the Group is not exposed to material risk of future cash outflows in respect of variable lease payments, residual value guarantee or leases not yet commenced. Given the nature of the lease contracts for space in Centrum Giełdowe (no fixed term) and colocation, if the expected lease period changes, the liability will be restated accordingly along with an adequate change to future cash outflows.

Depreciation charges on right-to-use assets (net of depreciation of subleased assets), increases in right-to-use assets, and the carrying amount of right-to-use assets by category are presented in the table in Note 4.4.4.

Cash outflows under leases, excluding short-term leases and low-value leases, are presented in the consolidated statement of cash flows as lease payments (interest) and lease payments (principal).

Cash outflows under short-term leases and low-value leases are a cost of the leases recognised in the statement of comprehensive income and presented in the table below.

The Group was not a lessee of assets for a term shorter than 12 months (short-term lease) in 2024 and in 2023.

The table below shows the lease costs recognised in the statement of comprehensive income

	Year ended 31 December	
	2024	2023
Depreciation of right-to-use assets	7,123	6,244
Interest on lease liabilities	1,796	308
Total lease cost in the statement of comprehensive income	**8,919**	**6,552**

The Group incurred no variable lease costs in 2023-2024 that would not be included in the value of lease liabilities.

4.4.2. Qualitative and quantitative information about lease transactions – Group as a lessor

The Group is a lessor of office space in the Centrum Giełdowe building.

Where the Group leases own space to third parties, such lease contracts are classified as operating leases.

Where the Group subleases leased space to third parties, such lease contracts are classified in accordance with the head lease (the Group is an intermediate lessor). Consequently, the Group recognises sublease receivables and reduces right-to-use assets under the head lease accordingly (recognised under IFRS 16).

As at 31 December 2024, the Group was:

- the lessor (operating leases) of office space; and
- the sublessor of office space.

The activity of the Group as a lessor and sublessor is incidental; it is not a significant source of revenue. Consequently, given immateriality of leases, no additional disclosures have been made, such as the amount of the Group's income as lessor/sub-lessor, sublease fees due in the next 5 years or reconciliation of due sublease fees with net lease investments.

4.4.3. Selected judgments and estimates related to leases

Lease liabilities and right-to-use assets are calculated using professional judgment including:

- *determination of the period of lease;*
- *determination of the lessee's incremental borrowing rate.*

For leases signed by the Group with no fixed term, the Group estimates the most likely period of the lease taking into account all facts and circumstances which provide an economic incentive to continue the lease. Afterwards, the Group uses judgment to determine if it is reasonably certain that the Group will continue the lease on the occurrence of any event or change of circumstances affecting the judgment.

The Exchange Management Board using judgment determined the five-year term of lease of additional office space occupied by the Group in the Centrum Giełdowe.

The Exchange Management Board determined the lease rate using judgment of the interest rate that the Group would have to pay to borrow, for a similar term and against similar collateral, funds necessary to buy the asset used under the lease contract.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

4.4.4. Right-to-use assets

Selected accounting policies

The Group initially measures right-to-use assets at cost, including:

- *the initial valuation of the lease liability,*
- *any lease payments made at or before the commencement date less any lease incentives received,*
- *any initial direct costs incurred by the lessee, and an estimate of any costs to be incurred by the lessee in dismantling and removing the underlying asset, or restoring the site on which it is located, or restoring the underlying asset to the condition required by the terms and conditions of the lease.*

After the commencement date of the lease, the Group measures right-to-use assets by applying a cost model, i.e., at cost less accumulated depreciation and impairment losses and adjusted for any remeasurement of the lease liability. Right-to-use assets are depreciated on a straight-line basis over the lease term.

For subleases, the head lease asset is derecognised in right-to-use assets in the consolidated statement of financial position and its depreciation is derecognised in depreciation in the consolidated statement of comprehensive income.

Right-to-use assets are presented in a separate line of the consolidated statement of financial position. The Group groups such assets as: office space and other premises, cars and colocation space.

The table below presents changes to right-to-use assets by category, net of subleased assets.

	Year ended 31 December 2024			
	Office space and other premises	Vehicles	Colocation space	Total
Right-of-use assets - as at the beginning of the period	**12,187**	**176**	**13,062**	**25,425**
New leases	170	-	-	**170**
Terminated leases	(164)	(24)	-	**(188)**
Reclassification and other adjustments	(240)	31	7,828	**7,619**
Depreciation	(2,960)	(124)	(4,039)	**(7,123)**
Differences on foreign currency translation of subsidiaries (+)/ (-)	75	-	-	**75**
Net carrying amount - closing balance	**9,068**	**59**	**16,851**	**25,978**

	Year ended 31 December 2023			
	Office space and other premises	Vehicles	Colocation space	Total
Right-of-use assets - as at the beginning of the period	**2,075**	**259**	**2,351**	**4,685**
New leases	1,554	132	-	**1,686**
Terminated leases	(77)	(44)	-	**(121)**
Reclassification and other adjustments	11,537	133	13,726	**25,396**
Depreciation	(2,925)	(304)	(3,015)	**(6,244)**
Differences on foreign currency translation of subsidiaries (+)/(-)	23	-	-	**23**
Net carrying amount - closing balance	**12,187**	**176**	**13,062**	**25,425**

The reclassifications and other adjustments in 2023 mainly relate to the renewal of the lease for a five-year term in accordance with the framework described in section 4.4.3.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

4.4.5. Lease liabilities

Selected accounting policies

The Group measures lease liabilities at the commencement date of the lease at the present value of the lease payments outstanding at that date. Lease payments are discounted at the interest rate implicit in the lease. If the Group cannot easily determine the interest rate implicit in the lease, it applies its incremental borrowing rate. The incremental borrowing rate of the Group is equal to the interest rate that the Group would have to pay to borrow, for a similar term and against similar collateral, funds necessary to buy an asset of a similar value as the asset used under the lease contract.

For the purposes of initial measurement of lease liabilities, the Group determines lease payments including:

- *fixed lease payments and variable lease payments depending on an index or rate;*
- *amounts which the Group expects to be paid under a residual value guarantee;*
- *the exercise price of an option to purchase the asset that the Group is reasonably certain to exercise;*
- *payments for terminating the lease if the Group may exercise an option to terminate the lease according to the terms and conditions of the lease.*

After the commencement date of the lease, the Group measures lease liabilities by:

- *calculating interest on the lease liability,*
- *reducing the carrying amount to reflect the lease payments made,*
- *remeasuring the carrying amount of the liability to reflect any reassessment or lease modifications.*

As a result, each lease payment is allocated between lease liabilities (presented in a separate item of the consolidated statement of financial position, broken down by current and non-current items) and interest cost of leases (recognised in financial expenses in the consolidated statement of comprehensive income).

An analysis of lease liabilities by due date is presented in Note 2.4.

The table below presents changes to lease liabilities by category.

	Year ended 31 December 2024			
	Office space and other premises	Vehicles	Colocation space	Total
Lease liabilities - as at the beginning of the period	**12,396**	**189**	**13,066**	**25,651**
New leases	170	-	-	**170**
Terminated leases	(164)	(24)	-	**(188)**
Interest on lease liabilities	721	9	1,065	**1,795**
Lease liabilities paid in the period (equal to leasing fees)	(3,533)	(140)	(4,649)	**(8,322)**
Reclassification and other adjustments	(199)	32	7,828	**7,661**
Net carrying amount - closing balance, including:	**9,391**	**66**	**17,310**	**26,767**
non-current	6,512	-	13,366	**19,878**
current	2,879	66	3,944	**6,889**

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

	Year ended 31 December 2023			
	Office space and other premises	Vehicles	Colocation space	Total
Lease liabilities - as at the beginning of the period	**2,548**	**288**	**2,511**	**5,347**
New leases	1,559	132	-	**1,691**
Terminated leases	(37)	(44)	-	**(81)**
Interest on lease liabilities	272	19	50	**341**
Lease liabilities paid in the period (equal to leasing fees)	(3,470)	(349)	(3,223)	**(7,042)**
Reclassification and other adjustments	11,524	143	13,728	**25,395**
Net carrying amount - closing balance, including:	**12,396**	**189**	**13,066**	**25,651**
non-current	9,608	77	10,701	**20,386**
current	2,788	112	2,365	**5,265**

The reclassifications and other adjustments in 2023 mainly relate to the renewal of the lease for a five-year term in accordance with the framework described in section 4.4.3.

4.4.6. Sublease receivables

Selected accounting policies

The Group measures sublease receivables in the same way as it measures lease liabilities, i.e., at the commencement date of the lease at the present value of the lease payments outstanding at that date. Lease payments are discounted at the interest rate implicit in the lease. If the Group cannot easily determine the interest rate implicit in the lease, it applies its incremental borrowing rate.

The table below presents changes to sublease receivables by category.

	Year ended 31 December	
	2024	2023
Net carrying amount at the beginning of the period	**368**	**384**
Interest on sublease receivables	19	14
Sublease receivables paid in the period (equal to leasing fees)	(145)	(140)
Reclassification and other adjustments	22	110
Net carrying amount - closing balance, including:	**264**	**368**
- non-current	173	248
- current	91	120

The reclassifications and other adjustments in 2023 mainly relate to the renewal of the lease for a five-year term in accordance with the framework described in section 4.4.3.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

4.5. Financial assets

4.5.1. Classification and measurement of financial assets

Selected accounting policies

The Group's financial assets are classified into the following categories:

- *financial assets measured at amortised cost:*
    - *cash and cash equivalents,*
    - *trade receivables,*
    - *receivables from loans granted,*
    - *other receivables,*
    - *other financial assets (including bank deposits and held-to-maturity corporate bonds and certificates of deposit);*
- *financial assets measured at fair value through profit or loss;*
- *financial assets measured at fair value through other comprehensive income.*

Cash and cash equivalents are presented in a separate item of the consolidated statement of financial position. Trade receivables and other receivables are presented in trade receivables and other receivables in the consolidated statement of financial position. Receivables from loans granted and other financial assets are presented in financial assets measured at amortised cost in the consolidated statement of financial position.

The assets are classified into those categories on initial recognition. Classification depends on:

- *the business model of asset portfolio management; and*
- *the contractual terms of the financial asset.*

Financial assets are derecognised when the right to receive cash flows from such assets expire or are transferred and the Group transfers substantially all the risks and rewards incidental to ownership of the assets.

Financial assets measured at amortised cost are presented in Notes 4.5.4, 4.5.5, and 4.5.6.

Financial assets measured at fair value through other comprehensive income are presented in Note 4.5.3.

The Exchange held shares of IDM S.A. in bankruptcy by arrangement received from the debtor in exchange for receivables and classified them as financial assets measured at fair value through profit or loss as at 31 December 2024 and as at 31 December 2023. The fair value of the shares was PLN 0 as at 31 December 2024 and as at 31 December 2023.

4.5.2. Impairment of financial assets

Selected accounting policies

At each balance sheet date, the Group recognises impairment (expected credit loss) of financial assets. If there has been a significant increase in credit risk of a financial asset since initial recognition, the Group recognises expected credit loss of the financial asset as an allowance equal to lifetime expected credit losses; otherwise, the financial asset will attract a loss allowance equal to 12-month expected credit loss.

The Group's impairment allowance for financial assets measured at amortised cost (other than trade receivables) is equal to the 12-month expected credit loss in view of the low credit risk of such financial instruments. The Group considers cash and cash equivalents, other receivables and other financial assets measured at amortised cost to carry low credit risk because it only accepts entities, including banks and financial institutions, of a high investment rating and stable market position.

The Group measures expected credit loss of financial instruments taking into account:

- *an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;*
- *the time value of money;*
- *reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions*

The Group assesses expected credit losses for assets related to debt instruments measured at amortised cost regardless of whether there is an indication of impairment. The allowance for expected credit losses is made based on the estimated ratings of the issuer and the probability of loss assigned to the rating and the amount of loss.

The Group applies a simplified approach to trade receivables and contract assets, where impairment allowances for trade receivables are recognised as equal to lifetime expected credit loss according to a provision matrix. Trade receivables of the Group have no significant financing component.

As at the end of each reporting year, to estimate expected credit loss on trade receivables, the Group performs a statistical analysis of trade receivables by category of clients (Exchange Members, Issuers, other clients) based on historical collection of debt from counterparties.

In the next step, the Group performs a portfolio analysis and calculates for each category of clients a credit loss ratio based on a provision matrix by age group. The allowance for debt which is not overdue as at the balance sheet date for a group of clients in a time bracket is equal to the value of trade receivables at the balance sheet date times the credit loss ratio.

The expected credit loss (or released allowance) required to adjust the expected credit loss allowance as at the reporting date to the amount that should be recognised is presented in the statement of comprehensive income as gains or losses on impairment.

The expected credit loss allowance for financial assets classified as financial assets measured at amortised cost is shown as a reduction of the gross carrying amount of the financial asset in the consolidated statement of financial position and as a cost of the period in financial expenses.

The expected credit loss allowance for financial assets classified as financial assets measured at fair value through other comprehensive income is shown in other comprehensive income and reduces the value of the financial asset.

4.5.3. Financial assets measured at fair value through other comprehensive income

Selected accounting policies

Financial assets measured at fair value through other comprehensive income include:

- *Equity securities which the Group irrevocably elects to recognise as such on initial recognition;*
- *Debt securities where the contractual cash flows are solely payments of principal and interest and the objective of the Company's business model is achieved both by collecting contractual cash flows and by selling financial assets.*

Financial assets measured at fair value through other comprehensive income comprise shares in entities over which the Group does not exercise control or exert significant influence. They are disclosed as non-current assets unless the Group intends to sell them within 12 months after the balance sheet date.

Financial assets measured at fair value through other comprehensive income are initially recognised at fair value plus directly attributable transaction costs. After initial recognition, they are measured at fair value and any effect of change in the fair value is recognised in other comprehensive income and presented in equity as reserves. On derecognition, the cumulative profit or loss recognised in equity is taken to retained earnings after tax. For debt instruments, accrued interest is recognised directly in profit or loss.

The table below shows the Group's investments measured at fair value through other comprehensive income.

	Year ended 31 December 2024						
	Innex	BVB	ETF	TransactionLink	EuroCTP	GPWV SKA	Total
Value at cost	3,820	1,343	14,989	692	61	51	**20,956**

Carrying amount	**-**	**184**	**15,956**	**1,647**	**61**	**51**	**17,899**

	Rok zakończony 31 grudnia 2023 r.						
	Innex	BVB	ETF	TransactionLink	EuroCTP	GPWV SKA	Total
Value at cost	3,820	1,343	9,986	692	31	51	**15,923**
Revaluation	(3,820)	(1,044)	430	985	-	-	**(3,449)**
Carrying amount	**-**	**299**	**10,416**	**1,677**	**31**	**51**	**12,474**

Innex

The Exchange acquired a stake in the Ukrainian Stock Exchange Innex in July 2008. The fair value of the shares was adjusted to nil in 2008. The Exchange Management Board identified no indications to change the fair value of Innex shares as at 31 December 2024.

Bucharest Stock Exchange ("BVB")

The Exchange acquired a stake in Sibex in 2010. SIBEX merged with BVB at 1 January 2018. Following the merger, the Exchange holds 5,232 BVB shares at a par value of RON 10 per share. BVB is listed on the Bucharest Stock Exchange.

TransactionLink

The investment includes 60 shares in TransactionLink Sp. z o.o. acquired by GPW Tech S.A.. The entity offers a technology platform providing services including identity verification processes, financial history checks and credit risk assessment.

ETF

The Exchange purchased 25,929 certificates of the BETA ETF based on the Treasury BondSpot Poland Index. The arranger of the issue is AgioFunds TFI S.A. The instrument was newly listed on 17 January 2022.

In February 2024, the Exchange purchased 38,700 Beta ETF Obligacje 6M Portfolio FIZ certificates based on the GPWB-BWZ floating rate government bond index. The issue arranger is AgioFunds TFI S.A.

EuroCTP B.V. ("EuroCTP")

The Exchange on 23 August 2023 purchased a stake in a European initiative bringing together 14 European stock exchanges. The objectives of the initiative are to create and participate in an electronic system that collects and reports, in real time, consolidated data on financial instruments traded on European exchanges. GPW's share in the initiative is 0.1% of the share capital.

GPW Ventures AM Sp. z o. o. KOWR Ventures ASI S.K.A.

Due to the loss of control on 23 November 2023 of GPW Ventures Asset Management Sp. z o.o. ASI S.K.A. ("GPWV SKA"), the Group presents its stake of 0.07% of the share capital as a financial asset measured at fair value through other comprehensive income.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

Fair value hierarchy

Selected accounting policies

The Group classifies the valuation at fair value on the basis of a fair value hierarchy which reflects the significance of valuation input data. The fair value hierarchy includes the following levels:

- *(unadjusted) trading prices on active markets for identical assets or liabilities (level 1);*
- *input data other than trading prices at level 1, which can be identified or observed for an asset or liability, directly (as prices) or indirectly (calculations based on prices) (level 2); and*
- *input data for an asset or liability not based on observable market data (non-observable data) (level 3).*

The fair value of BVB shares and ETFs as at 31 December 2024 and as at 31 December 2023 was recognised at the share price (level 1 of the fair value hierarchy) and the fair value of TransactionLink, EuroCTP B.V. and GPWV SKA was classified as level 3 of the fair value hierarchy.

4.5.4. Trade receivables and other receivables

Selected accounting policies

Trade receivables are receivables from clients of the Group held to payment. At initial recognition, trade receivables are measured at the transaction price under IFRS 15. At the balance sheet date, trade receivables are measured at amortised cost net of impairment. Trade receivables payable in less than 12 months (from initial recognition) are measured at nominal value and not discounted.

Other receivables include mainly VAT refund receivable and grants receivable.

Non-current prepayments are presented as prepayments in non-current assets in the consolidated statement of financial position.

The table below shows trade and other significant categories of receivables.

	As at	
	31 December 2024	31 December 2023
Gross trade receivables	51,773	47,736
Impairment allowances for trade receivables	(4,111)	(4,109)
Total trade receivables	**47,662**	**43,627**
Current prepayments	10,592	12,570
VAT refund receivable	5,014	2,425
Other public and legal receivables	82	90
Sublease receivables	15	262
Grants receivable	556	9,924
Other receivables	4,874	5,514
Total other receivables	**21,133**	**30,785**
Total trade receivables and other receivables	**68,795**	**74,412**

In the opinion of the Exchange Management Board, in view of the short due date of trade receivables, the carrying amount of those receivables is similar to their fair value.

The table below shows trade receivables by maturity and the allowance for expected credit losses.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

	As at 31 December 2024			As at 31 December 2023		
	Trade receivables	Impairment	Total receivables	Trade receivables	Impairment	Total receivables
Receivables which are not overdue	**41,144**	**(127)**	**41,017**	**36,446**	**(176)**	**36,270**
1 to 30 days overdue	5,372	(23)	5,349	5,217	(130)	5,087
31 to 61 days overdue	550	(3)	547	1,125	(47)	1,078
61 to 90 days overdue	589	(7)	582	1,011	(83)	928
91 to 180 days overdue	222	(6)	216	310	(47)	263
More than 180 days overdue	3,896	(3,945)	(49)*	3,627	(3,626)	1
Overdue receivables	**10,629**	**(3,984)**	**6,645**	**11,290**	**(3,933)**	**7,357**
Total gross trade receivables	**51,773**	**(4,111)**	**47,662**	**47,736**	**(4,109)**	**43,627**

* The negative amount of receivables after write-off results from the recognition of unsettled downward adjustments in a given time period.

As at 31 December 2024 the Group had PLN 10,629 thousand in overdue trade receivables, including PLN 7,825 thousand at the parent entity (31 December 2023 – PLN 11,290 thousand, including PLN 8,055 thousand at the parent entity). The total overdue receivables included the parent entity's receivables from debtors under insolvency or creditor arrangement proceedings at PLN 1,011 thousand as at 31 December 2024 (31 December 2023 – PLN 962 thousand, respectively).

	As at	
	31 December 2024	31 December 2023
Exchange Members	20,569	20,752
Issuers*	1,233	1,254
Other*	19,342	14,440
Total gross trade receivables not overdue	**41,144**	**36,446**

* Receivables from debtors who are at the same time Exchange Members and Issuers or Exchange Members and an information distributor (other recipient), are presented in receivables from Exchange Members.

Trade receivables which are neither overdue nor impaired include mainly trade receivables from Exchange Members (banks and brokerage houses) and receivables from issuers of securities as well as receivables for other services.

Receivables from Exchange Members include receivables from Polish and foreign banks and brokerage houses.

Receivables from issuers include fees due from companies listed on GPW.

Trade receivables from other clients include mainly fees for information services.

The Group has no collateral on receivables.

The fair value of trade receivables and other receivables is not significantly different from the carrying amount.

The table below shows trade receivables by domestic and international receivables.

	As at	
	31 December 2024	31 December 2023
Domestic receivables	33,975	30,211
Foreign receivables	17,798	17,525
Total gross trade receivables	**51,773**	**47,736**

Selected judgments and estimates

The calculation of impairment of receivables under IFRS 9 requires judgment in the selection of methodologies, models, the classification of clients, and other input data.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

The Group's trade receivables have no significant financing component. Consequently, impairment as at 31 December 2024 was determined according to lifetime expected credit losses. Based on historical data, the Group performed a statistical analysis of the probability of payment of overdue trade receivables by receivables portfolio. For receivables past due more than 180 days, the expected credit loss is assumed to be 100% of the past due receivable. For receivables past due between 90 and 180 days, the expected credit losses are estimated based on analysis of historical data.

In the parent entity, the estimated default ratios for clients whose debt is overdue for less than 180 days are as follows:

- *Exchange Members – from 0.75% to 15.19%,*
- *issuers of securities listed on markets operated by the Exchange – from 1.60% to 27.66%,*
- *other clients (including data vendors) – from 0.17% to 1.39%.*

The Group concluded that the default ratios estimated on the basis of historical data represent the probability of default of trade receivables in the future and consequently the ratios were not adjusted.

The Company considers a financial asset to be at risk of default if internal and external information indicates that it is unlikely that the Company will receive the remaining contractual cash flows in full. A financial asset is written off if there is no reasonable expectation that the contractual cash flows will be recovered.

The impairment of trade receivables was determined according to the expected loss concept using a provision matrix described in Note 4.5.2.

	As at	
	31 December 2024	31 December 2023
Opening balance	4,109	4,009
Creating a write-off	1,944	1,795
Dissolution of the write-off	(1,953)	(1,222)
Utilisation of the write-off	3	(1)
Exchange differences on translation of foreign subsidiaries	8	-
Receivables written off during the period as uncollectible	-	(472)
Closing balance	**4,111**	**4,109**

In 2024 the impairment allowance for trade receivables was changed by PLN 2 thousand (increase of allowance) as a result of a lower amount of reversal (PLN 1,953 thousand) than creation of allowance (PLN 1,944 thousand); PLN 792 thousand was recognised in the statement of comprehensive income in 2024 as loss on reversed impairment of receivables.

In 2023 the impairment allowance for trade receivables was changed by PLN 100 thousand (increase of allowance) as a result of a lower amount of reversal (PLN 1,222 thousand) than creation of allowance (PLN 1,795 thousand); PLN 332 thousand was recognised in the statement of comprehensive income in 2023 as gains on reversed impairment of receivables and PLN 472 thousand were receivables written off as non-recoverable.

4.5.5. Financial assets measured at amortised cost

Selected accounting policies

Financial assets measured at amortised cost include: cash and cash equivalents, trade receivables, receivables from loans granted, other financial assets, and other receivables (see Note 3.5.1). Cash and cash equivalents, trade receivables and other receivables are presented in dedicated items of the consolidated statement of financial position (Notes 3.5.4, 3.5.6). Financial assets measured at amortised cost in the statement of financial position include other financial assets and receivables from loans granted. Other financial assets include mainly bank deposits, certificates of deposit and corporate bonds with initial maturities exceeding 3 months (from purchase/contracting) and up to

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

3 months (from purchase/contracting) considered to be at risk of impairment as a result of possible changes in the economic environment or the issuer's condition and therefore not classified as cash, as well as restricted cash which represents an additional risk management tool at IRGIT and secures the liquidity of clearing exchange transactions by IRGIT in cases specified in the Rules of the Exchange Clearing House.

Interest on financial assets classified as financial assets measured at amortised cost is measured using the effective interest rate method and recognised in the profit or loss of the period as part of financial income or financial expenses.

The table below shows current financial assets measured at amortised cost.

	As at	
	31 December 2024	31 December 2023
Bank deposits	2,397	-
Borrowings granted	1,084	-
Total long-term	**3,481**	**-**
Allowance for losses on debt instruments measured at amortized cost	**(824)**	**-**
Corporate bonds	49,950	56,898
Bank deposits	212,916	114,657
Borrowings granted	664	-
Total current	**263,530**	**171,555**
Allowance for losses on debt instruments measured at amortized cost	**(656)**	**(134)**
Total financial assets measured at amortized cost	**265,531**	**171,421**

The table below shows recognised financial income in relation to presented financial assets.

	Year ended 31 December 2024		
	Interest received	Remeasurement	Total amounts included in financial income
Corporate bonds	1,908	355	**2,263**
Bank deposits	6,460	895	**7,355**
Borrowings granted	138	54	**192**
Total financial assets measured at amortized cost	**8,506**	**1,304**	**9,810**

	Year ended 31 December 2023		
	Interest received	Remeasurement	Total amounts included in financial income
Corporate bonds	4,071	(142)	**3,929**
Bank deposits	4,200	2,961	**7,161**
Borrowings granted	46	(23)	**23**
Total financial assets measured at amortized cost	**8,317**	**2,796**	**11,113**

The table below presents the risk classification of financial assets measured at amortised cost. Due to the fact that the Exchange does not have its own credit rating system, external credit ratings were used. If a single debtor had no credit rating, the rating of the parent entity of the debtor was used.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

	As at	
	31 December 2024	31 December 2023
A+	166,998	50,761
A-	31,747	-
Baa	49,878	52,626
Ba/BBB+	-	59,781
No rating*	16,908	8,253
Total	**265,531**	**171,421**

*The "Unrated" item includes, among others, loans granted by the Group.

4.5.6. Cash and cash equivalents

Selected accounting policies

Cash and cash equivalents are financial assets measured at amortised cost. Cash and cash equivalents include on-demand bank deposits, other short-term investments with original maturities up to 3 months (from contracting), which are highly liquid and easily convertible to known amounts of cash and which are subject to an insignificant risk of change in fair value. Cash deposited in a VAT account is classified as cash equivalents as it can be used to pay tax liabilities and can also be transferred to other current accounts (upon application to the Tax Office).

Cash and cash equivalents include current accounts and short-term bank deposits (up to 3 months). The details are shown in the table below.

	As at	
	31 December 2024	31 December 2023
Current accounts (other)	73,328	98,950
Current accounts related to subsidized projects	3,492	4,241
VAT current accounts (split payment)	487	161
Bank deposits	55,031	143,587
Expected credit loss	(102)	(158)
Total cash and cash equivalents	**132,236**	**246,781**

The carrying amount of short-term bank deposits and current accounts is close to the fair value in view of their short maturity. The weighted average maturity of bank deposits included in cash and cash equivalents was 30 days in 2024 (31 days in 2023).

Cash in banks accounts dedicated for each project for which the Group received grants (see Note 7.2) and cash in VAT accounts (due to regulatory restrictions on use) is classified by the Exchange as restricted assets.

4.6. Contract assets and contract liabilities

Selected accounting policies

Contract assets are a right to payment for services already transferred by the Group to a customer.

Contract liabilities are an obligation of the Group to provide a service to a customer in exchange for payment already received by the Group or due at the balance sheet date.

Contract assets mainly include revenue on the international markets earned by TGE and information services at GPW. Other revenue classified as contract assets amounted to PLN 1,476 thousand as at 31 December 2024 and PLN 1,260 thousand as at 31 December 2023.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

Contract liabilities include annual and quarterly fees paid by market participants as well as fees for introduction of instruments into trading.

	As at	
	31 December 2024	31 December 2023
Listing	7,480	7,263
Total financial market	7,480	7,263
Other revenue	10	111
Total non-current	**7,490**	**7,374**
Trading	-	280
Listing	3,038	2,925
Information services and revenue from the calculation of reference rates	-	100
Total financial market	3,038	3,305
Trading	*154*	*126*
Total commodity market	154	126
Other revenue	117	212
Total current	**3,309**	**3,643**
Total contract liabilities	**10,799**	**11,017**

4.7. (Non-current) prepayments

Selected accounting policies

Non-current prepayments present amounts paid relating to future periods which are recognised over time.

	As at	
	31 December 2024	31 December 2023
IT equipment maintenance service	3,978	6,165
Other	91	127
Total non-current prepayments	**4,069**	**6,292**

4.8. Equity

Selected accounting policies

The equity of the Group comprises:

- *share capital of the parent entity disclosed at par, adjusted for hyperinflation;*
- *other reserves, including the revaluation reserve;*
- *non-controlling interests;*
- *retained earnings, comprised of:*
    - *retained earnings from prior years (comprised of reserve capital and other reserves formed from prior year profits); and*
    - *profit of the current period.*

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

The Group presents non-controlling interests pro rata to the share in the net assets of a subsidiary. Changes to a stake in a subsidiary which do not result in loss of control are shown as transactions with the owners of the subsidiary directly under equity. Any changes to non-controlling interests are recognised pro rata to the share in the net assets of the subsidiary. In that case, goodwill is not adjusted and no gains or losses are recognised.

4.8.1. Share capital

As at 31 December 2024 and as at 31 December 2023, the share capital of the Exchange amounted to PLN 41,972 thousand and consisted of 41,972,000 shares with a nominal value of PLN 1 per share including series A shares and series B shares. The Company's shares were fully paid up. Series A shares are preferred registered shares which may be exchanged into bearer shares and become series B ordinary shares on exchange. Each series A share gives 2 votes. Series B shares are bearer shares. Each series B share gives 1 vote.

	As of 31 December 2024 and on 31 December 2023		
	Value at par	%

4.8.3. Retained earnings

As required by the Articles of Association of the parent entity, reserve capital is earmarked for covering losses that may arise in the operations of the parent entity and for supplementing the share capital or for the payment of dividends. Reserve capital should not be lower than one-third of the share capital. Transfers from distributed profit to reserve capital may not be lower than 10% of the profit. Transfers may be discontinued when reserve capital equals one-third of the share capital. One-third of reserve capital may only be used to cover losses reported in consolidated financial statements.

Reserves are maintained by the parent entity to ensure the ability of financing investments and other expenses connected with the operations of the parent entity. Reserves can be used towards share capital or payment of dividends.

	Reserve capital	Other reserves	Retained earnings	Profit for the period	Total retained earnings
As at 1 January 2024	**120,458**	**552,161**	**152,913**	**156,001**	**981,533**
Distribution of the net profit for the year 2023	-	266	155,735	(156,001)	**-**
Dividends	-	(9,234)	(116,682)	-	**(125,916)**

As at 31 December 2023	**120,458**	**552,161**	**152,913**	**156,001**	**981,533**

4.8.4. Dividend

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

As required by the Code of Commercial Companies, the amounts to be divided between the shareholders may not exceed the profit reported for the last financial year plus retained earnings, less losses and amounts transferred to reserves established in accordance with the law or the Articles of Association, which may not be earmarked for the payment of a dividend.

On 27 June 2024, the Exchange's Annual General Meeting passed a resolution to distribute the Company's profit for 2023, allocating PLN 125,916 thousand to a dividend payment. The dividend per share was PLN 3.00. The dividend record date was 24 July 2024 and the dividend payment date was 7 August 2024. The dividend due to the State Treasury was PLN 44,083 thousand.

On 26 June 2023, the Exchange's Annual General Meeting passed a resolution to distribute the Company's profit for 2022, including a dividend payment of PLN 113,324 thousand. The dividend per share was PLN 2.70. The dividend record date was 24 July 2023 and the dividend payment date was 7 August 2023. The dividend due to the State Treasury was PLN 39,675 thousand.

4.8.5. Earnings per share

Selected accounting policies

Basic earnings per share is calculated by dividing the net profit attributable to equity holders of the parent entity by the weighted average number of shares in issue.

Diluted earnings per share is calculated by dividing the net profit attributable to equity holders of the parent entity by the weighted average number of shares in issue, adjusted for the number of potential shares that could be issued as a result of the conversion of dilutive equity instruments into shares

	Year ended 31 December	
	2024	2023
Net profit for the period	148,717	156,001
Weighted average number of ordinary shares (in thousands)	41,972	41,972
Basic/diluted earnings per share (in PLN)	**3.54**	**3.72**

There are no dilutive instruments in the Group.

4.9. Employee benefits payable

Selected accounting policies

Employee benefits payable include retirement benefits and other benefits, including provisions for annual awards and bonuses and provisions for post-employment benefits.

The present value of retirement benefits payable is determined as at the balance sheet date by an independent actuarial advisor. The calculated benefits payable are equal to discounted future payments taking into account employee rotation as at the balance sheet date. Demographic and employee rotation data are based on historical figures. Actuarial gains and losses on employee post-employment benefits are included in other comprehensive income.

The Group sets up provisions for annual awards and bonuses in order to allocate costs to the periods to which they relate. Provisions are estimated according to the best knowledge of the Exchange Management Board and the Management Boards of the subsidiaries concerning probable bonuses to be paid based on the framework of the incentive scheme.

The table below shows employee benefits payable recognised as at the balance sheet date.

	As at	
	31 December 2024	31 December 2023
Retirement benefits	1,302	1,128
Other employee benefits	573	479
Non-current	**1,875**	**1,607**
Retirement benefits	312	220
Other employee benefits	36,937	30,522
Current	**37,249**	**30,742**
Total benefits in the statement of financial position	**39,124**	**32,349**

4.9.1. Retirement benefits

Provisions for retirement benefits are recorded by the Group according to actuarial valuation as at the balance sheet date provided by an independent actuarial advisor. Changes of retirement benefits in the period are shown in the table below.

	Year ended	
	31 December 2024	31 December 2023
Retirement benefits - opening balance	**1,348**	**1,180**
Current service cost	169	139
Interest cost	60	69
Actuarial losses/(gains) shown in other comprehensive income due to change of:	84	(24)
- financial assumptions	44	(9)
- demographic assumptions	34	(30)
- other assumptions	6	15
Total change shown in comprehensive income	**313**	**184**
Benefits paid	**(47)**	**(16)**
Retirement benefits - closing balance	**1,614**	**1,348**

The key actuarial assumptions used to determine the present value of retirement benefits payable are presented in the table below.

	Year ended	
	31 December 2024	31 December 2023
Discount rate	5.8%	5.1%
Expected average annual increase of the base of provisions for retirement benefits	4.5%	4.5%
Inflation p.a.	n/a	n/a
Weighted average employee mobility	0,7% -16,1%	0,8% -17,1%

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

4.9.2. Other employee benefits

The table below shows the details of other employee benefits and their changes during the financial year.

	Year ended 31 December 2024					
	Opening balance	Set up	Used	Reclassified	Released	Closing balance
Annual and discretionary bonuses	24,002	29,111	(18,809)	(39)	(3,861)	**30,404**

4.10. Accruals and deferred income

Selected accounting policies

Accruals and deferred income include grants received and other payments.

Grants relating to assets are presented in the consolidated statement of financial position as deferred income (under accruals and deferred income) and recognised in the consolidated statement of comprehensive income (under other income) systematically through the useful life of the assets concerned by the grant.

The following table shows accruals and deferred income. These mainly relate to grants received, which are presented by project. Grants received are described in Note 7.2.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

	As at	
	31 December 2024	31 December 2023
PCR project	2,976	3,256
Agricultural Market	41	91
New Trading System Project	22,928	22,928
GPW Data Project	1,967	3,934
Telemetria Project	7,923	10,108
Private Market Project	-	1,647
Project PCOL	1,872	2,340
Total non-current deferred income from grants	**37,707**	**44,304**
Other deferred liabilities	1,312	**1,762**
Total other deferred liabilities	**1,312**	**1,762**
Total non-current	**39,019**	**46,066**
PCR project	280	280
Agricultural Market	50	224
Telemetria Project	2,016	-
Private Market	4	-
Project PCOL	468	18
Total non-current deferred income from grants	**2,818**	**522**
Other deferred liabilities	2,107	1,617
Total other deferred liabilities	**2,107**	**1,617**
Total current	**4,925**	**2,139**
Total accruals and deferred income	**43,944**	**48,205**

4.11. Other liabilities

The table below shows the details of other liabilities as at the balance sheet date.

	As at	
	31 December 2024	31 December 2023
Capex liabilities	3,037	-
Liabilities to the Polish National Foundation	2,950	2,950
Perpetual usufruct liabilities	3,514	3,530
Other liabilities	295	344
Liabilities due to the purchase of subsidiary	3,545	3,038
Total non-current	**13,341**	**9,862**
VAT payable	1,666	8,304
Liabilities in respect of other taxes	5,604	2,154
Contracted investments	10,347	4,352
Liabilities to the Polish National Foundation	1,411	1,411
Other liabilities	1,152	5,323
Total current	**20,180**	**21,544**
Total other liabilities	**33,521**	**31,406**

Pursuant to the 2016 deed of incorporation of the Polish National Foundation (“PNF”), the Exchange is obliged to contribute annually to the statutory activities of PNF. These contributions are donations, and a liability in the full amount was recognised as an expense when GPW joined the Foundation, i.e. in 2016, and is distributed over time. As the Foundation has ceased to pursue the mission that was the basis of the Founders’ decision to establish the

Data for the year ended 31 December 2024. All amounts in PLN’000 unless stated otherwise.

Foundation, in particular, it has ceased to support the development and promotion of the Polish capital market, the Exchange stopped payment of the donation to PNF in 2024. As at 31 December 2024 and as at 31 December 2023, the Exchange's liability to PNF amounted to PLN 4,361 thousand.

4.12. Trade payables

Selected accounting policies

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payables are classified as current liabilities if payment is due within one year (or in the normal operating cycle of the business if longer). Otherwise, they are presented as non-current liabilities.

Trade payables, as well as liabilities under bond issues and lease liabilities, are financial liabilities. Financial liabilities at the balance sheet date are valued at amortised cost.

	As at	
	31 December 2024	31 December 2023
Trade payables to associates	502	244
Trade payables to other entities, accruals and deferred income	25,405	23,722
Total trade payables	**25,907**	**23,966**

Due to the short due dates of trade payables, the carrying amount of trade payables is similar to the fair value.

4.13. Deferred income tax

Selected accounting policies

Deferred tax is calculated using the liability method as tax payable or reimbursable in the future in respect of differences between carrying amounts of assets and liabilities and the corresponding tax amounts.

Deferred tax liabilities are recorded in the full amount and are not subject to discounting.

Deferred tax assets are recognised to the extent that it is probable that future taxable income will be available against which the temporary differences could be utilised. Deferred tax assets are reviewed at the balance sheet date; if expected future tax gains or positive temporary differences are insufficient to realise an asset in whole or in part, it is written off.

The Group uses no deferred tax assets or liabilities for the differences between the taxable and accounting investment in subsidiaries, associates and joint ventures when the Group is able to control the date of reversal of temporary differences (for deferred tax liabilities) and such differences are unlikely to reverse in the foreseeable future.

Deferred tax assets and liabilities can be offset when the Group has an enforceable right to offset current income tax receivables and liabilities and when the deferred tax assets and liabilities relate to income tax imposed on the same taxpayer by the same tax authorities.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

4.14. Provisions for other liabilities and other charges

Selected accounting policies

Provisions are liabilities arising from past events whose amount or due date is uncertain. A provision is recognised when the entity has a present obligation (legal or constructive) as a result of a past event or it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the change in the time value of money is material, the provision is discounted using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks associated with the liability.

Due to the risk of failure to achieve the objectives declared in the application for financing of the GPW PM project and the achievement of only some of the objectives of the GPW DATA project, a provision was set up for the potential return of the received funds with interest in the total amount of PLN 11,744 thousand.

In 2024, a VAT provision of PLN 29,499 thousand was released (see also Note 7.10.).

In addition, a provision was set up against litigation in the amount of PLN 249 thousand and other provisions of PLN 242 thousand were released.

As a result of the above, provisions for liabilities and other charges as of 31 December 2024 amounted to PLN 13,336 thousand (as at 31 December 2023 - PLN 30,858 thousand).

4.15. Phantom shares

Selected accounting policies

The Exchange maintains a Phantom Share Scheme, which is treated as a cash-settled scheme under IFRS 2 Share-based Payment. For future payments of the Scheme, a liability is recognised in the consolidated statement of financial position under items relating to employee benefits payable. The liability associated with the shares granted is measured at each balance sheet date at the closing price of GPW shares on the balance sheet date. Differences in the measurement at fair value at the balance sheet date are recognised in employee costs in the statement of comprehensive income.

On 29 April 2021, on the occasion of the 30th anniversary of the Company, the Exchange Management Board approved a Phantom Share Scheme ("Scheme") for GPW employees. The Scheme covers all GPW employees in employment as at 16 April 2021. The total number of phantom shares granted at the beginning of the Scheme was 10,428 shares.

In each successive year of the Scheme, 4 phantom shares are awarded to each Scheme participant as at 16 April and the only condition for the award is that the employee is employed by GPW. The phantom shares are subject to a lock-up until the termination or expiration of the employment relationship or until the employee reaches retirement age ("Lock-up Period"). After the Lock-up Period, the employee acquires an unconditional right to receive a cash benefit for the phantom shares held, at the closing price of the GPW shares on 16 April of the year prior to vesting.

Allocated phantom shares retain the right to dividends. The employee may, by 30 September each year, request a dividend payment, which is made by 15 October each year. In the event that the employee does not request a payment during the term of employment, the payment is made upon termination of employment or retirement.

The Exchange Management Board may decide to terminate the Phantom Share Scheme, but not before the end of 2031.

As at 31 December 2024, the estimated number of phantom shares was 10,946 shares (31 December 2023: 10,675 shares).

In 2024, the cost of the Scheme was PLN 76 thousand (year ended 31 December 2023: PLN 50 thousand).

As at 31 December 2024, the Phantom Share Scheme liabilities amounted to PLN 785 thousand (31 December 2023: PLN 667 thousand), of which non-current liabilities amounted to PLN 572 thousand (31 December 2023: PLN 479 thousand) and current liabilities amounted to PLN 213 thousand (31 December 2023: PLN 188 thousand).

5. Notes to the consolidated statement of comprehensive income

5.1. Sales revenue

Selected accounting policies

Sales revenue is recognised at transaction price when (or as) the entity transfers control of services to a customer. All bundled services that can be separated under the contract with the customer are recognised separately. Any discounts and rebates of the transaction price are allocated to individual components of bundled services. Depending on whether certain criteria are met, revenue is recognised:

- *over time, in a manner that depicts the entity's performance; or*
- *at a point in time, when control of the services is transferred to the customer.*

Revenues from the service of introduction to trading are inseparable from the listing service; as a result, fees for introduction to trading are recognised over time in the expected term of the agreement with the client (average listing period). The Group determined an estimated period of 9 years for the listing service based on a historical analysis of the average listing period of companies on the Main Market and New Connect. This estimate is subject to uncertainty and will be reviewed at each reporting date.

Other sales revenue is measured at the transaction price specified in the contract. No significant financing component has been identified due to the fact that sales have a payment term of 21 days, which is in line with market practice. Revenue is recognised when the performance obligation is met, which is when the payment becomes unconditionally due and only a specified period of time is required to receive it. In rare cases, the Group grants deferred payment terms, but never for more than 12 months; therefore, the transaction price is not adjusted for the impact of a significant financing component.

Sales revenue consists of three main business lines: revenue from the financial market, revenue from the commodity market, and other sales revenue.

Financial market:

- ***Revenue from trading:*** *revenue from exchange members charged under the Exchange Rules and the Alternative Trading System Rules. The key revenue line in this category is trading fees which depend on the value of transactions, the number of executed orders, the volume of trade and the type of traded instruments. In addition to trading fees, flat-rate fees are charged for access to and use of the Exchange's IT system, and BondSpot earns revenue from trading in debt instruments.*
- ***Revenue from issuers*** *charged under the Exchange Rules and the Alternative Trading System Rules: fees for the listing of securities, fees for admission to trading, BondSpot's revenue from issuers of debt instruments, as well as other fees.*
- ***Revenue from information services:*** *sale of real-time stock exchange data and statistical and historical data in the form of subscriptions (by email), electronic publications, calculation of indices, as well as other stock exchange index licenses and calculations. The sale of stock exchange information is based on separate agreements signed with exchange data vendors, Exchange Members and other organisations including mainly financial institutions. The Group's revenue from information services includes revenue from the sale of BondSpot and GPW Benchmark information services*

Revenue from the commodity market *includes mainly fees charged by TGE under the TGE Commodity Market Rules, by IRGiT under the Exchange Clearing House Rules (mainly for the clearing of TGE trade), and by InfoEngine for its services as a trade operator and a technical trade operator.*

Commodity market:

- ***Revenue from trading:*** *fixed fees paid by TGE members for market participation and revenue from trading fees on TGE markets: the Day-Ahead and Intra-Day Market, the Gas Market, the Property Rights Market, the Commodity Forward Instruments Market, the Emission Allowances Market.*
- ***Revenue from the operation of the Register of Certificates of Origin and the Register of Guarantees of Origin:*** *fees for services provided to Register members including registration of certificates, issuance of rights, increasing and decreasing the balance of rights, cancellation of certificates, registration of guarantees, notification of transfers of guarantees to the end recipient, acceptance of offers to sell, processing of applications.*
- ***Revenue from clearing:*** *IRGiT's revenue from fixed fees paid by IRGiT members, fees for clearing and settlement of exchange transactions on TGE markets.*
- ***Revenue from information services****, i.e., commodity market data based on separate agreements signed with exchange data vendors, exchange members and other organisations, mainly financial institutions.*

Other sales revenue *includes among others lease and maintenance of office space, delivery of training.*

Selected judgments and estimates

The Company grants rebates to Exchange Members under the Exchange's Technology Development Support Programme. To be eligible for rebates, Exchange Members must invest in additional technological capacity including among others IT system and IT infrastructure upgrades or the development of new functionalities relating to brokerage services. Rebates are awarded to Exchange Members by the Exchange Management Board on the basis of documentation of expenses up to an individual limit set for the Exchange Member in the Programme.

The table below presents sales revenue by business line.

	Year ended 31 December	
	2024	2023
Financial market	**296,052**	**269,520**

Total sales revenue	**464,847**	**444,928**

5.2. Operating expenses

Selected accounting policies

Expenses are a probable decrease of economic benefits in the reporting period, whose amount is reliably determined, that reduces the value of assets or increases liabilities and provisions, which will reduce equity or increase negative equity, other than due to withdrawal of funds by shareholders or owners.

Operating expenses include salaries and the cost of maintenance of the IT infrastructure of the trading system, as well as the cost of advisory, capital market and commodity market education, promotion and information.

The following table shows the Group's operating expenses by category.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

	Note	Year ended 31 December	
		2024	2023
Depreciation and amortisation		31,536	32,251
- including: capitalised depreciation and amortisation charges		(6,290)	(10,857)
Salaries	5.2.1.	126,933	115,851
Other employee costs	5.2.1.	34,106	31,058
Rent and maintenance fees		6,054	5,469
Fees and charges		18,259	17,976
- including: fees paid to PFSA	7.3.1.	15,696	15,504
External service charges	5.2.2.	103,526	*105,360*
Other operating expenses		11,523	*11,539*
Total operating expenses		**331,937**	**319,504**

5.2.1. Salaries and other employee costs

Selected accounting policies

Liabilities in respect of current employee benefits (i.e., remuneration, social security charges, paid holidays, sick leaves, etc.) are charged to costs in the period when benefits are paid.

Furthermore, the Group has an incentive scheme, according to which employees have the right to an annual bonus (dependent on the sales profit and the achievement of bonus targets, as well as the employee's individual evaluation). The Group sets up provisions for bonuses in order to allocate costs to the periods to which they relate. Provisions are estimated according to the best knowledge of the Management Boards concerning probable bonuses to be paid based on the framework of the incentive scheme.

The Group pays contributions to the Employee Pension Scheme (defined contributions scheme). Employees join the scheme voluntarily. After payment of the contributions, the Group has no further obligations to make payments to the Employee Pension Scheme. These contributions are charged to costs of employee benefits as they are incurred.

Under the applicable legislation, the Group is required to charge and pay contributions towards employees' pension benefits. Such benefits are a state scheme which is a defined contributions scheme. According to the Labour Code, employees have the right to receive a severance pay upon reaching retirement age. Retirement severance pay is paid on a one-off basis at the time of retirement. Paid retirement benefits are recognised as an expense of the period in which they are paid.

In 2024, the Group's average full-time equivalent (FTE) headcount was 569 FTEs, while in 2023 the average headcount was 572 FTEs.

The tables below provide details of employee costs.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

	Year ended 31 December	
	2024	2023
Gross remuneration	93,658	84,657
Annual and discretionary bonuses	20,855	16,313
Retirement severance pay	230	233
Reorganisation severance pay	1,146	27
Non-competition	1,263	376
Other (including unused holiday leave, overtime)	2,902	7,051
Total payroll	**120,054**	**108,657**
Supplementary payroll	**6,879**	**7,194**
Total employment costs	**126,933**	**115,851**

	Year ended 31 December	
	2024	2023

Market liquidity support	1,220	1,015
Advisory (including legal, business consulting, audit)	14,129	21,887
Information services	4,906	3,730
Training	1,003	1,108
Office services	561	921
Fees related to the calculation of indices	872	692
Total other	16,365	16,931
Transportation services	11,117	13,973
Mail fees	504	461
Bank fees	261	162
Translation	267	347
Other in Other services	4,216	1,988
Total external service charges	**103,526**	**105,360**

Other external service charges include among others office services, data vendor services and other third-party services.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

5.3. Other income

	Year ended 31 December	
	2024	2023
Total grants received	746	2,495
Grants received - PCR	280	280
Grants received - Rynek Rolny	224	227
Grants received - Nowa Platforma Transakcyjna	-	370
Grants received - Gospostrateg	-	62
Grants received - Telemetria	171	203
Grants received - PCOL	-	1,337
Grants received - other	71	16
Gains on sale of property, plant and equipment	18	564
Revenues resulting from the change in the VAT ratio	396	1,902
Medical services reinvoiced to employees	958	767
Damages received	46	3
Gain from loss of control over a subsidiary	-	29
Other	1,236	492
Total other income	**3,400**	**6,252**

5.4. Other expenses

	Year ended 31 December	
	2024	2023
Donations	2,778	2,534
Damages, penalties, fines	56	42
Impairment of assets	33,602	171
Other	5,584	623
Total other expenses	**42,020**	**3,370**

In 2024, as a result of impairment tests, the Group wrote off tangible fixed assets in the amount of PLN 131 thousand (note: 4.1) and intangible assets in the amount of PLN 33,072 thousand (note: 4.2). In addition, it liquidated PLN 399 thousand in development expenditures.

In 2024, the Exchange made donations to, among others, the GPW Foundation in the amount of PLN 2,557 thousand and to flood victims in the amount of PLN 103 thousand. In 2023, the Group had made donations to, among others, the GPW Foundation in the amount of PLN 2,475 thousand and to the Polish National Foundation in the amount of PLN 1,500 thousand (booked in expenses of 2016, see Note 4.11).

The item "Other costs" in 2024 included costs related to the provisions created in the amount of PLN 5,243 thousand.

5.5. Financial income

Selected accounting policies

Interest income is recognised on a time-proportionate basis using the effective interest rate method. Dividend income is recognised at the moment of establishing the shareholders' right to receive the payment.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

In 2024, due to the expiry of the 5-year period related to the statutory limitation period for the tax liability regarding VAT and recalculation of the provision amount, the Group recognized income related to the reversal of the VAT provision in the amount of PLN 29,499 thousand.

	Year ended 31 December	
	2024	2023
Income on financial assets presented as cash and cash equivalents	11,914	16,317
Income on financial assets presented as financial assets measured at amortised cost	9,810	11,113
Interest on sublease receivables	19	14
Total income according to the effective interest rate method	**21,743**	**27,444**
Reversal of expected credit losses	59	8
VAT correction	29,499	-
Other financial income	157	713
FX differences	-	219
Total financial income	**51,458**	**28,384**

5.6. Financial expenses

Selected accounting policies

Financial expenses include costs and interest on bonds in issue, interest on loans and advances, and interest on tax liabilities.

Interest on bonds is determined using the effective interest rate method.

	Year ended 31 December	
	2024	2023
Interest on lease liabilities	1,796	308
Interest on tax liabilities (including: VAT reserve)	538	607
Interest on other reserves created	3,096	-
Expected credit loss	1,338	16
Other financial expenses	1,149	712
FX differences	146	488
Total financial expenses	**8,063**	**2,132**

5.7. Income tax

Selected accounting policies

Current income tax is calculated on the basis of net taxable income of the GPW Group companies for a given financial year determined in accordance with binding tax regulations and using the tax rates provided in those regulations. Net taxable income (loss) differs from accounting profit (loss) for the year due to:

- *costs which are not tax-deductible;*
- *dividend income which is exempt from taxation;*
- *grants which are exempt from taxation.*

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

	Year ended 31 December	
	2024	2023
Current income tax	33,163	30,688
Deferred tax	(8,187)	112
Total income tax	**24,976**	**30,800**

The table below shows a reconciliation of the theoretical amount of income tax at the statutory tax rate and the amount of income tax expense reported in the statement of comprehensive income.

	Year ended 31 December	
	2024	2023
Profit before income tax	173,996	188,361
Income tax rate	19%	19%
Income tax at the statutory tax rate	**33,059**	**35,789**
Tax effect of:	**(8,083)**	**(4,989)**
Non tax-deductible costs	7,782	1,718
Non-taxable grants	(2,365)	(374)
Non-taxable share of profit of entities measured by the equity method	(7,050)	(6,486)
Other adjustments	(6,450)	153
Total income tax	**24,976**	**30,800**

Tax Group ("TG")

Selected accounting policies

The companies participating in a TG are not treated individually but collectively as one corporate income taxpayer under the Corporate Income Tax Act. Such taxpayer's income is determined as the surplus of incomes of the companies participating in TG over the sum of their losses.

While income taxes of the companies participating in a TG are no longer paid individually, the companies are still required to individually pay other taxes including VAT and local taxes.

On 25 November 2016, the Head of the First Mazovian Tax Office in Warsaw issued a decision registering a TG for a period of three tax years starting on 1 December 2017 (from 1 December 2017 to 31 December 2019). The TG was comprised of the Exchange, TGE, BondSpot, and GPWB. The Head of the First Mazovian Tax Office in Warsaw issued subsequent decisions extending the TG for further tax years. The Group received the latest decision on 9 December 2024; it concerns the registration of the TG for a period of three tax years, i.e., 2025-2027.

As the Company Representing the TG, the Exchange is responsible for the calculation and payment of corporate income tax advances of the TG pursuant to the Corporate Income Tax Act.

GPW's receivables from related parties participating in the TG in respect of income tax paid on their behalf were PLN 3,037 thousand as at 31 December 2024 (PLN 2,131 thousand as at 31 December 2023), presented under trade receivables and other receivables in the statement of financial position.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

6. Note to the consolidated statement of cash flows

Selected accounting policies

The statement of cash flows is prepared using the indirect method.

Interest and dividends received are recognised under investment activities. Dividends and interest paid (on bonds) are recognised under financing activities.

The Group presents grants received and expenses in respect of payments from grant advances on a net basis in the cash flows from investing activities of the consolidated statement of cash flows.

The table below provides details of depreciation and amortisation costs during the period under review.

	Year ended 31 December	
	2024	2023
Depreciation of property, plant and equipment*	11,612	12,721
Amortisation of intangible assets**	12,801	13,286
Depreciation and amortisation of right-to-use assets	7,123	6,244
Total depreciation and amortisation charges	**31,536**	**32,251**

* In the year ended on 31 December 2024, depreciation was reduced by depreciation capitalized to intangible assets of PLN 5,881 thousand, and in year ended on 31 December 2023, of PLN 5,549 thousand.
** In the year ended on 31 December 2024, depreciation was reduced by depreciation capitalized to intangible assets of PLN 409 thousand, and in year ended on 31 December 2023, of PLN 5,308 thousand.

Details of other adjustments included in net cash flows from operating activities are presented in the table below.

	Year ended 31 December	
	2024	2023
Other changes related to property, plant and equipment and intangible assets	(21)	682
(Gains)/losses on FX differences (valuation of accounts and deposits)	(543)	567
Sublease interest income	(19)	(14)
Lease interest expense	1,795	341
Grants - transfer to the investment activities	(9,250)	(9,463)
Actuarial (gains)/losses	(84)	24
PAR loan impairment reversal	-	(576)
Other	69	(1,277)
Total other adjustments	**(8,053)**	**(9,717)**

The differences between the balance sheet change and the change shown in the cash flow statement are presented below.

	Year ended 31 December	
Explanation of item status change:	**2024**	**2023**
"Other current liabilities (excluding investment and dividend liabilities)"		
Balance sheet change in other liabilities	(1,364)	(10,523)
- exclusion of change in investment commitments	(5,995)	4,206
- exclusion of dividend liabilities	-	15
- compensation with a loan	-	31
Change shown in the cash flow statement	(7,359)	(6,271)

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

7. Other notes

7.1. Financial instruments

The following tables show the income received and expenses incurred by type of financial instrument held by the Group.

	Year ended 31 December 2024					
	Interest received/paid	**Interest accrued, revaluation and cost of bond issue**	**Impairment loss**	**Total shown in net profit**	**Total shown in other comprehensive income**	**Total shown in the statement of comprehensive income**

Total recognized in the statement of comprehensive income	**25,162**	**2,267**	**(341)**	**27,088**	**725**	**27,813**

7.2. Grants

Selected accounting policies

Government grants are government assistance in the form of transfers of resources to an entity in return for past or future compliance with certain conditions relating to the operating activities of the entity. The term "government" refers to the state government, government institutions, government agencies and other similar local, national or international bodies.

A government grant is recognised when there is reasonable assurance that the Group will comply with any conditions attached to the grant and the grant will be received.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

Grants related to assets *are government grants whose primary condition is that an entity qualifying for them should purchase, construct or otherwise acquire long-term assets. They are presented in the statement of financial position as deferred income and recognised in financial results (other income) systematically over the useful lifetime of the assets concerned by the grant.*

Grants relating to income *are grants other than grants relating to assets and they are recognised in other income systematically over the periods when the expenses covered by the grant are recognised.*

Prepayments in respect of grants relating to assets are presented in Note 4.10, income in respect of grants is presented in Note 5.3, and contingent liabilities and grant liabilities in respect of grants are presented in the table in Note 7.9.

New Trading System

After completing the work in accordance with the scope provided for in the agreement with NCBiR (8 stages) and after NCBiR accepted the Final Report, on 10 July 2024, the "durability period" of the project began, during which GPW, as the beneficiary of the funding, is obliged to implement production of the developed solution within three years.

On 25 July 2024, the Management Board of the Exchange, as a result of an assessment of the progress of work on the project and discussions with the Implementation Committee composed of representatives of Exchange Members, set the date for the launch of the basic version of V1 WATS as 10 November 2025 on the markets operated by GPW and on the regulated market BondSpot.

Whereas on 26 September 2024, the Management Board of the Exchange decided to update the project budget to the gross amount of PLN 152.9 million. This amount includes the completion of the development of version V1 WATS and its implementation and integration with GPW Group systems by the agreed deadline of 10 November 2025. In addition, the approved budget includes the performance of a functional analysis and the production of the V2 WATS version by the end of 2025, the main component of which will be the All2All BondSpot market service and the application for access to this market. The above-mentioned amount also includes the performance of a functional analysis of the V3 WATS version, which will start in the second half of 2025 and concerns advanced derivatives service functionalities.

GPW Data

GPW Data is a project whose original goal was to create an innovative system supporting investment decisions of capital market participants. The system was to be based on two modules - a tool supporting investors ("NWI") and a reporting system with a stock exchange data repository. After an analysis conducted in 2024, a decision was made to discontinue the development and implementation of the NWI tool. Work will continue on completing and implementing the reporting system.

GPW Private Market

GPW Private Market is a project that aims to build a platform based on blockchain to issue tokens representing specific property rights (digital assets). The platform will also support trading in such tokens. The project is carried out in collaboration with consortium partners. Due to changes in the regulatory environment for this type of activity and an update of the GPW Group's strategy directions, analyses are currently underway regarding the possibilities and potential scenarios for the production use of the system.

Telemetry ("TeO")

TeO is a project to develop a multi-module auction platform designed for comprehensive profiling of TV users and to sell and display targeted advertising on linear TV. The results of the R&D work carried out in this project were sold by GPW SA to GPW DAI SA.

Polish Digital Logistics Operator ("PCOL")

PCOL is a project for an innovative logistics platform based on artificial intelligence to optimise costs in areas related to transport and logistics services, dedicated to companies which will in the future use the services and solutions offered. The results of the R&D work carried out in this project were sold by GPW SA to GPW LOGISTICS SA.

The table below provides key information on the amount of the grants received by project.

	As at/for the period ended 31 December 2024				
	Planned total budget (PLN million)	Value of grants awarded (PLN million)	Value of grants received in 2024 (PLN thousand)	Amount recognised in income (PLN thousand)	Amount included in Accruals and deferred income (PLN thousand)

7.3. Related party transactions

Selected accounting policies

Related parties of the Group include:

- *associates and joint ventures,*
- *the State Treasury as the parent entity,*
- *entities controlled and jointly controlled by the State Treasury and entities over which the State Treasury has significant influence,*
- *members of the key management personnel of the Exchange.*

7.3.1. Information about transactions with the State Treasury and its related parties

Companies with a stake held by the State Treasury

The Group applies the exemption under IAS 24 Related Party Disclosures and keeps no records which would clearly identify and aggregate transactions with the State Treasury and with all entities which are related parties of the State Treasury.

Companies with a stake held by the State Treasury which are parties to transactions with the Group include issuers (from which it charges introduction and listing fees) and Exchange Members (from which it charges fees for access to trade on the exchange market, fees for access to the IT systems, and fees for trade in financial instruments).

Companies with a stake held by the State Treasury, with which TGE and IRGiT enter into transactions, include members of the markets operated by TGE and members of the Clearing House. Fees are charged from such entities for participation and for trade on the markets operated by TGE, for issuance and cancellation of property rights in certificates of origin, and for clearing.

All trade transactions with entities with a stake held by the State Treasury are concluded by the Group in the normal course of business and are carried out on an arm's length basis.

Polish Financial Supervision Authority ("PFSA")

The PFSA Chairperson publishes the rates and the indicators necessary to calculate capital market supervision fees by 31 August of each calendar year. On that basis, the entities obliged to pay the fee calculate the final amount of the annual fee due for the year and pay the fee by 30 September of the calendar year.

Fees paid by the Group to PFSA amounted to PLN 15,696 thousand in 2024 and PLN 15,504 thousand in 2023.

Tax Office

The Group is subject to taxation under Polish law and pays taxes to the State Treasury, which is a related party. The rules and regulations applicable to the Group are the same as those applicable to other entities which are not related parties of the State Treasury.

Details concerning income tax are presented in Note 5.7.

Polish National Foundation

Payments and transactions with PNF are described in Notes 4.11 and 5.4.

Krajowy Ośrodek Wsparcia Rolnictwa ("KOWR")

On 25 October 2023, a cooperation agreement was signed between KOWR and GPW Ventures ASI S.A. and its subsidiaries. As part of this cooperation, on 23 November 2023, KOWR invested PLN 75 million in GPWV SKA and took up shares in this company. The cooperation agreement also provides for further investments in GPWV SKA, i.e. three tranches of PLN 50 million in 2024, 2025 and 2026, respectively. As a result, the GPW Group lost control of the subsidiary and holds 0.07% of the share capital as a financial asset measured at fair value through other comprehensive income as at 31 December 2024.

7.3.2. Transactions with entities measured by the equity method

As owner and lessee of space in the Centrum Giełdowe building, the Exchange pays rent and maintenance charges for office space, including joint property, to the building manager, Centrum Giełdowe S.A. Transactions with the KDPW Group included fees for dividend payment services and joint organisation of integration events for the capital market community. Transactions with PAR included office space lease and related fees.

	As of 31 December	
	2024	2023
Receivables	94	80
Liabilities	3,308	942
Lease liabilities	8,565	11,036

	Year ended 31 December	
	2024	2023
Revenues from sales of products and services	172	211
Purchases of materials, goods and services	2,35	2,968
Purchases of fixed assets and intangible assets	3,279	1,143
Interest costs	528	229

Receivables from associates and joint ventures were not written off as uncollectible, nor were impairment losses recognized on receivables from the above entities for in the year ended 31 December 2024 and 31 December 2023.

Dividends from associates

On 20 June 2024, the Annual General Meeting of KDPW decided to allocate part of its profit of PLN 25,788 thousand to the payment of dividends. The dividend payable to the Exchange amounted to PLN 8,596 thousand. The dividend payment date was 4 September 2024.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

On 1 June 2023, the Annual General Meeting of KDPW decided to allocate a part of the profit equal to PLN 21,525 thousand to a dividend payment. The dividend attributable to GPW was PLN 7,175 thousand. The dividend was paid on 5 September 2023.

7.3.3. Other transactions

Transactions with the key management personnel

The Group entered into no transactions with the key management personnel in 2024 and in 2023 other than the transactions described in Note 7.4.

Książęca 4 Street Tenants Association

In 2024 and in 2023, the Exchange concluded transactions with the Książęca 4 Street Tenants Association of which it is a member. The expenses amounted to PLN 5,919 thousand in 2024 and PLN 5,317 thousand in 2023.

GPW Foundation

In 2024, GPW donated PLN 2,557 thousand (in 2023 – PLN 2,475 thousand) to the GPW Foundation, received an income of PLN 175 thousand (in 2023 – PLN 159 thousand) from the Foundation, and paid costs of PLN 20 thousand of the Foundation (in 2023 – PLN 8 thousand). As at 31 December 2024, the Exchange's receivables from the GPW Foundation amounted to PLN 45 thousand and its payables to the Foundation at PLN 0 thousand (as at 31 December 2023 – PLN 48 thousand and PLN 0 thousand, respectively).

Polish National Foundation

Payments and transactions with PNF are described in Notes 4.11 and 5.4.

7.4. Information on remuneration and benefits of the key management personnel

Selected accounting policies

The key management personnel of the Group includes the Exchange Management Board and the Exchange Supervisory Board as well as the Management Boards and the Supervisory Boards of the subsidiaries.

The remuneration of the Management Boards is subject to the limitations and requirements of the Act of 9 June 2016 on the terms of determining remuneration of managers of certain companies. According to the law, the remuneration of the Company's management includes:

- *a fixed monthly base salary determined depending on the scale of the Company's business, and*
- *a variable part which is supplementary remuneration for the financial year depending on the performance of management targets.*

Depending on their evaluation of the performance of individual targets and the results of the Companies, the Exchange Supervisory Board and the Supervisory Boards of the subsidiaries may award a bonus to Management Board members in the amount not greater than 100% of the base salary of the Management Board member in the previous financial year.

The data presented in the table below are for all (current and former) members of the Exchange Management Board and the Exchange Supervisory Board, the Management Boards and the Supervisory Boards of the subsidiaries who were in office in 2024 and 2023, respectively.

The table concerning remuneration of the key management personnel does not present social security contributions paid by the employer.

	Year ended 31 December	
	2024	2023
Base salary	3,196	2,592
Variable pay	968	2,954
Other benefits	289	344
Post-employment benefits	1,342	34
Total remuneration of the Exchange Management Board	**5,795**	**5,924**
Remuneration of the Exchange Supervisory Board	**1,030**	**876**
Remuneration of the Management Boards of other GPW Group companies	**10,644**	**6,657**
Remuneration of the Supervisory Boards of other GPW Group companies	**1,257**	**1,211**
Total remuneration of the key management personnel	**18,726**	**14,668**

As at 31 December 2024, due (unpaid) bonuses and variable remuneration of key management personnel amounted to PLN 8,214 thousand and concerned bonuses for 2023-2024. The cost was shown in the statement of comprehensive income for 2023-2024.

As at 31 December 2023, due (unpaid) bonuses and variable remuneration of key management personnel amounted to PLN 4,750 thousand and concerned bonuses for 2021-2023. The cost was shown in the statement of comprehensive income for 2021-2023

7.5. Audit firm's fees

	Year ended 31 December			
	2024		2023	
	GPW	Subsidiaries	GPW	Subsidiaries
Audit of the annual financial statements	215	375	468*	389
Other assurance services (including review of financial statements)	210	182	90	-
Other services	-	-	-	4
Total auditor's remuneration	**425**	**557**	**558**	**393**

* The amount increased by additional remuneration resulting from the signed annex in 2024.

** Other assurance services include, in addition to reviews of half-year reports and selected procedures concerning subsidiary packages, also verification of the Supervisory Board's remuneration report and assurance of sustainability reporting.

7.6. Contracted investments

	As at	
	31 December 2024	31 December 2023
Contracted investments in property, plant and equipment	885	61
Contracted investments in intangible assets	-	76
Total contracted investments	**885**	**137**

As at 31 December 2024 contracted investments in plant, property and equipment included extensions to servers and disk arrays. As at 31 December contracted investments in plant, property and equipment included arrangement and modernisation of one floor of the headquarters.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

As at 31 December 2024 contracted investments in intangible assets related to the information exchange support system POB.

7.7. IRGiT Clearing Guarantee System

The clearing guarantee system operated by IRGiT includes:

- *Transaction deposits which cover cash settlement,*
- *Margins which cover positions in forward instruments,*
- *Guarantee funds which guarantee the clearing of transactions concluded on forward markets in the event of a shortage of transaction deposits and margins posted by a member,*
- *Margin monitoring system which compares the amount of liabilities of an IRGiT clearing member under exchange transactions and margins with the amount of posted transaction deposits and margins.*

Selected judgments and estimates

The Group performs a judgment concerning IRGiT's role in the clearing of transactions on the commodity forward instruments market. According to the estimates of the Exchange Management Board, both the entire risk and all benefits related to the holding of cash contributed to the clearing guarantee system remain with the Clearing House Members. Hence, cash resources of the IRGiT clearing guarantee system are not assets of the Group and neither are they presented under cash assets of the Group.

	As at 31 December 2024		As at 31 December 2023	
	Cash in IRGiT bank accounts	Cash in clients' bank accounts	Cash in IRGiT bank accounts	Cash in clients' bank accounts
Deposits	1,556,403	916,269	2,202,750	1,121,491
Margins	205,771	84,349	269,097	402,943
Guarantee funds	624,361	56,632	393,238	28,935
Total	**2,386,535**	**1,057,249**	**2,865,085**	**1,553,369**

	As at	
	31 December 2024	31 December 2023
Non-monetary collateral classified as margins	4,597,766	4,511,670
Non-monetary collateral classified as guarantee fund	510,126	255,018
Non-monetary collateral classified as transaction deposits	583,345	543,204

7.8. Guarantees

As at 31 December 2024, the Group held bank guarantees issued in favour of:

- NordPool in the amount of EUR 1.0 million effective to 16 June 2025,
- Slovenská Elektrizačná Prenosová Sústava (SEPS) in the amount of EUR 2.0 million effective to 30 June 2025,
- ČEPS in the amount of EUR 7.0 million effective to 30 June 2025,
- European Commodity Clearing AG (ECC) in the amount of EUR 3.0 million effective to 30 June 2025.

Data for the year ended 31 December 2024. All amounts in PLN'000 unless stated otherwise.

The Group has an agreement with Santander Bank Polska S.A. for a guarantee limit of EUR 120.0 million. On 19 June 2024, Annex 3 to the Guarantee Limit Agreement was concluded, which increased the limit from EUR 90.0 million to EUR 120.0 million and extended the availability period of the limit by three years, i.e. until 30 June 2027.

The Group also guarantees the due performance by the subsidiary InfoEngine of its payment obligations under the Transmission Agreement concluded between InfoEngine and Polskie Sieci Elektroenergetyczne S.A. The guarantee amount is PLN 4.0 million. The guarantee is effective until 28 February 2028.

As at 31 December 2023, the Group held bank guarantees issued in favour of NordPool of EUR 1.0 million, SEPS of EUR 15.5 million, ČEPS of EUR 4.7 million, and ECC of EUR 6.0 million.

7.9. Contingent liabilities

Selected accounting policies

Contingency is a feature of liabilities and assets that are not recognised in the financial statements because their existence is dependent on the occurrence or non-occurrence of one or more uncertain future events that are not wholly within the control of the Exchange.

Contingent assets arise from unplanned or unexpected events which give rise to the possibility of an inflow of economic benefits to the Group, the outcome of which is uncertain.

A contingent liability is a possible obligation whose existence is yet to be confirmed or is a present obligation that does not meet the criteria for liability recognition (either because it is not probable that an outflow of economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability).

7.9.1. Contingent liabilities – grants, guarantees

In connection with the implementation of the projects New Trading System, GPW Data, GPW Private Market, TeO and PCOL, the Exchange presented five in-blanco promissory notes to NCBR securing obligations under the projects' co-financing agreements. According to the agreements and the promissory note declarations, NCBR may complete the promissory notes with the amount of provided co-financing which may be subject to refunding, together with interest accrued at the statutory rate of overdue taxes from the date of transfer of the amount to the Exchange's account to the day of repayment (separate for each project). NCBR may also complete the promissory notes with the payment date and insert a "no protest" clause. The promissory notes may be completed upon the fulfilment of conditions laid down in the co-financing agreement. Each of the promissory notes shall be returned to the Exchange or destroyed after the project sustainability period defined in the project co-financing agreement.

As at 31 December 2024, the Group recognised a contingent liability in respect of an overdue VAT correction. Acting in the interest of GPW shareholders, pursuant to point 92 of IAS 37 Provisions, Contingent Liabilities and Contingent Assets, the Group is not disclosing the estimated amount of the potential payable (see: Note 7.10).

The Group had bank guarantees as at 31 December 2023 as described in Note 7.8.

7.9.2. Contingent liabilities related to transactions with a former IRGiT member

The subsidiary IRGiT provided clearing and settlement of transactions in forward instruments on the electricity exchange market, to which a then IRGiT member was a party. As a result of its failure to file VAT returns (JPK files), the entity was removed from the VAT taxpayer register and later lost its IRGiT membership. Between September 2022 and the end of March 2023, input VAT resulting from invoices issued by IRGiT on behalf of that entity in the process of self-invoicing was not deducted by IRGiT. As a result of internal consultations, analysis of the regulations, and two opinions confirming the right to deduct input VAT, it was decided to submit corrections to the tax returns for those periods, recognising the amounts of input VAT at PLN 11.7 million. Furthermore, it was decided to settle input VAT on an ongoing basis, starting from April 2023, in the total amount of PLN 12.0 million.

After explanations were provided to the Tax Authority in this matter, the approach adopted by IRGiT with regard to this entity in the settlement of input VAT was not contested. As a result, IRGiT obtained a VAT refund in the full amount requested.

In the case at hand, the Customs and Tax Audit Authority initiated an audit of IRGiT regarding the correct and diligent settlement of VAT for selected periods. The audit ended in October 2024. The Customs and Tax Audit Authority did not find any irregularities in the settlement of VAT in the audited periods.

In view of the above determination, the risk that IRGiT's approach may be challenged by the Tax Authority for the periods under review was minimised.

7.9.3. Potential future transactions in AMX shares

On 27 December 2022, GPW acquired shares in Armenia Securities Exchange (AMX). The shareholders' agreement entered into as part of the AMX acquisition includes a call option for the Central Bank of Armenia (CBoA) and a put option for the GPW covering the acquired shares in AMX. CBoA may exercise the option in the last month of the closed period in the event that GPW materially defaults on the adopted Business Plan, while GPW may unconditionally exercise the option within two months of the expiration of the closed period. The closed period is defined as a period of five years from the registration of the shares. In the opinion of the Exchange Management Board, the probability of GPW not achieving the objectives of the adopted Business Plan as at the date of the declaration can be assessed as low.

7.10. Uncertainty about VAT

In accordance with the GPW Group's tax risk management policy, since 2017 the tax accounts of all Group companies including IRGiT have been subject to annual tax reviews carried out by an independent tax advisor. In addition, following one such review, in order to verify a tax risk identified in the review, the IRGiT Management Board requested independent advisors to perform an analysis concerning the correct point at which an input VAT obligation arises from transactions in electricity and gas deliveries and the point of eligibility to deduct input VAT; in addition a calculation was requested of the potential impact on IRGiT's tax payable of a possible amendment of IRGiT's tax policy which follows the general rules concerning the tax point for output VAT and the direct application of Directive 112 with respect to input VAT.

According to the provided opinions, IRGiT's tax policy is correct in the light of EU law, in particular to the extent of input VAT, and considering the specificity of IRGiT's business, in relation to output VAT. However, under the applicable national tax law, such approach could be challenged by tax authorities due to the literal interpretation of tax regulations.

On 9 October 2020, the Regional Administrative Court in Warsaw dismissed IRGiT's appeal and upheld the individual interpretation issued by the Director of the National Tax Information dated 12 November 2019 concerning the principles of determining the time of origination of the right to deduct input VAT from invoices for electricity and gas. On 5 December 2020, IRGiT filed an appeal on a point of law with the Supreme Administrative Court in Warsaw, and followed up with a supplementary submission of 15 April 2021 which referred to recent CJEU case-law, not yet available when the appeal on a point of law was filed, which fully supports the pleas raised by IRGiT in its appeal on a point of law. On 4 September 2024, IRGiT filed a request with the Supreme Administrative Court to refer questions for a preliminary ruling to the Court of Justice of the European Union (CJEU) regarding the compatibility with the VAT Directive of the provisions of the national VAT Act to the extent that they contradict the overriding principle of VAT neutrality. On 2 October 2024, the Supreme Administrative Court, at a hearing, decided that there was doubt in this case as to the compatibility of the provisions of the national VAT Act with the EU legislation. Consequently, the Supreme Administrative Court suspended the proceedings and referred the question to the CJEU for a preliminary ruling.

Due to uncertainty concerning the time of settlement of input and output VAT in all open periods and the amount of the aforementioned VAT payable, guided by the principles of prudence, in accordance with IAS 37 Provisions, Contingent Liabilities and Contingent Assets, provisions were set up against interest that could arise in the event of a shift in the VAT deduction period at PLN 30.1 million as at 30 September 2023.

Due to the expiration of the five-year statute of limitations on the VAT liability for the period from December 2018 to November 2019, which expired on 31 December 2024, the Company requested an independent advisor to update the aforementioned provisions. As a result of the recalculation of the provisions, the amount of the provisions was significantly reduced following the expiration of the five-year period related to the statutory limitation for the VAT liability.

As a result of the events described above, financial income was recognised on the release of the provisions at PLN 29.0 million and the net provisions at 31 December 2024 were reduced to PLN 1.1 million. The provisions represent the best possible estimate of the potential liability as at 31 December 2024 which would have to be paid upon an amendment of the existing methodology of determining the time of origination of the tax liability and the deduction right. The estimated provisions as at 31 December 2024 reflect a reduction in the potential tax liability and consequently a decrease in potential tax arrears with interest.

From the tax perspective, the risk arising from the statute of limitation concerning the recognition of output VAT reported in November 2018 was neutralised as of the end of 2024. However, there is a risk in 2025 due to the statute of limitation rules for the recognition of output VAT reported in November 2019. Due to the application of the lex specialis concerning the time of origination of tax on electricity and gas deliveries, the VAT would be deferred to the following month and consequently recognised for a second time without the right to a correction in the month of November affected by the statute of limitation, which would be in direct violation of the principle of VAT neutrality. Literal application of those rules could however result in double VAT imposed on transactions. Consequently, acting in the interest of GPW shareholders, pursuant to point 92 of IAS 37, the Group is not disclosing the estimated amount of the contingent liability.

7.11. Events after the balance sheet date

On 16 January 2025, an increase in the capital of GPW DAI S.A. was registered in connection with the resolution adopted by the Extraordinary General Meeting of the company on 3 October 2024 on an increase in the share capital by PLN 13,397,000 through the issue of 13,397,000 ordinary registered shares of series D with a nominal value of PLN 1 per share. The issue price of the shares was set at PLN 1. The shares were fully acquired by GPW.

On 21 January 2025, the amount of the bank guarantee for ČEPS was reduced to EUR 2.0 million and in March 2025 it was increased to EUR 4.5 million. In February, the guarantee for ECC was increased to EUR 3.5 million and in March the amount for SEPS was increased to EUR 3.0 million.

In January 2025, TGE signed an annex to the surety agreement with PSE extending the term until June 30, 2027.

On 4 March 2025 a decision was made to liquidate a company jointly controlled by the GPW Group – Polska Agencja Ratingowa S.A.

On 11 March 2025, the Supervisory Board of the Exchange adopted a resolution to dismiss Ms. Monika Gorgoń from the Management Board and appoint Ms. Dominika Niewiadomska-Siniecka to the Management Board.

The consolidated financial statements are presented by the Management Board of the Warsaw Stock Exchange:

Tomasz Bardziłowski – President of the Management Board ....

Sławomir Panasiuk – Vice-President of the Management Board ....

Monika Gorgoń – Member of the Management Board ....

Michał Kobza – Member of the Management Board ....

Marcin Rulnicki – Member of the Management Board ....

Person responsible for keeping books of account:

Dariusz Wosztak, Director, Financial Department ....

Warsaw, 25 March 2025
