Cautionary Note Regarding Forward-Looking Statements

Statements in this presentation about future expectations, plans and prospects, as well as any other statements regarding matters that are not historical facts, may constitute “forward-looking statements.” These include statements regarding our ability to continue as a going concern; our ability to comply with the terms of our agreement with Gibraltar Business Capital, LLC; the expense, timing and outcome of legal proceedings relating to our accounting practices, financial disclosures and employment policies and practices; our ability to meet projected revenue targets and generate cash from operations as a result of delays in new orders for our energy storage solutions; our ability to remediate material weaknesses in our controls and procedures and also those identified in our internal control over financial reporting, or to accurately or timely report our financial condition or results of operations, which may adversely affect our business and stock price; our ability to regain compliance and continue to meet the continued listing standards of the Nasdaq Stock Market LLC; our ability to secure sufficient funding to support our current and proposed operations; our ability to manage our working capital requirements efficiently; our ability to obtain the necessary funds from our credit facilities; our ability to obtain raw materials and other supplies for our products at existing or competitive prices and on a timely basis; our anticipated growth strategies and our ability to manage the expansion of our business operations effectively; our ability to maintain or increase our market share in the competitive markets in which we do business; our ability to grow our revenue, increase our gross profit margin and become a profitable business; our ability to fulfill our backlog of open sales orders due to delays in the receipt of key component parts and other potential manufacturing disruptions; our ability to keep up with rapidly changing technologies and evolving industry standards, including our ability to achieve technological advances; our dependence on the growth in demand for our products; our ability to compete with larger companies with far greater resources than us; the impact of tariffs on our ability to cost-effectively source battery packs and materials used in our products; and statements regarding our results of operations and financial position, planned products and services, business strategy and plans and objectives of management for future operations. The words, without limitation, “believe,” “contemplate,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “might,” “plan,” “potential,” “predict,” “project,” “should,” “target,” “will,” or “would,” or the negative of these terms or other similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these or similar identifying words. Further, there are other risks and uncertainties that could cause actual results to differ from those set forth in the forward-looking statements and they are detailed from time to time in the reports we file with the Securities and Exchange Commission. However, new risk factors and uncertainties may emerge from time to time, and it is not possible to predict all risk factors and uncertainties. Accordingly, readers are cautioned not to place undue reliance on these forward-looking statements. Any forward-looking statements contained in this presentation are based on the current expectations of our management team and speak only as of the date hereof, and we specifically disclaim any obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise.

Non-GAAP Financial Measures

This presentation includes certain financial measures not prepared in accordance with generally accepted accounting principles (“GAAP”), including Adjusted EBITDA. These non-GAAP financial measures are not measures of financial performance in accordance with GAAP and may exclude items that are significant in understanding and assessing our financial results. Therefore, these measures should not be considered in isolation or as an alternative to measures prepared in accordance with GAAP. In addition, our presentation of these measures may not be comparable to similarly-titled financial measures used by other companies. We believe that these non-GAAP measures, when viewed with our results under GAAP and the accompanying reconciliations, provides useful information about our period-over-period results. These non-GAAP measures are presented because we believe they provide additional information with respect to the performance of our fundamental business activities and are also frequently used by securities analysts, investors and other interested parties in the evaluation of comparable companies. These non-GAAP financial measures are subject to inherent limitations as they reflect the exercise of judgments by management in determining these non-GAAP financial measures. Please refer to the Appendix of this presentation for a reconciliation of these measures to the most directly comparable measure evaluated in accordance with GAAP.

Market & Industry Data

This presentation also contains estimates and other statistical data made by independent parties and by the Company relating to market size and growth and other industry data. This data involves several assumptions and limitations, and you are cautioned not to give undue weight to such estimates. The Company has not independently verified the statistical and other industry data generated by independent parties and contained in this presentation and, accordingly, it cannot guarantee their accuracy or completeness. In addition, projections, assumptions and estimates of its future performance and the future performance of the industries in which it operates are necessarily subject to a high degree of uncertainty and risk due to a variety of factors. These and other factors could cause results to differ materially from those expressed in the estimates made by independent parties and by the Company. For more information, please refer to risk factors discussed in Company's periodic filings with the SEC.

This presentation shall not constitute an offer to sell or the solicitation of an offer to buy these securities, nor shall there be any sale of these securities in any state or jurisdiction in which such offer, solicitation, or sale would be unlawful prior to registration or qualification under the securities laws of any such state or jurisdiction.

ABOUT US

We **design** and **manufacture** advanced lithium-ion intelligent battery packs and energy management systems (firmware, cloud software) used in industrial and commercial equipment for material handling (forklifts etc.,) and airport ground support equipment (GSE).

Our **vision** is to empower every **partner** and **customer** with advanced, sustainable technological solutions that not only meet today's needs but also pioneer new paths for tomorrow's energy landscape.

Leadership **I**nnovation - **I**nclusivity **O**wnership **N**urturing

A FOUNDATION BUILT FOR FORTUNE 500 ELECTRIFICATION

FLUX POWER AT A GLANCE

Lithium-ion energy solutions for electrification of industrial and commercial sectors

COMPANY PROFILE

- Leader in **next-gen battery technologies** and connected energy storage solutions
- **Battery Packs Placed:** 30,000+
- **Target Markets:** Material Handling (Forklifts) and Ground Support Equipment (GSE)
- **HQ Vista, CA - 64,000 sq. ft facility** can support production for +\$150M annual sales
- Proprietary **cloud-based Energy Management System & Telemetry** with our SkyEMS SaaS offering

REVENUE (\$M) & GROSS MARGIN PROFILE

KEY STRATEGIC OBJECTIVES

Flux Power has taken strategic steps to accelerate growth and reinforce market leadership

PROFITABLE GROWTH

- Achieved profitability in Q2'26 with current focus now on consistent growth

OPERATIONAL EFFICIENCIES

- Thoroughly streamlined the organization for maximum operating leverage and better margins

SOLUTION SELLING

- Working with our partners & OEMs to provide customers with custom energy systems and solutions

BUILD RIGHT PRODUCTS

- Our modular design approach saves costs and allows us to build products to meet customer demands

SOFTWARE & RECURRING REVENUE

- Our SkyEMS 2.0 SaaS software platform now has advanced telematics & AI features to make every battery intelligent, connected and remotely manageable

WHY LITHIUM?

Advantages of Lithium-Ion

- Low **total cost of ownership** and significantly **reduced energy loss** compared to lead acid
- Transitioning to lithium-ion technology is smoother due to **minimal infrastructure adjustments** required (Plug and Play)
- Lithium-ion batteries are **smarter** and **efficient** with data feed and remote management

Lithium-Ion Benefits

- 37-52% Lower TCO over 4 years
- Intelligent: Energy Management
- Savings: Peak Shaving
- Less Maintenance
- No Battery Watering
- Easy charging
- Less Physical Space
- Healthier air
- No Battery Room
- Telemetry Usage Insights
- State of Health
- Remote Diagnostics

COST ANALYSIS LITHIUM vs LEAD ACID

Attribute	Flux Power Lithium Batteries	Lead Acid Batteries
Performance	One battery required for multi-shift operations	Multiple batteries required for multi-shift operations
Lifespan ⁽¹⁾	3,000-5,000 cycle life	500-1,500 cycle life
Efficiency ⁽²⁾	More efficient energy usage (30-50%)	Less efficient energy storage
Maintenance	No required regular maintenance	Regular watering, weekly equalization charges
Environmental	Saves tons of CO2	Produces off gasses; acid spills require EPA reporting
Cost	Lower total cost of ownership	Lower initial purchase cost per battery
Warranty	5 years – 10 years	2 years – 5 years

CUMULATIVE \$4.6M SAVINGS OVER 6 YEARS (50 Lift Trucks)
Lithium-ion vs. Lead Acid⁽¹⁾

(1) The model evaluates the impact of implementing LIB when purchasing a new fleet of vehicles, such as for a new facility. This analysis uses a 50-truck, LAB, three-shift operation as the baseline. NEW PATENTS: CONTINUOUSLY DRIVING INNOVATION

Recognizing Flux Power's continued drive towards innovation, The U.S. Patent and Trademark office recognized has awarded Flux Power with *three* patents in 2025:

INTELLIGENT BATTERY CYCLE LIFE MAXIMIZATION ALGORITHM

- Pioneering the *Future* of AI-Driven Energy Optimization

PREDICTIVE QUANTUM BALANCING

- A breakthrough approach designed to optimize performance, extend battery life, and reduce operational downtime.

ADVANCED BATTERY STATE OF HEALTH TECHNOLOGY

- Proprietary technology integrating AI and software intelligence for adaptive, data-driven electrification to extend battery life.

MODEX 2026: INNOVATION IN SUSTAINABILITY WINNER

At Modex 2026, the premier manufacturing and supply chain trade show, Flux Power was awarded the Innovation in Sustainability Award. This award recognizes the company that is delivering a sustainable solution not offered by any other company in the space.

Flux Power was the only battery provider selected as a finalist, underscoring our leadership in delivering cleaner, more efficient, end-to-end energy lifecycle solutions spanning design, deployment, and recycling.

We're honored by this recognition and incredibly proud of the team whose innovation and execution made it possible.

Sky Platform: DRIVING OPERATIONAL EFFICIENCIES VIA FLEET INTELLIGENCE

ELECTRIFICATION RAPIDLY EXPANDING IN MATERIAL HANDLING

Customers seeking lower cost & higher performance lithium-ion battery packs

Material Handling Equipment

- ✓ Industry transitioning from internal combustion to electric power
- ✓ OEMs are shifting from traditional lead acid batteries to lithium-ion batteries in their forklift fleets
- ✓ Corporations in warehousing, e-commerce, automotive, and food & beverage leading the shift to lithium-ion forklifts
- ✓ Lithium-ion batteries are safer, lacking toxic lead, acid, and explosive gases, with Lithium Iron Phosphate (LFP) offering better thermal stability

X-Series: X48

M-Series: M36

Lithium Battery Forklift Market TAM (\$B) ⁽¹⁾

<https://www.wiseguyreports.com/reports/lithium-battery-forklift-market>

GROUND SUPPORT EQUIPMENT ADOPTING LITHIUM ION

Customers seeking lower cost & higher performance lithium-ion battery packs

Ground Support Equipment (GSE) Electrification

- ✓ Airlines (Delta, United) and logistics companies (FedEx, Amazon) are electrifying their fleets
- ✓ 65% of survey participants plan to adopt eGSE in 5 years; 19% in 6-10 years according to a 2024 eGSE Report ⁽¹⁾

CUSTOMER TESTIMONIALS

“Ground support equipment at Delta's hubs in Salt Lake City and Boston are nearly entirely powered with electricity, a huge step toward the airline's aspirational goal of a 100% net-zero ground operation around the world. We're grateful to our airport partners for their collaboration and support.”

*Delta Airlines – Staff writer
Pam Fletcher – Delta Chief Sustainability Officer*

PEPSICO

“Flux Power provides a quality product and has a great support team to ensure your field locations have support which is key in the transition from lead acid to lithium-ion.”

Cathy Ratchford – Senior Director of Transportation, North Division

“I like the onboard battery monitoring and charge cycle programming. This is one of the few lithium batteries that will let us use a standard opportunity charge charger.”

Steve Pesha – Plant Engineering Supervisor

SUMMARY FINANCIAL STATISTICS

As of March 31, 2026

All Values in Millions

Source: Company Filings

*Adjusted EBITDA is determined by taking net loss and adding interest, taxes, depreciation, amortization, and stock-based compensation expenses.
