Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of
FRMO Corporation and Subsidiaries

Results of Review of Interim Financial Statements

We have reviewed the accompanying interim condensed consolidated balance sheet of FRMO Corporation and Subsidiaries (the Company) as of August 31, 2023, and the related condensed consolidated statements of income, stockholders' equity and cash flows for the three month periods ended August 31, 2023 and 2022 (collectively referred to as the "interim financial statements"). Based on our reviews, we are not aware of any material modifications that should be made to the accompanying interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB) and in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet of the Company as of May 31, 2023, and the related consolidated statements of income, stockholders' equity and cash flows for the year then ended (not presented herein), and in our report dated August 15, 2023, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of May 31, 2023, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Basis for Review Results

These interim financial statements are the responsibility of the Company's management. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the relevant ethical requirements relating to our audit, which include standards of the American Institute of Certified Public Accountants (AICPA) Code of Professional Conduct. We conducted our reviews in accordance with the standards of the PCAOB and in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with standards of the PCAOB or in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

NOTE 6 - Income Taxes

The Company files a consolidated federal income tax return and a combined state/city tax return with its wholly-owned subsidiary, Fromex Equities Corp. HKHA, included in consolidated net income (loss) before taxes, is a pass-through entity subject to K-1 reporting and is not included in the Company's consolidated income tax return. Pass-through income allocated to the Company is based on the Company's ownership percentage as of August 31, 2023 and May 31, 2023, which was 21.79% and 21.80% respectively. Income tax attributable to the remaining noncontrolling interest of 78.21% and 78.20% represents a permanent difference related to "consolidation of noncontrolling interests" in the reconciliation table below of federal statutory rate to effective tax rate.

The Company records adjustments related to prior years' taxes during the period when they are identified, generally when the tax returns are filed. The effect of these adjustments on the current and prior periods (during which the differences originated) is evaluated based upon quantitative and qualitative factors and are considered in relation to the interim condensed consolidated financial statements taken as a whole for the respective periods.

The provision for (benefit from) income taxes is comprised of the following:

	Three Months Ended August 31,	
	2023	2022
	(Unaudited)	
Current		
Federal	\$ (125,994)	\$ 146,956

Total Provision for Income Taxes	<u>\$ 8,293,618</u>	<u>\$ 2,259,757</u>

The provision for income taxes includes estimated amounts for income and loss items derived from pass through entities. The actual amounts are determined upon completion of the Company's tax return and may differ from the amounts presented above due to the variable nature of these items.

Deferred tax assets and liabilities are determined using the enacted tax rates applicable to the period the temporary differences are expected to be recovered. The net deferred income taxes on the balance sheets reflect temporary differences between the carrying amounts of the assets and liabilities for financial reporting purposes and income tax purposes, tax effected at a various rates depending on whether the temporary differences are subject to federal taxes, state and city taxes, or both.

NOTE 8 - Net Income Per Common Share and Per Common Share Equivalent

Basic and diluted earnings per common share is calculated by dividing net income allocated to common stock by the weighted average common shares outstanding during the period. The weighted average number of shares of common stock used in the calculation of diluted earnings per share is adjusted for the dilutive effects of potential common shares including the assumed exercise of vested stock options based on the treasury stock method. Assumed exercise or conversion of potential common shares is only when the weighted average market price for the period exceeds the exercise price and the conversion price, and that the entity records earnings from continuing operations, as the inclusion of such adjustments would otherwise be anti-dilutive to earnings per share from continuing operations.

Potential common shares consist of unexercised stock options of 65,000 and 56,000 for the three months ended August 31, 2023 and 2022, respectively.

As of August 31, 2023 and May 31, 2023 there were 32,000 and 40,000 vested options with an exercise price below the weighted average market price of the Company's common stock during the period.

The reconciliation of the weighted average number of common shares used in the calculation of basic and diluted earnings per common share follows for the three months ended August 31:
