Jeffrey C. Sprecher,

ICE Chair & Chief Executive Officer, said,

"We are pleased to report the best quarter in ICE's history, highlighted by record revenues, record operating income and earnings per share growth. Amidst a backdrop of continued geopolitical and macroeconomic uncertainty, our first quarter performance reflects the quality of our all-weather business model and the value of our markets, technology and data services. Looking to the balance of the year and beyond, ICE's diverse platform is well positioned to serve our customers, generate growth and create value for our stockholders."

ATLANTA & NEW YORK, May 1, 2025 - Intercontinental Exchange (NYSE: ICE), a leading global provider of technology and data, today reported financial results for the first quarter of 2025. For the quarter ended March 31, 2025, consolidated net income attributable to ICE was \$797 million on \$2.5 billion of consolidated revenues, less transaction-based expenses. First quarter GAAP diluted EPS were \$1.38. Adjusted net income attributable to ICE was \$995 million in the first quarter and adjusted diluted EPS were \$1.72. Please refer to the reconciliation of non-GAAP financial measures included in this press release for more information on our adjusted operating expenses, adjusted operating income, adjusted operating margin, adjusted net income, adjusted diluted EPS and adjusted free cash flow.

Warren Gardiner, ICE Chief Financial Officer, added: "ICE's first quarter performance underscores the quality and durability of our business model, reporting record revenues and record operating income. This performance enabled us to invest in our business while also returning \$519 million to stockholders through dividends and share repurchases, as well as make progress on deleveraging. As we look to the balance of the year, we remain focused on disciplined investment in support of our strategic growth initiatives and on creating value for our stockholders."

Non-GAAP Financial Measures and Reconciliation

We use non-GAAP measures internally to evaluate our performance and in making financial and operational decisions. When viewed in conjunction with our GAAP results and the accompanying reconciliation, we believe that our presentation of these measures provides investors with greater transparency and a greater understanding of factors affecting our financial condition and results of operations than GAAP measures alone. In addition, we believe the presentation of these measures is useful to investors for period-to-period comparison of results because the items described below as adjustments to GAAP are not reflective of our core business performance. These financial measures are not in accordance with, or an alternative to, GAAP financial measures and may be different from non-GAAP measures used by other companies. We use these adjusted results because we believe they more clearly highlight trends in our business that may not otherwise be apparent when relying solely on GAAP financial measures, since these measures eliminate from our results specific financial items that have less bearing on our core operating performance. We strongly recommend that investors review the GAAP financial measures and additional non-GAAP information included in our Quarterly Report on Form 10-Q, including our consolidated financial statements and the notes thereto.

Adjusted operating expenses, adjusted operating income, adjusted operating margin, adjusted net income attributable to ICE common stockholders, adjusted diluted earnings per share and adjusted free cash flow for the periods presented below are calculated by adding or subtracting the adjustments described below, which are not reflective of our cash operations and core business performance, and their related income tax effect and other tax adjustments (in millions, except for per share amounts):
