***"We are pleased to report our strong third quarter results which extend our track record of growth. Our customers continue to rely on our mission-critical data and technology to provide transparency and efficiencies across asset classes and through an array of macroeconomic environments. We remain focused on collaboration and innovation to serve our customers, generate growth and deliver value to our stockholders."***

**ATLANTA & NEW YORK, October 28, 2021** - Intercontinental Exchange (NYSE: ICE), a leading global provider of data, technology and market infrastructure, today reported financial results for the third quarter of 2021. For the quarter ended September 30, 2021, consolidated net income attributable to ICE was \$633 million on \$1.8 billion of consolidated revenues, less transaction-based expenses. Third quarter GAAP diluted earnings per share (EPS) were \$1.12. Adjusted net income attributable to ICE was \$735 million in the third quarter and adjusted diluted EPS were \$1.30. Please refer to the reconciliation of non-GAAP financial measures included in this press release for more information on our adjusted operating expenses, adjusted operating income, adjusted operating margin, adjusted net income, adjusted diluted EPS and free cash flow.

Warren Gardiner, ICE Chief Financial Officer, added: "In the third quarter, we generated double-digit revenue, operating income and earnings per share growth. This strong performance, including double digit growth in our recurring revenues, was driven by contributions from all three business segments and is a testament to the power of our diverse business model. Additionally, our strong cash flows and strategic capital allocation will enable us to accelerate capital return to our shareholders while also continuing to invest."

### Non-GAAP Financial Measures and Reconciliation

We use non-GAAP measures internally to evaluate our performance and in making financial and operational decisions. When viewed in conjunction with our GAAP results and the accompanying reconciliation, we believe that our presentation of these measures provides investors with greater transparency and a greater understanding of factors affecting our financial condition and results of operations than GAAP measures alone. In addition, we believe the presentation of these measures is useful to investors for period-to-period comparison of results because the items described below as adjustments to GAAP are not reflective of our core business performance. These financial measures are not in accordance with, or an alternative to, GAAP financial measures and may be different from non-GAAP measures used by other companies. We use these adjusted results because we believe they more clearly highlight trends in our business that may not otherwise be apparent when relying solely on GAAP financial measures, since these measures eliminate from our results specific financial items that have less bearing on our core operating performance. We strongly recommend that investors review the GAAP financial measures and additional non-GAAP information included in our Quarterly Report on Form 10-Q, including our consolidated financial statements and the notes thereto.

Adjusted operating expenses, adjusted operating income, adjusted operating margin, adjusted net income attributable to ICE common stockholders, adjusted diluted earnings per share and free cash flow for the periods presented below are calculated by adding or subtracting the adjustments described below, which are not reflective of our cash operations and core business performance, and their related income tax effect and other tax adjustments (in millions, except for per share amounts):
