Earnings Supplement

November 3, 2022

CAUTIONARY STATEMENT REGARDING FORWARD LOOKING STATEMENTS

This presentation may contain “forward-looking statements” made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Statements regarding ICE’s business that are not historical facts are forward-looking statements that involve risks, uncertainties and assumptions that are difficult to predict. Although we believe the expectations reflected in these forward-looking statements are reasonable, these statements are not guarantees of future results, performance, levels of activity or achievements, and actual results may differ materially from what is expressed or implied in any forward-looking statement. The factors that might affect our performance include, but are not limited to: conditions in global financial markets, domestic and international economic and social conditions, inflation, interest rate changes, political uncertainty and discord, geopolitical events or conflicts and international trade policies and sanctions laws; introduction of or any changes in domestic and foreign laws, regulations, rules or government policy with respect to financial markets, climate change or our businesses generally, including increased regulatory scrutiny or enforcement actions and our ability to comply with these requirements; volatility in commodity markets, equity prices and price volatility of financial benchmarks and instruments such as interest rates, credit spreads, equity indices, foreign exchange rates, and mortgage origination trends; impact of climate change and the transition to renewable energy and a net zero economy; our business environment and industry trends, including trading volumes, prevalence of clearing, demand for data services, mortgage lending activity, competition and consolidation; the success of our clearing houses and our ability to minimize the risks associated with operating multiple clearing houses in multiple jurisdictions; the success of our exchanges and clearing houses and their compliance with regulatory and oversight responsibilities; the resilience of our electronic platforms and soundness of our business continuity and disaster recovery plans; changes in renewal rates of subscription-based data revenues; our ability to execute our growth strategy and maintaining our growth effectively; our ability to complete or realize the anticipated cost savings, growth opportunities, synergies and other benefits anticipated from our acquisitions, including our pending acquisition of Black Knight, Inc., or anticipated growth opportunities or expected benefits of our strategic investments, including our majority investment in Bakkt and the additional risk that its evolving business model may pose to our business; performance and reliability of our technology and the technology of our third party service providers; our ability to keep pace with technological developments and client preferences; our ability to successfully offer new products and technologies and identify opportunities to leverage our risk management capabilities and enhance our technology in a timely and cost-effective manner; our ability to ensure that the technology we utilize is not vulnerable to cyber-attacks, hacking and other cybersecurity risks; our ability to keep information and data relating to the customers of the users of the software and services provided by our ICE Mortgage Technology business confidential; impacts of COVID-19 on our business as well as on the broader business environment; our ability to identify trends and adjust our business to respond to such trends, especially trends in the U.S. mortgage industry; our ability to evolve our benchmarks and indices in a manner that maintains or enhances their reliability and relevance; the accuracy of our estimates and expectations; our belief that cash flows from operations will be sufficient to service our current levels of debt and fund our working capital needs and capital expenditures for the foreseeable future; our ability to secure additional debt and pay off our existing debt in a timely manner; our ability to maintain existing customers and attract new customers; our ability to attract, retain and develop key talent; our ability to protect our intellectual property rights, including the costs associated with such protection, and our ability to operate our business without violating the intellectual property rights of others; and potential adverse results of litigation and regulatory actions and proceedings. For a discussion of such risks and uncertainties, which could cause actual results to differ from those contained in the forward-looking statements, see ICE’s Securities and Exchange Commission (SEC) filings, including, but not limited to ICE’s most recent Annual Report on Form 10-K for the year ended December 31, 2021, as filed with the SEC on February 3, 2022 and ICE’s most recent Quarterly Report on Form 10-Q for the quarter ended September 30, 2022, as filed with the SEC on November 3, 2022. These filings are available in the Investors section of our website. We caution you not to place undue reliance on these forward-looking statements. Any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of an unanticipated event. New factors emerge from time to time, and it is not possible for management to predict all factors that may affect our business and prospects. Further, management cannot assess the impact of each factor on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

GAAP AND NON-GAAP RESULTS

This presentation includes non-GAAP measures that exclude certain items we do not consider reflective of our cash operations and core business performance. We believe that the presentation of these non-GAAP measures provides investors with greater transparency and supplemental data relating to our financial condition and results of operations. These adjusted non-GAAP measures should be considered in context with our GAAP results. A reconciliation of Adjusted Net Income Attributable to ICE, Adjusted Earnings Per Share, Adjusted Operating Income, Adjusted Operating Margin and Adjusted Operating Expenses to the equivalent GAAP measure and an explanation of why we deem these non-GAAP measures meaningful appears in our Form 10-Q and in the appendix to this presentation. The reconciliation of Adjusted Effective Tax Rate, Adjusted Free Cash Flow, Adjusted Other Income/Expense and Adjusted Debt-to-EBITDA to the equivalent GAAP results appear in the appendix to this presentation. Our Form 10-Q, earnings press release and this presentation are available in the Investors and Media section of our website at www.theice.com.

EXPLANATORY NOTES

Throughout this supplement:

- All net revenue figures represent revenues less transaction-based expenses of \$1.7 billion and \$1.5 billion for the nine months ended September 30, 2022 and 2021, respectively and \$576 million and \$475 million for the three months ended September 30, 2022 and 2021, respectively.
- All earnings per share figures represent diluted weighted average share count on continuing earnings.
- Constant currency (CC) amounts are calculated holding both the pound sterling and euro at the average exchange rate from 3Q21, 1.3784 and 1.1788, respectively.
- References to Return on Invested Capital, or ROIC, are equal to $\text{TTM (Operating Income} \times (1 - \text{Tax Rate})) / (\text{Avg Debt (Net of the pre-acquisition debt proceeds)} + \text{Avg Shareholders Equity} + \text{Avg Non-Controlling Interest} - \text{Avg Cash, Cash Equiv.} \& \text{ ST Investments})$. Adjusted ROIC excludes the gain on sale of Coinbase, net of taxes, and the deferred tax impact from the U.K. tax rate change. References to Weighted Average Cost of Capital, or WACC, are equal to $(\text{Cost of Equity} \times \% \text{ of Equity}) + \{(\text{Cost of Debt} \times (1 - \text{Tax Rate})) \times \% \text{ of Debt}\}$. Percent of Debt assumes a capital structure of 2.75x Debt to Adjusted EBITDA.
