"Record performance in 2015 was driven by strong demand for risk management, trading, data and listings. We achieved double-digit earnings growth by focusing on our customers and innovating amid a dynamic market environment with strong financial discipline. This allowed us to increase our quarterly dividend while investing in growth opportunities."

ICE TRACK RECORD OF GROWTH

By innovating and executing on our strategy, we have delivered record earnings year after year.

"We have diverse growth drivers across a broad range of markets - data & listings, commodities, financials and clearing. Many are driven by secular trends, while others are organic growth initiatives but all are the result of our customers' changing needs."
