QUARTERLY REPORT

Cautionary Note Regarding Forward-Looking Statements

Information set forth in this Quarterly Report (the “Quarterly Report”) contains forward-looking statements, which involve a number of risks and uncertainties that could cause our actual results to differ materially from those reflected in the forward-looking statements. Forward-looking statements can be identified by use of the words “expect,” “project,” “may,” “might,” “potential,” and similar terms. OTC Markets Group Inc. and its subsidiaries (“OTC Markets Group,” “we,” or the “Company”) caution readers that any forward-looking information is not a guarantee of future performance and that actual results could differ materially from those contained in the forward-looking information. Forward-looking statements involve a number of risks, uncertainties, or other factors beyond OTC Markets Group’s control. These factors include but are not limited to: our ability to implement our strategic initiatives; economic, political, and market conditions and price fluctuations; government and industry regulation; U.S. and global competition; changes to trading behavior broadly in the market; and other risk factors discussed under the heading “*Risk Factors*” in our Annual Report for the year ended December 31, 2025. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements. We undertake no obligation to update any forward-looking statement, whether as a result of new information, future events, or otherwise.

Item 1. The exact name of the issuer and the address of its principal executive offices

The name of the issuer is OTC Markets Group Inc.

Company description

OTC Markets Group Inc. (OTCQX: OTCM) operates regulated markets for trading 12,000 U.S. and international securities. Our data-driven disclosure standards form the foundation of our public markets: OTCQX® Best Market, OTCQB® Venture Market, OTCID® Basic Market, and Pink Limited™ Market.

Our OTC Link® Alternative Trading Systems (“ATs”) provide critical market infrastructure that broker-dealers rely on to facilitate trading. Our innovative model offers companies more efficient access to the U.S. financial markets.

OTC Link ATS, OTC Link ECN, OTC Link NQB, OTC Overnight®, and MOON ATS® are each a Securities and Exchange Commission (“SEC”) regulated ATS, operated by the Company’s wholly owned subsidiary, OTC Link LLC (“OTC Link”), a Financial Industry Regulatory Authority, Inc. (“FINRA”) and SEC registered broker-dealer, member SIPC.

There have been no changes in control of the Company since 1997. OTC Markets Group is currently conducting operations, and it is not now, nor has it at any time been, a “shell company” as that term is defined in the OTCQX U.S. Disclosure Guidelines and the federal securities laws.

Item 2. Shares outstanding

As of March 31, 2026, the Company is authorized to issue 17,000,000 shares of Class A Common Stock of \$0.01 par value.

None of OTC Markets Group's Class A Common Stock has been registered under the Securities Act of 1933 (the "Securities Act"), or qualified under any state securities laws, and we have no current plans to register or qualify any of our securities. Certain shares of our Class A Common Stock are currently eligible for resale in the public market pursuant to the exemption from registration offered by Rule 144 under the Securities Act ("Rule 144"). The remaining outstanding shares of our Class A Common Stock are "restricted securities" within the meaning of Rule 144 and may be eligible for resale in the future.

The following table shows the amount of the securities outstanding for our Class A Common Stock as of March 31, 2026 and December 31, 2025:

	March 31, 2026	December 31, 2025
Number of shares authorized	17,000,000	17,000,000
Number of shares outstanding	12,047,197	12,020,991
Number of shares freely tradable (public float) (1)(2)	7,731,863	7,713,528
Total number of holders of record	214	207

- (1) The number of shares freely tradable may include shares held by stockholders owning 10% or more of our Class A Common Stock. These stockholders may be considered "affiliates" within the meaning of Rule 144, and their shares may be "control shares" subject to the volume and manner of sale restrictions under Rule 144.
- (2) Our officers and directors hold approximately 4.2 million shares of our Class A Common Stock, which may be "control shares" subject to the volume and manner of sale restrictions under Rule 144. These shares are excluded from the number of shares freely tradable.

As of March 31, 2026 and December 31, 2025, there were 1,244 and 1,237 non-objecting beneficial stockholders owning at least 100 shares of the Company's Class A Common Stock, respectively.

Our Class A Common Stock trades on the OTCQX market under the symbol OTCM (CUSIP Number: 67106F108).

Dividends

The declaration of dividends by OTC Markets Group is subject to the discretion of our Board of Directors. Our Board of Directors will consider such matters as general business conditions, financial results, capital requirements, contractual, legal, and regulatory restrictions on the payment of dividends, and other factors as our Board of Directors may deem relevant.

During the three months ended March 31, 2026, our Board of Directors authorized and approved the following cash dividends:

Declaration Date	Dividend Per Common Share	Record Date	Total Amount (in thousands)	Payment Date
March 2, 2026	\$ 0.30	March 19, 2026	\$ 3,614	March 26, 2026

On May 5, 2026, the Board of Directors authorized and approved a quarterly cash dividend of \$0.30 per share of Class A Common Stock. The quarterly cash dividend is payable on June 18, 2026, to stockholders of record on June 4, 2026. The ex-dividend date is June 4, 2026.

Stock Repurchase Program

The Company is authorized to purchase shares from time to time on the open market, from employees and consultants, and through block trades, in accordance with the safe harbor provision of Rule 10b-18 under the Securities Exchange Act of 1934 (the "Exchange Act").

The following table shows purchases by the Company of our Class A Common Stock during the three months ended March 31, 2026 and the number of shares remaining to be purchased under the Company's stock repurchase program:

Date	Number of Shares Purchased	Average Price Paid Per Share	Number of Shares Purchased as Part of Announced Repurchase Plan	Total Amount (in thousands)	Number of Shares Remaining To Be Purchased Under Announced Plan
Feb 2026	56,651	\$ 55.47	56,651	\$ 3,143	243,349
Mar 2026 (1)	-	-	-	-	300,000
Total	56,651		56,651	\$ 3,143	

- (1) On March 2, 2026, the Board of Directors refreshed the Company's stock repurchase program, giving the Company authorization to repurchase up to 300,000 shares of the Company's Class A Common Stock.

Item 3. Unaudited interim condensed consolidated financial statements

Copies of the unaudited interim condensed consolidated financial statements of OTC Markets Group for the three months ended March 31, 2026 and March 31, 2025, including the unaudited interim Condensed Consolidated Balance Sheets, Condensed Consolidated Statements of Income, Condensed Consolidated Statements of Stockholders' Equity, Condensed Consolidated Statements of Cash Flows, and Notes to the condensed consolidated financial statements, are attached hereto as Exhibit 3.1 and are hereby incorporated by reference into this Quarterly Report.

The unaudited interim condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States ("U.S. GAAP"). The accompanying unaudited interim condensed consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary for a fair statement of the results for the interim periods presented. These adjustments are of a normal recurring nature. As permitted under U.S. GAAP, certain footnotes or other financial information are condensed or omitted in the unaudited interim condensed consolidated financial statements. These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report for the year ended December 31, 2025. The December 31, 2025 unaudited Condensed Consolidated Balance Sheet was derived from audited consolidated financial statements contained in our Annual Report for the year ended December 31, 2025. Operating results for the interim periods are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2026.

Item 4. Management's discussion and analysis

Overview

Our mission is to create better informed and more efficient financial markets.

We operate three business lines:

- OTC Link LLC is a FINRA member broker-dealer that operates our SEC regulated ATSs.
- Market Data Licensing distributes market data and financial information.
- Corporate Services operates the OTCQX, OTCQB, and OTCID markets and offers issuers disclosure and regulatory compliance products.

We provide critical infrastructure to the U.S. financial markets: connecting brokers, organizing markets, and incentivizing disclosure. Our market data provides price transparency, assists regulated entities in meeting their compliance obligations, and enables better informed investment decisions. Our platform empowers companies to be public and provides a global gateway to access U.S. investors. OTCQX and OTCQB offer companies a choice of premium markets, which along with OTCID allow them to demonstrate their compliance with securities laws, corporate governance, and commitment to transparency.

Our Business

OTC Link

Our wholly owned subsidiary, OTC Link LLC, a FINRA member broker-dealer, operates OTC Link ATS, OTC Link ECN, OTC Link NQB, OTC Overnight, and MOON ATS, each an SEC-regulated ATS. OTC Link LLC provides regulated quotation, messaging, trade execution, and reporting services to broker-dealers. By offering multiple market models, control of trades, and choice of counterparties, OTC Link allows broker-dealer subscribers to efficiently provide best execution, attract order flow, and comply with FINRA and SEC regulations.

OTC Link ATS offers a fully attributable, network-based model for quoting and facilitating transactions in over-the-counter ("OTC") equity securities and serves a diverse community of FINRA member broker-dealers that operate as market makers, agency brokers, and ATSs, including Electronic Communication Networks ("ECNs"). OTC Link ATS consolidates broker-dealer quotations, delivers trade messages, and allows subscribers to execute or negotiate trades with known counterparties. All subscribers to OTC Link ATS are FINRA member broker-dealers, subject to all applicable FINRA rules. Unlike traditional exchanges and matching engines, OTC Link ATS is not a party to any trade reports with respect to any trade executions that may result from trade messages.

OTC Link ATS operates as a Qualified Interdealer Quotation System ("Qualified IDQS") as defined in Exchange Act Rule 15c2-11 ("Rule 15c2-11"). In this capacity, OTC Link ATS determines whether a security is eligible to be the subject of quotations under Rule 15c2-11 and makes those determinations publicly available on our website and via our market data feeds. Broker-dealers can rely on our determinations in submitting quotations in securities on our OTC Link ATS.

OTC Link ECN operates as an ECN and functions as a centralized matching engine and router for certain OTC equity securities by providing subscribers with anonymous order matching functionality.

OTC Link NQB operates as a fully attributable IDQS and a centralized matching engine, allowing distribution of depth-of-book market data.

When marketable orders do not match internally on OTC Link ECN or OTC Link NQB, they are routed to other market destinations.

OTC Overnight allows broker-dealer subscribers to trade a select group of active OTC equity securities in overnight sessions, from 8 PM to 7:45 AM Eastern Time, Sunday to Thursday, in U.S. dollars.

[Table of Contents](#)

MOON ATS operates as a fully attributable ATS, with an option for anonymity, and a centralized matching engine, offering access to National Market System ("NMS") securities listed on major exchanges during overnight sessions. Eligible NMS securities are available for trading from 8 PM to 4 AM Eastern Time, Sunday to Thursday. When orders do not match on MOON ATS' internal book, subscribers may include an instruction to indicate that the order is routable if a better price is available on an external market center.

OTC Link ECN, OTC Link NQB, OTC Overnight, and MOON ATS act as the executing party on an agency basis in relation to all transactions executed on these platforms. Pursuant to applicable FINRA rules, OTC Link ECN, OTC Link NQB, and OTC Overnight submit trade reports to FINRA's OTC Reporting Facility, and MOON ATS submits trade reports to the FINRA/Nasdaq Trade Reporting Facility.

All transactions executed on OTC Link ECN, OTC Link NQB, OTC Overnight, and MOON ATS are cleared and settled pursuant to a clearing agreement with Apex Clearing Corporation.

Market Data Licensing

Due to the role OTC Link plays in supporting the broker-dealer trading process and our interaction with issuers, we generate a significant amount of market data and information. Our Market Data Licensing business provides our subscribers with access to extensive market data and financial information, including real-time, delayed, and end-of-day quotation and trading data, as well as a security master with issuer-level data. We generate our Market Data Licensing revenues from direct sales to subscribers and from sales through market data redistributors, some of whom are entitled to redistribution fees and rebates.

In addition, our Market Data Licensing business offers a number of data and compliance solutions, including our Compliance Data and Compliance Analytics products, our Blue Sky data product, which provides state securities law compliance data for a wide spectrum of equity and fixed-income securities, and EDGAR® Online, which provides structured data sets containing company disclosure and financial information from public company filings. Our data and compliance solutions are available through market data feeds, on our Canari® platform, and through certain of the Company's websites.

We also charge for the display of advertisements on www.otcm Markets.com.

Corporate Services

Our Corporate Services business includes the OTCQX Best Market, the OTCQB Venture Market, the OTCID Basic Market, and the Pink Limited Market as well as our suite of additional services. These services include the OTC Disclosure & News Service® ("DNS"), which allows issuers to publish disclosure, news, and company information to our website and other distribution channels, and the Virtual Investor Conferences® ("VIC") product that allows issuers to communicate and engage with stockholders and potential investors through an interactive, online platform and events.

The OTCQX Best Market provides efficient public trading without the complexity and cost of a national securities exchange listing. To join OTCQX, companies must meet minimum financial, disclosure, and qualitative standards set out in our OTCQX Rules.

The OTCQX market is divided into OTCQX U.S. and OTCQX International. OTCQX for Banks, an expansion of the OTCQX market for U.S. companies, is specifically aimed at meeting the needs of community and regional banks. The OTCQX International market is targeted towards (i) large global companies that meet the listing standards of a qualified non-U.S. stock exchange in their primary market and do not see value in meeting multiple regulatory, compliance, disclosure, and accounting standards associated with a U.S. exchange listing, and (ii) emerging growth companies that are listed on a qualified non-U.S. stock exchange and may be working towards a U.S. exchange listing but are not yet ready to deploy the management resources necessary to handle the related operational complexity and cost burdens.

The OTCQB Venture Market provides public trading for entrepreneurial and development-stage companies and applies standards that promote price transparency and facilitate public disclosure. OTCQB is open to international and domestic companies that meet the quantitative and qualitative standards set out in our OTCQB Rules.

The OTCID Basic Market, which we introduced on July 1, 2025, differentiates companies that meet specific disclosure benchmarks, including timely quarterly and annual financials, management certifications, and updated company profile information and engage directly with U.S. investors. OTCID companies publish disclosure via our DNS service.

Companies that do not meet the standards of the OTCQX Best Market, the OTCQB Venture Market, or the OTCID Basic Market are relegated to the Pink Limited Market or the Expert Restricted Market.

The Pink Limited Market is for broker-dealers to publicly quote securities with limited to no issuer involvement. Pink Limited companies do not certify their compliance with established reporting standards, have limited availability of disclosure or financial information, and may not support their U.S. market. These securities are identified with a yield sign to warn investors to proceed with caution. To the extent companies on the Pink Limited Market publish disclosure, they may do so via DNS, to the SEC, or to certain other regulatory authorities.

The Expert Restricted Market is for trading securities of issuers that fail to meet even the most basic public disclosure requirements under Rule 15c2-11 and other types of restricted or private securities that are ineligible for public quote distribution. The Expert Market® allows broker-dealers to publish unsolicited quotes to market professionals without engaging in general distribution of bids and offers. This enables broker-dealers to meet their best execution responsibilities and efficiently serve the needs of sophisticated investors.

OTC Markets Group previously categorized certain companies as Pink Current. The Pink Current Market ceased to exist on July 1, 2025, when we introduced the OTCID Market (see *Recent Business Developments*, below).

We publish issuer and security-level compliance flags to help investors identify opportunities and quantify risk. For example, companies whose stock is the subject of a public interest concern are flagged "Caveat Emptor," or buyer beware.

Recent Business Developments

OTC Overnight

In April 2026, OTC Markets Group launched OTC Overnight as a standalone ATS. A select group of active OTC equity securities are available for trading Sunday through Thursday between 8 PM and 7:45 AM eastern time. The Company plans to expand the offering to additional securities over time. OTC Overnight provides trading capabilities that expand market accessibility, transparency, and comprehensive data coverage for the OTC markets; however, it is not yet possible to predict how successful we will be in attracting subscriber activity to the overnight trading offering, or to estimate the impact it will have on our future financial results.

Overnight Market Data

On March 31, 2026, OTC Markets Group announced that overnight market data from its MOON ATS and OTC Overnight feeds will be included in its main (daytime) broker-dealer enterprise and per user licensing, at no additional charge. As demand for around-the-clock trading has grown and investors are demanding continuous access, this expanded offering delivers additional value to subscribers with reduced complexity. OTC Markets Group is the only complete overnight market providing continuous market access across the full spectrum of U.S. and international traded securities: NMS and OTC. The addition of this data alongside OTC Markets Group's daytime data creates a comprehensive and unique dataset for market participants and investors and we expect that this enhanced offering will increase the perceived value of our market data feeds over time. However, we do not expect this to impact our financial results in 2026.

United Kingdom Filings Integration

In March 2026, OTC Markets Group announced an enhancement to our disclosure platform whereby United Kingdom filings are now automatically published for OTCQX, OTCQB, and OTCID issuers, eliminating the need for duplicative manual uploads. Building on last year's integration of SEDAR+ filings for Canadian issuers, this enhancement represents the next step in our efforts to streamline access to regulated disclosure from global exchanges. By connecting directly with official financial reporting sources, OTC Markets Group aims to reduce friction for international companies while improving the quality, consistency, and timeliness of information delivered to U.S. investors. We believe that those integrations create a more connected disclosure environment, simplify access to the U.S. public markets for international companies, and make our OTCQX, OTCQB, and OTCID markets more attractive to current and prospective companies. However, the impact of this enhancement on our financial results is indirect and therefore difficult to determine.

Launch of OTCID

On July 1, 2025, OTC Markets Group launched OTCID – a basic reporting market for companies that meet a minimal current information standard and provide management certification. With the elimination of the Pink Current Market, the new OTCID Basic Market introduced a more transparent framework for companies that choose to engage with U.S. investors through consistent, ongoing reporting. OTCID reflects OTC Markets Group's broader strategy to enhance market clarity, reduce investor uncertainty, and offer compliant companies a more defined pathway to grow their presence in U.S. public markets. We expect that this ongoing evolution of our markets will improve the overall quality of our markets for broker-dealers and investors and be favorable to our business. OTCID had a positive impact on revenue in the three months ended March 31, 2026, and we expect this to continue for the remainder of 2026.

Recent Regulatory Developments Impacting our Business

Blue Sky Secondary Trading Exemptions for OTCQX and OTCQB

As of May 1, 2026, our OTCQX and OTCQB markets are exempt from state Blue Sky laws regarding secondary trading in 40 states and one U.S. territory: Alaska, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho (OTCQX only), Indiana, Iowa, Kansas (OTCQX only), Kentucky, Louisiana, Maine, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont (OTCQX only), Virginia (OTCQX only), Washington, West Virginia, Wisconsin, and Wyoming. State Blue Sky laws generally help investors make informed decisions by mandating that companies disclose accurate and current information when offering or marketing securities. We believe recognition of our markets by state regulators and the resulting Blue Sky exemptions make OTCQX and OTCQB more attractive to current and prospective companies. However, the impact of this initiative on our financial results is indirect and therefore difficult to determine.

As of May 1, 2026, OTC Markets Group's Class A Common Stock is either registered or exempt from registration under Blue Sky laws in all 50 U.S. states, Washington, D.C., Puerto Rico, and Guam.

Trends in Our Business

The economic environment in which we operated during the three months ended March 31, 2026, was characterized by heightened volatility and uncertainty and continuing geopolitical developments. We saw a strong start of the year for global IPOs followed by a substantial slowdown later in the quarter. Trading volumes in the U.S. equity markets remained elevated. The scope and extent of the potential impact of these macro trends on our business in future quarters depend on several factors that are highly uncertain and cannot be predicted. Additional information regarding the potential risks impacting our business is included in the "Risk Factors" section of our Annual Report for the year ended December 31, 2025.

Our overall gross revenues for the three months ended March 31, 2026 increased. OTC Link saw a meaningful increase in trading activity compared to the prior year period, driving transaction-based revenues. Market Data Licensing benefited from price increases for certain licenses as well as professional user and enterprise subscriber growth. Our Corporate Services business continued to benefit from the launch of OTCID and saw a higher number of companies across our markets (see *Financial Results*, below).

For the three months ended March 31, 2026, 78% of our gross revenues were derived from subscription-based arrangements that are recurring in nature and 22% were transaction-based revenues, compared to 81% and 19%, respectively, for the prior year period. The subscription-based component of our revenues increased 9%, while the transaction-based component increased 38% as a result of the increased trading activity on OTC Link, compared to the three months ended March 31, 2025.

OTC Link

Our OTC Link business executed a higher volume of trades on OTC Link ECN and OTC Link NQB and saw a higher number of trade messages on OTC Link ATS during the three months ended March 31, 2026, compared to the prior year period. The total dollar volume traded in OTCQX, OTCQB, OTCID, and Pink securities increased 27% from \$183 billion in the prior year period to \$232 billion in the three months ended March 31, 2026. The total number of securities quoted by broker-dealers on OTC Link ATS was 12,401 securities as of March 31, 2026, compared to 12,423 securities as of March 31, 2025.

We executed an average of approximately 96,000 transactions per day on OTC Link ECN and OTC Link NQB during the three months ended March 31, 2026, compared to an average of approximately 56,000 transactions per day during the prior year period. OTC Link also saw a continued ramp up of trading activity on MOON ATS in the three months ended March 31, 2026, executing an average of 7.2 million shares and 71 thousand trades per session. As a result, transactional revenues from OTC Link ECN, OTC Link NQB, and MOON ATS increased 52%, compared to the prior year period.

These platforms generated \$5.5 million in transaction-based revenues during the three months ended March 31, 2026, and paid \$3.4 million in transaction-based expenses in the form of rebates for posted liquidity, compared to \$3.6 million in transaction-based revenues and \$2.4 million in transaction-based expenses in the prior year period. The transaction-based revenues and transaction-based expenses that OTC Link generates, as well as OTC Link's regulatory and clearing costs (see *Notes to Unaudited Condensed Consolidated Financial Statements, Note 15. Segment Information*, below), which are included in professional and consulting fees, are positively correlated with the volume of trading activity on our markets. However, future trading volumes remain highly uncertain and cannot be predicted.

The number of unique subscribers to OTC Link's trading platforms was 147 as of March 31, 2026, up from 141 as of the prior year period. We expect to continue to attract new subscribers to our OTC Link platform and to grow our market share; however, the total addressable market is relatively limited.

Market Data Licensing

In our Market Data Licensing business, the number of professional users subscribing to our data products increased 3% to 28,508 as of March 31, 2026, from 27,711 as of March 31, 2025, which resulted in a 3% increase in revenues derived from professional users.

The number of non-professional users of our market data decreased 14% to 10,358 users as of March 31, 2026, from 11,996 users as of March 31, 2025, with the resulting revenues decreasing 32%. The number of non-professional users of our market data generally correlates to the level of retail participation in the U.S. equity markets. Non-professional users' interest in our data tends to fluctuate significantly in response to volatility in the markets and changes in retail trading activity, and we may experience a decline in the number of users in the future.

During the three months ended March 31, 2026, we saw an increased number of market data enterprise licenses, compared to the prior year period.

In our suite of data and compliance solutions, as of March 31, 2026, we had 59 subscriptions to our Compliance Data or Compliance Analytics products, 26 subscribers to our Blue Sky data product, and 421 subscribers to our EDGAR Online offerings, compared to 56, 27, and approximately 461 subscribers, respectively, as of March 31, 2025.

Effective January 1, 2026, we increased certain Market Data Licensing fees.

Corporate Services

During the three months ended March 31, 2026, our Corporate Services business saw a higher average and period-end number of companies on our OTCQX Best Market, OTCQB Venture Market, and OTCID Basic Market, compared to the prior year period. The month-to-month variability in subscriber numbers is driven by new sales, offset by voluntary non-renewals, and the impact of compliance downgrades, which occur when companies are removed from OTCQX or OTCQB for noncompliance with the OTCQX or the OTCQB Rules, or corporate events such as mergers, acquisitions, or other change of control events.

The OTCQX Best Market had 575 companies as of March 31, 2026, compared to 548 companies as of March 31, 2025. The increase stems from a higher number of OTCQX companies as of December 31, 2025, increased sales during the three months ended March 31, 2026, and a similar retention rate. Companies on our OTCQX market choose to renew their services at the end of each calendar year. For the annual OTCQX subscription period beginning January 1, 2026, we achieved a 95% retention rate, compared to a 96% retention rate achieved for the annual subscription period beginning January 1, 2025. During the three months ended March 31, 2026, we added 37 companies and saw a net of 36 companies leave the OTCQX market for a net increase of one from 574 OTCQX companies as of December 31, 2025. During the same prior year period, we added 22 companies and saw a net of 41 companies leave the OTCQX market for a net reduction of 19 companies from 567 as of December 31, 2024.

As of March 31, 2026, there were 1,131 companies on the OTCQB Venture Market, compared to 1,051 companies as of March 31, 2025. During the three months ended March 31, 2026, a higher number of OTCQB companies as of December 31, 2025, combined with higher sales and a lower number of non-renewals and compliance downgrades resulted in a higher number of companies on our OTCQB market compared to the prior year period. OTCQB companies renew on an annual or semi-annual basis, based on the date they joined the market. During the three months ended March 31, 2026, over 90% of OTCQB companies that remained in compliance with our OTCQB Rules chose to renew their services at the end of their service terms, consistent with our historical renewal experience.

International issuers remain a significant component of companies on our OTCQX and OTCQB markets, with 31 international companies joining OTCQX and 71 international companies joining OTCQB during the three months ended March 31, 2026, compared to 15 and 43 international companies joining OTCQX and OTCQB during the prior year period, respectively.

Effective July 1, 2025, we launched the OTCID Basic Market and as of March 31, 2026, we had 1,074 companies on OTCID. All OTCID companies receive access to DNS.

Pink Limited companies are not required to but may choose to subscribe to DNS.

Effective January 1, 2026, we increased certain Corporate Services fees, including applying annual, incremental pricing adjustments to our OTCQX and OTCQB fees.

General Business Matters

We continue to evaluate both the current and future period impact of increasing costs related to our personnel, IT infrastructure, and expense base more generally. Consistent with other companies in the financial technology sector, compensation and information technology costs comprise a significant proportion of our overall expenses, representing approximately 79% of our total operating expenses in each of the three months ended March 31, 2026 and 2025.

We recognize the importance of attracting and retaining the talent required to develop our service offerings and manage our infrastructure. We have focused headcount where we believe those resources can drive future earnings growth, help integrate acquired businesses or provide reliable services to our clients. Those resources also allow us to comply with our regulatory obligations, including those under Regulation Systems Compliance and Integrity ("SCI"), Rule 15c2-11, and our Consolidated Audit Trail ("CAT") reporting responsibilities. We expect that future investments related to our regulatory compliance obligations will be material to our financial results. Our headcount of full-time employees as of March 31, 2026, was 128, a decrease of three versus our headcount of 131 employees as of March 31, 2025. Our headcount, including part-time employees and consultants, as of March 31, 2026, was 134, a decrease of one from 135 as of March 31, 2025.

How OTC Markets Group Generates Revenues

OTC Markets Group generates a significant proportion of our revenues pursuant to subscription arrangements that are recurring in nature. Each of our three business lines offers a distinct fee structure designed to serve its subscribers. OTC Link operates OTC Link ATS, with a subscription model and usage-based fees, and OTC Link ECN, OTC Link NQB, OTC Overnight, and MOON ATS, with transaction-based fees. Corporate Services charges application fees and subscription fees. Market Data Licensing charges licensing and subscription fees. The revenue model for each of our business lines is described in detail below.

OTC Link

OTC Link generates subscription-based and usage-based revenues through subscription arrangements with broker-dealer subscribers to OTC Link ATS as well as transaction-based fees and transaction-based expenses related to broker-dealer subscribers' trading activity on OTC Link ECN, OTC Link NQB, OTC Overnight, and MOON ATS.

Subscription-based revenues

Broker-dealers pay monthly subscription and connectivity fees to access OTC Link ATS, including our OTC Dealer[®] application, which provides broker-dealers a user interface into OTC Link ATS. Fees for such access are based on the number of authorized OTC Dealer users per subscriber, which are discounted in graduated amounts in relation to total users per subscriber, or the number and type of services per connection. OTC Link also generates subscription revenues from various other services to broker-dealer subscribers, including our CAT reporting service.

Usage-based revenues

OTC Link ATS's FINRA member broker-dealer subscribers pay per security usage fees to (i) publish quotes and (ii) communicate and negotiate with counterparties on OTC Link ATS. Monthly OTC Link ATS quote position fees are based on the daily number of securities on OTC Link ATS for which quotes are published, with tiered pricing arrangements based on volume. Monthly OTC Link ATS message fees are based on the daily number of securities on OTC Link ATS for which trade messages are sent or received, with tiered pricing arrangements based on volume. The daily quoting and messaging fees allow subscribers to make unlimited quote updates in a single security and to send and receive an unlimited number of trade messages in a security on a given day. OTC Link ATS also generates revenues from the Quote Access Payment ("QAP[®]") One Statement service.

Transaction-based revenues and expenses

OTC Link ECN generates transactional revenues based on share volume executed. Broker-dealer subscribers pay a fixed fee per share executed where their orders remove posted liquidity on OTC Link ECN, while receiving a rebate on shares executed against their own posted liquidity. To the extent that OTC Link ECN routes orders to OTC Link ATS, OTC Link ECN may earn fees for orders that provide liquidity, while paying a fee for those orders that remove liquidity. OTC Link NQB and OTC Overnight generate transactional revenues and incur transaction-based expenses in a manner similar to OTC Link ECN. MOON ATS generates revenue through a fixed per share execution fee charged to broker-dealer subscribers on liquidity removing transactions, with no corresponding rebates paid to liquidity providers. Fees earned are recognized as transaction-based revenues, while fees paid are recognized as transaction-based expenses. Transaction-based expenses also include certain regulatory pass-through fees.

Market Data Licensing

Market Data Licensing generates revenues by licensing, on a subscription basis, our extensive market data, compliance data, Blue Sky data, and issuer data and security information, including SEC filings.

Market Data Licensing subscribers include broker-dealers, investors, traders, institutions, companies, accountants, and regulators, among others, which pay monthly, quarterly, or annual license fees to access this information. We offer a suite of market data licenses, priced at per enterprise or per user rates, through direct connectivity, extranet connectivity, third-party market data redistributors, OMS providers, and certain of our websites. Depending on the license type, subscribers may distribute our market data on an internal-only basis, to clients, or to the public. We generate Market Data Licensing revenues from sales through market data redistributors and from direct sales to subscribers.

Certain of our Market Data Licensing agreements include redistribution fees and rebates, which represented approximately 8% of Market Data Licensing gross revenues in each of the three months ended March 31, 2026 and 2025.

Market Data Licensing pricing information is publicly available on our website.

We also charge for the right to display advertisements on www.otcmarkets.com. Website advertising revenue is included in our Market Data Licensing business line.

Corporate Services

We generate revenue from the OTCQX Best Market, the OTCQB Venture Market, and the OTCID Basic Market as well as a suite of Corporate Services products, including DNS; Real-Time Level 2 Quote Display, a service that companies sponsor to provide their investors with access to free real-time level 2 quotes on www.otcmarkets.com and the issuer's website; the Blue Sky Monitoring Service for issuers; and our VIC product, which allows issuers to communicate and engage with their stockholders and potential investors.

Companies that choose to have their securities designated as OTCQX securities do so annually, on a calendar year basis, while companies on the OTCQB and OTCID markets renew their services on the anniversary of the date on which they began subscribing to that market. All companies traded on the OTCQX, OTCQB, or OTCID markets pay a one-time application fee and annual subscription fees. These fees are fixed and do not vary based on outstanding shares, market capitalization, market segment, or otherwise. Companies on the OTCQX market receive access to DNS, Real-Time Level 2 Quote Display, and the Blue Sky Monitoring Service, while companies on the OTCQB and OTCID markets receive access to DNS and may subscribe separately to other services.

Pink Limited companies may subscribe separately to any of these services and pay one-time application fees and annual subscription fees.

Corporate Services no longer offers semi-annual OTCQB or DNS subscriptions to new subscribers; however, there are companies that continue to subscribe to these offerings and renew their services on a semi-annual basis.

Each of these services may be accessed through www.otciq.com.

Our VIC product is available on a per event basis to companies that choose to participate.

- (1) Figures presented are at period end. OTC Link unique subscribers include OTC Link ATS, OTC Link ECN, and MOON ATS subscribers.
- (2) Figures presented represent the number of companies subscribing to our services.
- (3) Figures presented are based on actual daily volume accumulation.
- (4) Figures presented represent unique Pink company subscriptions to DNS, OTCIQ Basic, Real-Time Level 2 Quote Display, and the Blue Sky Monitoring service. The overall number of Pink company subscriptions declined after the launch of OTCID and the retirement of OTCIQ Basic, when a substantial number of Pink company subscribers upgraded to OTCID and other markets.
- (5) Starting in September 2021, OTC Link ATS began conducting initial reviews under Rule 15c2-11 for certain companies seeking to join the OTCQX and OTCQB markets. In the event that OTC Link ATS approves the initial review, it subsequently files a modified Form 211 with FINRA. Figures presented include 46 and 30 Form 211s filed by OTC Link ATS during the three months ended March 31, 2026 and 2025, respectively.

Revenues and Transaction-Based Expenses

The following table presents OTC Markets Group's gross revenues by business line and consolidated revenues less transaction-based expenses for the three months ended March 31, 2026 and 2025.

(in thousands)	Three Months Ended March 31,		% change
	2026	2025	
OTC Link	\$ 8,598	\$ 6,563	31%
Market data licensing	13,007	12,783	2%
Corporate services	13,232	11,080	19%
Gross revenues	34,837	30,426	14%
Redistribution fees and rebates	(995)	(994)	-
Net revenues	33,842	29,432	15%
Transaction-based expenses	(3,447)	(2,375)	45%
Revenues less transaction-based expenses	\$ 30,395	\$ 27,057	12%

Gross revenues increased \$4.4 million, or 14%, to \$34.8 million in the first quarter, while revenues less transaction-based expenses increased \$3.3 million, or 12%, to 30.4 million, compared to the same period in 2025. Gross revenues and transaction-based expenses described below are for the three months ended March 31, 2026, compared to the same prior year period.

- OTC Link revenues increased \$2.0 million, or 31%, to \$8.6 million. The overall increase primarily resulted from a \$1.9 million, or 52%, increase in transaction-based revenues from OTC Link ECN, OTC Link NQB, and MOON ATS due to a higher volume of shares traded on those platforms. Contributing to the overall increase in OTC Link revenues was also a \$176 thousand, or 11%, increase in usage-based revenue from OTC Link ATS primarily due to a higher number of trade messages.
- Market Data Licensing revenues increased \$224 thousand, or 2%, to \$13.0 million. The increase was the result of a \$102 thousand increase in revenues from direct sold licenses and an \$87 thousand increase in revenues from data and compliance solutions, each a 3% increase, with redistributor-based revenues increasing modestly by \$36 thousand, or 1%. The revenue growth from direct sold licenses was primarily driven by a \$142 thousand, or 45%, increase in revenue from delayed data licenses due to price increases and growth in subscribers, partially offset by the elimination of certain one-time revenue recognized during the prior year period. The increase in revenues from data and compliance solutions resulted from increases in revenues from data services and our Blue Sky data product, partially offset by a \$46 thousand, or 5%, reduction in revenues from EDGAR Online due to subscriber cancellations. The modest increase in redistributor-based revenues was a result of an increase in revenue from professional user licenses largely offset by a reduction in revenue from non-professional users (see *Trends in Our Business*, above).

- Corporate Services revenues increased \$2.2 million, or 19%, to \$13.2 million. OTCQX revenues increased \$270 thousand, or 7%, due to higher sales and pricing adjustments effective January 1, 2026, combined with a higher average number of companies on the OTCQX market. OTCQB revenues increased \$750 thousand, or 16%, due to the same factors. Revenues from OTCID companies and Pink Limited subscribers to DNS and other products increased \$1.1 million, or 51%. The launch of OTCID on July 1, 2025 resulted in a substantial number of Pink companies upgrading to OTCID, which drove the increase in related revenues.
- Transaction-based expenses, representing rebates paid to OTC Link subscribers providing liquidity and certain CAT-related regulatory pass-through fees, increased \$1.1 million, or 45%, to \$3.4 million, consistent with the higher trading volumes on OTC Link ECN and OTC Link NQB.

Operating Expenses

The following table presents OTC Markets Group's consolidated operating expenses for the three months ended March 31, 2026 and 2025.

(in thousands)	Three Months Ended March 31,		% change
	2026	2025	
Compensation and benefits	\$ 14,036	\$ 12,906	9%
IT Infrastructure and information services	3,139	2,715	16%
Professional and consulting fees	2,515	1,956	29%
Marketing and advertising	346	343	1%
Occupancy costs	731	638	15%
Depreciation and amortization	607	660	(8%)
General, administrative and other	399	565	(29%)
Total operating expenses	<u>\$ 21,773</u>	<u>\$ 19,783</u>	10%

Operating expenses increased \$2.0 million, or 10%, to \$21.8 million in the first quarter, compared to the same period in 2025. All operating expenses below are for the three months ended March 31, 2026, compared to the same prior year period.

- Compensation and benefits expenses increased \$1.1 million, or 9%, to \$14.0 million. The increase was primarily related to a \$154 thousand, or 2%, in annual base salary increases, \$470 thousand, or 26%, increase in equity-based incentive compensation, and a \$154 thousand, or 18%, increase in payroll taxes. As a percentage of gross revenues, compensation and benefits costs represented 40% and 42% for the first quarter of 2026 and 2025, respectively. Compensation and benefits expenses during each of the three months ended March 31, 2026 and 2025 included certain separation expenses, including certain accelerated equity-based incentive compensation recognized during the three months ended March 31, 2026.
- IT infrastructure and information services expenses increased \$424 thousand, or 16%, to \$3.1 million, primarily due to higher data center costs and information services expenses. Data center costs increased due to higher cloud services usage in connection with product testing, while information services expenses increased due to increased trading activity and our overnight trading initiatives.
- Professional and consulting fees increased \$559 thousand, or 29%, to \$2.5 million, primarily due to higher regulatory and clearing costs as a result of the increased trading volumes on OTC Link ECN, OTC Link NQB, and MOON ATS during the first quarter of 2026, compared to the same prior year period (see *Notes to Unaudited Condensed Consolidated Financial Statements, Note 15. Segment Information*, below).
- Marketing and advertising expenses increased \$3 thousand, or 1%, to \$346 thousand, primarily due to increased spending on marketing events and public relations, partially offset by lower travel and entertainment.
- Occupancy costs increased \$93 thousand, or 15%, to \$731 thousand, primarily due to real estate taxes retroactively billed to us by our sub-landlord.
- Depreciation and amortization decreased \$53 thousand, or 8%, to \$607 thousand, primarily due to certain servers and hardware assets reaching the end of depreciable life during prior periods.
- General, administrative and other costs decreased \$166 thousand, or 29%, to \$399 thousand. The decrease in the first quarter of 2026 was primarily due to lower bad debt as well as lower internal travel and entertainment, partially offset by higher bank fees.

Income from Operations and Operating Profit Margin

(in thousands)	Three Months Ended March 31,		% change
	2026	2025	
Income from operations	\$ 8,622	\$ 7,274	19%
Operating profit margin	25.5%	24.7%	3%

Income from operations increased \$1.3 million, or 19%, to \$8.6 million, and operating profit margin expanded to 25.5% in the first quarter of 2026, compared to the same prior year period. Income from operations increased due to revenues less transaction-based expenses outpacing the increase in operating expenses.

Net Income

(in thousands)	Three Months Ended March 31,		% change
	2026	2025	
Income before provision for income taxes	\$ 8,844	\$ 7,424	19%
Provision for income taxes	1,767	1,384	28%
Effective income tax rate	20.0%	18.6%	7%
Net income	\$ 7,077	\$ 6,040	17%

Net income increased \$1.0 million, or 17%, to \$7.1 million in the first quarter of 2026, compared to the same prior year periods. This increase was driven by the \$1.3 million increase in income from operations, partially offset by an increase in the Company's effective tax rate. The Company's overall effective tax rate increased from 18.6% to 20.0% in the first quarter of 2026, compared to the same prior year period, primarily driven by lower federal research and development credit and Foreign Derived Intangible Income Deduction, partially offset by higher excess tax benefits on stock-based compensation.

Liquidity and Capital Resources

Our liquidity is primarily derived from our working capital and cash flows from operations. We require cash to support our current operating levels, fund strategic growth initiatives, including acquisitions, develop new services and enhance existing services, make capital expenditures, fund dividends and stock repurchases, and pay federal, state, and local corporate taxes. We expect that our operations will provide sufficient cash to fund our strategic initiatives. We have no outstanding debt and, as described further below, \$5.0 million available for business operations under our line of credit, which gives us additional flexibility in managing our cash flows (see *Line of Credit*, below).

Cash Available for Operations

The following table presents cash available for operations, which consists of cash and cash equivalents and short-term investments, as of March 31, 2026 and December 31, 2025.

(in thousands)	March 31,	December 31,	% change
	2026	2025	
Cash available for operations	\$ 46,341	\$ 54,278	(15%)

Cash available for operations decreased \$7.9 million, or 15%, to \$46.3 million as of March 31, 2026, from \$54.3 million as of December 31, 2025. During the first three months of 2026, the Company used \$231 thousand in cash for operations and utilized operating cash flows and cash on hand to fund \$515 thousand investment in IT infrastructure enhancements, \$3.6 million in quarterly dividends, and \$3.1 million in respect of repurchases of our Class A Common Stock.

Cash Flow

The following table presents sources and uses of cash flows for the three months ended March 31, 2026 and 2025.

(in thousands)	Three Months Ended March 31,		% change
	2026	2025	
Net Cash used in operating activities	\$ (231)	\$ (818)	(72%)
Net Cash used in investing activities	(533)	526	(201%)
Net Cash used in financing activities	(7,191)	(5,214)	38%
Net increase (decrease) in cash and restricted cash	\$ (7,955)	\$ (5,506)	44%

Operating Activities

Net cash used in operating activities for the three months ended March 31, 2026 was \$231 thousand, compared to \$818 thousand during the same prior year period. Net cash used in operating activities for the first three months of 2026 consisted of net income of \$7.1 million, which was adjusted for non-cash items of \$3.4 million and offset by changes in assets and liabilities of \$10.7 million. Adjustments for non-cash items to net income primarily consisted of stock-based compensation of \$2.0 million and deferred income taxes of \$1.1 million. The lower net cash used in operating activities during the first three months of 2026, compared to the same prior year period, was due to an increase in cash received from subscribers, partially offset by higher cash payments for liquidity rebates, operating expenses, and estimated taxes. The remaining variance was primarily related to other fluctuations in working capital.

Investing Activities

Net cash used in investing activities for the three months ended March 31, 2026 was \$533 thousand, compared to net cash provided by investing activities of \$526 thousand for the same prior year period. Net cash used in investing activities during the first three months of 2026 was primarily related to \$818 thousand of treasury bill purchases and \$515 thousand in investments in IT infrastructure enhancements, partially offset by \$800 thousand in treasury bill maturities. The change from net cash provided by investing activities in the prior year period to net cash used in investing activities in the three months ended March 31, 2026 was primarily due to lower amounts of treasury bill maturities and higher spending on hardware equipment.

Financing Activities

Net cash used in financing activities for the three months ended March 31, 2026 was \$7.2 million, compared to \$5.2 million for the same prior year period. The net cash used in both periods was primarily related to dividends paid to our stockholders, repurchases of our Class A Common Stock, and federal and state withholding taxes paid related to cashless exercises of stock options by employees. Cash used for dividends increased \$1.5 million. Repurchases of our Class A Common Stock amounted to \$3.1 million, compared to \$2.9 million in the same prior year period. Cash used in respect of withholding taxes related to cashless exercises amounted to \$435 thousand, compared to \$130 thousand in the same prior year period.

Capital Resources and Working Capital

OTC Markets Group's working capital as of March 31, 2026 was \$19.4 million, an increase of \$3.3 million, or 20%, from \$16.1 million as of December 31, 2025. Working capital includes certain non-operating assets and liabilities, such as prepaid income taxes and income taxes payable. The improvement in working capital during the three months ended March 31, 2026 was primarily attributable to lower accrued expenses and deferred revenue, partially offset by lower cash available for operations.

Line of Credit

On July 7, 2012, the Company entered into a line of credit agreement with JPMorgan Chase (the "Line of Credit") that initially provided up to \$1.5 million of available borrowing capacity to fund business operations. The Line of Credit has been increased to \$5.0 million and has been extended through June 19, 2026. The effective interest rate of the Line of Credit is benchmarked to the Prime Rate. We have not drawn funds on the Line of Credit. Under the terms of the Line of Credit, we agreed to fulfill certain affirmative and negative covenants and other specified terms. As of March 31, 2026, the Company was in compliance with all of the covenants and other terms of the Line of Credit.

Operating Leases

We have entered into operating lease agreements for our offices and recognize rent expense on a straight-line basis over the terms of the leases.

Off-Balance Sheet Arrangements

None.

Item 5. Legal proceedings

There are no current, past, pending, or threatened legal proceedings or administrative actions either by or against OTC Markets Group that could have a material effect on our business, financial condition, or operations. We are not a party to any past or pending trading suspensions by a securities regulator.

In the ordinary course of business, the nature of the Company's business subjects it to claims, lawsuits, regulatory examinations or investigations, and other proceedings. OTC Link is regularly the subject of various regulatory reviews, inquiries, investigations, and subpoenas or requests for information by FINRA and the SEC. Since 2024, we have been in communication with the SEC's Division of Enforcement regarding certain OTC Link policies and procedures related to Regulation SCI. The Company does not believe that this matter will have a material adverse effect on its consolidated financial statements, results of operations, or liquidity; however, due to the ongoing nature of this matter, the ultimate timing and outcome of a resolution remain uncertain.

Note 1. Description of Business

Overview

OTC Markets Group Inc. (“OTC Markets Group” or the “Company”) (OTCQX: OTCM) operates regulated markets for trading 12,000 U.S. and international securities. The Company’s data-driven disclosure standards form the foundation of its public markets: OTCQX® Best Market, OTCQB® Venture Market, OTCID® Basic Market, and Pink Limited™ Market.

The Company’s OTC Link® Alternative Trading Systems (“ATSS”) provide critical market infrastructure that broker-dealers rely on to facilitate trading. OTC Markets Group’s innovative model offers companies more efficient access to the U.S. financial markets.

OTC Link ATS, OTC Link ECN, OTC Link NQB, OTC Overnight®, and MOON ATS® are each a Securities and Exchange Commission (“SEC”) regulated ATS, operated by the Company’s wholly owned subsidiary, OTC Link LLC (“OTC Link”), a Financial Industry Regulatory Authority, Inc. (“FINRA”) and SEC registered broker-dealer, member SIPC.

The Company has three business lines: OTC Link, Market Data Licensing, and Corporate Services.

- OTC Link – OTC Link LLC operates the Company’s ATSS, OTC Link ATS, OTC Link ECN, OTC Link NQB, OTC Overnight, and MOON ATS that provide trading services to FINRA member broker-dealer subscribers.
- Market Data Licensing – OTC Markets Group provides market data and compliance data, including SEC filings, for a wide spectrum of securities and issuers. The Market Data Licensing business provides broker-dealers, investors, traders, institutions, companies, accountants, and regulators, among others, with a suite of enterprise and user market data licenses, offered via direct or extranet connectivity, through third-party market data redistributors or Order Management Systems (“OMS”) as well as through certain of the Company’s websites.
- Corporate Services – OTC Markets Group operates the OTCQX Best Market, the OTCQB Venture Market, and the OTCID Basic Market and offers companies access to a suite of services that are designed to facilitate public disclosure and communication with investors, promote greater transparency, and allow companies to demonstrate regulatory compliance and mitigate market risk. These services include the OTC Disclosure & News Service® (“DNS”), Real-Time Level 2 Quote Display, Blue Sky Monitoring Service for issuers, and the Virtual Investor Conferences® (“VIC”) product.

Corporate Form

OTC Markets Group is a Delaware corporation. The Company is a “C” Corporation for federal, state, and local income tax purposes.

Note 2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”) and include the accounts of the Company and its wholly owned subsidiaries, OTC Link LLC, OTC Markets Group International Ltd, and Edgar Online LLC. The unaudited interim condensed consolidated financial statements reflect all adjustments, consisting of normal recurring adjustments, that are, in the opinion of management, necessary for a fair statement of the results for the periods. All intercompany transactions have been eliminated in consolidation. Management has assessed the segment reporting standards and the availability of discrete financial information, analyzed how the chief operating decision maker (“CODM”), the President and Chief Executive Officer, manages the businesses, assesses performance, and allocates resources; and has concluded that the Company’s three business lines are managed as one operating segment, which is the Company’s reportable segment. Refer to Note 2, *Summary of Significant Accounting Policies*, in the Company’s Annual Report for the year ended December 31, 2025 for a full discussion of significant accounting policies.

The interim condensed consolidated financial statements are unaudited and should be read in conjunction with the audited financial statements of the Company as of and for the year ended December 31, 2025. Operating results for the three months ended March 31, 2026 are not necessarily indicative of the results that may be expected for the year ending December 31, 2026.

Segment information

The Company has a single operating and reportable segment, which operates regulated markets for trading over 12,000 U.S. and international securities. The primary financial measure used by the CODM to evaluate performance and allocate resources is Net Income.

The measure of segment assets is reflected as Total Assets on the Company’s unaudited interim Condensed Consolidated Balance Sheets. As of March 31, 2026 and December 31, 2025, all of the Company’s long-lived assets, including property and equipment, net, and operating right-of-use assets, were located in the United States.

Use of Estimates

The preparation of these unaudited interim condensed consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the unaudited interim condensed consolidated financial statements, and the reported amounts of revenue and expenses during the reporting periods. Estimates included in the unaudited interim condensed consolidated financial statements include allowance for credit losses, certain accrued expenses, stock-based compensation expense, the incremental borrowing rate used to calculate the present value of the operating lease liabilities, fair values of intangible assets and goodwill, useful lives of intangible assets, income tax reserve and provision for income taxes. Actual results could differ from those estimates.

Recently Adopted Accounting Standards

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*, which requires that an entity discloses consistent categories and greater disaggregation of information in the income tax rate reconciliation, and income taxes paid disaggregated by jurisdiction, among other amendments that expand income tax disclosures. ASU 2023-09 is effective for fiscal years beginning after December 15, 2024. The Company adopted this guidance effective for the annual reporting period beginning January 1, 2025, and has applied the guidance retrospectively. The adoption of this guidance did not have a material impact on the Company's consolidated financial statements and related disclosures.

Recently Issued Accounting Standards Not Yet Adopted

In November 2024, the FASB issued ASU 2024-03, *Income Statement – Reporting Comprehensive Income – Expense Disaggregation*, which requires an entity to provide additional disaggregated information disclosures about certain income statement expense items. ASU 2024-03 is effective for fiscal years beginning after December 15, 2026. The Company is currently evaluating the impact of the adoption of this ASU but does not expect it would have a material impact on its consolidated financial statements and related disclosures.

In September 2025, the FASB issued ASU 2025-06, *Intangibles – Goodwill and Other – Internal-Use Software: Targeted Improvements to the Accounting for Internal-Use Software*, which amends certain aspects of the accounting for and disclosure of internal-use software development costs. The guidance is effective for fiscal years beginning after December 15, 2027. The Company is currently evaluating the impact of the adoption of this ASU but does not expect it would have a material impact on its consolidated financial statements and related disclosures.

In December 2025, the FASB issued ASU 2025-11, *Interim Reporting (Topic 270): Narrow Scope Improvements*, which clarifies interim disclosure requirements and the applicability of Topic 270. The guidance is effective for fiscal years beginning after December 15, 2027. The Company is currently evaluating the impact of the adoption of this ASU but does not expect it would have a material impact on its interim consolidated financial statements and related disclosures.

Note 3. Revenue Recognition

Substantially all of OTC Markets Group's revenues are derived from contracts with customers. Revenues are recognized when control of the promised goods or services is transferred to the Company's customers in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods or services. In accordance with ASC Topic 606, the Company evaluates its contracts with customers based on a five-step methodology. The Company: (1) identifies the contract with the customer; (2) identifies the performance obligations under the contract; (3) determines the transaction price; (4) allocates the transaction price to the separate performance obligations; and (5) recognizes revenue when each performance obligation is satisfied. Certain of the Company's ancillary Market Data Licensing and Corporate Services offerings, including VIC, news release and advertising services, are usage-based and are delivered at a point in time. Accordingly, the Company recognizes revenue upon delivery of the service in line with the contractual agreement.

OTC Link

OTC Link LLC operates the Company's ATSS: OTC Link ATS, OTC Link ECN, OTC Link NQB, OTC Overnight, and MOON ATS. Broker-dealers pay monthly subscription and connectivity fees that permit access to the trading system, including the OTC Dealer[®] application and related support and updates, if applicable, during the contract term. Fees for such access are based on the number of authorized OTC Dealer users per subscriber, which are calculated based on a tiered pricing arrangement, or the number and type of services per connection. These fees are invoiced monthly and in advance of the monthly service period. The Company satisfies its performance obligations over the contract term and records revenue from these fees ratably over the month, with the unrealized portion recorded as deferred revenue on the Company's interim condensed Consolidated Balance Sheets.

In addition to the aforementioned monthly access fees, broker-dealer subscribers to OTC Link ATS pay usage-based fees to publish quotes and deliver trade messages electronically to counterparties. Those fees are recognized at the point in time when the performance obligation, the publication of the quote or delivery of the message, is satisfied. OTC Link ECN generates revenues based on share volume executed on the ECN matching platform. Broker-dealer counterparties pay a fixed fee per share executed where their orders remove posted liquidity on the ECN, while receiving a rebate on shares executed against their own posted liquidity. To the extent that OTC Link ECN routes orders to OTC Link ATS, OTC Link ECN may earn fees for orders that provide liquidity, while paying a fee for orders that remove liquidity. OTC Link NQB generates revenues in a manner similar to OTC Link ECN. MOON ATS generates revenue through a fixed per share execution fee charged to broker-dealer subscribers on liquidity removing transactions, with no corresponding rebates paid to liquidity providers. Fees earned are recognized as transaction-based revenues, while fees paid are recognized as transaction-based expenses. Transaction-based expenses also include certain regulatory pass-through fees. The transactional fees are invoiced monthly, in arrears, and are due upon receipt. The Company recognizes transaction-based revenue earned upon the execution of a trade when the Company's obligations are substantially met. Similarly, payments made to subscribers providing liquidity are recognized upon execution and are recorded as transaction-based expenses within the interim condensed Consolidated Statements of Income.

Market Data Licensing

Market Data Licensing generates revenues by providing subscribers with continuous access to market data, compliance data, Blue Sky data, company data and security information, including SEC filings. Subscribers pay monthly, quarterly, or annual fees to access this information priced at per enterprise or per user rates. Market Data Licensing revenues are recognized ratably over the term of the contract period, beginning on the date on which the data is made available to the customer, as the Company's continuing performance obligations are met.

A significant portion of Market Data Licensing revenues result from sales through redistributors, some of whom earn redistribution fees based on a contractual fixed rate. These fees are invoiced monthly based on the contractual period and are recognized as a reduction of gross revenues. Substantially all of the Company's redistribution fees and rebates are related to these arrangements with market data redistributors.

Corporate Services

Corporate Services generates revenues from the OTCQX Best Market, the OTCQB Venture Market, and the OTCID Basic Market as well as from a suite of other services. Issuers pay annual or semi-annual subscription fees upfront to have their securities traded on the OTCQX, OTCQB, or OTCID markets and to subscribe to OTC Markets Group's various other services. The Company recognizes these revenues ratably over time based on the subscription period as the performance obligations are met and the transfer of services occurs. Issuers pay one-time non-refundable application fees. These fees are not related to distinct performance obligations and are recognized ratably over the contractual service period, which is one year or shorter. For declined applications, the Company recognizes revenue when the application review is completed. The Company also charges for the right to host webcast presentations and events on the VIC platform. VIC presentation fees are recognized at the point in time when the services are rendered, which corresponds to the date of the webcast or event and the point in time that the performance obligation is satisfied.

The following tables present the Company's revenues disaggregated by timing of revenue recognition:

Accounts Receivable, net

As of March 31, 2026 and December 31, 2025, accounts receivable, net of allowance for credit losses, were \$9,530 and \$9,053, respectively. The allowance for credit losses reflects the Company's best estimate of expected losses inherent in the accounts receivable balances. The Company determines the allowance based on historical experience, the age of the accounts receivable balances, specific account information, and estimates of current and future economic conditions that may affect customers' ability to pay.

Deferred Revenue

Deferred revenue primarily represents the Company's contractual performance obligations related to annual and semi-annual Corporate Services subscription fees; monthly, quarterly, and annual Market Data Licensing fees; as well as monthly OTC Link subscription fees. The following table presents the changes in deferred revenue during the three months ended March 31, 2026 and 2025:

	Three Months Ended March 31,	
	2026	2025
Balance at beginning of period	\$ 33,640	\$ 29,084
Net changes	(3,069)	(2,083)
Balance at end of period	<u>\$ 30,571</u>	<u>\$ 27,001</u>

During the three months ended March 31, 2026 and 2025, the Company recognized \$12,910 and \$10,894 of revenues, respectively, that were included in the deferred revenue balance at the beginning of each year.

Payment Terms

The Company's payment terms vary by business line and the products or services offered and range from due upon receipt to net 45 days. For certain products, OTC Markets Group requires payment before services are rendered.

Note 4. Concentrations and Uncertainties

During each of the three months ended March 31, 2026 and 2025, Market Data Licensing revenues earned through one market data redistributor amounted to approximately 9% of the Company's gross revenues. Additionally, as of March 31, 2026 and 2025, accounts receivable from that same redistributor amounted to 27% and 24% of the Company's accounts receivable, respectively.

Note 5. Fair Value of Financial Instruments

The Company accounts for certain financial instruments at fair value, in accordance with the provisions of the standard for fair value measurement, which utilizes a three-tier hierarchy to determine the fair value of financial assets and liabilities based on the quality of observable inputs and enhances disclosure requirements for fair value measurement. The three tiers are:

- Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in an active market;
- Level 2 – Other inputs that are directly or indirectly observable in the market; and
- Level 3 – Unobservable inputs that are supported by little or no market activity.

The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. Financial assets and financial liabilities on the unaudited interim Condensed Consolidated Balance Sheets that are measured at fair value include cash equivalents and long-term restricted cash. These balances are classified as Level 1 in the fair value hierarchy.

Financial assets and financial liabilities on the unaudited interim Condensed Consolidated Balance Sheets that are measured at carrying value, which approximates fair value due to the short-term nature of the balances, include short-term investments. This balance is classified as Level 1 in the fair value hierarchy.

Note 6. Property and Equipment, net

Property and equipment, net consisted of the following:

(in thousands)	March 31, 2026	December 31, 2025	Estimated useful life (years)
Computer software	\$ 7,515	\$ 7,515	3 - 10

Note 7. Leases

The Company has two non-cancelable operating leases. One is for office space at 300 Vesey Street, New York, NY that was executed in October 2018 and expires on December 30, 2031. The other is for office space at 100 M Street SE, Washington, D.C. that was amended in April 2021 and expires on January 31, 2028. These operating leases are recorded as operating lease right-of-use assets on the Company's unaudited interim Condensed Consolidated Balance Sheets and represent the Company's right to use the underlying asset during the lease term. The Company's obligation in respect of future payments due under the leases is included in accrued expenses and other current liabilities and in the operating lease liabilities section on the Company's unaudited interim Condensed Consolidated Balance Sheets.

The components of lease expense were as follows:

(in thousands)	Three Months Ended March 31,

Note 8. Goodwill and Intangible Assets

The following table presents goodwill activity for the period:

	December 31, 2025	Goodwill Acquired	Other Adjustments	March 31, 2026
Goodwill	\$ 3,984	\$ -	\$ -	\$ 3,984

Intangible assets consisted of the following:

(in thousands)	March 31, 2026	December 31, 2025	Estimated useful life (years)
Website	\$ 100	\$ 100	2
Subscription services	150	150	8-15

Total intangible assets	8,657	8,657	
Accumulated amortization	(2,555)	(2,410)	
Intangible assets, net	\$ 6,102	\$ 6,247	

Amortization expense for finite-lived intangible assets was \$145 for each of the three months ended March 31, 2026 and 2025. No impairment charges were recorded to goodwill or intangible assets during the three months ended March 31, 2026 and 2025.

Note 9. Accrued Expenses and Other Current Liabilities

Accrued expenses and other current liabilities consisted of the following:

(in thousands)	March 31, 2026	December 31, 2025
Payroll and employee withholdings	\$ 4,147	\$ 11,186
Accrued operating expenses	2,607	1,586
Current operating lease liabilities	2,114	2,112
Total accrued expenses and other	\$ 8,868	\$ 14,884

Payroll and employee withholdings primarily consisted of accrued discretionary bonus, discretionary employer 401(k) contribution, vacation, sales commissions, and accrued liability in connection with liability-classified restricted stock awards ("RSA"). The balance of payroll and employee withholdings, including an accrued liability in connection with liability-classified restricted stock units ("RSU"), as of December 31, 2025 represents a full year of accrual, which was paid out in January and February 2026.

Note 10. Stock-Based Compensation

OTC Markets Group grants stock-based compensation awards to eligible employees, consultants, and directors under the Company's 2019 Equity Incentive Plan (the "Plan"). Awards granted under the Plan include stock options, restricted stock awards (RSA), restricted stock units (RSU), and performance unit awards ("PSU"). The Company's stock-based compensation is classified as either equity awards or liability awards in accordance with GAAP. The grant date fair value of each stock option is estimated using the Black-Scholes option pricing model and is then amortized into compensation and benefits expense on a straight-line basis over the requisite service period, which is generally the vesting period. The grant date fair value of each equity-classified RSA is based on the closing stock price on the day prior to the grant date. The grant date fair value of each equity-classified RSU is based on the closing stock price on the day prior to the grant date reduced by the present value of future cash dividends. The fair value of each liability-classified RSA, RSU, and PSU is determined on a quarterly basis beginning at the grant date until final vesting. These charges are included in compensation and benefits expense and, in respect of compensation for the Company's Board of Directors, professional and consulting fees on the unaudited interim Condensed Consolidated Statements of Income.

The Company recognized compensation expense related to stock options, net of estimated forfeitures, of \$589 and \$528 for the three months ended March 31, 2026 and 2025, respectively. Management has estimated forfeiture rates of 5% for stock options granted to management and 21% for stock options granted to other employees and consultants.

As of March 31, 2026, unrecognized compensation cost related to non-vested stock option awards totaled \$5,353, which will be recognized over approximately 3.2 years.

Restricted Stock Awards

Each RSA represents issued shares of the Company's Class A Common Stock that are subject to continued employment vesting requirements. During the restriction period, holders of RSAs are entitled to voting rights and to receive dividends. As of March 31, 2026, the Company contracted to provide a cash settlement option for certain RSAs and classified those restricted stock awards as liabilities on the Company's unaudited interim Condensed Consolidated Balance Sheet. The RSA liabilities on the Company's unaudited interim Condensed Consolidated Balance Sheet as of March 31, 2026 totaled \$359, of which \$134 were included in accrued expenses and other current liabilities and \$225 were included in deferred compensation.

A summary of the Company's RSA activity for the three months ended March 31, 2026 is as follows:

(in thousands, except W/A exercise price)	Restricted Stock	Weighted- average fair value	Aggregate Intrinsic value
Outstanding, January 1, 2026	243	\$ 54.77	\$ 12,445
Granted	69	55.47	3,806
Vested	(83)	52.30	4,592
Forfeited	(1)	55.85	64
Outstanding, March 31, 2026	228	\$ 55.87	\$ 12,212

Restricted Stock Units

Each RSU represents the right to receive one share of Class A Common Stock of the Company, or its cash equivalent, upon vesting, subject to continued employment vesting requirements.

A summary of the Company's RSU activity for the three months ended March 31, 2026 is as follows:

(in thousands, except W/A exercise price)	Restricted Stock Unit	Weighted- average fair value	Aggregate Intrinsic value
Outstanding, January 1, 2026	3	\$ 49.99	\$ 166
Granted	3	50.02	133
Vested	(1)	55.47	36
Forfeited	-	-	-
Outstanding, March 31, 2026	5	\$ 49.83	\$ 264

The Company recognized compensation expense related to RSAs and RSUs, net of estimated forfeitures, of \$1,706 and \$1,297 for the three months ended March 31, 2026 and 2025, respectively. Management has estimated forfeiture rates of 5% for RSAs granted to management and 9% for RSAs and RSUs granted to other employees. In addition, the Company recognized professional fees of \$69 and \$56 for the three months ended March 31, 2026 and 2025, respectively, related to the issuance of RSAs to the Board of Directors.

As of March 31, 2026, unrecognized compensation cost related to non-vested RSAs and RSUs totaled \$10,973, which will be recognized over approximately 3.4 years.

Performance Unit Awards

In March 2022, OTC Markets Group's Board of Directors approved and authorized the award of PSUs to certain employees under the Plan. Under the PSU agreements, the Company is obligated to deliver a variable number of PSUs on a fixed monetary amount to certain eligible employees if the Company achieves defined Gross Revenue and Diluted Earnings Per Share targets within the defined performance periods. Each PSU represents the right to receive the value of one share of Class A Common Stock of the Company and will be settled 50% in Class A Common Stock and 50% in cash upon vesting, subject to continued employment vesting requirements set forth in the PSU agreements.

The liability-classified PSUs are considered unearned until the issuance requirements are met and would be included in accrued expenses and other current liabilities in the Company's unaudited interim Condensed Consolidated Balance Sheets. As of March 31, 2026 and December 31, 2025, there was no accrued unrecognized compensation expense related to this obligation in accrued expenses and other current liabilities in the Company's unaudited interim Condensed Consolidated Balance Sheets because the Company determined, based on its financial results for the three months ended March 31, 2026 and year ended December 31, 2025, that the performance objectives set forth in the PSU agreements have not been met.

The maximum total compensation expense to be recognized under the PSUs is \$2,148 if the performance objectives are met each performance year, which would result in the issuance of approximately 40,127 PSUs, payable in 20,063 shares of Class A Common Stock and \$1,074 in cash, based on the closing share price of the Company's Class A Common Stock of \$53.53 on March 31, 2026. However, the actual number of PSUs issued may fluctuate based on the share price at the date of settlement.

Note 11. Contingencies
Level Funding Self-Insurance Plan

Effective January 1, 2025, the Company switched from a fully insured employee health insurance plan to a level funding self-insurance plan. Under the new plan, the Company contracted a third-party administrator ("TPA") to access healthcare carriers, process claims, and facilitate the provision of specific and aggregate stop-loss coverage to limit the Company's total exposure under the program.

The Company elected to level-fund the plan at maximum coverage under its specific and aggregate stop-loss policies. Accordingly, the Company recorded the TPA's administrative fees, stop loss premium, and maximum expected claims costs on a straight-line basis over the annual coverage period.

Legal Matters

There are no current, past, pending, or threatened legal proceedings or administrative actions either by or against OTC Markets Group that could have a material effect on its business, financial condition, or operations. OTC Markets Group is not a party to any past or pending trading suspensions by a securities regulator.

In the ordinary course of business, the nature of the Company's business subjects it to claims, lawsuits, regulatory examinations or investigations, and other proceedings. OTC Link is regularly the subject of various regulatory reviews, inquiries, investigations, and subpoenas or requests for information by FINRA and the SEC. Where it is determined, in consultation with legal counsel based on litigation and settlement risks, that a loss is probable and estimable in a given matter, the Company establishes an accrual.

Since 2024, the Company has also been in communication with the SEC's Division of Enforcement regarding certain OTC Link policies and procedures related to Regulation Systems Compliance and Integrity (SCI). The Company does not believe that this matter will have a material adverse effect on its consolidated financial statements, results of operations, or liquidity; however, due to the ongoing nature of this matter, the ultimate timing and outcome of a resolution remain uncertain.

Note 12. Stockholders' Equity
Common Stock

The Company has one class of shares, Class A Common Stock, outstanding. Holders of Class A Common Stock, which include holders of unvested RSAs, are entitled to receive such dividends and other distributions in cash or stock of any corporation or property of the Company, as may be authorized and declared by the Board of Directors from time to time out of the assets or funds of the Company legally available for the payment of dividends. Upon the voluntary or involuntary liquidation, dissolution, or winding up of the Company, holders of Class A Common Stock are entitled to a pro rata share of the net assets of the Company available for distribution in proportion to the number of shares of Class A Common Stock held by each.

The Company is authorized to issue 17,000,000 shares of Class A Common Stock of \$0.01 par value. As of March 31, 2026, there were a total of 12,995,280 shares issued and 12,047,197 shares outstanding. As of December 31, 2025, there were a total of 12,912,423 shares issued and 12,020,991 shares outstanding.

Treasury Stock

In August 2011, the Board of Directors authorized the Company to repurchase up to 300,000 shares of Class A Common Stock in compliance with Rule 10b-18 under the Securities Exchange Act of 1934 (the "Exchange Act"). Each year since inception, the Company has repurchased shares of Class A Common Stock and subsequently, the Board of Directors has annually re-authorized up to 300,000 shares under the program. From the inception of the program through March 31, 2026, the Company repurchased a total of 948,083 shares of Class A Common Stock for \$28,815. As of March 31, 2026, the Company has authorization to repurchase up to 300,000 shares of its Class A Common Stock.

The following table presents Class A Common Stock repurchased during the three months ended March 31, 2026 and 2025:

(in thousands, except shares data)	Three Months Ended March 31,			
	2026		2025	
	Shares	Amount	Shares	Amount
Class A Common Stock Repurchases	56,651	\$ 3,143	55,522	\$ 2,934
Total	56,651	\$ 3,143	55,522	\$ 2,934

Dividends

The Company declared and paid a quarterly cash dividend of \$0.30 and \$0.18 per share of Class A Common Stock during the three months ended March 31, 2026 and 2025, totaling \$3,614 and \$2,162, respectively.

Equity Incentive Plan

The Company's Plan, as adopted by the Board of Directors on May 7, 2019, and approved by a vote of the Company's stockholders on December 19, 2019, provides for the grant of incentive stock options, non-statutory stock options, restricted stock, restricted stock units, stock appreciation rights, performance units and performance shares, and governs options awarded (see Note 10, *Stock-Based Compensation*). In each of November 2025 and 2024, the Board of Directors authorized an increase in the number of shares available for issuance under the Plan by 200,000 shares.

Note 13. Income Taxes

The Company's effective tax rates were 20.0% and 18.6% for the three months ended March 31, 2026 and 2025, respectively. The rates reflect the inclusion of state and local income taxes at the federal statutory rate of 21%. The effective tax rates for the three months ended March 31, 2026 differed from the federal statutory rate primarily due to the recognition of the U.S. federal research and development credit, the impact of the Foreign-Derived Intangible Income deduction (FDII) available pursuant to provisions of the Tax Cuts and Jobs Act, and the impact of excess tax benefits from stock-based compensation. During the three months ended March 31, 2026 and 2025, the Company recognized an income tax benefit related to the excess tax benefit on stock-based compensation of \$265 and \$128, respectively.

On July 4, 2025, the One Big Beautiful Bill Act (OBBBA) was enacted, introducing significant changes to the U.S. income tax code. The legislation included the option to immediately expense domestic research and development costs and certain capital expenditures beginning in 2025, as well as an enhanced deduction for FDII, effective in 2026. The Company expects these provisions to result in a reduction of the Company's near-term U.S. federal cash tax payments due to the amortization of previously capitalized research and experimental expenditures, as well as bonus depreciation on future qualifying capital asset purchases. The legislation reduced the Company's taxable income and related FDII deduction, resulting in an increase in the Company's income tax expense and effective income tax rate for the three months ended March 31, 2026.

As required by the uncertain tax position guidance in ASC Topic 740, the Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon settlement with the relevant tax authority. The gross amount of unrecognized tax benefits as of March 31, 2026 and December 31, 2025 was \$736 and \$713, respectively, and was classified in income tax reserve in the unaudited interim Condensed Consolidated Balance Sheets. During the three months ended March 31, 2026, the Internal Revenue Service completed its examination of the Company's consolidated U.S. federal income tax return for the tax year ended December 31, 2021. The examination concluded with no proposed changes to the Company's reported tax.

The Company recognizes interest and penalties related to unrecognized tax benefits as a component of tax expense. The Company recognized interest and penalties of \$21 and \$13 for the three months ended March 31, 2026 and 2025, respectively. Interest and penalties accrued as of March 31, 2026 and December 31, 2025 were \$358 and \$337, respectively.

Note 14. Earnings Per Share

The Company calculates earnings per share pursuant to the two-class method, which is an earnings allocation formula that determines earnings per share for common stock and participating securities according to dividends declared and participation rights in undistributed earnings. Under this method, all earnings (distributed and undistributed) are allocated to common shares and participating securities based on their respective rights to receive dividends. RSAs granted to employees, consultants, and directors (see Note 10, *Stock-Based Compensation*) participate in dividends on the same basis as common shares and such dividends are nonforfeitable by the holder. As a result, these RSAs meet the definition of a participating security.

The tables below present the calculations of earnings per share under the two-class method:

Basic Earnings per common share

(in thousands, except shares and per share data)	Three Months Ended March 31,	
	2026	2025

Note 15. Segment Information

The Company has a single operating and reportable segment, which operates regulated markets for trading over 12,000 U.S. and international securities with three service offerings: OTC Link, Market Data Licensing, and Corporate Services. The Company's CODM allocates resources and assesses performance primarily based on consolidated Net Income included in the accompanying unaudited interim Condensed Consolidated Statements of Income. The CODM reviews results by monitoring period-over-period trends and considering budget versus actual variances.

The measure of segment assets is reflected as Total Assets on the Company's unaudited interim Condensed Consolidated Balance Sheets. As of March 31, 2026 and December 31, 2025, all of the Company's long-lived assets, including property and equipment, net, and operating right-of-use assets, were located in the United States.

Revenue and significant expenses regularly provided to the CODM to arrive at segment Net Income are as follows:

(in thousands)	Three Months Ended March 31,	
	2026	2025
OTC Link	\$ 8,598	\$ 6,563
Market data licensing	13,007	12,783

Net Income	\$ 7,077	\$ 6,040

Note 16. Regulatory Authorities

OTC Link LLC is a U.S. registered broker-dealer and is subject to the net capital requirements of Rule 15c3-1 under the Exchange Act. Rule 15c3-1 requires the maintenance of net capital, as defined, which shall be the greater of \$5 or 6-7/8% of aggregate indebtedness, as defined. OTC Link LLC's regulatory net capital as of March 31, 2026 and December 31, 2025 was \$4,204 and \$4,234, respectively, which exceeded the minimum net capital requirement by \$3,925 and \$3,931, respectively.

Note 17. Subsequent Events

For purposes of disclosure in the unaudited interim condensed consolidated financial statements, the Company has evaluated subsequent events through May 6, 2026, the date the financial statements were available to be issued.

On May 5, 2026, the Board of Directors authorized and approved a quarterly cash dividend of \$0.30 per share of Class A Common Stock. The quarterly cash dividend is payable on June 18, 2026, to stockholders of record on June 4, 2026. The ex-dividend date is June 4, 2026.
