

Comparison of Adjusted Information to U.S. GAAP Information

This presentation includes adjusted financial information. This information is provided to enable investors to make meaningful comparisons of the Company's operating performance between periods and to view the Company's business from the same perspective as management's.

The earnings release dated February 12, 2013 contains exhibits that reconcile the differences between the non-GAAP measures and comparable financial measures calculated in accordance with U.S. GAAP. As noted in the Form 10-K filed for the period ending December 31, 2012, the results of operations of McGraw-Hill Education have been reclassified to reflect the business as a discontinued operation and the assets and liabilities of the business have been reclassified as held for sale in the consolidated balance sheets.

"Safe Harbor" Statement Under the Private Securities Litigation Reform Act of 1995

This presentation contains forward-looking statements, including without limitation statements relating to our businesses and our prospects, new products, sales, expenses, tax rates, cash flows, prepublication investments and operating and capital requirements that are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are intended to provide management's current expectations or plans for our future operating and financial performance and are based on assumptions management believes are reasonable at the time they are made.

Forward-looking statements can be identified by the use of words such as "believe," "expect," "plan," "estimate," "project," "target," "anticipate," "intend," "may," "will," "continue" and other words of similar meaning in connection with a discussion of future operating or financial performance. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict; therefore, actual outcomes and results could differ materially from what is expected or forecasted. These risks and uncertainties include, among others:

- worldwide economic, financial, political and regulatory conditions;
- currency and foreign exchange volatility;
- the effect of competitive products and pricing;
- the level of success of new product development and global expansion;
- the level of future cash flows;
- the levels of capital investments;
- income tax rates;
- restructuring charges;
- the health of debt and equity markets, including credit quality and spreads, the level of liquidity and future debt issuances;
- the level of interest rates and the strength of the capital markets in the U.S. and abroad;
- the demand and market for debt ratings, including collateralized debt obligations, residential and commercial mortgage and asset-backed securities and related asset classes;
- the state of the credit markets and their impact on Standard & Poor's Ratings and the economy in general;
- the regulatory environment affecting Standard & Poor's Ratings and our other businesses;
- the likely outcome and impact of litigation and investigations on our operations and financial condition;
- the level of merger and acquisition activity in the U.S. and abroad;
- continued investment by the construction, automotive, computer and aviation industries;
- the strength and performance of the domestic and international automotive markets;
- the volatility of the energy marketplace;
- and the contract value of public works, manufacturing and single-family unit construction.

In addition, there are certain risks and uncertainties relating to our previously announced Growth and Value Plan which contemplates a separation of our education business, including, but not limited to, the impact and possible disruption to our operations, the timing and certainty of completing the transaction, unanticipated developments that may delay or negatively impact the transaction, and the ability of each business to operate as an independent entity upon completion of the transaction. We caution readers not to place undue reliance on forward-looking statements.

S&P's Response To The DOJ Complaint

The U.S. Dept. of Justice and some states have filed meritless civil lawsuits against S&P challenging some of our 2007 CDO ratings and the underlying RMBS models. Their allegations are simply untrue. Our ratings were issued in good faith.

S&P WILL VIGOROUSLY DEFEND ITSELF AGAINST SUCH MERITLESS LITIGATION.

The DOJ's complaint makes numerous allegations that are entirely without merit. They are internally contradictory -- with emails cited that had no effect on the CDOs at issue -- and logically flawed (see "The DOJ Complaint Re S&P: The Facts" below).

The "In The Media" section includes third-party video and print media coverage of the case. The section labeled "S&P On Housing '06/07" contains S&P reports published during 2006-2007 on the U.S. housing market and on U.S. residential mortgage-backed securities (RMBS), showing the good-faith work of S&P's professionals. The fact is that S&P's ratings were based on the same subprime mortgage data available to the rest of the market -- including U.S. Government officials who in 2007 publicly stated that problems in the subprime market appeared to be contained.

BETA RELEASE

We are trying to do a better job of helping people better understand ratings

16

How Enhancement Can Support Ratings

Example

17

Performance of Standard & Poor's Ratings

Lower ratings are generally associated with higher default rates

18

McGraw Hill Financial

- Anticipate closing the sale of McGraw-Hill Education by the end of March
- Share repurchases should resume after proceeds from the sale are received
- 2013 guidance indicates solid growth:
 - High single-digit top-line growth
 - ~15% adjusted diluted EPS growth
- Will focus on explaining to the public the key role Standard & Poor's plays in capital formation and the financial markets.
