# Safe Harbor statement under the Private Securities Litigation Reform Act of 1995

This presentation contains “forward-looking statements,” as defined in the Private Securities Litigation Reform Act of 1995. These statements, including statements about COVID-19 and the merger (the “Merger”) between a subsidiary of the Company and IHS Markit Ltd. (“IHS Markit”), which express management’s current views concerning future events, trends, contingencies or results, appear at various places in this report and use words like “anticipate,” “assume,” “believe,” “continue,” “estimate,” “expect,” “forecast,” “future,” “intend,” “plan,” “potential,” “predict,” “project,” “strategy,” “target” and similar terms, and future or conditional tense verbs like “could,” “may,” “might,” “should,” “will” and “would.” For example, management may use forward-looking statements when addressing topics such as: the outcome of contingencies; future actions by regulators; changes in the Company’s business strategies and methods of generating revenue; the development and performance of the Company’s services and products; the expected impact of acquisitions and dispositions; the Company’s effective tax rates; and the Company’s cost structure, dividend policy, cash flows or liquidity.

Forward-looking statements are subject to inherent risks and uncertainties. Factors that could cause actual results to differ materially from those expressed or implied in forward-looking statements include, among other things:

- worldwide economic, financial, political and regulatory conditions, and factors that contribute to uncertainty and volatility, natural and man-made disasters, civil unrest, pandemics (e.g., COVID-19), geopolitical uncertainty (including military conflict), and conditions that may result from legislative, regulatory, trade and policy changes;
- the ability of the Company to retain customers and to implement its plans, forecasts and other expectations with respect to IHS Markit’s business and realize expected synergies;
- business disruption following the Merger;
- the Company’s ability to meet expectations regarding the accounting and tax treatments of the Merger;
- the Company’s ability to successfully recover should it experience a disaster or other business continuity problem from a hurricane, flood, earthquake, terrorist attack, pandemic, security breach, cyber attack, data breach, power loss, telecommunications failure or other natural or man-made event, including the ability to function remotely during long-term disruptions such as the ongoing COVID-19 pandemic;
- the Company’s ability to maintain adequate physical, technical and administrative safeguards to protect the security of confidential information and data, and the potential for a system or network disruption that results in regulatory penalties and remedial costs or improper disclosure of confidential information or data;
- the outcome of litigation, government and regulatory proceedings, investigations and inquiries;
- the health of debt and equity markets, including credit quality and spreads, the level of liquidity and future debt issuances, demand for investment products that track indices and assessments and trading volumes of certain exchange-traded derivatives;
- the demand and market for credit ratings in and across the sectors and geographies where the Company operates;
- concerns in the marketplace affecting the Company’s credibility or otherwise affecting market perceptions of the integrity or utility of independent credit ratings, benchmarks and indices;
- the effect of competitive products and pricing, including the level of success of new product developments and global expansion;
- the Company’s exposure to potential criminal sanctions or civil penalties for noncompliance with foreign and U.S. laws and regulations that are applicable in the domestic and international jurisdictions in which it operates, including sanctions laws relating to countries such as Iran, Russia, Sudan, Syria and Venezuela, anti-corruption laws such as the U.S. Foreign Corrupt Practices Act and the U.K. Bribery Act of 2010, and local laws prohibiting corrupt payments to government officials, as well as import and export restrictions;
- the continuously evolving regulatory environment, in Europe, the United States and elsewhere around the globe, affecting S&P Global Ratings, S&P Global Commodities Insights, S&P Dow Jones Indices, S&P Global Market Intelligence, and the products those business divisions offer including our ESG products, and the Company’s compliance therewith;
- the Company’s ability to make acquisitions and dispositions and successfully integrate the businesses we acquire;
- consolidation in the Company’s end-customer markets;
- the introduction of competing products or technologies by other companies;
- the impact of customer cost-cutting pressures, including in the financial services industry and the commodities markets;
- a decline in the demand for credit risk management tools by financial institutions;
- the level of merger and acquisition activity in the United States and abroad;
- the volatility and health of the energy and commodities markets;
- our ability to attract, incentivize and retain key employees, especially in today’s competitive business environment;
- the level of the Company’s future cash flows and capital investments;
- the impact on the Company’s revenue and net income caused by fluctuations in foreign currency exchange rates;
- the Company’s ability to adjust to changes in European and United Kingdom markets as the United Kingdom leaves the European Union, and the impact of the United Kingdom’s departure on our credit rating activities and other offerings in the European Union and United Kingdom; and
- the impact of changes in applicable tax or accounting requirements on the Company

The factors noted above are not exhaustive. The Company and its subsidiaries operate in a dynamic business environment in which new risks emerge frequently. Accordingly, the Company cautions readers not to place undue reliance on any forward-looking statements, which speak only as of the dates on which they are made. The Company undertakes no obligation to update or revise any forward-looking statement to reflect events or circumstances arising after the date on which it is made, except as required by applicable law. Further information about the Company’s businesses, including information about factors that could materially affect its results of operations and financial condition, is contained in the Company’s filings with the SEC, including Item 1A, *Risk Factors*, in our most recently filed Annual Report on Form 10-K.

# Comparison of adjusted information to U.S. GAAP information

This presentation includes adjusted financial measures that are presented on a pro forma basis as if the merger had closed on January 1, 2021, to include the financial impact in both the first quarter of 2022, and in the comparable year-ago period. These measures present supplemental combined company financial information intended to help investors better assess period-over-period performance and are not to be confused with the pro forma financial information previously provided in accordance with Article 11 of Regulation S-X, which was filed on March 4, 2022 as an exhibit to the Company's Current Report on Form 8-K/A Amendment No. 1. These non-GAAP financial measures are in addition to, and not a substitute for or superior to, measures of financial performance prepared in accordance with U.S. GAAP. This non-GAAP information is provided in order to allow investors to make meaningful comparisons of the Company's operating performance between periods and to view the Company's business from the same perspective as Company management.

The Company's non-GAAP measures include adjustments that reflect how management views our businesses. The Company believes these non-GAAP financial measures provide useful supplemental information that, in the case of non-GAAP financial measures other than free cash flow and free cash flow excluding certain items, enables investors to better compare the Company's performance across periods, and management also uses these measures internally to assess the operating performance of its business, to assess performance for employee compensation purposes and to decide how to allocate resources. The Company believes that the presentation of free cash flow allows investors to evaluate the cash generated from our underlying operations in a manner similar to the method used by management and that such measures are useful in evaluating the cash available to us to prepay debt, make strategic acquisitions and investments, and repurchase stock. However, investors should not consider any of these non-GAAP measures in isolation from, or as a substitute for, the GAAP financial information that the Company reports.

The Company's earnings release dated May 3, 2022 contains exhibits that reconcile the differences between the non-GAAP measures and comparable financial measures calculated in accordance with U.S. GAAP. Such exhibits are available on the Company's website at <https://investor.spglobal.com/quarterly-earnings>.

Reconciliations of certain forward looking non-GAAP financial measures to comparable GAAP measures are not available due to the challenges and impracticability with estimating some of the items. The Company is not able to provide reconciliations of such forward looking non-GAAP financial measures because certain items required for such reconciliations are outside of the Company's control and/or cannot be reasonably predicted. Because of those challenges, reconciliations of such forward looking non-GAAP financial measures are not available without unreasonable effort.

# EU regulation affecting investors in credit rating agencies

European Union Regulation 1060/2009 (as amended) applies to credit rating agencies (CRAs) registered in the European Union (“EU”) and therefore to the activities of S&P Global Ratings Europe Limited, an indirect wholly-owned subsidiary of S&P Global Inc., which is registered and regulated as a CRA with the European Securities and Markets Authority.

The United Kingdom’s Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019 applies to CRAs registered in the United Kingdom (“UK”) and therefore to the activities of S&P Global Ratings UK Limited, an indirect wholly-owned subsidiary of S&P Global Inc., which is registered and regulated as a CRA with the Financial Conduct Authority.

Any person obtaining direct or indirect ownership or control of 5% or more or 10% or more of the shares in S&P Global Inc. may (i) impact how S&P Global Ratings can conduct its CRA activities in the EU and the UK, and/or (ii) themselves become directly impacted by EU Regulation 1060/2009 (as amended) and the Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019.

Persons who have or expect to obtain such shareholdings in S&P Global Inc. should promptly contact S&P Global’s Investor Relations department ([investor.relations@spglobal.com](mailto:investor.relations@spglobal.com)) for more information and should also obtain independent legal advice in such respect.

# Doug Peterson

## President and Chief Executive Officer

# Strong execution in first quarter as a combined company

## Financial highlights:

- Adjusted pro forma revenue increased 2% year-over-year, driven by strong growth across nearly all divisions, partially offset by declines in Ratings transaction revenue
- Macroeconomic and geopolitical challenges led to sharp declines in debt issuance
- Adjusted pro forma expenses increased 8% largely due to the return of live conferences, re-alignment in timing of merit increases, and growth initiatives
- Updated 2022 guidance to reflect reduction in debt issuance forecast, partially offset by management actions

## Additional highlights:

- Completed merger with IHS Markit, and completed or announced all related divestitures
- Announced a \$12 billion Accelerated Share Repurchase program, launched the first tranche (\$7B) in March
- Issued \$5.5 billion in debt, refinancing ~\$3.5 billion, and lowering our average cost of debt
- Showcased subject-matter leadership with very strong attendance at CERA Week, World Petrochemicals Conference, and TPM22
- Continued innovation and cross-divisional collaboration led to multiple new products and product enhancements in 1Q
- Off to a quick start with integration and on track to achieve revenue and cost synergy targets

# Completed historic merger with IHS Markit

## Merger Milestones:

- Received final regulatory approvals on February 25, 2022; merger closed on February 28, 2022
- Completed debt recapitalization on April 19, 2022: ~\$3.5 billion in debt refinanced with \$5.5 billion of new issuance
- Aggregate expected net proceeds from divestitures: \$2.85 billion

| Divestiture                 | Sale Completed | Gross Proceeds <sup>3</sup> | Division Impacted   |
|-----------------------------|----------------|-----------------------------|---------------------|
| OPIS, CMM, and PCW          | 2/28/2022      | \$1,150                     | Commodity Insights  |
| Base Chemicals <sup>1</sup> | TBD            | \$295                       | Commodity Insights  |
| CUSIP                       | 3/1/2022       | \$1,925                     | Market Intelligence |
| LCD <sup>2</sup>            | TBD            | \$650                       | Market Intelligence |

(\$ in millions)

1. Agreement to sell Base Chemicals business announced 12/27/2021; expected to close in 2Q22

2. Agreement to Sell LCD announced 4/4/2022; closing date TBD; gross proceeds comprised of \$600M cash to be paid at closing, subject to adjustment, and contingent payment of up to \$50M payable six months following close

3. Gross proceeds of \$4,020 million equates to a revenue multiple of approximately 9.5x

# Financial results demonstrate strong execution and resilience of the combined business

| Adjusted pro forma financials                           | 1Q 2022 | 1Q 2021 | Change    |
|---------------------------------------------------------|---------|---------|-----------|
| Revenue                                                 | \$3,072 | \$3,022 | +1.7%     |
| Operating profit                                        | \$1,388 | \$1,470 | (6%)      |
| Operating profit margin                                 | 45.2%   | 48.6%   | (340 bps) |
| Trailing twelve-month adjusted segment operating margin | 47.0%   | 47.6%   | (60 bps)  |
| Average diluted shares outstanding                      | 350.9   | 355.4   | (1.3%)    |
| Diluted EPS                                             | \$2.89  | \$2.88  | +0.3%     |

(figures above in millions, except per share amounts; some amounts may not sum due to rounding)

Results are shown pro forma, assuming the merger and associated divestitures had closed January 1, 2021

# Step-up impact and growth initiatives driving the majority of year-over-year growth in adjusted pro forma expenses

- **T&E** increase due to limited resumption of travel
- **Advertising** predominantly driven by paid media campaign for CARFAX
- **Growth Initiatives** includes strategic investments in ESG, China, and Energy Transition
- **Step-up impact** includes return to live events such as CERAWeek and re-alignments in the timing of merit increases
- **Cloud** driven by continued transition to cloud from data centers

# Adjusted pro forma free cash flow, excluding certain items is approximately \$700M for 1Q 2022

| <b>Adjusted pro forma financials</b> (\$ in millions) | <b>1Q 2022</b> |
|-------------------------------------------------------|----------------|
| Cash provided by operating activities <sup>1</sup>    | \$207          |
| Capital expenditures                                  | (16)           |
| Net distributions to non-controlling interest holders | (55)           |
| <b>Free cash flow</b>                                 | <b>\$136</b>   |
| Contribution to Foundation                            | 200            |
| Merger-related costs <sup>1</sup>                     | 275            |
| Merger-related debt refinancing derivative            | 85             |
| Russia suspension costs                               | 5              |
| <b>Free cash flow, excluding certain items</b>        | <b>\$701</b>   |

- Paid dividends of \$265 million in 1Q 2022
- Announced \$12 billion Accelerated Share Repurchase (ASR) program, with first tranche (\$7 billion) launched in March and expected to be completed in early August. Remaining \$5 billion expected to be completed by the end of 2022

# Cash position and leverage temporarily elevated as of 1Q 2022

|                                            | 1Q 2022  |
|--------------------------------------------|----------|
| Cash and cash equivalents (a)              | \$4,407  |
| Short- and long-term debt <sup>1</sup>     | \$11,392 |
| Adjusted gross debt to adjusted EBITDA (b) | 2.57x    |
| Gross debt to EBITDA (c)                   | 1.88x    |

(\$ in millions)

(a) Cash and cash equivalents includes restricted cash

(b) Adjusted gross debt includes debt, unfunded portion of pension liabilities (~\$250 million), S&P Dow Jones Indices put option (~\$3.4 billion), and the expected NPV of operating leases (~\$826 million); Adjusted EBITDA includes EBITDA plus net lease expense (~\$161 million) less income adjustment on qualified U.S. pension plans (~\$(23) million)

(c) Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA") includes adjustments to operating profit as depicted on Exhibit 5 of the Company's 1Q 2022 quarterly earnings release furnished to the SEC on 5/3/2022

**S&P Global** 1. Short- and long-term debt includes ~\$590 million of refinanced debt with a 30-day notice, which was paid in mid-April. After, adjusted gross leverage to adjusted EBITDA was 2.47x and gross debt to EBITDA was 1.79x

# Cash activity and balances from 4Q 2021 through 1Q 2022

(\$ in billions)

# Pro forma gross debt activity and balances from 4Q 2021 through 1Q 2022 and April 2022

(\$ in millions)

# We remain on track to achieve our merger-related revenue and cost synergy targets, with significant progress in 1Q 2022

## Previous guidance and outlook (March 1, 2022)

## 1Q 2022 cumulative progress<sup>1</sup>

### Cost Synergies

~\$600M

~80% achievement by 2023

~\$135M

Run-rate

~\$23M achieved in 1Q

### Revenue Synergies

~\$350M

~50% achievement by 2024

<\$1M

### CTAs<sup>2</sup> + Integration Spend

~1.1X total synergies

~\$365M

1. Cumulative synergies include synergies achieved both prior to, and since, the merger close for 1Q 2022
2. Includes costs associated with achieving synergies, representing ~75% of total one-time costs

# Market Intelligence: Continued growth driven by strong market demand for differentiated data and products

| Adjusted pro forma 1Q results*                       | 1Q 2022 | 1Q 2021 | Change   |
|------------------------------------------------------|---------|---------|----------|
| Revenue                                              | \$1,019 | \$951   | +7%      |
| Segment operating profit                             | \$295   | \$282   | +5%      |
| Segment operating margin                             | 29.0%   | 29.6%   | (60 bps) |
| Trailing twelve-month segment operating margin       | 30.1%   | 30.7%   | (60 bps) |
| Operating profit from OSTTRA JV (not included above) | \$26    | \$31    | (15%)    |

(\$ in millions)

## 1Q 2022 Highlights\*:

- Revenue increased 7% year-over-year, led by 12% growth in Data & Advisory Solutions. Double-digit subscription revenue growth was partially offset by sharp downturn in equity issuance impacting volume-driven businesses
- Expense growth of 8% driven primarily by investments in technology (cloud transition costs), and investment in strategic initiatives

Market Intelligence adjusted pro forma revenue increased 7% year-over-year, with positive growth in all categories, and 12% growth in D&A Solutions

- Credit and Risk Solutions benefited from solid commercial execution and strong performance of Financial Risk Analytics
- Enterprise Solutions saw strong underlying subscription growth, offset by a decrease in variable revenue against a high comp in 1Q21
- Data & Advisory Solutions delivered growth across all major products, with significant growth in Maritime & Trade and feed & cloud-delivered products driven by Marketplace
- Desktop growth driven by strong new sales and renewals, supported by continued platform innovation and demand for differentiated content

# Ratings: Challenging economic and geopolitical climate pressures transaction revenue against a high comp

| Adjusted 1Q results                            | 1Q 2022 | 1Q 2021 | Change    |
|------------------------------------------------|---------|---------|-----------|
| Revenue                                        | \$868   | \$1,017 | (15%)     |
| Segment operating profit                       | \$513   | \$685   | (25%)     |
| Segment operating margin                       | 59.1%   | 67.3%   | (820 bps) |
| Trailing twelve-month segment operating margin | 62.1%   | 63.1%   | (105 bps) |

(\$ in millions)

## 1Q 2022 Highlights:

- Revenue decreased 15% year-over-year driven by sharp decrease in issuance
- 7% increase in adjusted expense, driven by compensation expense associated with headcount growth (primarily at CRISIL), the re-alignment in timing of merit increases, and other targeted incentive compensation

# Ratings: Transaction revenue decreased from significant issuance decline, partially offset by non-transaction growth

| Adjusted 1Q results | 1Q 2022 | 1Q 2021 | Change |
|---------------------|---------|---------|--------|
| Transaction         | \$404   | \$582   | (31%)  |
| Non-transaction     | \$464   | \$435   | +7%    |

(\$ in millions)

## 1Q 2022 Highlights:

- Transaction revenue declined 31% year-over-year with decreases in most categories
- Non-transaction revenue increased due to annual fees and CRISIL

Ratings negatively impacted by unfavorable macro conditions, especially in Corporates and Structured Finance; partially offset by CRISIL

\*Other includes intersegment royalty, Taiwan Ratings Corporation, and adjustments  
Financial metrics are pro forma, assuming the merger with IHS Markit had occurred on 1/1/2021  
Details may not sum to total due to rounding

# Commodity Insights: Revenue acceleration driven by strong subscription growth and record conference attendance

| Adjusted pro forma 1Q results*                 | 1Q 2022 | 1Q 2021 | Change    |
|------------------------------------------------|---------|---------|-----------|
| Revenue                                        | \$466   | \$410   | +14%      |
| Segment operating profit                       | \$200   | \$185   | +8%       |
| Segment operating margin                       | 43.0%   | 45.1%   | (210 bps) |
| Trailing twelve-month segment operating margin | 43.4%   | 45.4%   | (200 bps) |

(\$ in millions)

## 1Q 2022 Highlights:

- Revenue increased 14%, the 5<sup>th</sup> consecutive quarter of revenue growth acceleration, primarily driven by growth in conference revenue and Global Trading Services (GTS), as well as strength in Price Assessments and Energy & Resources Data & Insights (ERDI); excluding the impact of CERAWeek, revenue growth would have been ~8%
- Adjusted expenses increased 18%, primarily due to the return of in-person Commodity Insights conferences, and the impact of 2021 investment initiatives; excluding the impact of CERAWeek, expense growth would have been ~10%

# Commodity Insights pro forma revenue increased 14% over 1Q21; ~8% ex-CERAWeek

- Advisory and Transactional, which includes the Conferences business, increased 70%, driven by CERAWeek and World Petrochemical Conferences and continued strength in Global Trading Services (GTS)
- Upstream revenues declined marginally, though ACV for the quarter (excluding Russia impact) showed improvement led by our EDIN and Upstream Costs & Technology offerings
- Price Assessments increased 10%, driven by strong subscription growth for our price assessments and Forward Curves offerings
- Energy & Resources increased 9%, driven by strength in Gas, Power & Renewables and in Petrochemicals

# Mobility: Continued growth driven by increased product penetration despite challenging market conditions

| Adjusted pro forma 1Q results*                 | 1Q 2022 | 1Q 2021 | Change   |
|------------------------------------------------|---------|---------|----------|
| Revenue                                        | \$324   | \$295   | +10%     |
| Segment operating profit                       | \$122   | \$114   | +8%      |
| Segment operating margin                       | 37.8%   | 38.6%   | (80 bps) |
| Trailing twelve-month segment operating margin | 39.2%   | 35.1%   | +405 bps |

(\$ in millions)

## 1Q 2022 Highlights:

- Revenue growth of 10% driven by strength in Planning Solutions and Used Car offerings
- Adjusted expenses increased 11% due to continued impact from investments in headcount and advertising

# Mobility driven by double-digit growth in Dealer and Financial revenue as supply chain impacts continue to drive demand for automotive data

- Financials driven by strength in insurance underwriting and claims
- Manufacturing growth driven by continued strong demand for supply chain data and insights, offset by reduced OEM marketing expenditure
- Dealer revenue driven by continued growth in product penetration, successful 4Q21 promotions, and improved retention rates

\*Financial metrics are pro forma, assuming the merger with IHS Markit had occurred on 1/1/2021

# S&P Dow Jones Indices: Strong growth in revenue and adjusted segment operating profit

| Adjusted pro forma 1Q results*                 | 1Q 2022 | 1Q 2021 | Change   |
|------------------------------------------------|---------|---------|----------|
| Revenue                                        | \$339   | \$297   | +14%     |
| Segment operating profit                       | \$235   | \$202   | +16%     |
| Segment operating margin                       | 69.3%   | 68.0%   | +130 bps |
| Trailing twelve-month segment operating margin | 67.8%   | 67.7%   | +10 bps  |

(\$ in millions)

## 1Q 2022 Highlights:

- Revenue increased 14%, primarily due to gains in AUM linked to our indices and ETD volumes
- Adjusted expenses increased 9% primarily due to strategic investments, increased compensation, and IT costs

# S&P Dow Jones Indices: 14% revenue growth driven by higher ETF and Mutual Fund AUM, and strong volumes for ETD products

- Data & Custom Subscriptions growth driven by new business activities increasing end of day (EOD) ACV
- Exchange-Traded Derivatives revenue driven by higher volumes across key contracts
- Asset-Linked Fees revenue growth driven by SPDJI ETF and Mutual Funds, with average associated AUM up 24% year-over-year

# S&P Dow Jones Indices: Net inflows and price movements drove strong revenue growth

## Asset-Linked Fees:

- Quarter-ending ETF AUM associated with our indices was \$2,892 billion, up 22% compared to 1Q2021
- 1Q average ETF AUM associated with our indices increased 24% year-over-year
- Industry net inflows into exchange-traded funds were \$268 billion in 1Q, of which U.S. equity inflows were \$115 billion
- On a q/q basis, SPDJI acquired net inflows totaled \$68 billion, while price depreciation totaled \$123 billion

# Engineering Solutions: Growth in subscription and non-subscription revenue

| Adjusted pro forma 1Q results*                 | 1Q 2022 | 1Q 2021 | Change    |
|------------------------------------------------|---------|---------|-----------|
| Revenue                                        | \$98    | \$92    | +7%       |
| Segment operating profit                       | \$18    | \$15    | +17%      |
| Segment operating margin                       | 18.3%   | 16.7%   | +160 bps  |
| Trailing twelve-month segment operating margin | 19.6%   | 20.8%   | (115 bps) |

(\$ in millions)

## 1Q 2022 Highlights:

- Revenue increased 7%, driven by growth in core subscription offerings and non-subscription products
- Adjusted expenses increased 5% due to investments in growth initiatives and increased royalties

## Engineering Solutions: Positive revenue growth in both subscription and non-subscription products

### Revenue

- Non-subscription revenue increased 60% year-over-year primarily on continued revenue from the BPVC (released in Aug 2021)
- Subscription revenue increased 3%

## Updated 2022 GAAP guidance

|                                        | Previous GAAP           | New GAAP                |
|----------------------------------------|-------------------------|-------------------------|
| Revenue                                | Over 40% increase       | Over 40% increase       |
| Corporate Unallocated expense          | \$675 – \$685 million   | \$835 – \$845 million   |
| Operating profit margin                | 53.5% – 54.5%           | 50.0% – 51.0%           |
