LIMITATIONS ON THE USE OF INFORMATION

This presentation has been prepared by Tiptree Inc. and its consolidated subsidiaries (“Tiptree", "the Company" or "we”) solely for informational purposes, and not for the purpose of updating any information or forecast with respect to Tiptree, its subsidiaries or any of its affiliates or any other purpose. Tiptree reports a non-controlling interest in certain operating subsidiaries that are not wholly owned. Unless otherwise noted, all information is of Tiptree on a consolidated basis before non-controlling interest. Neither Tiptree nor any of its affiliates makes any representation or warranty, express or implied, as to the accuracy or completeness of the information contained herein and no such party shall have any liability for such information. These materials and any related oral statements are not all-inclusive and shall not be construed as legal, tax, investment or any other advice. You should consult your own counsel, accountant or business advisors. Performance information is historical and is not indicative of, nor does it guarantee future results. There can be no assurance that similar performance may be experienced in the future.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This document contains "forward-looking statements" which involve risks, uncertainties and contingencies, many of which are beyond Tiptree's control, which may cause actual results, performance, or achievements to differ materially from anticipated results, performance, or achievements. All statements contained herein that are not clearly historical in nature are forward-looking, and the words "anticipate," "believe," "estimate," "expect,“ “intend,” “may,” “might,” "plan," “project,” “should,” "target,“ “will,” "view," “confident,” or similar expressions are intended to identify forward-looking statements. Such forward-looking statements include, but are not limited to, statements about Tiptree's plans, objectives, expectations and intentions. The forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties and other factors, many of which are beyond our control, are difficult to predict and could cause actual results to differ materially from those expressed or forecast in the forward-looking statements. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including, but not limited to those described in the section entitled “Risk Factors” in Tiptree’s Annual Report on Form 10-K, and as described in the Tiptree’s other filings with the SEC. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as to the date of this release. The factors described therein are not necessarily all of the important factors that could cause actual results or developments to differ materially from those expressed in any of our forward-looking statements. Other unknown or unpredictable factors also could affect our forward-looking statements. Consequently, our actual performance could be materially different from the results described or anticipated by our forward-looking statements. Given these uncertainties, you should not place undue reliance on these forward-looking statements. Except as required by the federal securities laws, we undertake no obligation to update any forward-looking statements.

MARKET AND INDUSTRY DATA

Certain market data and industry data used in this presentation were obtained from reports of governmental agencies and industry publications and surveys. We believe the data from third-party sources to be reliable based upon our management’s knowledge of the industry, but have not independently verified such data and as such, make no guarantees as to its accuracy, completeness or timeliness.

NOT AN OFFER OR A SOLICIATION

This document does not constitute an offer or invitation for the sale or purchase of securities or to engage in any other transaction with Tiptree, its subsidiaries or its affiliates. The information in this document is not targeted at the residents of any particular country or jurisdiction and is not intended for distribution to, or use by, any person in any jurisdiction or country where such distribution or use would be contrary to local law or regulation.

NON-GAAP MEASURES

In this document, we sometimes use financial measures derived from consolidated financial data but not presented in our financial statements prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). Certain of these data are considered “non-GAAP financial measures” under the SEC rules. These non-GAAP financial measures supplement our GAAP disclosures and should not be considered an alternative to the GAAP measure. Management's reasons for using these non-GAAP financial measures and the reconciliations to their most directly comparable GAAP financial measures are posted in the Appendix.

Non-GAAP Reconciliations

Tiptree Inc.

Adjusted Net Income

We define adjusted net income as income before taxes, less provision (benefit) for income taxes, and excluding the after-tax impact of various expenses that we consider to be unique and non-recurring in nature, including merger and acquisition related expenses, stock-based compensation, net realized and unrealized gains (losses) and intangibles amortization associated with purchase accounting. We use adjusted net income as an internal operating performance measure in the management of business as part of our capital allocation process. We believe adjusted net income provides useful supplemental information to investors as it is frequently used by the financial community to analyze financial performance between periods and for comparison among companies. Adjusted net income should not be viewed as a substitute for income before taxes calculated in accordance with GAAP, and other companies may define adjusted net income differently.

We present adjustments for amortization associated with acquired intangible assets. The intangible assets were recorded as part of purchase accounting in connection with Tiptree's acquisition of FFC in 2014, Defend in 2019, and Smart AutoCare and Sky Auto in 2020. The intangible assets acquired contribute to overall revenue generation, and the respective purchase accounting adjustments will continue to occur in future periods until such intangible assets are fully amortized in accordance with the respective amortization periods required by GAAP.

We define adjusted return on average equity as adjusted net income expressed on an annualized basis as a percentage of average beginning and ending stockholder's equity during the period. We use adjusted return on average equity as an internal performance measure in the management of our operations because we believe it gives our management and other users of our financial information useful insight into our results of operations and our underlying business performance. Adjusted return on average equity should not be viewed as a substitute for return on average equity calculated in accordance with GAAP, and other companies may define adjusted return on average equity differently.

Book value per share

Management believes the use of book value per share provides supplemental information useful to investors as it is frequently used by the financial community to analyze company growth on a relative per share basis.

Insurance – Underwriting and Fee Revenues

We generally manage our exposure to the underwriting risk we assume using both reinsurance (e.g., quota share and excess of loss) and retrospective commission agreements with our partners (e.g., commissions paid are adjusted based on the actual underlying losses incurred), which mitigate our risk. Period-over-period comparisons of revenues and expenses are often impacted by the PORCs and distribution partners' choice as to whether to retain risk, specifically service and administration fees and ceding commissions, both components of revenue, and policy and contract benefits and commissions paid to our partners and reinsurers. Generally, when losses are incurred, the risk which is retained by our partners and reinsurers is reflected in a reduction in commissions paid. In order to better explain to investors the underwriting performance of the Company's programs and the respective retentions between the Company and its agents and reinsurance partners, we use the non-GAAP metrics underwriting and fee revenues and underwriting and fee margin.

We define underwriting and fee revenues as total revenues from our Insurance segment excluding net investment income, net realized and unrealized gains (losses). Underwriting and fee revenues represents revenues generated by our underwriting and fee-based operations and allows us to evaluate our underwriting performance without regard to investment income. We use this metric as we believe it gives our management and other users of our financial information useful insight into our underlying business performance. Underwriting and fee revenues should not be viewed as a substitute for total revenues calculated in accordance with GAAP, and other companies may define underwriting and fee revenues differently.

Insurance - Underwriting and Fee Margin

We define underwriting and fee margin as income before taxes from our Insurance segment, excluding net investment income, net realized and unrealized gains (losses), employee compensation and benefits, other expenses, interest expense and depreciation and amortization. Underwriting and fee margin represents the underwriting performance of our underwriting and fee-based programs. As such, underwriting and fee margin excludes general administrative expenses, interest expense, depreciation and amortization and other corporate expenses as those expenses support the vertically integrated business model and not any individual component of our business mix. We use this metric as we believe it gives our management and other users of our financial information useful insight into the specific performance of our underlying underwriting and fee program. Underwriting and fee income should not be viewed as a substitute for income before taxes calculated in accordance with GAAP, and other companies may define underwriting and fee margin differently.
