Accordingly, the Company cautions readers not to place undue reliance on any forward-looking statements, which speak only as of the dates on which they are made. The Company undertakes no obligation to update or revise any forward-looking statement to reflect events or circumstances arising after the date on which it is made, except as required by applicable law. Comparison of adjusted information to U.S. GAAP information

This presentation includes Company financials on an as-reported basis, and on a pro forma basis as if the merger had closed on January 1, 2021, for periods including fiscal year 2022, and all other year-to-date periods that include the three months ended March 31, 2022; the pro forma basis agrees to the Company's previously filed unaudited pro forma combined condensed financial information presented in accordance with Article 11 of Regulation S-X. The Company also refers to and presents certain additional non-GAAP financial measures, within the meaning of Regulation G under the Securities Exchange Act of 1934. These measures are: non-GAAP pro forma adjusted revenue; adjusted operating profit and margin and non-GAAP pro forma adjusted operating profit and margin; adjusted recurring revenue and non-GAAP pro forma adjusted recurring revenue; adjusted expenses and non-GAAP pro forma adjusted expenses; adjusted corporate unallocated expense and non-GAAP pro forma adjusted corporate unallocated expense; adjusted total expense and non-GAAP pro forma adjusted total expense; adjusted interest expense, net and non-GAAP pro forma adjusted interest expense, net; adjusted effective tax rate and non-GAAP pro forma adjusted effective tax rate; adjusted net income (less NCI) and non-GAAP pro forma adjusted net income (less NCI); adjusted capital expenditures; adjusted diluted EPS and non-GAAP pro forma adjusted diluted EPS; adjusted weighted average diluted shares outstanding and non-GAAP pro forma adjusted weighted average diluted shares outstanding; adjusted operating profit from OSTTRA JV and non-GAAP pro forma adjusted operating profit from OSTTRA JV; free cash flow, adjusted free cash flow excluding certain items and non-GAAP pro forma adjusted free cash flow excluding certain items; trailing twelve-month adjusted revenue and trailing twelve-month non-GAAP pro forma adjusted revenue; trailing twelve-month adjusted operating profit and margin and trailing twelve-month non-GAAP pro forma adjusted operating profit and margin; EBITDA and adjusted EBITDA; adjusted gross debt; adjusted corporate unallocated expense guidance; adjusted revenue growth guidance; adjusted free cash flow excluding certain items guidance; adjusted deal-related amortization guidance; adjusted operating profit margin guidance; adjusted diluted EPS guidance; adjusted interest expense, net guidance; adjusted tax rate guidance.

Reconciliations of certain forward looking non-GAAP financial measures to comparable GAAP measures are not available due to the challenges and impracticability with estimating some of the items. The Company is not able to provide reconciliations of such forward looking non-GAAP financial measures because certain items required for such reconciliations are outside of the Company's control and/or cannot be reasonably predicted. Because of those challenges, reconciliations of such forward looking non-GAAP financial measures are not available without unreasonable effort.

The Company's non-GAAP measures include adjustments that reflect how management views our businesses. The Company believes these non-GAAP financial measures provide useful supplemental information that, in the case of non-GAAP financial measures other than free cash flow, adjusted free cash flow excluding certain items and non-GAAP pro forma adjusted free cash flow excluding certain items enables investors to better compare the Company's performance across periods, and management also uses these measures internally to assess the operating performance of its business, to assess performance for employee compensation purposes and to decide how to allocate resources. The Company believes that the presentation of free cash flow, adjusted free cash flow excluding certain items and non-GAAP pro forma adjusted free cash flow excluding certain items, allows investors to evaluate the cash generated from our underlying operations in a manner similar to the method used by management and that such measures are useful in evaluating the cash available to us to prepay debt, make strategic acquisitions and investments, and repurchase stock. However, investors should not consider any of these non-GAAP measures in isolation from, or as a substitute for, the financial information that the Company reports.

The Company's earnings release dated April 27, 2023 contains financial measures calculated in accordance with GAAP that correspond to the non-GAAP measures included in this presentation and the earnings release and this presentation contain reconciliations of such GAAP and non-GAAP measures.
