2018 Annual Meeting of Stockholders

May 17, 2018

Cautionary Statements Regarding Forward-Looking Information

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve a number of risks and uncertainties. You can identify these statements by forward-looking words such as “may,” “might,” “should,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “potential” or “continue,” and the negative of these terms and other comparable terminology. All statements that reflect our expectations, assumptions or projections about the future other than statements of historical fact are forward-looking statements. These forward-looking statements, which are subject to known and unknown risks, uncertainties and assumptions about us, may include projections of our future financial performance based on our growth strategies and anticipated trends in our business. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from those expressed or implied by the forward-looking statements.

We operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible to predict all risks and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Some factors that could cause actual results to differ include: the loss of our right to exclusively list and trade certain index options and futures products; economic, political and market conditions; compliance with legal and regulatory obligations; price competition and consolidation in our industry; decreases in trading volumes, market data fees or a shift in the mix of products traded on our exchanges; legislative or regulatory changes; increasing competition by foreign and domestic entities; our dependence on and exposure to risk from third parties; our index providers’ ability to maintain the quality and integrity of their indexes and to perform under our agreements; our ability to operate our business without violating the intellectual property rights of others and the costs associated with protecting our intellectual property rights; our ability to attract and retain skilled management and other personnel, including those experienced with post-acquisition integration; our ability to accommodate trading volume and transaction traffic, including significant increases, without failure or degradation of performance of our systems; our ability to protect our systems and communication networks from security risks, including cyber-attacks and unauthorized disclosure of confidential information; challenges to our use of open source software code; our ability to meet our compliance obligations, including managing potential conflicts between our regulatory responsibilities and our for-profit status; damage to our reputation; the ability of our compliance and risk management methods to effectively monitor and manage our risks; our ability to manage our growth and strategic acquisitions or alliances effectively; unanticipated difficulties or expenditures relating to the acquisition of Bats Global Markets, Inc., including, without limitation, difficulties that result in the failure to realize expected synergies, accretion, efficiencies and cost savings from the acquisition within the expected time period (if at all), whether in connection with integration, migrating trading platforms, broadening distribution of product offerings or otherwise; restrictions imposed by our debt obligations; our ability to maintain an investment grade credit rating; potential difficulties in our migration of trading platforms and our ability to retain employees as a result of the acquisition; and the accuracy of our estimates and expectations. More detailed information about factors that may affect our actual results to differ may be found in our filings with the SEC, including in our Annual Report on Form 10-K for the year ended December 31, 2017 and other filings made from time to time with the SEC.

We do not undertake, and we expressly disclaim, any duty to update any forward-looking statement whether as a result of new information, future events or otherwise, except as required by law. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof.

Record Financial Results for Full-Year 2017 Followed by Record Quarterly Results in 1Q18

2017 was a transformational year for Cboe; February 28th marked the one year anniversary of our acquisition of Bats Global Markets

- ❖ 2017 was our eighth consecutive year of record revenues with solid financial results
- ❖ Reported record quarterly financial results for 1Q18
 - Double-digit, year-over-year gains across each of our business lines
 - New record trading highs in our proprietary products

Committed to Long-Term Value Creation for Shareholders

Focused on maintaining a strong balance sheet and longer-term financial flexibility

❖ Plan to deploy capital to:

- Invest in the growth of our business
- Return excess cash through dividends and opportunistic share repurchases
- Continue to delever

Change in Quarterly Dividend Rate Per Share

CBOE 7-Year Total Stockholder Return vs S&P 500 Index¹

¹Through December 31, 2017, including dividend reinvestment.

❖ **Our mission: “to power your potential to stay ahead of an evolving market,” is brought to life through three commitments:**

- Relentless product innovation
- Leading-edge technology
- Seamless solutions

Product Innovation: Launched XBT Futures on December 10, 2017

XBT futures, the first of their kind, provide a risk management tool for market participants seeking to hedge their underlying bitcoin holdings

❖ XBT futures create:

- An exchange-listed, regulated and surveilled bitcoin product available nearly 24 hours a day, five days per week
- Efficient price discovery and transparency
- Access to the bitcoin sector without a digital wallet requirement

❖ Averaging about 7,000 contracts per day in 2018

❖ Successful settlement auctions

Product Innovation: Plan to Launch Corporate Bond Index Futures

Entered into an exclusive collaboration with IHS Markit and BlackRock to develop the first-ever broad-based corporate bond index futures¹

- ❖ New collaboration combines Cboe's product development expertise with Markit's and BlackRock's leadership in the credit index space
- ❖ Plan to develop futures based on the performance of IHS Markit indices calculated from the holdings of both the iShares iBoxx \$ High Yield Corporate Bond ETF and the iShares iBoxx \$ Investment Grade Corporate Bond ETF
- ❖ Expect to begin launching derivatives this summer, subject to regulatory review, starting with futures based on the iShares High Yield Corporate Bond Index

¹Subject to regulatory review

Migrating Cboe exchanges onto Bats technology to create a common world-class trading platform across our options, futures and equities markets

¹The planned migration of Cboe Options Exchange is subject to regulatory review.

Diversifying our European business model post MiFID II

- ❖ Rapid adoption of our Periodic Auctions book
 - Record volumes since MiFID II in effect
 - Lit order book provides pre-trade transparency, true price formation process
 - Not subject to the double volume caps
- ❖ Cboe Large in Scale (LIS) block trading platform
 - Continued to attract new customers and increase volume

Increased Run-Rate Expense Synergy Target to \$85MM; Expect to Reach in 2020, A Year Ahead of Plan*

- ❖ Raised run-rate expense synergy target to \$85 million from \$65 million
- ❖ Expect to reach run-rate expense synergies in 2020, one year ahead of initial projections

*Cboe is neither confirming or updating guidance in this presentation.

Excited About Opportunities Ahead

Laying the groundwork for future growth

- ❖ Launching new products
- ❖ Expanding our global reach across asset classes
- ❖ Migrating exchanges to Bats technology
- ❖ Achieving our acquisition synergy targets
