Compensation Governance

REFLECTS FEEDBACK FROM SHAREHOLDER OUTREACH

KEY PRINCIPLES

IMPLICATIONS

Preserve **value for our shareholders**

- Management's actions preserved and enhanced Aptiv's financial strength during the COVID-19 pandemic and generated strong returns following the restart of our global operations – including 10% sales growth over market and achieving 49.6% TSR over 2018 through 2020.

Consider the welfare of our **employees first**

- Approved a program to provide cash recognition and restitution to ~15,000 employees (excl. NEOs/Officers)
- Implemented previously-approved salary increases for salaried employees, effective Sep 1, 2020
- Reinstated Aptiv's retirement plan contributions for US, Ireland, and Mexico employees, effective Jan 1, 2021

Compensate and reward performance and value creation

- Adjusted incentive awards to restore intended motivational and retentive value and preserve our pay-for-performance philosophy

Reduce pay opportunity in conjunction with adjusted goals

- Reduced upside potential in the 2020 short-term incentive award cycle and in the 2019 and 2020 long-term incentive award cycles

Cap long-term payouts at target if we do not outperform our peers

- Capped payouts at target if relative TSR is below median of TSR peer group¹ for the 2019 and 2020 long term incentive cycles.

1. TSR Peer group reflects the Russell 3000 Auto Parts Index.

Board Discretion Restores Motivational/Retentive Impact

WHILE PRESERVING VALUE FOR SHAREHOLDERS

1. Data sourced from S&P Capital IQ, updated from 12/31/2019 through 12/31/20 and 12/29/2017 through 12/31/2020.; Auto Peers include market cap weighted index of: CON, LEA, VNE, Valeo, VC, Denso, MGA
2. Data as reflected in the 2021 Proxy Statement. TSR based on average closing price in December. Peer group reflects the Russell 3000 Auto Parts Index.

Forward Looking Statements

This presentation, as well as other statements made by Aptiv PLC (the “Company”), contain forward-looking statements that reflect, when made, the Company’s current views with respect to current events, certain investments and acquisitions and financial performance. Such forward-looking statements are subject to many risks, uncertainties and factors relating to the Company’s operations and business environment, which may cause the actual results of the Company to be materially different from any future results. All statements that address future operating, financial or business performance or the Company’s strategies or expectations are forward-looking statements. Factors that could cause actual results to differ materially from these forward-looking statements include, but are not limited to, the following: global and regional economic conditions, including conditions affecting the credit market and resulting from the United Kingdom’s exit from the European Union, commonly referred to as “Brexit”; uncertainties posed by the novel coronavirus (COVID-19) pandemic and the difficulty in predicting its future course and its impact on the global economy and the Company’s future operations; fluctuations in interest rates and foreign currency exchange rates; the cyclical nature of global automotive sales and production; the potential disruptions in the supply of and changes in the competitive environment for raw material integral to the Company’s products; the Company’s ability to maintain contracts that are critical to its operations; potential changes to beneficial free trade laws and regulations such as the United States-Mexico-Canada Agreement; the ability of the Company to integrate and realize the expected benefits of recent transactions; the ability of the Company to attract, motivate and/or retain key executives; the ability of the Company to avoid or continue to operate during a strike, or partial work stoppage or slow down by any of its unionized employees or those of its principal customers; and the ability of the Company to attract and retain customers. Additional factors are discussed under the captions “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the Company’s filings with the Securities and Exchange Commission. New risks and uncertainties arise from time to time, and it is impossible for us to predict these events or how they may affect the Company. It should be remembered that the price of the ordinary shares and any income from them can go down as well as up. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events and/or otherwise, except as may be required by law.

(a) Represents the income tax impacts of the adjustments made for restructuring and other special items by calculating the income tax impact of these items using the appropriate tax rate for the jurisdiction where the charges were incurred.

(b) In June 2020, the Company issued \$1,150 million in aggregate liquidation preference of 5.50% Mandatory Convertible Preferred Shares (the "MCPS") and received proceeds of \$1,115 million, after deducting expenses and the underwriters' discount of \$35 million. Dividends on the MCPS are payable on a cumulative basis at an annual rate of 5.50% on the liquidation preference of \$100 per share. Unless earlier converted, each share of MCPS will automatically convert on June 15, 2023 into between 1.0754 and 1.3173 shares of Aptiv's ordinary shares, subject to further anti-dilution adjustments. For purposes of calculating Adjusted Net Income Per Share, the Company has excluded the anticipated MCPS cash dividends and assumed the "if-converted" method of share dilution (the incremental ordinary shares deemed outstanding applying the "if-converted" method of calculating share dilution are referred to as the "Weighted average MCPS Converted Shares" on the next slide). The Adjusted Weighted Average Number of Diluted Shares Outstanding assumes the conversion of all 11.5 million MCPS and issuance of the underlying ordinary shares applying the "if-converted" method (method already applied for U.S. GAAP purposes of calculating the weighted average number of diluted shares outstanding for the six months ended June 30, 2020 and for the year ended December 31, 2020) on a weighted average outstanding basis for all periods subsequent to issuance of the MCPS. We believe that using the "if-converted" method provides additional insight to investors on the potential impact of the MCPS once they are converted into ordinary shares no later than June 15, 2023.

(c) Due to the use of the weighted average shares outstanding for each half year period for computing earnings per share, the sum of the half year per share amounts may not equal the per share amount for the year.
