Baird 2015 Industrial Conference

Jeff Owens

Chief Technology Officer and Executive Vice President

DELPHI

Innovation for the Real World

Forward-looking statements

This presentation, as well as other statements made by Delphi Automotive PLC (the “Company”), contain forward-looking statements that reflect, when made, the Company’s current views with respect to current events, certain investments and acquisitions and financial performance. Such forward-looking statements are subject to many risks, uncertainties and factors relating to the Company’s operations and business environment, which may cause the actual results of the Company to be materially different from any future results. All statements that address future operating, financial or business performance or the Company’s strategies or expectations are forward-looking statements. Factors that could cause actual results to differ materially from these forward-looking statements are discussed under the captions “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the Company’s filings with the Securities and Exchange Commission. New risks and uncertainties arise from time to time, and it is impossible for us to predict these events or how they may affect the Company. It should be remembered that the price of the ordinary shares and any income from them can go down as well as up. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events and/or otherwise, except as may be required by law.

Delphi at a glance

2014 revenue	\$17.0B
2014 operating margin	~12%
2014 cash returned	~\$1.3B
Engineers and scientists	20,000
IPO through 2014 TSR	~250%

Portfolio focused on relevant megatrends

Safe

Connected

Green

Business model that delivers value

Why we're the leader in technology

Strategic partnerships

- Strategic partnerships with over 30 leading technology companies
- Relationships provide accessibility to various software and applications
- Delphi Technology Advisory Council to promote intuitive innovation

Global resource

- Mature global footprint with significant presence in best cost countries
- 5,000+ engineers dedicated to software, system and calibration development
- Engineering development centers strategically located: Silicon Valley

Innovative solutions

- Fast to market with advanced technology and flawless execution
- Regulatory compliant technologies meet customer requirements
- Software and vehicle integration expertise

Global capability drives competitive advantage

Evolving to be greener, safer and more connected

Intelligent software solutions drive product evolution

Technology connecting our future

Integrated Cockpit Controller

Creates an integrated in-vehicle experience that is safe, seamless and easy to use

Eye Gaze Control

Reduces driver distraction and fuses with voice control

Clear Voice

Next generation natural voice recognition technology; extremely accurate and frustration free

Hands Free Gesture

Alternative technology to touch screen systems

Smart Device Connectivity

Latest implementation of Apple CarPlay and Android Auto

Recreating the in-vehicle experience

DELPHI

Increasing electrical architecture content

Cable Management Systems

Cable/Wiring

2.5 miles

1.5 miles

**+67%
increase**

Connectors

350

280

**+25%
connectors**

**Enables
content growth**

Digital Data

Up to 1.5
gigabit/sec

65 megabit/sec

**+2,200%
increase**

Electrification

Up to 600 V

12 V

**+50x
voltage**

**Requires architecture
content**

Electrical architecture is the foundation for vehicle content growth

Technology safely driving our future

Strategically aligned to aide in automated driving

Stages of automated driving

Classification of automation

~\$700 million of automated driving revenue in 2017

Increasing content per vehicle

+\$2,000 - \$2,500 CPV when moving to a fully autonomous vehicle

Increasing emissions regulations

Miles per gallon

Grams of CO₂ per kilometer

Next-generation, high efficiency engine technologies in demand

Regulations drive fuel economy solutions

Regulatory trends driving growth

Maximizing Delphi content

Fleet CAFE must improve 75% in the next 10 years: 30.8* to 54.5 mpg
