Forward Looking Statements

This presentation, as well as other statements made by Aptiv PLC (the “Company”), contain forward-looking statements that reflect, when made, the Company’s current views with respect to current events, certain investments and acquisitions and financial performance. Such forward-looking statements are subject to many risks, uncertainties and factors relating to the Company’s operations and business environment, which may cause the actual results of the Company to be materially different from any future results. All statements that address future operating, financial or business performance or the Company’s strategies or expectations are forward-looking statements. Factors that could cause actual results to differ materially from these forward-looking statements include, but are not limited to, the following: global and regional economic conditions, including conditions affecting the credit market; uncertainties posed by the novel coronavirus (COVID-19) pandemic and the difficulty in predicting its future course and its impact on the global economy and the Company’s future operations; fluctuations in interest rates and foreign currency exchange rates; the cyclical nature of global automotive sales and production; the potential disruptions in the supply of and changes in the competitive environment for raw material integral to the Company’s products; the Company’s ability to maintain contracts that are critical to its operations; potential changes to beneficial free trade laws and regulations such as the United States-Mexico-Canada Agreement; the ability of the Company to integrate and realize the expected benefits of recent transactions; the ability of the Company to attract, motivate and/or retain key executives; the ability of the Company to avoid or continue to operate during a strike, or partial work stoppage or slow down by any of its unionized employees or those of its principal customers; and the ability of the Company to attract and retain customers. Additional factors are discussed under the captions “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the Company’s filings with the Securities and Exchange Commission. New risks and uncertainties arise from time to time, and it is impossible for us to predict these events or how they may affect the Company. It should be remembered that the price of the ordinary shares and any income from them can go down as well as up. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events and/or otherwise, except as may be required by law.

1. Prepared at the estimated mid-point of the Company's financial guidance range.

(a) Represents the income tax impacts of the adjustments made for restructuring and other special items by calculating the income tax impact of these items using the appropriate tax rate for the jurisdiction where charges were incurred.

(b) In June 2020, the Company issued \$1,150 million in aggregate liquidation preference of 5.50% MCPS and received proceeds of \$1,115 million, after deducting expenses and the underwriters' discount of \$35 million. Dividends on the MCPS are payable on a cumulative basis at an annual rate of 5.50% on the liquidation preference of \$100 per share. Unless earlier converted, each share of MCPS will automatically convert on June 15, 2023 into between 1.0754 and 1.3173 shares of Aptiv's ordinary shares, subject to further anti-dilution adjustments. For purposes of calculating Adjusted Net Income Per Share, the Company has excluded the anticipated MCPS cash dividends and assumed the "if-converted" method of share dilution. The Adjusted Weighted Average Number of Diluted Shares Outstanding assumes the conversion of all 11.5 million MCPS and issuance of the underlying ordinary shares applying the "if-converted" method on a weighted average outstanding basis for all periods subsequent to issuance of the MCPS. We believe that using the "if-converted" method provides additional insight to investors on the potential impact of the MCPS once they are converted into ordinary shares no later than June 15, 2023.
