

Morgan Stanley China Summit 2016

Majdi Abulaban

Senior Vice President and President, Delphi Electrical/Electronic Architecture and
President, Delphi Asia Pacific

DELPHI

Innovation for the Real World

Forward-looking statements

This presentation, as well as other statements made by Delphi Automotive PLC (the “Company”), contain forward-looking statements that reflect, when made, the Company’s current views with respect to current events, certain investments and acquisitions and financial performance. Such forward-looking statements are subject to many risks, uncertainties and factors relating to the Company’s operations and business environment, which may cause the actual results of the Company to be materially different from any future results. All statements that address future operating, financial or business performance or the Company’s strategies or expectations are forward-looking statements. Factors that could cause actual results to differ materially from these forward-looking statements are discussed under the captions “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the Company’s filings with the Securities and Exchange Commission. New risks and uncertainties arise from time to time, and it is impossible for us to predict these events or how they may affect the Company. It should be remembered that the price of the ordinary shares and any income from them can go down as well as up. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events and/or otherwise, except as may be required by law.

Delphi company overview

DELPHI

Innovation for the Real World

Delphi at a glance

2016 revenue ¹	\$16.8B
2016 operating margin ¹	~13.5%
2016 YTD cash returned	~\$450M
Engineers and scientists	20,000
IPO through Q1 '16 TSR ²	~270%

Portfolio focused on relevant megatrends

Safe

Green

Connected

Global growth business focused on innovation

¹ 2016 guidance data from DLPH 1Q 2016 earnings call

² Total shareholder return (TSR) is defined as capital gains plus dividends

Convergence: The catalyst for growth

Delphi integrated solutions uniquely positioned to address trends

Complexity and content drive growth

2015

2020+

World-class electrical architectures enable tomorrow's technology today

Delphi growth drivers: next 5 years

Segment	Incremental opportunity	Key growth drivers
 Electrical Architecture	~\$3B	• Optimized vehicle architectures enabling high-speed connectivity • Faster digital data demands advanced cabling solutions • Accelerating demand for electrification and diagnostics
 Powertrain	~\$2B	• Emissions regulations demand advanced products • US fuel economy – 54.5 mpg by 2025 • EU emissions – 95 CO₂ g/km by 2021
 Electronics & Safety	~\$2B	• Active safety is driving sensor fusion • Advanced infotainment = more content opportunities • Automated driving becomes more of a reality

Technology and innovation drive growth

Delphi China overview

DELPHI

Innovation for the Real World

Delphi has built significant presence in China

China presence			
	2010	2015	2018
Revenue	\$1.7B	\$2.9B	~\$4.4B
Localized product lines	73%	90%	100%
Tech centers	2	3	4
Engineers	1,050	2,900	3,500
Manufacturing facilities	17	22	25
Employees	12,000	28,800	~31,000

Leveraging strong presence for continued growth

China economy is shifting to 'New Normal'

Slower but more sustainable growth ahead

China still represents largest global growth opportunity

Driving significant industry growth

Favorable demand trends to drive content growth

Premium, SUV and NEV segments driving higher content vehicles

Broad exposure to global, local OEMs

Diversified business across top customers, platforms

Right portfolio, flexible operations further drives growth

Local competencies cover all Delphi portfolios

Flexible cost structure and local operations

- Most flexible cost structure
 - 80% variable cost in China
- Local design and development capabilities
 - 3 tech centers growing to 4 by 2018
- Local product portfolio
 - 90% localized portfolio growing to 100% by 2018
- Material sourcing and manufacturing operations
 - 95% manufacturing localization
 - 80% material localization

Leverage best-in-class local capabilities with global connectivity

Key takeaways

Leveraging strong presence in China for next wave of growth

“New normal” remains significant growth opportunity

Well positioned in higher growth segments

Flexible operating model to quickly adapt to market dynamics

Disciplined cost focus translates into more margin expansion

Right footprint and portfolio for continued profitable growth
