

Q2 FY2025

FINANCIAL RESULTS OVERVIEW

May 28, 2025

Thank You for Your Attention

Safe Harbor

This presentation contains forward-looking statements (including, without limitation, information, and future guidance on the company's revenue, revenue growth, earnings per share, operating cash flow, capital expenditures, net interest and other/expense, impact of acquisitions and related financing, share repurchases, dividends, diluted share counts, and currency exchange rates) that involve risks and uncertainties that could cause results of Agilent to differ materially from management's current expectations. The words "anticipate," "plan," "estimate," "expect," "intend," "will," "should," "forecast," "project" and similar expressions, as they relate to the company, are intended to identify forward-looking statements.

In addition, other risks that the company faces in running its operations include the ability to execute successfully through business cycles; the ability to

successfully adapt its cost structures to continuing changes in business conditions; ongoing competitive, pricing and gross margin pressures; the risk that our strategic and cost-cutting initiatives will impair our ability to develop products and remain competitive and to operate effectively; the impact of geopolitical uncertainties on our markets and our ability to conduct business; the impact of currency exchange rates on our financial results; the impact relating to or arising from changes to tariffs, import/export or trade policies; the ability to improve asset performance to adapt to changes in demand; the ability to successfully introduce new products at the right time, price and mix, and other risks detailed in the company's filings with the Securities and Exchange Commission, including our quarterly report on Form 10-Q for the quarter ended January 31, 2025.

The company assumes no obligation to update the information in these presentations. These presentations and the Q&A that follows include non-GAAP measures. Non-GAAP measures exclude charges primarily related to restructuring and other related costs, asset impairments, amortization of intangibles, transformational initiatives, acquisition and integration costs, and net (gain) loss on equity securities. We also exclude any tax benefits that are not directly related to ongoing operations and which are either isolated or are not expected to occur again with any regularity or predictability. With respect to the company's guidance, most of these excluded amounts pertain to events that have not yet occurred and are not currently possible to estimate with a reasonable degree of accuracy. Accordingly, no reconciliation to GAAP amounts has been provided.

Agilent Q225 Results

Q2 revenue growth exceeded the high end of our guidance range in spite of the highly dynamic market environment during the quarter. On the bottom line, EPS was also above the high end of guidance, with EPS growth exceeding revenue growth as our Ignite transformation helped drive productivity and efficiency.

Revenue

\$1.67B

+6.0% reported

+5.3% core⁽¹⁾⁽²⁾

-1.6% FX, +2.3% M&A

Operating Margin
