YTD 2015 ongoing earnings exclude a charge of \$0.16 per share related to the Monticello extended power uprate (EPU) project

Xcel Energy Strategic Plan

Objectives

Improve Utility Performance

Drive Operational Excellence

Provide Customer Options & Solutions

Invest for the Future

Measurable Results

- Close ROE gap 50 bps by 2018
- Derive 75% of revenue from MYPs

- Manage workforce transition
- Limit annual O&M growth to 0-2%

- Offer more energy options
- Exceed customer expectations

- Base capital plan drives annual rate base growth of 4.7%
- Potential incremental investment in natural gas and transmission

Legislative Initiative in Minnesota

- **Governor signed Energy & Jobs bill into law in June 2015**
- **Provides longer, more holistic multi-year rate plans**
- **Ability to implement multi-year plans for up to five years**
- **Allows for recovery of capital investments**
- **Recovery of O&M expenses based on a price index**
- **Distribution costs for grid modernization eligible for rider recovery**
- **Recovery of early plant closure costs, if Commission orders closure**
- **Interim rates for the first two years, while plan is under consideration**

Legislative Initiative in Texas

- Governor signed regulatory lag bill into law in June 2015
- Legislation will help to reduce regulatory lag
 - Ability to implement temporary rates or surcharge 155 days after rate case filing date
 - Allows the addition of post-test year capital additions up to 30 days before rate case filing date
 - New natural gas generation may be included in rate base as long as it is in service before the proposed effective rate date

Potential Natural Gas Investment

- **Colorado Commission information meetings**
 - **Examine the long term supply of natural gas and approaches to manage prices, including rate-basing of natural gas reserves**
 - **Anticipate the Commission will schedule informational meetings in the third quarter 2015**
- **Regulatory framework filing planned for fourth quarter 2015**
- **File for potential investment in second half of 2016**

Renewables & Operations Highlights

- **Community solar gardens decision in Minnesota**
- **Cherokee combined-cycle plant completed first fire**
- **Monticello nuclear plant reaches 100% of EPU (671 MW) and receives final NRC approval**

Quarterly Ongoing EPS Change

The \$0.02 adverse impact of weather is incorporated in electric margins

YTD Ongoing EPS Change

The \$0.07 adverse impact of weather is incorporated in electric and natural gas margins

ROE Results – Ongoing Earnings

Twelve Months Ended 06/30/2015

2014 Rate Base

- *Xcel Energy anticipates the full-year 2015 ROE's for NSP-M, Total Regulated and Xcel Energy will be higher than the Twelve Month Ended ROE's reported in the table above, due to the timing of regulatory reserves associated with the Minnesota rate case during 2014*
- *Ongoing earnings exclude a \$129 million pre-tax charge for the Monticello EPU project*
- *GAAP ROEs are 6.42% (NSP-M), 10.07% (NSP-W), 9.05% (Xcel Energy), and 8.10% (Regulated)*
